*Britain is in the midst of a fierce battle over government spending. With debts mounting rapidly, the 7?00 billion annual bill is no longer sustainable. But cuts face a wall of opposition, with dire warnings that they will ravage our society: hospital waiting lists will grow, schools will close and the poor will tumble into a new Dickensian abyss. Yet much of what the government currently spends is wasted, and public sector performance is often woeful. In Burning Our Money, Mike Denham casts a critical eye over the services we receive for our hard-earned cash, and finds them radically - often shockingly - wanting. For all the media insistence that the NHS is 'the envy of the world', it stacks up poorly against European healthcare systems. For all our apparently soaring exam grades, our children significantly underperform their future competitors in China, Korea and elsewhere. And for all our hand-wringing about abolishing poverty, our huge welfare system actually damages many of the poor it's supposed to help. Drawing on extensive research and up-to-the-minute reporting, Burning Our Money comprehensively debunks the myth that more public spending means better public services, and shows how we can - and must - get more for less. *A cry for help answered too late. A woman's soul lost to the sea. Now three children are left without a mother, and Sandi Beck is driven by guilt to search for answers. As she sifts through the remains of Liz Bryson's life, Sandi is drawn into a web of lies that shakes her belief in the woman she once knew. Every new clue brings her closer to a truth that threatens to destroy a grieving family--and the man she loves. A masterpiece of twists and turns, Kind Lies will keep you turning pages until the explosive final scene.*

This book was originally devised as a guide for converting from imperial to metric measurements. The New Metric Handbook has since been totally transformed into a major international handbook of planning and design data. All principal building types are dealt with ranging from airports, factories and warehouses, to schools, churches and libraries. For each such building type the New Metric Handbook gives the basic design requirements and all the principal dimensional data. In addition, there are ten chapters dealing with general aspects of building such as materials, lighting, acoustics and tropical design. It is therefore a unique authoritative reference for solving everyday planning problems. In its various editions it has sold about 100,000 worldwide, and continues to be a reference work belonging on every design office desk or drawing board. "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

In the late 1970s we ventured across the country from northern California to western Pennsylvania and back through Washington and Oregon in Steven's boxy old 1965 Chevy van. Those were the days, my friends. That trip had a lasting effect and over time we realized we were destined to be full time RVers. In 1995 we sold our house and a Recreational Vehicle became our home. An RV has been our home every since.*

Indiana retains a unique place in the RV industry going back to the 1930s, when pioneering individuals like Milo Miller, Harold Platt and Wilbur Schult created the original RV businesses in the Elkhart-South Bend area, making campers for sale. By the end of World War II, the national media was identifying Elkhart as the "Trailer Capital of the World." That status has been reinforced ever since, and the industry is still thriving in Indiana with the successes of Thor Industries and Forest River. Join author and RV expert Al Hesselbart as he chronicles how the Hoosier State became the RV Capital of the World. An illustrated history of Britain's railway workshops, covering the period from 1823 to 1986, this book deals with the history of the main railway workshops of Britain, a subject of wide-ranging mechanical and electrical engineering interest.*

New for 2016, a completely updated guide to the Heritage Sites of the Hudson River Valley National Heritage Area Traveling down the Hudson River, named by Native Americans the river that flows both ways, you discover people, places, and events that made American history. The cultural, historic, and scenic resources of the Hudson Valley are so numerous, so varied, and so compelling that it’s the Hudson River Valley as a National Heritage Area in 1996. The National Park Service called the region the “landscape that defined America” and characterized the valley as “an exceptionally scenic landscape that has provided the setting and inspiration for new currents of American thought, art, and history.” Its political importance was demonstrated early in our history when the river played a War. The many streams and waterfalls of the tributaries of the Hudson River powered early sawmills and gristmills. The river and its landscapes inspired the Hudson River school of painters. Sublime and picturesque paintings by Thomas Cole, Frederic Church, and Asher Durand depicted this unique American landscape for the world to witness. Industrialists and commercial leaders like William and Vanderbilt, J. P. Morgan, and Ogden Mills built their great estates along the Hudson River. The second edition includes completely updated user-friendly design and vibrant photography: heritage site pages that include brief descriptions, contact information, and accessibility site characteristics; and National Park Service Passport Stamp locations with new cancellation stamp pages for your collect

guidebook are associated with areas of interest and categorized as must see, best bet, or special interest to make it easy to explore the stories of the Hudson River Valley. Heritage sites are also organized by geography and proximity to make it easy to find heritage sites nearby.

Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they’ve lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, Vintage Camper Trailers, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.
