Lauded poet Christopher Merrill hatched a brilliant plan: invite six other poets to

Online Library Four Days Seven Series Book 4

join him in four days of writing in Iowa City. The poets would write for 30 minutes, creating a poem of 15 lines, and then read it aloud to the group. As poets heard the poems, they noted memorable words, images, and lines, which they would borrow to insert in subsequent poems of their own. These rounds continued, until, in a process of call and response and unprecedented collaboration, 80 poems had been composed. Those 80 poems are collected in this book, penned by authors who represent some of the best and brightest the world of poetry has to offer. Transcending differences of generation, gender, language,

and vision, these poets have invented an entirely new facet of the poet's creative process.

Offers techniques and strategies for increasing income while cutting work time in half, and includes advice for leading a more fulfilling life.

BOOKS:Closer: A Novella

Social capital is a principal concept across the social sciences and has readily entered into mainstream discourse. In short, it is popular.

However, this popularity has taken its toll. Social capital suffers from a lack of consensus because of the varied ways it is measured, defined, and deployed by different researchers. It has been put to work in ways that stretch and confuse its conceptual value, blurring the lines between networks, trust, civic engagement, and any type

of collaborative action. This clear and concise volume presents the diverse theoretical approaches of scholars from Marx, Coleman, and Bourdieu to Putnam, Fukuyama, and Lin, carefully analyzing their commonalities and differences. Joonmo Son categorizes this wealth of work according to whether its focus is on the necessary preconditions for social capital, its structural basis, or its production. He distinguishes between individual and collective social capital (from shared resources of a personal network to pooled assets of a whole

Online Library Four Days Seven Series Book 4

society), and interrogates the practical impact social capital has had in various policy areas (from health to economic development). Social Capital will be of immense value to readers across the social sciences and practitioners in relevant fields seeking to understand this mercurial concept.

Twist (Mageri Series: Book 2)

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent

of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial

symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. *Arc of Justice* is the winner of the 2004 National Book Award for Nonfiction.
