An effective way to reverse a trade's fortune Almost all trading books focus on "winning" trades. But winning trades can be hard to come by, especially when you're just starting out. Turning Losing FOREX Trades into Winners takes a look at this discipline from a different angle, examining effective methods for dealing with trades that are in a losing position. First, it guides the trader through the various steps of determining if a trade is with or against the overall trend. Then, it explains how to decide when a trade should be closed or left open. While this reliable resource is filled with in-depth insights and expert advice that will help readers gain a better understanding of today's FOREX market, it also contains hundreds of chart examples that will provide step-by-step instructions on how traders can recover from losses.

If you are like me, I think you should be 'slapped'... HARD! Recently a very gifted and talented trader"reached out to me, took me by the collar, looked me straight

in the eye, and then slapped me hard!" Like a painful 5 finger slap. Not really, but it sure felt like that. Actually you can still see the five fingers pattern on my face almost... What I'm trying to say is that even Trader X can learn a couple of new tricks. Tricky tricky. So actually I got five new tricks for you one for every finger that was slapped on my face. Well, you may as well call it the new face of TRADING. Here we go. Are you ready? **WORING!** The content shared here may cause you to become extremely filthy rich and glamorously famous. If these two conditions are severely dangerous for you **DO** not proceed beyond this point. Further after reading and applying these concept a strange items may appear in your driveway (think Ferraris and Lambos) If you are highly allergic to any of these items or money and fame make you puke I would highly suggest going to "you know where" before we can continue. 1. Forex has little to do with how the market is behaving and more importantly with where is the market right now? Now, I am not speaking about a physical location here. Pay Attention. The market is always at a precise address. Know the markets correct address and you will get loads of mail loaded with cold wet hard cash. Word of caution "don't wet your pants when you get it." I mean the cash. Think (round numbers). Round numbers are always a good address to be at and you receive a cashollahh-la-la loaded mail. 2. Find out where the losers are and don't try to be a pathetic one! Why am I saying that? You are correct. Yes you are. "Why the heck I need to know where the losers are." Well for one so you don't become one. If you have been living under a rock or been in a comma for the last 10 years and just woke up...Let me break it up for you. L-O-S-E-R-S make 95% of all Forex participants. That's right they are here to participate by losing their behinds. But you can skip getting your but whipped out by knowing where these poor souls are and most importantly where they are heading. Pause and think about this. Take a deep breath. It will down on you. Losers are always exiting and running so think (market bottoms and tops) 3. No amount of indicators will make you successful. Yes you heard me right. I have not misspelled indicators. You could call them a money- broker gators. The smart brokers are really advertising and pushing their favorite stochastics or whatever to the traders. See if you follow their advice you might as well give them your wallets. The broker is pushing these sinisterly so they know how the majority of their customers are thinking and can react appropriately. Meaning, putting their dirty fingers in your account. Literally, like finger sucking after getting chicken grease all over your hands. But for some of you this may be too gross, so you should keep reading, but get a paper towel to wipe the grease. 4. Nothing is what is seems like it is. It may appear that you are up for grubbing millions at some point of your trade, but be **WORNED**. The market is bought only to be sold. This is especially true in Forex. So take your **PROFITS** while you can see them and more to the next trade. Unless you fully understand how the market moves **YOU** should not take another trade and lose your precious hard earned money. Well you actually have a choice continue in your old tracks until you lose everything you work so hard for. Or click few

buttons like "click-click" push a couple mouse clicks and arrive at your new Forex REALITY. The one sprinkled with expensive cars, houses, pearl white beaches and turquoise blue Caribbean waters. See you in Your New REALITY. Trader X

Nowadays, you see so many advertisements for forex and equity trading platforms as never before. A new global multi-billion dollar market is rising up. And it is aimed at you.

It looks easy to invest and make a profit. Likewise, living the life of freelancer who does not need to work, because your money works instead of you. You just sit in front of a notebook, a tablet or even a mobile device, then click and earn. Never was it so easy to buy and sell different currencies, stocks or commodities. You do not even need a lot of money or money at all. Leverage is king these days. And leverage is also the start of your fall. But do not fool yourself. I have encountered a lot of young people who believe they can earn just by investing or trading. They do not see forex markets or stock exchanges as places where only hard work is rewarded. That is not surprising. You watch the movie "The Wolf of Wall Street" and see how fantastic, funny and easy that life is. Before that movie, there was the TV series "Capital City", full of smart guys and women with now obsolete computers and phones, who were able to fend off stress and earn a lot of money. My dream was to be like them. And that is the dream for many others.

Once you become a trader in a bank, you easily move to another dream. Not to be an employee, but to be an employer. To have your own trading outlet. To earn for yourself and not for a bank. And that is the crossroads that everyone has to encounter in order to choose which way to go. One is more exciting, one is safer. But that is not so important. All stories here are based on hard facts, on things I have seen with my own eyes.

What I Lost and Gained Trading the Forex Market

You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section, or on any other book store. I have paid thousands of dollars on exclusive groups and, on paid private forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite FOREX traders. No one gives their living away, unless you pay them a price worth their living. However I have decided to make this information available for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader like yourself. Let me ask you a question? When was the last time you made money with FOREX? Even further more, how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k, how much longer I could continue like that, how much longer, I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the brokers radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in despair, that was the only hope and light, I have seen for a long time. I was applying the advice from the trader and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching me every little bit of what he knew about trading. He didn't not agree to spend time teaching me, on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him

many years ago. What is comprised in the pages of this book, will be worth pure gold to you. This book is down to the ground no non sense, real trading knowledge. It gives a step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success, if you know what you are doing. Yes you can make a living with FOREX. You can achieve your dreams. Buy this book and find out How

How to Achieve Over 100 Trades in a Row Without a Loss

Forex trading is not all it is cracked up to be. The picture painted by the gurus and the brokers has only one side, a pink one, and is missing the real feeling and pain that a average retail trader goes through until a success is reached. I can feel the pain in the Forex Community and the purpose of this book is to even out the planes. Here is what you can expect to learn and master after practicing the concepts in this book.* Learn to move with the winners and tailgate on their profits(this strategy alone is worth the 10 bucks)* How to avoid and react to The little dirty tricks of your broker* The little known strategies of the successful Forex traders* What are the best times to trade * The best ways to trade any strategy(this little detail can make or break your trading record)* Most important and little known price levels, that deliver profits at any currency pair.* How to profit from Weird Crowd Psychology(when used as suggested in the book this one is a massive cash pooler)* The one, little known way to enter the Forex market and have the price guaranteed to move your direction.* The well guarded price action strategies of the Forex Banks and Foreign institutions.* How not to use price action and when to be cautious about pulling the trigger, if a price approaches a certain deadly level.* Which are the favorite price patterns of the experienced traders* How to avoid having spread slips of as much of a 100 pips, and have your profit and account swallowed by your broker(most of the retail traders have no clue, what I am speaking about)* What are the most important factors, observed religiously by all the shakers and movers, and how not to break the rules of alliance that can cost you your account.* What are the sneaky falls break outs, practiced by the most of the platforms and how to fight the FOREX BOTS.* Strange practices of your broker, that causes your stops to be hit before your entries(this is a must know before you open a account with any platform)The above strategies and lessons are not lessons from a book or science projects. These are the hard earned lessons from the Forex School of hard knocks. During the years I have met, and traded with and chat in expensive paid forums, with multitude of successful traders. This book is what I find to be the essential and most important material you

Forex Trading Made Simple

The Four Hour Forex Week - Bust the Losing Cycle, Live Anywhere, Join the New Rich *Who else would like to experience the Ultimate shortcut to fast, unbelievable profits with Forex? Unstoppable, easy to use, cashoola rich secret tactics, to blow your broker out of the water and make you drenched with Forex profits. BUT... you know the feeling of compete desperation and misery that comes on you when you lose the next account BECAUSE... Whatever that BECAUSE, has to do with, it shows your naked spots. You are not understanding exactly what is going on, and losing your pants and underwear to your happy, so ever helpful broker. Before you go ahead and lose account number who knows what (you probably stopped counting by now, but wait till the wife/girlfriend finds out) STOP... Seriously, this book will show you the way to the pot of gold and more, but you have to read it first. Your broker will not spend the energy to tell you the real truth why you are losing the ... account, so I have to do it... Honesty, I am taking the risk to be crucified here, instead of your broker, but hay, I will take the risk, so possibly your account will live and not die. Or in case your wife finds out about your losing*

accounts, this information will spare your life. And you know what; all this is not your fault... You have been lied to, given all kind of fake promises, taken for granted and left to die in your Forex career...HAHA you wish I will go down this road, lick your wounds and blame it all on the world economy, "the green house effect," the moon approaching the earth faster than a bullet or whatever, but I won't. The reality is that you will probably not listen to me, but may be, you are one of those really smart change embracing people, that will stop the bleeding in its tracks right now and will take a hold of the hard coarse chunks of truth and challenging realities I am throwing in your lap. See, it was not too long ago, not that long, so I can forget it (although it seems like eternity ago, really I am not looking forward to remembering that part of my trading life), I was in your shoes, opening \$50 accounts eating all the high pitched presentations and webinars, dreaming of living on my own island and drinking all day from something that required a small umbrella on top...turquoise blue beaches and trading from the stern of my private yacht. Gladly, I woke up from that dream and realized that, the \$50 accounts will not cut it(it will actually cut you up to pieces) I've heard of a guy that regularity brings in 25-30 k a month doing only a couple of large trades a week...(that's right this is not a typo) Now this guy, was not your regular high pitched guru, in a matter of fact he was known to have only few friends and lived a low-key quiet life. Luckily, he lived in my city. I was having a casual talk with a friend over a beer and he mentioned, he was playing golf with this guy, that quote, "was smashing it pulling thousands of dollars from the Forex marker..." Now you know, that as soon as I heard that my ears perked, my hart started pumping so fast I could hear it drumming in my chest. Palms sweating with my tongue clinched to the roof of my mouth, I grabbed my friend and made him repeat that sentence again. My friend gave me the look that you normally would give a crazy maniac coming around the corner trying to choke you. After several attempts I convinced my friend to arrange for me to meet that guy. For familiar reasons we will call him Mr X. Now, this Mr X was not interested in anyway whatsoever in being my mentor or teaching me any of his trading methods or systems. In fact he considered trading to be rather a boring task, see, Mr. X has been doing it soooo long, it has become like automatic reaction for him. After much casual conversations, I finally was able to talk Mr X in giving me a couple of Forex lessons, if I could call a half hour over at the restaurant a lesson. The most amazing thing was, that everything he taught me was so different and strange compared to all the common gurus and brokers..
