The definitive story of Harley Quinn by her co-creator, Paul Dini, and Pat Cadigan, revealing the secrets of her history even as she seeks to kill Batman. When she was only seven years old, Harleen Quinzel witnessed her father being beaten up by thugs, and then arrested by the police. That night she ran away to the safest place she could think of: Coney

Years later, Harleen has put her past behind her, and used her intelligence and ambition to escape her childhood of poverty with a career in psychiatry. Assigned to her first position at Arkham Hospital, she will discover, deep in the asylum, something dangerous and alluring, something quite unlike anything else she has ever known before: The Joker. Because why would you settle

The inspiration for the Netflix original series Mismatched! Everyone is talking about this New York Times bestselling rom-com that Mindy Kaling called “utterly charming!” Eleanor & Park meets Bollywood in this hilarious and heartfelt novel about two Indian-American teens whose parents conspire to arrange their marriage. Dimple Shah has it all figured out. With graduation behind her, she’s more than ready for a break from her family, from Mamma’s inexplicable obsession with her finding the “Ideal Indian Husband.” Ugh. Dimple knows they must

respect her principles on some level, though. If they truly believed she needed a husband right now, they wouldn't have paid for her to attend a summer program for aspiring web developers...right? Rishi Patel is a hopeless romantic. So when his parents tell him that his future wife will be attending the same summer program as him—wherein he'll have to woo her—he's totally on board. Because as silly as it sounds to most people in his life, Rishi wants to be arranged, believes in the power of tradition, stability, and being a part of something much bigger than himself. The Shahs and Patels didn't

mean to start turning the wheels on this “suggested arrangement” so early in their children’s lives, but when they noticed them both gravitate toward the same summer program, they figured, Why not? Dimple and Rishi may think they have each other figured out. But when opposites clash, love works hard to prove itself in the most unexpected ways. The culture that infiltrates our lives can provoke a range of feelings and afflictions - culture can move you, get under your skin and stir up your emotions. Ben Highmore uses these feelings, or 'passions', to explore the culture that surrounds

us and uses it as a basis to introduce and explain the key ideas, debates and theories that are central to cultural studies. Impressively accessible and packed with absorbing examples from everyday life, this compact book is the ideal entry-point into cultural studies. The chapters examine problematic and complex issues that are core to cultural studies, looking at the experience of migration, the nature of the media, the lure of commodities, the world of taste and the culture of love. Cleverly written in a way that's easy to follow and enjoyable to read, the text gives a sense of the discipline as a way of

Convergence has gained an enormous amount of attention in media studies within the last several years. It is used to describe the merging of formerly distinct functions, markets and fields of application, which has changed the way companies operate and consumers perceive and process media content. These transformations have not only led business practices to change and required companies to adapt to new conditions, they also continue to have a lasting impact on research in this area. This book's main purpose is to shed some light on crucial phenomena of media and

convergence management, while also addressing more specific issues brought about by innovations related to media, technologies, industries, business models, consumer behavior and content management. This book gathers insights from renowned academic researchers and pursues a highly interdisciplinary approach. It will serve as a valuable reference guide for students, practitioners and researchers interested in media convergence processes.

Collage Culture develops a comprehensive theory of the origins and meanings of collage and readymades in modern and postmodern art, literature, and everyday life.

Demonstrating that the origins of collage are found in assembly line technologies and mass media forms of layout and advertising in early twentieth-century newspapers,

Collage Culture traces how the historical avant-garde turns the fragmentation of Fordist production against nationalist, fascist, and capitalist ideologies, using the radical potential unleashed by new technologies to produce critical collages.

David Banash adeptly surveys the reinvention of collage by a generation of postmodern artists who develop new forms including cut-ups, sampling, zines, plagiarism, and copying to

cope with the banalities and demands of consumer culture. Banash argues that collage mirrors the profoundly dialectical relations between the cut of assembly lines and the readymades of consumerism even as its cutting-edges move against the imperatives of passive consumption and disposability instituted by those technologies, forms, and relations. Collage Culture surveys and analyzes works of advertising, assemblage, film, literature, music, painting, and photography from the historical avant-garde to the most recent developments of postmodernism.

decided to say nothing. Fifty years on, his younger brother, Juan Martin, breaks the silence to narrate his intimate memories and share with us his views of the character behind one of history's most iconic figures. Juan Martin brings Che back to life, as a caring and protective older brother. Alongside the many practical jokes and escapades they undertook together, Juan Martin also relates the two extraordinary months he spent with the Comandante in 1959, in Havana, at the epicentre of the Cuban Revolution. He remembers Che as an idealist and adventurer and also as a committed intellectual. And he tells us of their parents - eccentric, cultivated, bohemian - and of their brothers and sisters, all of whom played a part in his political awakening. This unique autobiographical account sheds new light on a

communication is treated as a distributed phenomenon involving networks of persons, activities and artifacts, and extends beyond doctor-patient relationships to working in and across teams around patients. The purpose of the book is to stimulate thinking about how patient care and safety may be improved through a focus upon the 'non-technical' work of doctors - interpersonal communication, teamwork and situation awareness in teams. The focus is then not on the personality of the doctor, but on the dynamics of relationships which form doctors' multiple identities.

But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming

at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll

The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of "The New

Marketing Manifesto," whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In "The Brand Innovation Manifesto," he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.
