"The phrase "prevalence of ritual" was first used in relation to this and three other 19 collages: Conjur Woman as an Angel, Tidings, and Baptism. The conjure woman (which Bearden consistently spelled "conjur"), a spirit figure in southern African-American culture, moved north as part of the Great Migration and reappears frequently in

Bearden's work. She is called upon to prepare love potions, cure illnesses, and assist with personal problems."--Text from nga.gov (see link).

A story of young lovers seduced and nearly destroyed by the evil around them in Berlin at the brink of World War II.

This is the first complete English translation of Bealu Girma's classic. Originally published in 1983 in Ethiopia, the novel served as a critical account of the Red Star Campaign, the Communist Derg government's attempt at a final comprehensive victory over the secessionist rebellion in Eritrea. A passionate and turbulent story of love and war, Oromay mocked high-level members of Ethiopia's communist regime and criticized the Derg's actions in Eritrea. The criticism contained in this incisive political allegory put Bealu in considerable danger owing to the repressive environment in which it was published. The novel was almost immediately banned after publication. Government officials attempted to confiscate all available copies but bootleg versions continued to circulate. In the aftermath, Bealu was fired from his job in Ethiopia's Ministry of Information and a few months later disappeared. It is generally believed that he was abducted and killed on the orders of government officials in retaliation for Oromay. Bealu's life had a dramatic arc of its own. Born in rural Ethiopia to an Ethiopian mother and Indian father, he was a graduate of Addis Ababa University and later studied journalism in the United States. In addition to serving as editor of several of Ethiopia's most respected magazines and newspapers (including Addis Zemen and The Ethiopian Herald) he also worked as a civil servant in Ethiopia's Ministry of Information. This position allowed him access to government officials during both the Imperial and Communist governments. Prior to Oromay, he wrote five other popular and critically-acclaimed Amharic-language novels: Beyond the Horizon, The Bell of Conscience, The Call of the Red Star, Haddis, and The Author. His integrity as a journalist, courageous criticism of repressive regimes, and martyrdom to the cause of literary freedom make him a significant figure in modern Ethiopian history and Amharic literature.

Girimte SciTech (The Wonder of SciTech) is a the-first-of-its-kind Amharic publication to cover the topics of science and technology in one book. The 392 page book tells the story of the amazing human civilization starting from the industrial revolution. The book consists 23 chapters in 4 sections--four chapters on how civilization began, eight chapters on where we are today, eight chapters about the future, and three chapters on ancient black civilization, why we are behind today and the solution to leapfrog. The book covers science and technology from a different perspective--through past history, major events to the present, and the future in a very engaging writing style. It will also include black people's contribution in innovation. Furthermore, it book argues why Africa is far behind in technology, and advocates that adopting technology is the necessary means to leapfrog the lag and catch up with the rest of the world. The book will also relate many science tech innovations with their adoption in Ethiopia through an interesting lens of history.

A gripping novel set during Mussolini's 1935 invasion of Ethiopia, The

Shadow King takes us back to the first real conflict of World War II, casting light on the women soldiers who were left out of the historical record. With the threat of Mussolini's army looming, recently orphaned Hirut struggles to adapt to her new life as a maid in Kidane and his wife Aster's household. Kidane, an officer in Emperor Haile Selassie's army, rushes to mobilize his strongest men before the Italians invade. His initial kindness to Hirut shifts into a flinty cruelty when she resists his advances, and Hirut finds herself tumbling into a new world of thefts and violations, of betrayals and overwhelming rage. Meanwhile, Mussolini's technologically advanced army prepares for an easy victory. Hundreds of thousands of Italians—Jewish photographer Ettore among them—march on Ethiopia seeking adventure. As the war begins in earnest, Hirut, Aster, and the other women long to do more than care for the wounded and bury the dead. When Emperor Haile Selassie goes into exile and Ethiopia quickly loses hope, it is Hirut who offers a plan to maintain morale. She helps disguise a gentle peasant as the emperor and soon becomes his guard, inspiring other women to take up arms against the Italians. But how could she have predicted her own personal war as a prisoner of one of Italy's most vicious officers, who will force her to pose before Ettore's camera? What follows is a gorgeously crafted and unputdownable exploration of female power, with Hirut as the fierce, original, and brilliant voice at its heart. In incandescent, lyrical prose, Maaza Mengiste breathes life into complicated characters on both sides of the battle line, shaping a heartrending, indelible exploration of what it means to be a woman at war.

What Politics? Youth and Political Engagement in Africa examines the diverse experiences of being young in today's Africa. It offers new perspectives to the roles and positions young people take to change their life conditions both within and beyond the formal political structures and institutions. The contributors represent several social science disciplines, and provide well-grounded qualitative analyses of young people's everyday engagements by critically examining dominant discourses of youth, politics and ideology. Despite focusing on Africa, the book is a collective effort to better understand what it is like to be young today, and what the making of tomorrow's yesterday means for them in personal and political terms. Contributors are: Ehaab Abdou, Abebaw Yirga Adamu, Henni Alava, Paivi Armila, Randi Ronning Balsvik, Jesper Bjarnesen, ora Bjornsdottir, Jonina Einarsdottir, Tilo Gratz, Nanna Jordt Jorgensen, Marko Kananen, Sofia Laine, Naydene de Lange, Afifa Ltifi, Ivo Mhike, Claudia Mitchell, Relebohile Moletsane, Danai S. Abdoulaye Sounaye, Leena Suurpaa, and Mulumebet Zenebe. The boy who became Saint Yared grew up in the ancient kingdom of Axum. According to legend, he struggled as a student, just as this story shows, but eventually triumphed and went on to invent Ethiopia's system of musical notation. His work drew on local traditions and the church concept of the Holy Trinity, while his hymns had four parts based on the four seasons of the year, winter, summer, spring, and autumn. Hundreds of years before European composers developed a seven-note system of writing music, Yared wrote music using dashes, curves, and dots to represent ten different notes. "Why did I leave the 10-pin on that shot?" "Why isn't my ball hitting the pocket anymore?" "Should I change balls, or

move?" "How heavy should my ball be?" "What's the best bowling ball?" "How do I get more hook?" "Why do I keep missing my spares?" Bowlers are faced with endless questions, problems, and choices every time we bowl. Answers and solutions abound, but a great many of them are ineffective or just plain wrong. How do we know what to do? How do we know what to believe? In this book we examine: What doesn't work, and what bowlers have wrong. What's really happening on the lanes, and how things really work. What you need to change to get back to striking. How to properly make that change. We teach you how to figure out exactly what's wrong with your shot. We show you all of the adjustments available to you, teach you what each one actually does, and show you how and when to apply it. We give you strategies that will improve your lane play and your decision making. Finally, we teach you a mathematically sound spare system that will simplify your game and make picking up your spares an easy proposition. We give you all of the knowledge and tools you need to take your game to the next level and become the bowler you want to be.

A thorough consideration of all of the many attempts at democracy that have occurred on the African continent since decolonisation. This is a book that does not permit the reader to come away thinking about Africa in the same way as they did before. The extent to which our perceptions are shaped by the western media are revealed only when we are exposed to a starkly different, and profoundly humanising perspective, as this title provides in the form of interviews with key African figures fighting for democracy. Power is immanent in human affairs; by definition, human beings are political animals. The only way to fully comprehend and analyze the complexities of power is to locate where material, psychological, and social dimensions of political power are ultimately and socially situated and reproduced. This collection of essays highlights the theoretical concerns of political anthropology. Initially published in the journal *Ethnology*, the essays were classroom tested and collected on the basis of student comments. An in-depth introduction presents the intellectual traditions in political anthropology and focuses particularly on the manner in which various periods defined and dealt with the nature of social power. It also places current works within the framework of critical but

constantly revised theoretical problems. Contributors: Mart Bax; Ernest Brandewie; Karen J. Brison; Philip A. Dennis; Richard G. Dillon; Harvey E. Goldberg; James Howe; Donald T. Hughes; Roger M. "During the Cold War, thousands of musicians from the United States traveled the world under the sponsorship of the U.S. State Department's Cultural Presentations program. Using archival documents and newly collected oral histories, this study illuminates the reception of these musical events, for the practice of musical diplomacy on the ground sometimes differed substantially from what the department's planners envisioned. Performances of music in many styles--classical, rock 'n' roll, folk, blues, and jazz--were meant to compete with traveling Soviet

and Chinese artists, enhancing the reputation of American culture. These concerts offered large audiences evidence of America's improving race relations, excellent musicianship, and generosity toward other peoples. Most important, these performances also built meaningful connections with people in other lands. Through personal contacts and the media, musical diplomacy created subtle musical, social, and political relationships on a global scale. Although these tours were sometimes conceived as propaganda ventures, their most important function was the building of imagined and real relationships, which constitute the essence of soft power"--Provided by publisher.

The Life and Legacy of the Ethiopian Emperor Revered as the Messiah by Rastafarians

****Includes pictures *Includes online resources and a bibliography for further reading "By virtue of His Imperial Blood, as well as by anointing He has received, the person of the Emperor is sacred. His dignity is inviolable and His power indisputable." - Article 4 of the revised Constitution of Ethiopia (1955) The modern history of Africa was, until very recently, written on behalf of the indigenous races by the white man, who had forcefully entered the continent during a particularly hubristic and dynamic phase of European history. In 1884, Prince Otto von Bismarck, the German chancellor, brought the plenipotentiaries of all major powers of Europe together, to deal with Africa's colonization in such a manner as to avoid provocation of war. This event-known as the Berlin Conference of 1884-1885-galvanized a phenomenon that came to be known as the Scramble for Africa. The conference established two fundamental rules for European seizure of Africa. The first of these was that no recognition of annexation would be granted without evidence of a***

practical occupation, and the second, that a practical occupation would be deemed unlawful without a formal appeal for protection made on behalf of a territory by its leader, a plea that must be committed to paper in the form of a legal treaty. Before World War II, few in the West had ever heard of Abyssinia, and fewer still could point to a map and tell precisely where it was. On the eve of that war, in the autumn of 1935, as the forces of imperial Italy prepared to invade the sovereign territory of Ethiopia, the leaders of the Allies brimmed with sympathy for the imperiled African kingdom but offered nothing in the way of practical assistance. Rallying his subjects against the invaders was Negus Negusti, the "King of Kings," Emperor Haile Selassie, the last ruler of the great Solomonic Dynasty of Ethiopia. The Italians, led by Benito Mussolini, were practically unassailable at that point, and while a bold resistance was mounted to hold back their invasion, the effort was ultimately futile. On May 2, 1936, as the Italian army bore down on the capital at Addis Ababa, Emperor Haile Selassie boarded a train and fled east to the French territory of Djibouti. From there, he was granted asylum in Britain. The Allies' conquest of Ethiopia formed a cornerstone of the early phases of the North Africa Campaign during World War II, and the dramatic advance of Allied forces on Addis Ababa in the spring of 1941 placed Ethiopia very much at the forefront of Western affairs. In May of that year, Emperor Haile Selassie returned in triumph to the capital of his kingdom, the fanfare and hubris of which tended to project his personality to the forefront of the global political stage. Haile Selassie, a god-like figure among his devotees and followers, was recognized then as one of the great political personalities of the 20th century, and his influence over world affairs was disproportionate, bearing in mind the minor international significance of Ethiopia itself, a feudal society steeped in medieval traditions. His "Appeal to the League of Nations," an address delivered to the world body in 1936 that admonished it for betraying its own principles, still ranks today as one of the greatest moments of political oratory ever recorded. In the West, of course, the focus on Ethiopia commonly comes from the Italian standpoint, which overlooks just how important a figure the Ethiopian emperor was in the 20th century. Far from merely being the ruler of a land being carved up by imperialists, Haile Selassie's story is one of a remarkable rise, and his impact on the Rastafari movement and Ethiopia's global standing remain strong today. Haile Selassie: The Life and Legacy of the Ethiopian Emperor Revered as the Messiah by Rastafarians looks at one of the most famous rulers of the 20th century.

Eye of the Leopard is based on the proverb "Always watch your back". "The eye of the leopard is on the goat. The eye of the goat is on the leaf." Whew! African leopards hunt more different kinds of prey than other big cats--and unlike the other big cats--they sometimes drop from perches onto their prey. Their skill, the fact that they can hunt at any time of day or night, and their willingness to eat many things (including rodents and fish) makes leopards dangerous hunters. Of course, human habits are also dangerous for leopards. The beautiful animals used to be the most

widely distributed of all cats (except domestic ones). Now their numbers are in in Ethiopia and all over the world. Explore the meaning of this proverb and learn about leopards in this early-reader book. Our mission is to inspire and enable youth in Ethiopia through READY SET GO books, STEM and Innovation Projects in collaboration with individuals and organizations providing literacy, education, and leadership opportunities. The much heralded growth and transformation of many economies in sub-Saharan Africa over the last decade continues to receive prominent attention in academic scholarship and among policy practitioners. An apparent feature about this transformation, however, is that Africa's youth appear to have been left out. This book critically examines the extent and consequences of the marginalization of African youth. It questions conventional wisdoms about data trends, aspirational goals, and common policy interventions surrounding Africa's youth that have been variously propagated in both the development studies literature and in mainstream donor policy reports. The book explores macro trends from both a temporal and cross-regional perspective in order to highlight what is distinct about contemporary African youth and whether their prospects and behaviours do actually vary from their counterparts in other regions of the world or from previous generations of African youth. Such studies include cross-country analyses of youth employment patterns and modes of political participation, in-depth examination of the behaviours and aspirations of the urban youth, and critical reflections on the impact of rural employment initiatives, vocational education, and learnership programmes. The incorporation of multiple methods and disciplines, as well as its attention to policy issues, ensures that the book will be of great interest to graduate students, researchers, and professional researchers whose work lies at the intersection of African area studies and development studies as well as those focused on development economics, political science, and public policy and administration.

A first-ever monograph featuring the work of the Ethiopian artist Elias Sime, who brilliantly explores the impact of life in a post-consumerist world. Sime's brightly-colored sculptural tableaus feature found objects including thread, buttons, electrical wires, and computer detritus. This book highlights the artist's work from the last decade, much of which

comprises the series entitled "Tightrope." Repurposing salvaged electronic components, such as circuits and keyboards, Sime incorporates the refuse that are the byproducts of technological advancement, and points to the urgency of sustainability. The resulting abstractions reference landscape and the figure as well as traditional Ethiopian textiles. "Tightrope" refers to the precarious balance between the progress technology has made possible and its detrimental impact on the environment. Searching for a Cultural Diplomacy

Archie 3000

Struggle from Afar

Romare Bearden

Recent studies on the meaning of cultural diplomacy in the twentieth century often focus on the United States and the Cold War, based on the premise that cultural diplomacy was a key instrument of foreign policy in the nation's effort to contain the Soviet Union. As a result, the term "cultural diplomacy" has become one-dimensional, linked to political manipulation and subordination and relegated to the margin of diplomatic interactions. This volume explores the significance of cultural diplomacy in regions other than the United States or "western" countries, that is, regions that have been neglected by scholars so far—Eastern Europe, Asia, and the Middle East. By examining cultural diplomacy in these regions, the contributors show that the function of information and exchange programs differs considerably from area to area depending on historical circumstances and, even more importantly, on the cultural mindsets of the individuals involved.
