practice exam questions, revision checklists and advice on how to prepare for an examination. How do we know right from wrong, good from bad, help from hindrance, and how can we judge the behaviour of others? Ethics are the rules and guidelines that we use to make such judgements. Often there are no clear answers, which make this subject both interesting and potentially frustrating. In this book, the authors offer readers the opportunity to develop and express their own opinions in relation to ethics in psychology. There are many psychological

studies that appear to have been harmful or cruel to the people or animals that took part in them. For example, memory researchers carried out studies on a man who had no memory for over forty years, but because he had no memory he was never able to agree to the studies. Is this a reasonable thing to do to someone?

Comparative psychologist Harry Harlow found that he could create severe and lasting distress in monkeys by keeping them in social isolation. Is this a reasonable thing to do even if we find out useful things about human distress? If you

the party he was throwing to celebrate his acquittal. The police recover six guests with guns in their possession: a corrupt bureaucrat who claims to have become Mahatma Gandhi overnight; an American tourist infatuated with an Indian actress; a stone-age tribesman on a quest to recover a sacred stone; a Bollywood sex-symbol with a guilty secret; a mobile-phone thief who dreams big; and an ambitious politician prepared to stoop low. Swarup unravels the lives and motives of the six suspects, offering both a riveting page-turner and an insightful peek into the heart of contemporary India.

Audaciously and astutely plotted, with a panoramic imaginative sweep, *Six Suspects* is the work of a master storyteller.
