This book is intended to help students graduate college in 3 years or less. Instead of taking the average of 5 years to graduate college and spending 10's of thousands of dollars on tuition and room and board every year, it is easy for students to accumulate tons of credits from AP exams, CLEP exams, and other methods that will cut semesters from the time they have to spend in college. Instead of over \$400 per credit, plus room and board at the average in state college, it can cost as little as \$25 to get that exact same credit from the AP exam. This book is a go to resource to see how schools award credit, and how you can maximize the amount of credits you get before even entering college. This book also demonstrates some little known strategies to cut your time at college even more that anyone can use, even if you are already a college student.

*A classic tale by Newbery Medalist Kate DiCamillo, America's beloved storyteller. One summer's day, ten-year-old India Opal Buloni goes down to the local supermarket for some groceries – and comes home with a dog. But Winn-Dixie is no ordinary dog. It's because of Winn-Dixie that Opal begins to make friends. And it's because of Winn-Dixie that she finally dares to ask her father about her mother, who left when Opal was three. In fact, as Opal admits, just about everything that happens that summer is because of Winn-Dixie. Featuring a new cover illustration by E. B. Lewis and an excerpt of Kate DiCamillo's newest novel, *Raymie Nightingale*.*
