Look around your office. Turn on the TV. Incompetent leadership is everywhere, and there's no denying that most of these leaders are men. In this timely and provocative book, Tomas Chamorro-Premuzic asks two powerful questions: Why is it so easy for incompetent men to become leaders? And why is it so hard for competent people--especially competent women--to advance? Marshaling decades of rigorous research, Chamorro-Premuzic points out that although men make up a majority of leaders, they underperform when compared with female leaders. In fact, most organizations equate leadership potential with a handful of destructive personality traits, like overconfidence and narcissism. In other words, these traits may help someone get selected for a leadership role, but they backfire once the person has the job. When competent women--and men who don't fit the stereotype--are unfairly overlooked, we all suffer the consequences. The result is a deeply flawed system that rewards arrogance rather than humility, and loudness rather than wisdom. There is a better way. With clarity and verve, Chamorro-Premuzic shows us what it really takes to lead and how new systems and processes can help us put the right people in charge.

How can you become a more successful manager, a stronger team leader and a motivator who gets the best results from a group? Ken Blanchard's inspiring new book provides the answer. In a beguiling, sometimes humorous fashion, THE LEADERSHIP PILL conjures up a tantalizing possibility: What if there was a pill that could stimulate the natural powers of the mind and body to provide leadership? In the story, an amazing new pill heightens one leader's powers, but contains the wrong ingredients, stimulating him in a short-sighted direction. He is coercive, obsessed with immediate results and drives his team relentlessly until, after a brief spike in performance, they suffer early burnout. In contrast, the 'Effective Leader', working without a pill, inspires and supports his team. He supplies the right ingredients, earning the respect and trust of his team with a blend of integrity, partnership and affirmation. Ultimately it is recognised that there is more to effective leadership than a wonder 'pill'. Destined to be a transforming experience for thousands of readers, THE LEADERSHIP PILL shows how to apply the right techniques, no matter how pressured a business situation.

"The side that knows when to fight and when not will take the victory. There are roadways not to be traveled, armies not to be attacked, walled cities not to be assaulted." -Sun-Tzu We live in dangerous times, when a new kind of leadership is required. Visionary and ruthlessly strategic, Warrior Politics extracts the best of the wisdom of the ages for modern leaders who are faced with the complex life-and-death challenges of today's world-and determined to win. Sun-Tzu urges leaders to "plan and calculate like a hungry man." Machiavelli defines a policy not by its excellence but by its outcome. Churchill derives his greatness from his imagination of history. Livy shows that the vigor to face down adversaries must ultimately come from pride in our own past achievements. "Never mind if they call your caution timidity, your wisdom sloth, your generosity weakness," he writes. "It is better that a wise enemy should fear you than that foolish friends should praise." "Men often oppose a thing merely because they have no agency in planning it," Alexander Hamilton says, "or because it may have been planned by those whom they dislike." Replete with maxims, warnings, examples from history, and shrewd recommendations, Warrior Politics wrests from the past the lessons we need to arm ourselves for the present. It offers an invaluable template for any decision-maker-in foreign policy or in business-faced with high stakes and inadequate knowledge of a mine-filled terrain. As we gear ourselves up for a new kind of war, no book is more prescient, more shrewd, or more essential.

Taiwan's Economic Transformation

The Perils and Prospects of Southern Black Leadership

***"This book charts the period before Taiwan's post-war economic miracle took hold (1949-1965) and proffers that it was the Kuomintang Government's endorsement of property rights reform***

*and institutional change that enabled Taiwan to transform from an impoverished command economy to a market-based economy, which in turn led to Taiwan becoming one of the fastest growing economies in the world. Using first-hand interview material with key government officials from the period, and analysis of hitherto unused Chinese-language archives, this book is empirically very rich. It also gives the reader insights into Taiwan's developmental experience and the direction in which, under different circumstances, China's post-war development might have proceeded. Taiwan's Economic Transition will be an invaluable resource for anyone interested in the economic and political history and development of Taiwan. More broadly it will also appeal to scholars and students of China's historical and contemporary development"--*

*Organizational Behavior and Public Management reveals how organizational behavior enables managers to direct resources that advance the programs and policies of public and government. This edition offers a public sector perspective of core topics, such as communication, decision-making, leadership, management ethics, motivation, organizational change, participation and performance appraisal. Contemporary Psychology called this book "skillful and comprehensive...There is a need for a text like this...the device of juxtaposing theory and application is a sound one." The authors discuss such topics as communication, decision making, worker participation and total quality management, organizational change, management systems, information, computers and organization theory in public management.*

It's 2005 and Brandon Black has just been promoted to CEO of Encore Capital, a company struggling to navigate an increasingly difficult business environment. Faced with a rapidly declining stock price and low workplace morale, Brandon knows he needs change—and fast. Following his CFO's advice, he and his executive team start working with Learning as Leadership (LaL) and its president, Shayne Hughes. Through their partnership, Encore's executive team learns to root out the unproductive ego habits that undermine collaboration and performance. As they instill these more effective behaviors throughout the organization, Encore begins to solve problems collectively, prioritize resources without infighting, and focus on the initiatives with the greatest strategic value. When the financial crisis of 2008–09 forces 90 percent of its competitors out of business, Encore thrives, with its profits increasing by 300 percent and its stock price by 1200 percent. Told from two lively first-person perspectives, Ego Free Leadership brings readers along for Encore's incredible success story. They'll see a CEO overcome his unconscious resistance to modeling the change he wants in his team and discover a time-tested roadmap for eliminating the destructive effects of the ego in teams and organizations.*

*Books about leadership abound, often generalizing from a heroic leader's own experiences or reflecting the latest incremental advances in scholarly theorizing. Rethinking Leadership is different in that Ladkin questions the key questions of leadership thinking and thus arrives at a radically different conception of leadership. It is a welcome conception that recognizes the embodied, sensual, felt nature of leadership as an ongoing process involving leaders and followers within a particular context. For the complex and challenging times we live in, we need complex and challenging conceptions of leadership and Donna Ladkin has given us an excellent starting place. Steve Taylor, Worcester Polytechnic Institute, US Beautifully written, insightful and novel, this book departs nicely from mainstream views on leadership and can be strongly recommended to anyone wanting a new look on the complexities, meanings and dynamics of leadership and workplace relations. Mats Alvesson, Lund University, Sweden Donna Ladkin's inspiring and informed book breaks new ground in leadership studies. Writing lucidly, warmly and accessibly, Ladkin makes philosophy to bear on some key themes of leadership. Picking up concepts from philosophy's all-time greats, she enriches the existing leadership discourse powerfully. Questions of charisma, vision, indeed the nature of leadership itself, are cast in fresh settings, and they become alive. Skilfully avoiding becoming overtly abstract, with a keen eye to examples, Donna Ladkin delivers a delightful, elevating and original contribution to the rethinking of leadership. Esa Saarinen, Helsinki University of Technology, Finland Adopting a post-positivist phenomenological perspective inspired by the writings of Husserl and Heidegger among others, Donna*

*Ladkin crafts a series of philosophical questions that prompt the reader to deconstruct and reposition many habitually held views of leaders and leadership. Through her deep questioning, Ladkin reminds us that wisdom the virtue of practical circumspection is central to the ethical and aesthetic moment of leading. Rethinking Leadership is a refreshing and much-needed re-evaluation of the field, which should be read by anyone with a serious interest in the subject. Peter Case, University of the West of England, UK Writing anything new about leadership might seem like a difficult task these days. Writing anything new and interesting about leadership might seem beyond most of us. Writing anything new, interesting and provocative about leadership is restricted to only a few very talented scholars. Ladkin is one of these very talented scholars she has done all three in a groundbreaking review of the nature of leadership and the questions we should be asking about this phenomenon. Keith Grint, University of Warwick, UK A must-read for serious leadership studies scholars, Rethinking Leadership offers a radical reconceptualisation of leadership as a contextually embedded, physically embodied phenomenon. The book arrives at original and surprising answers to perennial questions such as What is leadership? and How do leaders lead change? , by addressing them from a philosophical, rather than psychological or sociological standpoint. Beautifully written, Ladkin makes complex ideas accessible by illustrating them with practical examples drawn from her wide experience as a leadership academic and management consultant across a range of commercial, political and not-for-profit organisations. A fresh voice amongst the crowded field of leadership studies, Rethinking Leadership delivers not just new answers, but an entirely new way of thinking about leadership and its role in contemporary society.*

**Leadership By Divine Design: How to Be An Effective Christian Leader** is another significant work by Anthony Osuobeni, author of the seminal book on revival, **Hashtag Revival**. He writes to add his voice to the vast body of literature on Christian leadership, highlighting believers' call to leadership in the Body of Christ. He encourages believers, pastors and church leaders, to see leadership the way God sees it and to practice it in their churches according to divine dictates. Because the more people we lead the more leaders we need, we must prioritize on developing leaders in our congregations and populate the ministerial landscape with effective Christian leaders. Finally, Anthony prays that God's people in the churches of Christ all over the world will become God's designer-leaders. The book is purposeful, practical and on point! In this book, first published in 1962, the author and founder of the Foundation for Economic Education, Leonard E. Read, skilfully organizes his numerous, previously published FEE materials into a single, usable manual "for those who would give liberty a hand." "The emphasis in this volume is on methodology. Assuming an individual has mastered the philosophical aspects of freedom, what can he do about it? With whom does he work? What are his limitations? His potentialities?"—Leonard E. Read, Foreword

*An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s. Unfortunately hardly any readers exist which bring together a body of knowledge on the themes, issues and debates which inform and animate research and teaching in African Studies particularly on the African continent. This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised, but driven from internal understandings of life and prospects in Africa. Dominant representations and perceptions of Africa usually depict a continent in crisis. Rather than buying into external representations of Africa, with its 'lacks' and aspirations for Western modernities, we insist that African scholars in particular should be in the forefront of promoting understanding of the pluri-lingual, overlapping, and dense reality of life and developments on the continent, to produce relevant and usable knowledge. Continuing and renewed interest in Africa's resources, including the land mass, economy, minerals, visual arts and performance cultures, as well as bio-medical knowledge and products, by old and new geopolitical players, obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africa's people.*

*How To Develop The Leadership Characteristic Already Within You Leaders change the world. Leaders inspire others. Leaders live their passion Vision Knowing what you want and where you are going is vital. The next step is picturing, in your mind, exactly what you want down to the smallest detail. However, the most important piece of the puzzle is your WHY - the reason you want whatever it is you want. Without that it's game over. Courage You may have your purpose, but do you possess the guts to tell the world and follow it through. Courage needn't be loud and aggressive, more often it's a voice in your mind which compels you to keep trying. Integrity Are you honest? Do you speak what you believe? Do you set the example for others to emulate? Are you a person of their word? Are you committed to becoming more than what you already are? Did you answer yes to all the above? Integrity is built upon these questions, leadership is built upon integrity. Humility The initial response to leadership and humility brings up images of oil and water - they cannot go together. On a second look you will find humility running through every great modern day leader. The role of a leader is to serve the people following them. Can you think less of yourself and more of others, to best meet their needs? It's not as easy as it sounds. Self Discipline If you cannot control yourself you will NEVER have the control of others. You will never be able to keep a team around you who complement your strengths and enhance your weakness. Without those people the dream is just that, a dream, and will never become reality. Planning The first words that come to mind are usually -not again- accompanied with an eye roll. Many great people have said what I'm about to say - if you fail to plan you plan to fail. A plan is like the foundations when building a house. Without them all the work that's supposed to be carried out on top, will eventually collapse on itself. Influence The number one skill needed to be a great salesman and one of the 12 pillars of leadership. Influence is the ability to help people see what you see, to paint them the picture of how you see the future and for them to say -I want that too!- Decision My parents can't make a decision and it's frustrating as hell, especially when we go out for a meal. I ask them where they would like to go, I always get the same response -I'm easy-. As mad as this makes me I realised - people will not follow a leader who cannot decide what to do. Listening Sorry to break your bubble, but you are not going to have all the great ideas. you are one mind among billions, someone else will have the same motives as you and will be able to help. Listen to them and by listen I don't mean hear what they say, actually listen with the intent to understand. Responsibility Can you handle it? The pressure, the weight of the dream on top of your shoulders. If you can't, would you turn down a new opportunity? Many people do! Communication You have the vision, the courage and the best plan since Steve Jobs released the iPhone, but can you tell me so they fully understand it without it taking a long time? It's not easy, but if it was everybody would be able to do it. Mentoring Help the people who follow you by sharing what you know. Not only do they learn, every time you share an idea you get to hear it again and again and again - repetition is the mother of skill.*

The purpose of this book series is to promote research on educational leadership for social justice. Specifically, we seek edited volumes, textbooks, and full-length studies focused on research that explores the ways educational leadership preparation and practice can be a means of addressing equity concerns throughout P-20 education. Within this book Leadership for Social Justice: Promoting Equity and Excellence Through Inquiry and Reflective Practice the contributors provide a variety of rich perspectives to the social justice phenomenon from the lens of empirical, historical, narrative, and conceptual designs. These designs reiterate the importance of bridging theory and practice while simultaneously producing significant research and scholarship in the field. Collectively, the authors seek to give voice to empowering, social justice-focused research—an area that continues to garner much interest in the areas of educational leadership research, teaching, and learning. In conjunction with the “ theme ” of this issue, the chapters offer research from an American perspective and offer suggestions, and implications for the field of educational leadership on both a national and international level. The collection contributes to research, theory and practice in educational and community settings.

Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership

principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant stories suggest common-sense and immediately applicable alternatives more suitable in today's workplace.

These Lessons Will Put You On The Path to Success! When I first earned a promotion to a leadership position, I received no training to develop my skills. The unwritten rule seemed to be that if you received the promotion you must know what you are doing, so now go do it! Sound familiar? Unfortunately, I have talked with thousands of newly promoted leaders over the years that have had the same experience. If you have been thrust into a position of leadership with little or no training, this book contains the lessons you need to jump-start your new role and get you on the path to become the leader you want to be. If you are serious about making the move from “ manager to leader ” , or if your job is to help others make the move, this book is for you! Your lessons will include:• Key behaviors that will cause you to be immediately recognized as an effective leader.• The power of perception: how to look, think and act like a leader.• The truths of our human connection and how to use these truths to strengthen your team.• Building an extraordinary team through selection, orientation, training and development.• Simple leader-led processes to solve problems, create action plans, and develop team members.• Dealing with change, preparing for the unexpected, resources for the future and much more!

**"We need to refocus on leadership as a value important to our American republic. The book is a small effort in restarting the dialogue to stimulate the effort to produce more and better leadership on the ice and off.**

**The authors of this book explain the differences between managing by the 3-Ps (Proximity, Position, and Persuasion) and the 3-Cs (Clarity, Consistency, and Connectivity). Leaders who employ the 3-Ps manage with a focus on the individual. Leaders who use the 3-Cs, however, manage by weaving personal leadership techniques with a process of managing the business or organization that has proven extremely effective during the decade since it was introduced. It's a way to lead a company or organization that leaves a legacy of sustained growth and success for those who come after the leader to latch onto and continue. The book is written as a business novel. What is learned on the protagonist's journey is expanded upon in a lesson at the conclusion of each chapter. Readers are then invited to assess their own legacy potential by completing a self-assessment. The management process this book contains is now being employed successfully not only by small and medium size businesses, but also by Fortune 500 companies, successful municipalities, and the United States Army.**

**Current Topics in Management is an annual scholarly journal and this volume is divided into four major sections: Managing Conflict and Justice; Leadership, Social Capital, and Personality; Entrepreneurship and Small Business Management; and Ethics, Learning, and Change. These contributions seek an integration of theory, research, and practice, which is the essential goal of Current Topics in Management. The first section contains two empirical studies on organizational conflict and a theoretical work that addresses the application of organizational justice theory to consumer behavior. The second section contains three empirical studies relating to the leadership language used by senators Hillary Clinton and Barack Obama during the last presidential election, building social capital through leader-member exchanges, and the big-five personality and financial performance of fund managers. Section three contains an essay on revising Phelan's model on entrepreneurship and a case study on a small business organization. The fourth section contains three contributions, two theoretical papers and an empirical study of the administration of state governments. The contributions included are "The Moderating Role of Social Attitudes on the Relationship between Diversity and Conflict" "The Effects of Geographic Dispersion and Team Tenure" "Fairness and Consumer Behavior" "Obama vs. Clinton: Exploring the Impact of Leadership Language" "Social Capital Via Leader" "Financial Performance of Fund Managers" "A Conceptual Framework Linking Entrepreneurs to International New Venture Competitiveness" and "BSL Printing Company: A Case Study."**

**This book tells the remarkable story of Robert F. Williams--one of the most influential black activists of the generation that toppled Jim Crow and forever altered the arc of American history. In the late 1950s, as president of the Monroe, North Carolina, branch of the NAACP, Williams and his followers used machine guns, dynamite, and Molotov cocktails to confront Klan terrorists. Advocating "armed self-reliance" by blacks, Williams challenged not only white supremacists but also Martin Luther King Jr. and the civil rights establishment. Forced to flee during the 1960s to Cuba--where he broadcast "Radio Free Dixie," a program of black politics and music that could be heard as far away as Los Angeles and New York City--and then China, Williams remained a controversial figure for the rest of his life. Historians have customarily portrayed the civil rights movement as a nonviolent call on America's conscience--and the subsequent rise of Black Power as a violent repudiation of the civil rights dream. But Radio Free Dixie reveals that both movements grew out of the same soil, confronted the same predicaments, and reflected the same quest for African American freedom. As Robert Williams's story demonstrates, independent black political action, black cultural pride, and armed self-reliance operated in the South in tension and in tandem with legal efforts and nonviolent protest.**

For the first time ever, the habits behind Dubai's success... Every now and then a story comes along that absolutely captures your attention. Dubai is one of those for me, but not just me--millions around the world yearn to come to Dubai. This global supercity, which just five decades ago was a cholera-plagued backwater, might just be the picture of a dream becoming reality. But how, exactly, did this incredible transformation take place? Leadership! But not your run-of-the-mill government leadership, nor typical corporate leadership, nor leadership taught in classrooms. This is Dubai-style leadership. Living and working in Dubai for the past decade, I've seen the leadership impact firsthand. As a leadership scholar and advisor to CEOs, I thought I was perfectly situated to discover the reasons behind Dubai's success. So, in 2008 I set out to discover the city's "secret sauce." Then the Global Financial Crisis hit! Disaster! I pressed the pause button on my research, and, like everyone in the city, held my breath. Well, what happened next confirmed that there is indeed something unique and special here. I spent the next three years researching, interviewing more than two hundred leaders, and identifying the city's leadership secrets, eventually whittling them down to twelve habits. My aim was to develop a replicable model that I could share with my readers--leaders in businesses, governments, and elsewhere. Anyone who is interested in leadership, and in particular achieving exceptional results, can benefit from understanding the twelve habits I outline here. To learn how to lead Dubai style, we need to walk the desert paths of the past to the superhighways of the future. Leadership Dubai Style retraces the city's journey and draws out the leadership habits that emerged over time. For decades Dubai brought in--imported--leading minds from every field to learn from them. Now it's time for Dubai to teach us--to teach us how to lead!
