How to distinguish Mr. Right from Mr. Right Now—tips from the marriage-minded priest featured on the Today show and in the New York Times. Father Pat Connor knows marriages. Having presided over more than two hundred weddings and conducted pre-marriage and marriage counseling for more than forty years, he ' s something of an expert. And now he is sharing his wealth of experience with women everywhere on the subject of Whom Not to Marry. Father Pat ' s philosophy is simple: A love affair may lead to marriage but love itself cannot make a marriage work. In the early stages of romance, when infatuation trumps judgment, it can be difficult to see the flaws in your

mate and to think rationally about your future. That ' s where this book comes in. A heavenly how-not-to, *Whom Not to Marry* offers timely and time-honored advice such as: Never marry a man who has no friends, for he won ' t be capable of the intimacy that marriage demands. Never marry a man who isn ' t responsible with cash. Most marriages that flounder do so because of money. Never marry a man who lets you walk all over him. It ' s good to have a doormat in the house, but not if it ' s your husband. Life may seem random, but there are many things you can do to make sure your life partner is the right one. It all starts with being honest with yourself. Use your good judgment, Father Pat counsels. Know what you want. Know who is worth loving and who is worth marrying. Once you can do that, you ' ll stand a much better chance of living happily ever after.

In this student-friendly text, Jones and Singh explore the phenomenon of language change, with a particular focus on the social contexts of its occurrence and possible motivations, including speakers' intentions and attitudes. Presenting new or little-known data, the authors draw a distinction between "unconscious" and "deliberate" change. The discussion on "unconscious" change considers phenomena such as the emergence and obsolescence of individual languages, whilst the sections on "deliberate" change focus on issues of language planning, including the strategies of language revival and revitalization movements. There is also a detailed exploration of what is arguably the most extreme instance of "deliberate" change; language invention for real-world use. Examining an extensive range

of language situations, Exploring Language Change makes a clear, but often ignored distinction between concepts such as language policy and planning, and language revival and revitalization. Also featured are a number of case studies which demonstrate that real-life language use is often much more complex than theoretical abstractions might suggest. This is a key text for students on a variety of courses, including sociolinguistics, historical linguistics and language policy and planning.

*Raumanen, a prize-winning novel by Marianne Katoppo, tells the story of Monang, a handsome but wayward Batak man, and Raumanen, a young Minahasa woman who, though educated and intelligent, is also a 'soft touch' when it comes to love. As is deftly revealed by the author in this novel, even in modern day Indonesia, matters of religion and ethnicity can greatly affect--for better or worse--the course of a couple's relationship.*

A consideration of the changing face of crime, this history reveals a modern upswing in child abuse, multiple murders, and kidnapping cases and highlights the extended nature of the current legal process as compared to the open-and-shut character of the early 1900s.*

A revolution is under way. Within a generation, more households will be supported by women than by men. Journalist Liza Mundy takes us to the frontier of this new economic order: she shows us why this flip is inevitable, what painful adjustments will have to be made along the way, and how both men and women will feel surprisingly liberated in the end. Couples today are debating who must assume the responsibility of primary earner and who gets the freedom of being the slow track partner. With more men choosing to stay home, Mundy shows how that lifestyle has achieved a higher status, and the ways

males have found to recover their masculinity. And the revolution is global: Mundy takes us from Japan to Denmark to show how both sexes are adapting as the marriage market has turned into a giant free-for-all, with men and women at different stages of this transformation finding partners who match their expectations.--From publisher description.

Messages, Signs, and Meanings can be used directly in introductory courses in semiotics, communications, media, or culture studies. Additionally, it can be used as a complementary or supplementary text in courses dealing with cognate areas of investigation (psychology, mythology, education, literary studies, anthropology, linguistics). The text builds upon what readers already know intuitively about signs, and then leads them to think critically about the world in which they live - a world saturated with images of all kinds that a basic knowledge of semiotics can help filter and deconstruct. The text also provides opportunities for readers to do "hands-on" semiotics through the exercises and questions for discussion that accompany each chapter. Biographical sketches of the major figures in the field are also included, as is a convenient glossary of technical terms. The overall plan of the book is to illustrate how message-making and meaning-making can be studied from the specific vantage point of the discipline of semiotics. This third edition also includes updated discussions of information technology throughout, focusing especially on how meanings are now negotiated through such channels as websites, chat rooms, and instant messages.
