Boston Globe
Francis Bacon

created an indelible image of mankind in modern times, and played an outsized role in both twentieth century art and life—from his public emergence with his legendary Triptych 1944 (its images "so unrelievedly awful" that people fled the

gallery), to his death
in Madrid in 1992.

Bacon was a witty
free spirit and
unabashed
homosexual at a
time when many
others remained
closeted, and his
exploits were as
unforgettable as his
images. He moved
among the worlds of

London's Soho and East End, the literary salons of London and Paris, and the homosexual life of Tangier.

Through hundreds of interviews, and extensive new research, the authors probe Bacon's childhood in Ireland (he earned

disdain because his
asthma prevented
him from hunting);
his increasingly
open
homosexuality; his

career—never

of his vision; his
