

## Fly Little Bird Fly The True Story Of Oliver Nordmark Americas Orphan Trains

You just can't keep a good girl down . . . unless you use the proper methods. Piper McCloud can fly. Just like that. Easy as pie. Sure, she hasn't mastered reverse propulsion and her turns are kind of sloppy, but she's real good at loop-the-loops. Problem is, the good folk of Lowland County are afraid of Piper. And her ma's at her wit's end. So it seems only fitting that she leave her parents' farm to attend a top-secret, maximum-security school for kids with exceptional abilities. School is great at first with a bunch of new friends whose skills range from super-strength to super-genius. (Plus all the homemade apple pie she can eat!) But Piper is special, even among the special. And there are consequences.

Consequences too dire to talk about. Too crazy to consider. And too dangerous to ignore. At turns exhilarating and terrifying, Victoria Forester's debut novel has been praised by Stephenie Meyer, author of the Twilight saga, as "the oddest/sweetest mix of Little House on the Prairie and X-Men...Prepare to have your heart warmed." The Girl Who Could Fly is an unforgettable story of defiance and courage about an irrepressible heroine who can, who will, who must . . . fly. This title has Common Core connections. Praise for Victoria Forester and The Girl Who Could Fly: "It's the oddest/sweetest mix of Little House on the Prairie and X-Men. I was smiling the whole time (except for the part where I cried). I gave it to my mom, and I'm reading it to my kids—it's absolutely multigenerational. Prepare to have your heart warmed." Stephenie Meyer, author of the Twilight saga "In this terrific debut novel, readers meet Piper McCloud, the late-in-life daughter of farmers...The story soars, just like Piper, with enough loop-de-loops to keep kids uncertain about what will come next....Best of all are the book's strong, lightly wrapped messages about friendship and authenticity and the difference between doing well and doing good."--Booklist, Starred Review "Forester's disparate settings (down-home farm and futuristic ice-bunker institute) are unified by the rock-solid point of view and unpretentious diction... any child who has felt different will take strength from Piper's fight to be herself against the tide of family, church, and society."--The Horn Book Review The Girl Who Could Fly is a 2009 Bank Street - Best Children's Book of the Year.

This is a beautifully illustrated book about a little bird who was afraid to fly. Through adversity, he finds his courage, and eventually learns to fly. He learns he can do anything if only he will try.

Fall is Coming

When Matthew Papuchis, a father of three on the cusp of his fortieth birthday, found himself unemployed for the first time in more than 25 years, he battled self-doubt as he looked for hope and happiness-and a new job-amid a global pandemic. During this trying time, while continuing to pursue new career paths, he discovered the hope and happiness he was seeking in an unsuspecting place-nature paths. And via an unsuspecting source-birds. Little ones and big ones and the preserves, parks, and wildlife refuges they called home, all within miles of Matt's house in Plantation, Florida. He discovered by exploring a relatively unknown world and taking the time to think and reflect, while in search of those hidden gems, he found peace, clarity, and himself. Matt also learned lessons that apply to everyday life. Each chapter focuses on one lesson, including those on perspective and positivity. Above all, he learned to never lose hope in the possibilities that are out there, for himself and all of us. The book will make you laugh, cry and leave you with nuggets of wisdom and inspiration as you learn what the little-and big-birdies told him. Advanced Praise for A Little Birdie Told Me... "This inspiring book has something for everyone. Matt has masterfully and seamlessly weaved his story into life lessons, some provided from the difficult part of his journey. A Little Birdie Told Me... will resonate with bird lovers, baseball fans, and all those in between." - Tim Kurkjian, New York Times Best-Selling Author and Major League Baseball Analyst for ESPN "A Little Birdie Told Me...is a book that offers inspiration and valuable learnings for all readers, including business leaders and those who want to become a more empathetic and understanding executive. The lessons Matthew shares during his journey of self-reflection are relatable and applicable to all of us and I recommend this book to fellow hoteliers, parents, and citizens of the world." -Hervé J.L. Humler, Chairman Emeritus, The Ritz-Carlton Hotel Company "A delightful read - Matt has such an easy way with words. He skillfully weaves important life lessons around his newfound passion for birds, discovered during the pandemic lockdown. We can all relate to the wise lessons in this book and laugh at some of the amusing experiences Matt shared. By the end of this book, you will feel like you and Matt are old friends." - Peter G. Kaestner, World's No. 1 eBirder with 9,294 Species Observed "A Little Birdie Told Me... is an absorbing set of life lessons forged from a journey through nature and self-reflection. Whether in crisis or calm,

this book demonstrates the power of being more fully attendant to naturally occurring beauty, tranquility, and majesty. If you're ready to venture down an insightful path to peace, purposefulness, and success, it's time to step into this book." -Joseph Michelli, PhD, New York Times No. 1 Best-Selling author of books like Stronger Through Adversity, The Airbnb Way, and Leading the Starbucks Way "A Little Birdie Told Me...is not about COVID, losing your job, or birding. COVID offers context, job loss represents the unexpected challenges life can throw at any of us, and birding illustrates how being receptive to the wonders of the world can enrich our lives and feed our souls. The narrative is honest, vulnerable, and inspiring. Papuchis is masterful at inviting readers to embrace the work on their terms. His approach is consistent with the sentiment expressed by Kahlil Gibran's famous quote: "If he is indeed wise, he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your mind." Enjoy this wonderful read and buy a copy for someone you love." -Leo Bottary, author of three books, including Peenovation: What Peer Advisory Groups Can Teach Us About Building High-Performing Teams

A bird arrives, alights on a tree, finds a mate, and builds a nest. Soon its eggs will hatch and one brave hatchling will embark on its first flight. A deceptively simple and joyful celebration of the natural cycle of life, this book adds the bonus of removable—and movable—characters and scenery to the bestselling TouchThinkLearn format, featuring the hallmark production technique of glued-on pieces dovetailing with die-cut openings. In this first narrative title in the series, the movable pieces invite and involve the reader in a meaningful and multisensory participation in the story. In a bird family's nest, three baby birds hatch from their eggs. Cautious Serene is the last one born. The noises of the dense forest are frightening to the timid little bird. When it's time to fly, unlike her siblings, she just can't find the courage to take wing. Finally, curiosity wins over fear, and Serene discovers that her wings can keep her aloft. Once she gets to know her surroundings, she finds joy in her skill. She also finds there's plenty of space for all kinds of birds in the forest, including timid Serene.

Watercolor illustrations and simple, rhyming text follow a baby bird as it tries, fails, and tries again to fly.

A Little Birdie Told Me...

***'Charming and impassioned ... a rich tribute to an extraordinary bird.'* Horatio Clare, author of A Single Swallow and Heavy Light A very personal mix of memoir and natural history from the author of Liquid Gold. Ten weeks into its life, a Manx shearwater chick will emerge from its burrow and fly 8,000 miles from the west coast of the British Isles to the South Atlantic. It will be unlikely to touch land again for four years. Part memoir, part homage to wilderness, Shearwater traces the author's 50-year obsession with one of nature's supreme travellers. In the finest tradition of nature writing, Roger Morgan-Grenville, author of Liquid Gold - described by Mary Colwell (Curlew Moon) as 'a book that ignites joy and warmth' - unpicks the science behind its incredible journey; and into the story of a year in the shearwater's life, he threads the inspirational influence of his Hebridean grandmother who instilled in him a love of wild places and wild animals. Full of lightly-worn knowledge, acute human observation and self-deprecating humour, Shearwater brings to life a truly mysterious and charismatic bird.**

***It's easy for Christians in our day to become fearful and confused. From doctrinal debates to culture wars, some Christians feel like they move from one crisis to another. Christ didn't die and rise for us to live afraid, however, and our crucified and risen Savior ascended to rule all things for our good. We are not a people without hope. We have Christ. Let the Bird Fly reminds readers that we are a free people, bought with the price of Christ's own blood. We are free to weigh the issues of the day, to engage our neighbor, to live out our callings, and know who we are no matter what: redeemed children of God. At the heart of the Christian life is a spoken word, God's absolution, the declaration that Christ's righteousness is our own through faith. From this our Christian life flows and in this we find our confidence to live, love, and labor for our neighbor. Law and gospel become lenses through which we see our world and others. Together with the two kinds of righteousness, civil and divine, Christians have a sort of diagnostic tool for navigating life in a world given back to us as a penultimate gift. We are graced to live beyond ourselves and the here and now. We are gifted to consider and look forward to more than those live without the optimism and freedom of sins forgiven. We are turned outside of ourselves and grounded, even as we are made new and set loose to dare to live as though there is more to life than this life. In short, precisely when fear seems most tempting, Christ calls us to let the bird fly.***

A series of simple questions triggers a playful, imaginative exchange between a child and his father. "Papa, why can't I fly?" a boy asks. His father's simple answer leads to another question, and then another, until the father playfully demonstrates to his son all the things the child can do. In the end the boy discovers that with a little imagination and some help from his dad he can fly—even without wings! Kevin Luthardt's highly expressive, comical, full-color illustrations and simply worded text capture the special bond between father and son. Readers will enjoy the playful fun and easy-going relationship depicted in this delightful story.

Have you ever asked yourself the question, "Is there something more?" What is it that gives our lives meaning? How do we transition from ordinary success to purpose-driven fulfillment? How do we flip the switch to allow us to move from security to courageousness? How do we go from having aspirations to realizing our destiny? In these times of social unrest and economic upheaval, the answers to these questions are more important than ever. Little Bird Learns to Fly will take you on a journey of discovery and encourage you to realize your own something more.

*Bird That Wants to Fly is the story of a sad bird who has decided to walk instead of fly. About to step into a puddle as she can not change direction, bird is amazed to see the words "beautiful animal that I am" in the water. When she looks up she sees a blue eyed horse with blue mascara and a pink mane looking down at her. The horse asks, "Why are you walking not flying? Doesn't it take longer that way?" Beautifully illustrated, this archetypal story of transformation offers healing for children and adults.*

*New York Times Bestseller Finalist for the Los Angeles Times Book Prize A Library Journal Best Science and Technology Book of the Year An exhilarating exploration of the science and wonder of global bird migration. In the past two decades, our understanding of the navigational and physiological feats that enable birds to cross immense oceans, fly above the highest mountains, or remain in unbroken flight for months at a stretch has exploded. What we've learned of these key migrations—how billions of birds circumnavigate the globe, flying tens of thousands of miles between hemispheres on an annual basis—is nothing short of extraordinary. Bird migration entails almost unfathomable endurance, like a sparrow-sized sandpiper that will fly nonstop from Canada to Venezuela—the equivalent of running 126 consecutive marathons without food, water, or rest—avoiding dehydration by "drinking" moisture from its own muscles and organs, while orienting itself using the earth's magnetic field through a form of quantum entanglement that made Einstein queasy. Crossing the Pacific Ocean in nine days of nonstop flight, as some birds do, leaves little time for sleep, but migrants can put half their brains to sleep for a few seconds at a time, alternating sides—and their reaction time actually improves. These and other revelations convey both the wonder of bird migration and its global sweep, from the mudflats of the Yellow Sea in China to the remote mountains of northeastern India to the dusty hills of southern Cyprus. This breathtaking work of nature writing from Pulitzer Prize finalist Scott Weidensaul also introduces readers to those scientists, researchers, and bird lovers trying to preserve global migratory patterns in the face of climate change and other environmental challenges. Drawing on his own extensive fieldwork, in *A World on the Wing* Weidensaul unveils with dazzling prose the miracle of nature taking place over our heads.*

**Fly Home, Little Bird is Beverly's memoir, which focuses on the unexpected consequences of her parents becoming evangelical missionaries. The story arc includes living in a residential school spanning ten years where she was abused by the school nurse and other dorm parents. As an adult she also became a missionary. In her mid-thirties she had the agency to leave the church and create a life outside evangelical communities. Beverly became an activist for reform and change in the policies and practices of reporting abuse of children in mission agencies in both the U.S. and Canada. This included holding a "prayer vigil" at the C&MA's annual conference to put public pressure on them to investigate allegations of abuse (it worked). She has co-founded on-line Facebook groups which have many members from a plethora of mission boarding schools and agencies. And she is one of eight former MK's featured in a documentary, All God's Children. The documentary has been widely viewed in communities of former MK's and their families as well as in churches. Perhaps the most important thread in Fly Home Little Bird is how, with therapeutic help, she changed the web of intergenerational trauma within her immediate family.**
