"Unternehmensrechnung" by Ralf Ewert and Alfred Wagenhofer (Springer). The authors describe the managerial uses of accounting information, both for decision-making and decision-influencing, and provide a broad perspective on the subject combining the academic foundations of the field with recent cutting-edge research results. Moreover, traditions of German accounting theory and practice that are little known outside of the German-speaking countries are reflected in the book. With its unique approach based on information economics,

"Fundamental Managerial Accounting Concepts" 4e by Edmonds/Edmonds/Tsay/Olds focuses on concepts that are isolated and introduced in a logical sequence. The authors intentionally limit the scope of the material to help students build a solid foundation of the most important concepts in managerial accounting. "Fundamental Managerial Accounting Concepts" 4e is organized in a distinctive way, particularly in the first six chapters. The objective is to establish a coherent, integrative framework that enables students to build knowledge in stepwise fashion. The authors' goal is for students to understand the underlying principles of accounting, not just memorize content.
