His expertise is so great that his fortunate patients never feel any pain. Since he's a mouse, Doctor De Soto refuses to treat "dangerous" animals--that is, animals who have a taste for mice. But one day a fox shows up and begs for relief from the tooth that's killing him. How can the kindhearted De Sotos turn him away? But how can they make sure that the fox doesn't give in to his baser instincts once his tooth is fixed? Those clever De Sotos will find a way. William Steig's Doctor De Soto is a 1982 New York Times Book Review Notable Children's Book of the Year and Outstanding Book of the Year, a 1983 Boston Globe - Horn Book Awards Honor Book for Picture Books, and a 1983 Newbery Honor Book.

Led Zeppelin IV, often called heavy metal's greatest album, kicks off an exciting new series that takes a fresh, in-depth look at some of the greatest works from the most influential artists of the rock era. Fans may know the songs, but wait until they hear the stories behind them! The music contained in Led Zeppelin IV is part of the soundtrack to a generation. Released in 1971, it rocks, stomps, glides, and shimmers as it covers all the bases the band had mastered: heavy blues, barroom rock and roll, mandolin-driven folk, epic Tolkien-infused mysticism, acoustic Americana, and more. Certified gold one week after its release, the album went to #2 on the U.S. charts and #1 in the U.K. It remained on U.S. charts for 259 weeks. There probably isn't an aspiring rock guitarist anywhere who hasn't plucked out the notes and chords to "Stairway to Heaven" or "Black Dog," and yet many music lovers are unaware of the intriguing backstory to this genre-defining work. To this day there is confusion about what is the actual title of the album. And what about those mysterious symbols? Barney Hoskyns pierces those veils and more as he tells the fascinating story of the evocative set that cemented Led Zeppelin's standing as the biggest, baddest, loudest band in the world—and

that remains today the apex of their art.

A lethal new weapon endangers all of Europe—unless Elena Standish can rescue an ingenious scientist from Hitler's clutches—in this action-packed mystery by bestselling author Anne Perry. It is the summer of 1934, and Hitler is nearing the summit of supreme power in Germany, his eyes set on European domination. When Britain's MI6 gets word that a pair of German scientists have made breakthroughs in germ warfare, they send Elena Standish on a dangerous mission to get one of them out of Germany before he's forced to share his knowledge and its devastating power with Hitler's elite. But the British soon learn that it's more than just time that Elena is working against. The new head of Germany's germ warfare division is an old enemy of Elena's grandfather Lucas, the former head of MI6. And he's bent on using any means at his disposal to avenge his defeat at Lucas's hands twenty years before. What starts as an effort to save Europe from the devastation of disease soon becomes an intensely personal fight. As Elena and the scientist make their way across Germany, from Berlin to Bavaria and beyond, they confront not only the Gestapo but also a ragtag group of unpredictable Nazi supporters. Elena finds her every decision challenged in this compelling thriller that takes a searing look at what

it means to do what's right in a world rife with so much evil.

"An ingenious simplicity and grace mark the first-person telling of the story of eleven-year-old Rinko and her Japanese family in Berkeley, California. Times are hard for everyone in 1935, but being Japanese is for Rinko an added burden. . . . Compared with the many worldly-wise contemporary book heroines, Rinko in her guilelessness is genuine and refreshing, and her worries and concerns seem wholly natural, honest and convincing".--The Horn Book.

Genesis Retold is a single volume that contains four individual books: 1 Enoch, Jasher, Jubilees, and The Testaments of the Twelve Patriarchs (T12P). All translations have been emended and edited for accuracy, and brought closer in line with the source texts that we have available to us today. In the case of Enoch and Jubilees, the English version set forth here is a major revision of the monumental work by Dr. R. H. Charles. His work was revised to bring it closer in line with the Aramaic and Hebrew texts uncovered at Qumran which were not available to him. Likewise the existing Ethiopic, Latin, and Greek texts were also consulted. Similarly, the Testaments of the Twelve Patriarchs was also highly revised and emended from Charles' English translation, including some fragments from an Aramaic Testament of Levi from the Cairo Genizah, and a Hebrew Testament of Naphtali which was found among the Dead Sea Scrolls. The Book of Jasher set forth here is a major revision of J. H. Parry & Co.'s English translation which has been emended and brought closer in line with the Hebrew source text that underlies it. It was discovered in this process that numerous entire sections present in the Hebrew text have been omitted from the current English versions for more than a century. The version available in Genesis Retold includes these sections. Above all else, Genesis Retold has treated the Name of the Almighty with special care. As further explained in the Preface, the Name is written in Hebrew block print letters as yod-hey-vav-hey, also called the Tetragrammaton. This should avoid dogmatic debate over pronunciation. However, placing the Name into the English text was not an arbitrary process. The underlying source texts were carefully examined and compared to see where placeholders were used, to determine where the Name would be if it were a Hebrew original. All other names have likewise been restored to a Hebraic pronunciation when possible. All Elizabethan English style terms (thee, thou, thine, dost, etc.) have been revised into modern English, and thousands of entire sentences have been rewritten and/or reworded to flow better in Modern American English. Multiple appendices fill the back of the book, including an etymological breakdown of the names of the key angels in Enoch. The final appendix includes a list of more than 130 verses in the New Testament, and corresponding passages in the books of Genesis Retold. Many of these show direct correlation and even quotes between these books and the New Testament. There are also nearly 600 footnotes that further elaborate on word definitions, provide cross-references between the books (and Biblical books), provide variant readings, and highlight other possible translations. This is more than just a Restored Name version. This is a Critical Edition, with Names Restored, keeping in the tradition of the Literal English Version family of books.

An Orton-Gillingham approach to teaching the six syllable types

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a – 520a) to compare "the effect of education () and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b – 509c) and the analogy of the divided line (509d – 511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d – 534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.
