IN A PLACE OF PEACE DURING A TIME OF WAR THE UNFORGIVEN WILL NOT GO FORGOTTEN.Edenville, 1940. In a rural hamlet where the majority of men are overseas to fight Hitler's Nazi war machine, someone is killing veterans of the first world war. Wartime Special Constable 'Lame' Eddie Sommers, a crippled rich boy and the butt of derision, is doing his best to fill a uniform he believes in, yet wears too large. Inexperienced and out of his depth, he turns to a former detective and veteran of the western front for assistance. Involving Marshall Geary might be his biggest mistake. Marshall wears a copper mask, as much to hide behind as to conceal his disfigurements. He struggles against howling flashbacks and the lingering stench of his own concealed crimes. In a town meant for sanctuary, repressed horrors awaken like worms in a collapsing coffin. The closer they get to the truth, the nearer everyone is dragged to their limits, their failings and their buried pasts.

Designed primarily as a casebook and text for law school study, this volume represents nearly four decades of work by the author to present the fundamentals of the law of international business transactions. The second edition refines and updates the materials in the first edition in a manner intended to be useful not only to students but as a desk book for practitioners. Like the first edition, this second edition focuses on the role of lawyers in identifying risks inherent in cross-border economic transactions, and then using primarily the law and negotiations to eliminate where possible, reduce where practicable and reallocate where necessary, those risks to the benefit of the client. Matters covered include: • the basic export-import sales contract; • the use of price-delivery terms to allocate both price and risk; • the application and use of the United Nations Sales Convention (CISG); • events which may excuse the nonperformance of a contract obligation; • when and how to opt in or out of the CISG; • financing the export sale with a commercial letter of credit; • a basic understanding of the WTO trade regulation system; • the regulation of importation, including tariff classification and valuation; • the regulation of exportation, including licensing and extraterritorial application of export laws; • U.S. and EU Rules affecting the professional liability of international transactions lawyers; • planning for the resolution of disputes in international transactions; • a comparative law understanding jurisdiction, applicable law, and judgments recognition; • issues affecting choices between arbitration and litigation of disputes; • drafting choice of forum clauses; • drafting choice of law clauses; • understanding rules regarding judgments obligations stated in foreign currencies; • recent multilateral efforts to harmonize the law on jurisdiction and judgments recognition; • dealing with and avoiding claims of sovereign immunity and act of state; • operating abroad through employees, agents, and distributors; • anti-bribery laws and the need for compliance programs and contract restrictions; • expropriation, political risk, and how to use insurance and contract terms to deal with them; • investor-state contracts; • antitrust laws and their extraterritorial application. Each chapter is designed to help the reader move from the simple cross-border sales transaction through steps which increase both activity abroad and the laws and regulations that may bring with them additional risks to be identified and allocated. A separate documents volume provides virtually all current primary source material on the law of international business transactions. There are many guides to the conduct of international business transactions, but none organized as clearly as this. With this up-to-date edition of a well-established practical guide, in-house lawyers for multinational corporations and practitioners in business law will quickly develop a framework for understanding each source of protection and enhance their ability to serve their company and clients well.
