Do you want to learn the best strategies to create a constant stream of income? If yes, then keep reading! When it comes to being a successful trader, there are several skills that one should have. The person should be able to understand deeply the fundamentals of a company, as well as the ability to predict what direction the trend will go to. These technical skills may be impressive, but if the mindset of the trader isn't at top-notch, then there is a big problem. If a trader can't control his emotions or trading psychology, then there is a big issue. Such a person is prone to making decisions based on feelings instead of facts. As a trader, you are expected to think fast and rationally, moving from one stock to the other quickly. To be able to do this, the trader needs to have some peace of mind, as well as discipline. The trader should be about to stick to his or her trading plans. The thing a lot of traders tend to fear is the thought of their stocks facing doom. It is not wrong to be scared, but you should put a lid on your fears to ensure that you don't overreact to the extent that you liquidate your holdings without looking at the facts. The fear of losing has made a lot of people refrain from being involved in any risk. This book includes: - What Is Day Trading? - Difference Between Option, Day, Swing, Forex and Stock Trading - Tips and Tricks - How to Use Different Tools - Manage Risk - How to Save Money and Time - What the Trend Is and How It Can Be Exploited - The Time Horizon for Your Goals - Thinking with a Positive Attitude - Psychology and Mindset - How your Quantum Brain can work for you? - The Fear of Losing Money - Hard Work, Focus and Determination to Achieve your Goals - The Trader's Winner Psychology - Investing Dynamics - How to Manage Stress in Investing And much more! I get it...you hate your job and your hate your boss. Yah I feel for you. I can almost sense how much you dislike that guy "you know that guy in your office that everybody hates." He is rude and obnoxious crazy annoying and brain-dead. Of course he makes sure to put extra effort to bother you on purpose. How about your boss? In a drone/machine like tone he is ordering you to do this and that. Endless reports, meetings and more meetings and reports. It doesn't seem like it's going anywhere. You can't see promotion or anything of the likes in the horizon. It's just more work and more of the same. Everyone in the office is shaking when the boss comes by. They just gave the pink slip to some guys and gals and you could be next. Well if you are rocking and shaking in you chair in your small comfy "cubichell" please do me a favor and STOP!Instead imagine this: It's a beautiful day the sun is up and always up 365 days a year. You just got really wet an unexpected wave bounced in the stern of your 50 foot sail boat and surprised you pleasantly. Well, it's not a big deal. You are lightly dressed short and... and that's it. You are thinking "I'll get a soaking wet wave any time of the day, just keep me in the Caribbean." In fact you are in the Caribbean. Not too far from Richard Branson's island. Your boat is softly gliding in the water. The wind just picked up and you had to do some work. Adjust the sail and reset the autopilot. Well you have to "suffer" a bit you are not exempt from work in the Caribbean. Except is something you love to do, sailing is you hobby and work and fun mix together in an inseparable tread that weaves the fabric of your life. Another boat slides by in the distance. The happy captain is waving friendly. The wind is pressing firmly on the sail and you are getting good speed of 8 knots. The water is crystal clear. You can see the marine life all the way to the bottom of the riff. All kinds of fish are swimming in pools around. You hear a loud noise of something ruddling in the baw. You quickly jump and go to see what the commotion is about. A school of dolphins about 9 of them jumping around the baw and racing with the boat. Well, life can't really get better. You enter the channel and before you know the dock master and his helpers throw a couple half hitched ties and whatever else their magic includes and now you are securely tied up and ready to go. Your fist thought is to check you trades. You placed a good trade early in the morning before leaving the island and are expecting big gains for the day. Contrary to what the public believes you know that the secrets to good trading on the island is to have a good WiFi. You get in the bar and are served something that comes with small umbrella on top. You know a "painkiller" or the likeness of it. You open your account and I can help, but see a big smile on your face. You are up \$970 for the day. The Bernanke and all to "big heads" on TV did their job well. The crowd was scared the price was pushed your way and you are happy. "A thousand a day keeps the boss away." Well it's time to do it all over again. Place the next winning trade, close the computer and have another one of these little umbrella drinks. I have a confession to make my friend; the second scenario I gave you is my life now. What you are about to find in this book are the highly guarded secrets of the top traders in the world. You can be anything that you want to be in this world. You

can even create your own reality. But that involves something called work. That's why I have decided to create your reality for you and bring it in a silver platter in front of you. I have done all the hard work and created a winning system and strategies for you to use and prosper. Do you want to see your new reality? Would you like to even step in to it? You would if you knew what's on the other side. But it takes a step of faith. Push few buttons punch a couple mouse keys and buy this book. See you on the other side.

Are you like me who wants to make their finances boom and be financially free? Are you inclined to dive in into investing but is not sure whether you should or not? Do you want to learn more about it? Then hop on and learn about the Stock Market and Forex Trading because this will completely change your perspective. Join me and I will teach you the ins and outs of Stock Market and Forex Market Trading! Let us know peer into what the stock market is. At its basest form, owning a stock is not much more than owning a piece of company where the stock originated from. You become a holder of equity when you buy into a stock. This generically means that you will do well if the prospects of the company do well. Similarly, if the company takes a downturn, then your stock value will then probably depreciate. Forex is one of the biggest trading markets. One reason is that every country has a currency. The other reason is that most people understand foreign exchange and how it works. Furthermore, everyone participates in forex in some way, whether this is at an individual or business level. The market is open 24 hours a day from Monday morning to Friday evening. This book includes: Information on stock market and forex market trading and all its secrets Insights on what stocks, bonds, and dividends are Insights on the basics and what do we trade in the forex market The psychology and mindset when it comes to stock market and forex market trading The risks involved in forex trading Long-term investing Reversal trading Information on bull and bear markets Understand mutual funds Forex trading vs. Stocks How to be successful in the trade market The common mistakes to avoid in stock market trading The benefits involved in forex trading Insights on the influencers of the forex market And so much more! Many folks find this easy to grasp, while others still think that the stock market is just a screen or a website which shows ticking jumping numbers. Behind those ticking jumping numbers are actual companies present in everyday life. This gives us an insight into one of the ways of investing in the stock market. You will realize or discover many things if you just stop and ponder a little deeper for a bit. Everyone loves to have the example of Apple stock, but maybe a lesser-known name like Keurig Dr. Pepper may draw a bit of your attention. This stock is what most investment folks' term as a consumer staple stock. When you break down that \$50-dollar word, consumer means folks like you and I, while staple means you really can't do without it for any extended period of time. Things like foodstuff, drinks, as well cleaning items will come into mind when we talk about this. Key to this is also the fact that staples tend to get purchased consistently. If you love doughnuts, and Krispy Kreme is one of your top choices, you just might have known about Keurig if you thought about it and dug a little deeper. What I am getting at is this. There are many stocks out there, as there are many investment opportunities. Not all of these money-making stocks are known only to the top analysts and hot shot investors. Many have household brands in their stables and we just have to dig a little deeper into the things we use, the things we like, and we just might be able to find a potential winner. Anyways I can go on and on talking about Stock Market and Forex Trading. Learn with us so that we can help you with your plans for the future. So, why don't we get started? Press the buy now button and find out!

None of the claims mentioned in the questions above are incorrect, but they may not stand true in most of the cases and you can fall in a bottomless pit. This is correct that you can get rich trading forex, but you can get rich trading bananas for that matter. There is no get rich quick remedy in this world. The best way to get rich is the good old way of working your way up step-by-step. It is absolutely correct that there are some countries in which brokers can give up to 500 times leverage to traders. However, it is not correct for the US as here the capping is of 50 times. Even a 50 times leverage is a trap you wouldn't like to fall in. This book will prove to be a great help in avoiding this trap. Brokerages and commissions are not charged as a separate fee in forex. I hope you sitting down, cause I am laughing on the floor at the notion of hearing, one more little talk about "the Forex Indicators, and how you can be the next Forex Millionaire using such and such crossing lines" See, the reason there are winners and losers in life and Forex as well, is some can see deception coming from a 100 miles away and some refuse to look at the truth. See, I was taken for a sucker, and was brought on a roller-coaster of books, training, Forex education like there is no tomorrow... But it took me nearly 3 years, to wake up from the magic little cozy balloon of guru's webinars and the next Big Talking head. During this time of course, I was spending thousands of dollars on books and Forex Robots and all kind of crap...you know what I am talking about. My family and friends, thought I have lost my mind, spending all this time in front of the screen (you may recognize yourself here) and looking at "stupid charts" I kind of had become the laughing stock of the company " Look, the Forex Head is Alive" Eventually it got so bad, that I lost all interest in trading and was ready to quit... One afternoon, I overheard a conversation while at the golf course...yeah I am a snooper. There were two guys, sipping on something that came with a "small umbrella on top" and one of them was saying something so impressive, that made my ears become as big as an elevator shaft. The guys were speaking of a stock trader, turn to be a Forex trader, that was raking in the vicinity of 20 to 30k a month, from his house computer, doing it with couple trades a month. Listen to this, the guy was not a screen struck maniac like myself, he was not some kind of national television speaker, it turned out he was a member of the same golf club, I was a member too. Now, you can imagine my excitement and hopes came up, I was determined to meet this guy and squeeze every once of knowledge out of him... However, there was a big problem, that trader, I will call him trader X, for familiar reasons, did not go to the bars, was not in the social networks, and was not holding any training and educational courses on "how to be the next forex millionaire." He was quietly running the Forex Cash machine of his, had a large family and was spending time in his huge house. Now, I came in with a plan, where I would meet Trader X at one of the Club Events...you know those fund raiser things, Trader X was known for one thing, dumping a large sums of money on different causes that he cared about. I was able to talk Trader X in to giving me a half hour short consult. At the end I offered trader X to pay him for his services, and that's where my frustration became full, Trader X was not for sale. It didn't matter what I offered...whatever that was, it was all I had, he would not chime in to my idea of training me. Finally after much bugging him, he gave in and we started a regular weekly meetings, but he refused to get any money. He was saying..."Boy you are my fun today, all that trading is too boring and makes me sad." I was like, "K, if it is that boring, make me sad too" you know, let the stashes of cash come down. Eventually I moved to a different city and never heard of Trader X again. What I am about to reveal in this book is the real dirty truth about Forex and how you too can be the next Trader X. Forex trading is not all it is cracked up to be, the real winners are not your daily gurus, I will teach you everything that Trader X Taught me and more. You have a choice, keep going in circles, looking for the Holy Grail of Froex, or move your fingers, make a few mouse clicks and meet me on the other side. Take a click of faith! See you on the other side!
