

French Rainbow For 12th Standard

Studies the American air war effort on the Western Front in World War I.

Sir Arthur Conan Doyle's work has doubtless its place among the books dealing with The Great War, being built up from narratives, letters, diaries, and personal interviews, often with the help of the principal actors in the events narrated. It is dedicated to the general reader, who wishes a coherent account of the Great War, an account which shall not make large demands on his previous knowledge and which is written in easy, readable style. The emphasis is definitely and intentionally on English action and English achievement. And Sir Arthur Conan Doyle has the true heart of the military historian. This is volume three out of six, covering the events of the year 1917 with a focus on the Battle of the Somme.

Northwest Europe

Battles of the British Navy

Værk på 6 bind med beskrivelse af den engelske hær's kampe og slag på Vestfronten, under 1. Verdenskrig, i Nordfrankrig og Flandern i årene 1914 til 1918.beskrivelse af de voldsomme og blodige engelske felttog/slag/kampe, som bølgede frem og tilbage i årene 1914 til 1918 i Nordfrankrig og Flandern. Værket bygger på "letters, diaries and interviews from the hand or lips of men who have been soldiers in our armies, the deeds of which it was my ambition to understand and to chronicle"

The GIs who struggled ashore through the surf of Omaha and Utah Beaches on 6 June 1944 were members of the best-equipped army ever assembled up to that date. It was in the NW Europe campaign of June 1944-May 1945 that the US Army was finally able to show its full potential for fluent mechanised warfare. This title describes both combat and service uniforms worn in the ETO, from the assault troops on the D-Day beaches to bemedalled veterans celebrating VE-Day; other subjects covered include artillery, tanks, anti-tank weapons, the engineers, the replacement system; and the insignia of the divisions committed to this front. Men-at-Arms 342, 347 and 350 are also available as a single volume special edition as 'The US Army in World War II'.

Tennessee

National Geographic Traveler - France

Conspiracies are everywhere. they are the lifeblood of politics, business and our daily lives. this truly international and all-embracing encyclopedia explains the details of the world's major popular conspiracies, listing them chronologically under subject matter and cross-referencing them continually (because so many conspiracy theories interact on some level). Conspiracies are often international in their sweep and their impact. the brutal stabbing of Julius Caesar (the conspiracy which has defined political assassinations ever since) plunged the Roman Empire into civil war, which then engulfed much of the known western world. More recently the Cambridge spies (Philby, Blunt, MacLean and Burgess) helped Russia throughout WWII and then re-defined the Cold War afterwards, Philby's defection casting a 30-year shadow over CIA/Anglo-American relations. though conspiracies define our everyday lives, there is no body of serious academic research to understand their role, nature or defining characteristics. Most historians prefer to adhere to the cock-up theory of history, in which everything happens by accident or incompetence. Although this view is favoured by academics and historians, it is rejected by a large part of the general public who prefer the evidence of their own lives. However they consume their media, what they see is a mesh of conspiracies that define the texture of their everyday lives, often for the worst. Most people believe that there is a grain of truth in most theories about conspiracies. this book is for them.

The first of a seven-volume series which provides an illustrated history of British textile design from the middle ages to the 1990s, showing highlights of the V&A Museum's woven, printed and embroidered textiles. This title looks at printed textiles in England from 1750 to 1850.

A History from the Earliest Times to the Present

Navy Directory

A Narrative of the Past with Special Emphasis Upon the Pioneer Period of the County's History; Particular Attention Also Given to the Social, Commercial, Educational, Religious and Civic Development of the County from the Early Days to the Present Time

Jointly published by Plunkett Lake Press and Indiana University Press This study of the American-led campaign in Europe in World War II analyzes command decisions at both the strategic and tactical levels. All the complex ingredients of armies at war — the burdens of history, the impact of technology, the roles of personalities, the confusions of the battlefield — are presented based on extensive scholarship. Field Marshal Montgomery and Ike's lieutenants, Generals Omar N. Bradley, Jacob L. Devers, Courtney H. Hodges, George S. Patton, Jr., Alexander M. Patch, William H. Simpson, Leonard T. Gerow, J. Lawton Collins, and Matthew B. Ridgway, and others appear in the book. All major strategic and tactical decisions in the battles of the American offensive against Nazi Germany are covered, with descriptions of key terrain features and many personal insights drawn from various diaries. The book provides an assessment of the leadership and fighting capabilities of the Allied forces in the key European battles of World War II. "The publication of Eisenhower's Lieutenants is an event of significance in American military writing... admirable... clearly the product of exhaustive, painstaking research." — Drew Middleton, The New York Times "Eisenhower's Lieutenants is an outstanding and highly recommended work. It offers the wealth of information, superb research and presentation, comprehensive treatment, and challenging reinterpretation one has come to expect from Weigley. It also points out once again that his reputation as one of our outstanding military historians is well deserved." — Mark A. Stoler, Journal of American History "... outstanding book... highly professional study of command and operations in northwest Europe, 1944-45... the best account we have of the World War II campaigns from Normandy to the Elbe." — Forrest C. Pogue, American Historical Review "The fullest account yet of the climactic campaign in northwestern Europe, from the planning of D-Day through the German surrender, with an interesting focus on the personalities involved in shaping the Allied forces, plans, and operations... precisely informative and broadly rewarding." — Kirkus Reviews "... an excellent book." — Calvin B. Peters, Journal of Political and Military Sociology "... by the dean of American military historians..." — Washington Post "I had thought I knew everything about World War II that I would ever want to know. I was wrong. Reading Eisenhower's Lieutenants was a wonderfully enriching experience. I learned more than I ever would have thought possible. This will unquestionably become one of the great classics of American military history." —Stephen E. Ambrose

In a novel of military intrigue, formidable ex-Navy SEAL John Clark takes on a world-threatening band of terrorists

Eisenhower's Lieutenants: The Campaigns of France and Germany, 1944-1945

From the heat and dust of the Dardanelles to the mud of the Western Front, Corporal Angus Mackay had one constant companion, his diary. He wrote of the battles and campaigns he fought in, names that would go down in history: Gallipoli, the Somme, Ypres and Arras. Serving in the the 1st/5th Battalion (Queens Edinburgh Rifles) Royal Scots and later the 88th Brigade Machine Gun Corps, he left a record of one man's extraordinary and tragic war. In Somewhere in Blood Soaked France, Alasdair Sutherland reveals this previously unpublished account of the First World War, complete with historical context, orders of battle and extracts from official war diaries. This rare source - it was an offence to keep a record in a case of capture - offers a stirring insight into the bravery of Mackay and his companions, who were not afraid to die for their country. 'If I go under it will be in a good cause, so roll on the adventure.'

Dabbing basketball player journal - this is a funny dabbing French Bulldog journal including sketch pages for drawing with amazing soft feeling cover colors like cotton, and is the perfect gift idea for women, adults and your kids - girls and boys.For your lovely kids, this is a fabulous gift and a bargain. It has a unique and magical best dog dad ever graphic that the children will adore! If you need gift ideas for your girl's birthday or for her party; she will love this! Children who have a hard time expressing their needs verbally or making hard decisions about things and life will keep a journal of their thoughts and feelings so is a great way to help them learn emotional organization. Even if all your child does is write about an interaction she had during the day, she can always go back to explore that interaction more deeply. You can use this book for: Having your stories and sketches in one place Explore and identify emotions Examine the pros and cons of something in order to be more decisive Look more carefully at her thoughts about something after the immediate situation has passed Gain some insight into her own and other people's motives See the positives as well as the negatives School and homework Keeping a to-do list Recording notes, ideas, thoughts, dreams and prayers Improve written communication, spelling, grammar, and reading skills It's a storytelling tool, a paper place to learn how much information completes a story, what words work well to paint the picture of a story, and am amazing way to practice the mechanics of grammar and spelling. Also, keeping a personal journal can improve other aspects of life for: People who have problems communicating with people in their lives and with love from or for them Those who have gone through a difficult moment and were blocked at a time Those who want to learn how to manage a difficult situation Those who want to learn more about the cause and effect of hard times In fact, if we can help our children to find a way to practice writing on a notebook, and learn to love it, we are helping them discover a valuable gift. This tool will help their childhood by developing a stronger love for writing with structured journals, and it is very fun. This multi-purpose book is also available in other covers and sizes, click on the author name at the top to see more options.
