In the 1920s, the young J. R. Ackerley spent several months in India as the personal secretary to the maharajah of a small Indian principality. In his journals, Ackerley recorded the Maharajah 's fantastically eccentric habits and riddling conversations, and the odd shambling day-to-day life of his court. Hindoo Holiday is an intimate and very funny account of an exceedingly strange place, and one of the masterpieces of twentieth-century travel literature.

From New York Times bestselling authors Kabir Sehgal and Surishtha Sehgal comes a charming and unique alphabet book celebrating the rich culture, delicious foods, and fascinating animals of India. From C for chai to Y for yoga, this fresh alphabet book takes young readers on a spirited journey to discover the people, places, lifestyles, and language of India. Chronic Hindu-Muslim rioting in India has created a situation in which communal violence is both so normal and so varied in its manifestations that it would seem to defy effective analysis. Paul R. Brass, one of the world 's preeminent experts on South Asia, has tracked more than half a century 's riots in the north Indian city of Aligarh. This book is the culmination of a lifetime 's thinking about the dynamics of institutionalized intergroup violence in northern India, covering the last three decades of British rule as well as the entire post-Independence history of Aligarh. Brass exposes the mechanisms by which endemic communal violence is deliberately provoked and sustained. He convincingly implicates the police, criminal elements, members of Aligarh 's business community, and many of its leading political actors in the continuous effort to produce communal violence. Much like a theatrical production, specific roles are played, with phases for rehearsal, staging, and interpretation. In this way, riots become key historical markers in the struggle for political, economic, and social dominance of one community over another. In the course of demonstrating how riots have been produced in Aligarh, Brass offers a compelling argument for abandoning or refining a number of widely held views about the supposed causes of communal violence, not just in India but throughout the rest of the world. An important addition to the literature on Indian and South Asian politics, this book is also an invaluable contribution to our understanding of the interplay of nationalism, ethnicity, religion, and collective violence, wherever it occurs.

*In the history of cooking, there has been no more challenging environment than those craft in which humans took to the skies. The tale begins with meals aboard balloons and zeppelins, where cooking was accomplished below explosive bags of hydrogen, ending with space station dinners that were cooked thousands of miles below. This book is the first to chart that history worldwide, exploring the intricacies of inflight dining from 1783 to the present day, aboard balloons, zeppelins, land-based aircraft and flying boats, jets, and spacecraft. It charts the ways in which commercial travelers were lured to try flying with the promise of familiar foods, explains the problems of each aerial environment and how chefs, engineers, and flight crew adapted to them, and tells the stories of pioneers in the field. Hygiene and sanitation were often difficult, and cultural norms and religious practices had to be taken into account. The history is surprising and sometimes humorous at times some ridiculous ideas were tried, and airlines offered some strange meals to try to attract passengers. It's an engrossing story with quite a few twists and turns, and this first book on the subject tells it with a light touch.*

*Religion is the opium of the people, said Karl Marx many centuries ago. For more than a billion people living in India and abroad, Hinduism is the religion and a way of life. In this multi-award winning book, Swami Achuthananda cracks open the opium poppy pods, analyzes the causes for euphoria, and comes away with a deeper understanding of the people and their religion. \*\*\* Winner 2014 Next Generation Indie Book Awards (Religious Non-fiction) \*\*\* This is a comprehensive book on Hinduism. It tells you why Hindus do the things they do - and don't. Written in a casual style, the book guides you through the fundamentals of the religion. It then goes further and debunks a number of long-standing myths, some of them coming from the academia (of all places). While most books shy away from contentious issues, this book plunges headlong by taking on controversies, like the Aryan Invasion Theory, idol worship, RISA scholarship and many more. In fact one-third of the book is just on controversies that you rarely find in any other literature. This book, " A COLLECTION OF EXCERPTS FROM THE SCRIPTURES OF MAJOR WORLD RELIGIONS, " consists of three major Parts. PART I (adopted from an earlier book by the author) pertains to major religions that originated in INDIA at different epochs of history; namely, HINDUISM, BUDDHISM, JAINISM, and SIKHISM. PART I I contains excerpts from the main scriptures of the three religions that originated in European and the Middle Eastern regions with their original roots in Prophet Abraham, namely, JUDAISM, CHRISTIANITY, And ISLAM. Thus, PART I contains excerpts from the Vedas and the Upanishads (Hinduism); the Dhammapad (Buddhism); the Agam (Jainism); and the Guru Granth Saheb (Sikhism.) A number of essays on the historical backgrounds, the leading figures and events, and their interrelations are also included for a deeper appreciation of the pertinent philosophies. PART II, similarly, contains excerpts from The Old Testament (Judaism) and The New Testament (Christianity) of the Bible, and the Koran (Islam), with a brief Introduction in each case. The main purpose of presenting this book is to illustrate the commonality of the Indian religions due to their common root - Hinduism -- that came into being in India some 10-15 millennia ago, and was modified from time to time. These religions have coexisted peacefully and harmoniously for centuries and millennia, and have contributed much in the global spiritual development. In particular, Buddhism has been adopted in a significant portion of Asia (China, Japan, South-East Asia), and has been also attracting the intellectuals in the West in recent years. Interrelations among the other three religions are also evident due to their common root, though significant historical schisms and ideological differences among them are also well-known. As the world enters the Twentieth Century, it is imperative for world-peace that people across the globe try to understand one another better, in terms of the spiritual and religious beliefs, philosophies, mentalities, and traditional tendencies that shape their individual lives as well as their mutual interaction patterns. It is hoped that this book makes a small contribution in that direction.

Open-access edition: DOI 10.6069/9780295748856 Beginning in the late nineteenth century, India played a pivotal role in global conversations about population and reproduction. In Reproductive Politics and the Making of Modern India, Mytheli Sreenivas demonstrates how colonial administrators, postcolonial development experts, nationalists, eugenicists, feminists, and family planners all aimed to reform reproduction to transform both individual bodies and the body politic. Across the political spectrum, people insisted that regulating reproduction was necessary and that limiting the population was essential to economic development. This book investigates the often devastating implications of this logic, which demonized some women 's reproduction as the cause of national and planetary catastrophe. To tell this story, Sreenivas explores debates about marriage, family, and contraception. She also demonstrates how concerns about reproduction surfaced within a range of political questions—about poverty and crises of subsistence, migration and claims of national sovereignty, normative heterosexuality and drives for economic development. Locating India at the center of transnational historical change, this book suggests that Indian developments produced the very grounds over which reproduction was called into question in the modern world. The open-access edition of Reproductive Politics and the Making of Modern India is freely available thanks to the TOME initiative and the generous support of The Ohio State University Libraries.

In a world where almost all societies are multi-religious and multi-ethnic, we need to study how social cohesion can be achieved in different contexts. In some geographical areas, as in the Middle East and the Indian subcontinent, people of different religious belonging have, through the ages, lived side by side, sometimes in harmony and sometimes in dissonance. In other geographical regions, as in Scandinavia, societies have been quite religiously homogeneous but only recently challenged by immigration. In both locations the relations between religious minority and majority are very much on the agenda. In order to discuss the situation for non-Muslims in Muslim majority societies, a consultation was convened with both Muslim and Christian participants from Pakistan, Palestine, Lebanon, and Sweden. Some of the participants work in academic settings, others in faith-based organisations, some in jurisprudence and others with theological issues. Non-Muslims in Muslim Majority Societies is the result of thatconsultation. The intention of the book is to trigger reflection and further thinking, through papers that discuss issues such as freedom of religion, minority rights, secular and religious legislation, and inter-religious dialogue in Muslim majority societies. Although the articles are presented as 'works in progress' and remain tentative in many of their conclusions, this book is an important contribution to the global debate over religious tolerance and religious pluralism.

The volume explores the social, cultural, and historical forms of "language" that have come to be associated with "Asia" as a global phenomenon and their implications for better understanding the contemporary linguistic and political landscape in Asias. The book examines the flows of migration, people, cultures, and language resources within, across, through, to, and from Asias in tandem with social, political, and ideological factors, drawing on case studies of global iterations of a wide range of Asian national and cultural imaginaries. In so doing, the volume builds on the growing body of scholarship on the sociolinguistics of globalization in its critical inquiries into the linguistic and cultural practices that have come to be constitutive of national or supranational localities toward unpacking the forces of globalization more broadly. This book will be of particular interest to students and scholars interested in sociolinguistics, multilingualism, linguistic anthropology, Asian Studies, and Asian American studies.

Sociological research on Indian families has largely focused on questions of household form and structure, to the exclusion of not only the more nebulous dimensions of family life and relationships but also the discursive and imagined aspects of our familial worlds such as may be accessed through an analysis of film, literature and the electronic media. Moreover, when sociological inquiry has sought to go beyond the demographic and census aspects of the household, it has trained its eye on the heterosexual family centred on the conjugal couple, frequently at the expense of those relational patterns and diversities that fall outside the familiar circuits of desire within the family. The present volume brings together ten essays from a range of disciplines including law, literature, anthropology, sociology, and queer studies, to engage with hitherto neglected and emergent aspects of Indian family life. This book was published as a special issue of South Asia: Journal of South Asian Studies.

Many of you may think that it is all matter of past. It happened then but it would not happen now. Have you also heard that history repeats itself? Do you believe in it? Have you studied history honestly enough? Have you had honest guides as your teachers and professors who systematically demonstrated to you whether history repeats itself or not?

The Rise Of Divine Feminine is a dedication to all warriors of the light who sacrificed their lives for bringing forward the truth about what is so wrong in the world today. The problems we face today collectively in the world are not the big things: they are very small issues buried deep in the psyche of the human mind. Our failure to understand this has led to the root of all our problems in the outer world. This book attempts to bring to light these small issues of our mind and help us understand how the mind can be either our most dangerous enemy or our most dedicated friend.
