frameworks. In fact, recent incidents of xenophobic backlash against multiculturalism and minority communities in Europe, as well as myriad movements for constitutional recognition of castes, tribes and languages and the emergence of Islamophobic terror in India, question the conventional idea of

democracy as the idyllic preserver of diversity. This volume contests the simplistic connection between democracy and diversity by proposing that democracy, in fact, produces, sediments and reinforces cultural heterogeneity. It argues that in democratic polities, disparate cultural practices are often

converted into identity categories, with disturbing implications for national identity, constitutionalism, political governance and citizenship. While mobilizations on the plank of cultural differences are typically viewed as being born in undemocratic spaces with little toleration for diversity, they also find

fertile soil in democracy insofar as democracy celebrates diversity and allows cultural dissent to thrive. Such dissent, while essential for democracy, has difficult consequences. Examining the fundamental conflict between constructions of particular cultural identities and mandates of a unifying democratic ethos, the book

brings forth the complexities underlying the politics of identity recognition and national integration. In making a radical intervention in the discourse, this volume offers a critique of existing paradigms of multiculturalism. Hindu nationalism has emerged as a political ideology represented by the Hindu Mahasabha. This book explores the campaign for Hindu unity and organisation in the context of the Hindu-Muslim conflict in colonial north India in the early twentieth century. It argues that

India's partition in 1947 was a result of the campaign and politics of the Hindu rightwing rather than the Islamist politics of the Muslim League alone. The book explains that the Mahasabha articulated Hindu nationalist ideology as a means of constructing a distinct Hindu political identity and unity among the Hindus in

conflict with the Muslims in the country. It looks at the Mahasabha's ambivalence with the Indian National Congress due to an extreme ideological opposition, and goes on to argue that the Mahasabha had its ideological focus on an anti-Muslim antagonism rather than the anti-British struggle for India's independence, adding

to the difficulties in the negotiations on Hindu-Muslim representation in the country. The book suggests that the Mahasabha had a limited class and regional base and was unable to generate much in the way of a mass movement of its own, but developed a quasi-military wing, besides its involvement in a number of

This book examines the

intersection of caste and politics in North India and highlights its contribution to the anthropological study of democracy. It argues that the long-term process of internalization of democracy
