More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

George Orwell set out "to make political writing into an art", and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the "four great motives for writing" – "sheer egoism", "aesthetic enthusiasm", "historical impulse" and "political purpose" – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' – *Irish Times*

This book explores Sartre's engagement with the Cuban Revolution. In early 1960 Jean-Paul Sartre and Simone de Beauvoir accepted the invitation to visit Cuba and to report on the revolution. They arrived during the carnival in a land bursting with revolutionary activity. They visited Che Guevara, head of the National Bank. They toured the island with Fidel Castro. They met ministers, journalists, students, writers, artists, dockers and agricultural workers. Sartre spoke at the University of Havana. Sartre later published his Cuba reports in *France-Soir*. Sartre endorsed the Cuban Revolution. He made clear his political identification. He opposed colonialism. He saw the US as colonial in Cuban affairs from 1898. He supported Fidel Castro. He supported the agrarian reform. He supported the revolution. His Cuba accounts have been maligned, ignored and understudied. They have been denounced as blind praise of Castro, "unabashed propaganda." They have been criticised for "clichés," "panegyric" and "analytical superficiality." They have been called "crazy" and "incomprehensible." Sartre was called naïve. He was rebuked as a fellow traveller. He was, in the words of Cuban author Guillermo Cabrera Infante, duped by "Chic Guevara." This book explores these accusations. Were Sartre's Cuba texts propaganda? Are they blind praise? Was he naïve? Had he been deceived by Castro? Had he deceived his readers? Was he obligated to Castro or to the Revolution? He later buried the reports, and abandoned a separate Cuba book. His relationship with Castro later turned sour. What is the impact of Cuba on Sartre and of Sartre on Cuba?

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

This book is written for all university and college teachers interested in experimenting with discussion methods in their classrooms. Discussion as a Way of Teaching is a book full of ideas, techniques, and usable suggestions on: * How to prepare students and teachers to participate in discussion * How to get discussions started * How to keep discussions going * How to ensure that teachers' and students' voices are kept in some sort of balance It considers the influence of factors of race, class and gender on discussion groups and argues that teachers need to intervene to prevent patterns of inequity present in the wider society automatically reproducing themselves inside the discussion-based classroom. It also grounds the evaluation of discussions in the multiple subjectivities of students' perceptions. An invaluable and helpful resource for university and college teachers who use, or are thinking of using, discussion approaches.

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Incredible stories of struggle, redemption, and the power of education from the teachers taught by Erin Gruwell and the #1 New York Times bestselling authors of The Freedom Writers Diary Don't miss the public television documentary Freedom Writers: Stories from the Heart "These are the most influential professionals most of us will ever meet. The effects of their work will last forever."—From the foreword by Anna Quindlen Now documented in a bestselling book, feature film, and public television documentary, the Freedom Writers phenomenon came about in 1994, when Erin Gruwell stepped into Room 203 and

began her first teaching job out of college. Long Beach, California, was still reeling from the deadly violence that erupted during the Rodney King riots, and the kids in Erin's classroom reflected the anger, resentment, and hopelessness of their community. Undaunted, Erin fostered an educational philosophy that valued and promoted diversity, tolerance, and communication, and in the process, she transformed her students' lives, as well as her own. Erin Gruwell and the Freedom Writers went on to establish the Freedom Writers Foundation to replicate the success of Room 203 and provide all students with hope and opportunities to realize their academic potential. Since then, the foundation has trained more than 800 teachers around the world. Teaching Hope unites the voices of these Freedom Writer Teachers, who share uplifting, devastating, and poignant stories from their classrooms, stories that provide insight into the struggles and triumphs of education in all of its forms. Mirroring an academic year, these dispatches from the front lines of education take us from the anticipation of the first day to the disillusionment, challenges, and triumphs of the school year. These are the voices of teachers who persevere in the face of intolerance, rigid administration, and countless other challenges, and continue to reach out and teach those who are deemed unteachable. Their stories inspire everyone to make a difference in the world around them.

What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read Amusing Ourselves to Death, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." —Jonathan Yardley, *The Washington Post Book World*

Praise for Working With Grieving and Traumatized Children and Adolescents "This much-needed book effectively argues for the use of structured activities as the basis for exploring trauma-specific questions in clinical work with traumatized children and adolescents. The authors' methods have been used successfully for many years and represent a major contribution to the study of trauma that will be welcomed by both students and seasoned practitioners." —Nancy Boyd Webb, DSW, LICSW, RPT-S Professor of Social Work Emerita, Fordham University, Author: *Play Therapy With Children in Crisis* "The authors provide a clear theoretical framework and demonstrate practical sensory-based activities so kids can discover and reconnect with their bodies' agency and vitality. Refreshingly, this vehicle creates an emotionally safe journey for the child into the mystery of the experiential, embedded in implicit memory. It's chock-full of invitations to explore self-impressions and worldviews in a way that children feel seen, not assessed." —Peter A. Levine, PhD, and Maggie Kline, MS, LMFT, Coauthors: *Trauma Through a Child's Eyes and Trauma-Proofing Your Kids* A structured, sequential, and evidence-based approach for the treatment of children and adolescents experiencing trauma or grief *Working With Grieving and Traumatized Children and Adolescents* features the Structured Sensory Interventions for Traumatized Children, Adolescents and Parents (SITCAP) intervention model, proven in successfully addressing violent situations such as murder, domestic violence, and physical abuse, as well as non-violent grief- and trauma-inducing situations including divorce, critical injuries, car fatalities, terminal illness, and environmental disasters. What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors *Give a comprehensive explanation of why EQs are so important; *Explore seven defining characteristics of EQs; *Distinguish between topical and overarching questions and their uses; *Outline the rationale for using EQs as the focal point in creating units of study; and *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

So she rebooted her entire curriculum, using treasured books such as Anne Frank's diary as her guide to combat intolerance and misunderstanding. Her students began recording their thoughts and feelings in their own diaries, eventually dubbing themselves the "Freedom Writers." #1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

How communication technologies meant to empower people with speech disorders -- to give voice to the voiceless -- are still subject to disempowering structural inequalities.

The child's diary that awakened the conscience of the world When Zlata's Diary was first published at the height of the Bosnian conflict, it became an international bestseller and was compared to The Diary of Anne Frank, both for the freshness of its voice and the grimness of the world it describes. It begins as the day-to-day record of the life of a typical eleven-year-old girl, preoccupied by piano lessons and birthday parties. But as war engulfs Sarajevo, Zlata Filipovic becomes a witness to food shortages and the deaths of friends and learns to wait out bombardments in a neighbor's cellar. Yet throughout she remains courageous and observant. The result is a book that has the power to move and instruct readers a world away.

Based on extensive research at eight universities - Harvard, Yale, Columbia, Johns Hopkins, Chicago, Stanford, Michigan, and California at Berkeley - Reuben examines the aims of university reformers in the context of nineteenth-century ideas about truth. She argues that these educators tried to apply new scientific standards to moral education, but that their modernization efforts ultimately failed.

A standards-based teacher's guide from the educator behind the #1 New York Times bestseller The Freedom Writers Diary, with innovative teaching techniques that will engage, empower, and enlighten. Here Gruwell goes in depth and shares her unconventional but highly successful educational strategies and techniques (all 150 of her students, who had been deemed "unteachable," graduated from Wilson High School in Long Beach, California): from her very successful "toast for change" (an exercise in which Gruwell exhorted her students to leave the past behind and start fresh) to writing exercises that focus on the importance of journal writing, vocabulary, and more. In an easy-to-use format with black-and-white illustrations, this teacher's guide will become the essential go-to manual for teachers who want to make a difference in their pupils' lives.

Bringing Words to Life

"What we have here is a bad case of stripes. One of the worst I've ever seen!" Camilla Cream loves lima beans, but she never eats them. Why? Because the other kids in her school don't like them. And Camilla Cream is very, very worried about what other people think of her. In fact, she's so worried that she's about to break out in...a bad case of stripes!

George S. Counts was a major figure in American education for almost fifty years. Republication of this early (1932) work draws special attention to Counts's role as a social and political activist. Three particular themes make the book noteworthy because of their importance in Counts's plan for change as well as for their continuing contemporary importance: (1) Counts's criticism of child-centered progressives; (2) the role Counts assigns to teachers in achieving educational and social reform; and (3) Counts's idea for the reform of the American economy.

2018 Newbery Honor Book and Coretta Scott King Author Award Winner 'Important and deeply moving' JOHN GREEN 'Timely and timeless' JACQUELINE WOODSON Jade is a girl striving for success in a world that seems like it's trying to break her. She knows she needs to take every opportunity that comes her way. And she has: every day Jade rides the bus away from her friends to a private school where she feels like an outsider, but where she has plenty of opportunities. But some opportunities Jade could do without, like the mentor programme for 'at-risk' girls. Just because her mentor is black doesn't mean she understands where Jade is coming from. Why is Jade always seen as someone to fix? But with a college scholarship promised at the end of it, how can Jade say no? Jade feels like her life is made up of hundreds of conflicting pieces. Will it ever fit together? Will she ever find her place in the world? More than anything, Jade just wants the opportunity to be real, to make a difference.
