

Free Confessions Of A Dying Mind

From Pulitzer Prize-winner Garry Wills, the story of Augustine's Confessions In this brief and incisive book, Pulitzer Prize-winning historian Garry Wills tells the story of the Confessions--what motivated Augustine to dictate it, how it asks to be read, and the many ways it has been misread in the one-and-a-half millennia since it was composed. Following Wills's biography of Augustine and his translation of the Confessions, this is an unparalleled introduction to one of the most important books in the Christian and Western traditions. Understandably fascinated by the story of Augustine's life, modern readers have largely succumbed to the temptation to read the Confessions as autobiography. But, Wills argues, this is a mistake. The book is not autobiography but rather a long prayer, suffused with the language of Scripture and addressed to God, not man. Augustine tells the story of his life not for its own significance but in order to discern how, as a drama of sin and salvation leading to God, it fits into the larger story of the world. "We have to read Augustine as we do Dante," Wills writes, "alert to rich layer upon layer of Scriptural and theological symbolism." Wills also addresses the long afterlife of the book, from controversy over its time and relative neglect during the Middle Ages to a renewed prominence beginning in the fourteenth century and persisting to today, when the Confessions has become an object of interest not only to Christians but also historians, philosophers, psychiatrists, and literary critics. With unmatched clarity and skill, Wills strips away the centuries of misunderstanding that have accumulated around this spiritual classic.

And she's sharing her secrets for scholarship success with students (and their parents) so that they too can obtain money for college.

An Adventure Story

In the personal and frank Confessions of a Free Speech Lawyer, Rodney A. Smolla offers an insider's view on the violent confrontations in Charlottesville during the "summer of hate." Blending memoir, courtroom drama, and a consideration of the unhealed wound of racism in our society, he shines a light on the conflict between the value of free speech and the protection of civil rights. Smolla has spent his career in the thick of these tempestuous and fraught issues, from acting as lead counsel in a famous Supreme Court decision challenging Virginia's law against burning crosses, to serving as co-counsel in a libel suit brought by a fraternity against Rolling Stone magazine for publishing an article alleging that one of the fraternity's initiation rituals included gang rape. Smolla has also been active as a university leader, serving as dean of three law schools and president of one and railing against hate speech and sexual assault on US campuses. Well before the tiki torches cast their ominous shadows across the nation, the city of Charlottesville sought to relocate the Unite the Right rally; Smolla was approached to represent the alt-right groups. Though he declined, he came to wonder what his history of advocacy had wrought. Feeling unsettlingly complicit, he joined the Charlottesville Task Force, and he realized that the events that transpired there had meaning and resonance far beyond a singular time and place. Why, he wonders, has one of our foundational rights created a land in which such tragic clashes happen all too frequently?

" Have mercy on me, Lord, I am Cuban. " In 1962, Carlos Eire was one of 14,000 children airlifted out of Havana—exiled from his family, his country, and his own childhood by Fidel Castro ' s revolution. Winner of the National Book Award, this stunning memoir is a vibrant and evocative look at Latin America from a child ' s unforgettable experience. Waiting for Snow in Havana is both an exorcism and an ode to a paradise lost. For the Cuba of Carlos ' s youth—with its lizards and turquoise seas and sun-drenched siestas—becomes an island of condemnation once a cigar-smoking guerrilla named Fidel Castro ousts President Batista on January 1, 1959. Suddenly the music in the streets sounds like gunfire. Christmas is made illegal, political dissent leads to imprisonment, and too many of Carlos ' s friends are leaving Cuba for a place as far away and unthinkable as the United States. Carlos will end up there, too, and fulfill his mother ' s dreams by becoming a modern American man—even if his soul remains in the country he left behind. Narrated with the urgency of a confession, Waiting for Snow in Havana is a eulogy for a native land and a loving testament to the collective spirit of Cubans everywhere.

Part tell-all, part cautionary tale, this emotionally charged memoir from a former video vixen nicknamed 'Superhead' goes beyond the glamour of celebrity to reveal the inner workings of the hip-hop dancer industry—from the physical and emotional abuse that's rampant in the industry, and which marked her own life—to the excessive use of drugs, sex and bling. Once the sought-after video girl, this sexy siren has helped multi-platinum artists, such as Jay-Z, R. Kelly and LL Cool J, sell millions of albums with her sensual dancing. In a word, Karrine was H-O-T. So hot that she made as much as \$2500 a day in videos and was selected by well-known film director F. Gary Gray to co-star in his film, A Man Apart, starring Vin Diesel. But the film and music video sets, swanky Hollywood and New York restaurants and trysts with the celebrities featured in the pages of People and In Touch magazines only touches the surface of Karrine Steffans' life. Her journey is filled with physical abuse, rape, drug and alcohol abuse, homelessness and single motherhood—all by the age of 26. By sharing her story, Steffans hopes to shed light on an otherwise romanticised industry and help young women avoid the same pitfalls she encountered. If they're already in danger, she hopes to inspire them to find a way to dig themselves out of what she knows first-hand to be a cycle of hopelessness and despair.

Whether she's taking a face plant in a second-grade war, lying her way into pet ownership, setting the fondue kit on fire or taking the Fifth after an epic food fight, Confessions of a Helmet-Free Childhood chronicles Cinnia Curran Finfer finding her way through childhood by trial and error--heavy on the error. She wasn't trying to be funny; it just keeps turning out that way. Born the second of four girls in New York City, Cinnia's childhood played out in five different grade schools and three different high schools in New York, Michigan, Minnesota, Ohio and Illinois. Being small for her age, far from athletic, and a perpetual new kid with an unusual name made for quite a ride. Like any kid, she made bad calls, big mistakes, and sometimes simply found herself in the wrong place at the wrong time. Hey, a lot happens between "Go out and play" and "Be home before dark."

In *Confessions of a Free Spirit: A Girl's Guide to Finding Herself in an Image-Obsessed Culture*, Kristin Garrett tells sincerely of her experience as a self-declared free spirit trying to find her place as a Christian and as her own person in a society that makes girls feel like they must fit a certain type to be worth knowing and loving. Garrett discusses pertinent issues to middle- and high-school girls, speaking honestly about self-confidence, the media, guys, and community. Perhaps most importantly, she moves away from legalism and formulaic answers in favor of the importance of the presence and movement of the Holy Spirit through surrender. Through her unique writing style, she addresses her reader personally, like an older sister or good friend, scattering journal entries throughout and connecting closely with the reader. Teenage girls will connect emotionally and practically with the experiences and insights in *Confessions of a Free Spirit*, and in doing so, they will come to see themselves and their relationships with Christ as beautiful, active, and healing.

Not illustrated. 1850 Excerpt: ...belligerent parties fight it out, unaided and unopposed; another was directly to make war upon the Carlists; the third was to do the same thing indirectly. This last named course it was they determined to pursue. Recruiting for armies to serve under foreign governments was forbidden by the terms of the Foreign Enlistment Act; by suspending its operation for two years they in effect said to the tottering Spanish government--Assist you openly and directly we dare not, such policy might cost us our places; but covertly and indirectly we will help you to an Auxiliary Legion of genuine "Britishers," who will fight for her majesty the Queen or his majesty the Devil, if well paid for fighting. Terms were agreed on, abundance of money promised, some fools with a considerable number of rogues enlisted, and the famous British Legion formed--to the exceeding great joy of Lord Palmerston, and disgust of absolutists all the world over. On the poor Legion these people exhausted the vocabulary of vituperation. They were not only disgusted with its formation, but the "material" of which it was composed. On hearing their piteous lamentations, one might have imagined that "playing at soldiers" was a game only "respectable" people should be engaged in. That the British Legion was not the most respectable body of heroes is quite true. A noble peer described them as the sweepings of our large towns, against which sweeping description I have not one word to say. To my knowledge the Legion was, in great part, composed of bankrupt tradesmen, ruined reprobates, broken-down dandies, discharged lunatics, refractory paupers, and sturdy beggars, who, full of patriotism, "left their country for their country's good." Are you an Overthinker? Are you sick of living your life in your head and desperate to break free from your internal jail cell? *Confessions of a Professional Overthinker* is the book of a Nurse and Behavioural scientist. An educated professional woman with a health science background who had somehow fallen down the wrong rabbit hole of life and discovered her soul's purpose was not to make everyone else happy. But herself! a strange concept in this world it would seem. Dive into the world of one woman who nursed people at different points in their lives, often at their most vulnerable. This book was written as a form of healing after experiencing burnout from working in the healthcare industry for nearly a decade. The book is about how she healed her mind, changed her internal narratives and chose her own health and wellness, finding what filled up her own cup. Kristy decided to take a deep dive into her own internal world to figure out what it was that had been causing the symptoms of burnout and how she could heal from it. It is her hope that this book will help others to bravely step into their lives and break free from societal norms of what others expect of us and to be brave enough to forge your own path - even if it means doing it kicking and screaming. At the end of the darkness is light; beautiful shiny light. Hope, healing and health.

The invisible force that rules the lives of humans sent a message to the author in 1952 when he was 16 years of age. It was a teaching of Master Kung, the ancient sage of the Middle Kingdom, printed on a full page by itself in the American magazine *Life*: "When opportunity comes do not use" The author did not understand the meaning at first. However, he applied Master Kung's instruction subconsciously throughout his life. It ensured his liberty. Another message was passed to the author by his grandmother: If fate is against you, why do you run? If fate is with you, why do you run? George Orwell: "In times of universal deceit, telling the truth is a revolutionary act". This book is about freedom of speech versus political correctness.

Amanda is a raging perfectionist. She begins each day with a long list. "Keep the house picked up; limit myself to two Diet Cokes; spend special time with each of the kids; eat less sugar; read a chapter in a book about something very important; read my Bible; call my mom." She determines each day's worth, and ultimately her own, by keeping track of things gained or lost, stuff accomplished. That is, until God spoke into her life, waking her up to the true costs of her addiction to perfection. Confessions of a Raging Perfectist is Amanda's confession; it's a journey of letting go of the subtle but destructive idols of her overactive inner voice and replacing them with God's truth. Amanda hopes her story will encourage others to let God dig in to their own lives, uncovering the subtle lies we unconsciously live by.

The "magnificent" Pulitzer Prize-winning and #1 New York Times-bestselling novel about the preacher who led America's bloodiest slave revolt (The New York Times). The Turner is William Styron's complex and richly drawn imagining of Nat Turner, the leader of the 1831 slave rebellion in Virginia that led to the deaths of almost sixty men. Published at the height of the civil rights movement, the novel draws upon the historical Nat Turner's confession to his attorney, made as he awaited execution in a Virginia prison. The narrative, steeped in the brutal and tragic history of American slavery, reveals a Turner who is neither a hero nor a demon, but rather a man driven to exact vengeance for the injustice inflicted upon his people. Nat Turner is a galvanizing portrayal of the crushing institution of slavery, and Styron's deeply layered characterization is a stunning portrait of a man in a violent struggle against oppression. This ebook features a new illustrated biography of William Styron, including original letters, rare photos, and never-before-seen documents from his family and the Duke University Archives.
