In a vast and all-embracing study of Africa, from the origins of mankind to the AIDS epidemic, John Iliffe refocuses its history on the peopling of an environmentally hostile continent. Africans have been pioneers struggling against disease and nature, and their social, economic and political institutions have been designed to ensure their survival. In the context of medical progress and other twentieth-century innovations, however, the same institutions have bred the most rapid population growth the world has ever seen. Africans: The History of a Continent is thus a single story binding living Africans to their earliest human ancestors.

Futa on male erotica! Matt liked to flirt with his coworker Kelsey, and she liked to flirt back. He never expected things to go any further than that, however. Dating coworkers was never a good idea. Kelsey,

it seemed, had other ideas. When their college teams face off against one another, she can't resist wagering her sweet, round bottom against his. Matt finds himself falling under her seductive spell, and the huge surprise in her panties is nearly as difficult to resist! A cute, but hot romance between a guy and a girl who were just right for each other all along. Features a very well endowed futanari (or futa, or dickgirl, or whatever you prefer to call them!) taking the lead in a long, extended hot role-reversed sexual encounter.

IMPORTANT NOTE!: This is the same story that was previously published simply as "Dickgirl Conquest." I decided that since it references the events of the the Futa World Series, however, that it properly belongs as part of that series. Joe was just getting tired of his fussy girlfriend when he met a mysterious woman at a coffee shop. She was everything he'd ever dreamed of. Gorgeous, funny, easy-going, she swept him off his feet with her personality and graceful, feminine style. When she tells him her BIG secret he's too enamored of her to resist. But can his male ego survive a woman who has so much more down below than he does? A stand-alone story set in the same fictional universe of the

Futa World stories. In those stories, an experimental drug designed to increase female sex drive accidentally turned over one hundred college students into incredibly well-endowed dickgirls.

Features a beautiful hung futa taking the "top" role in the bedroom with a curious, handsome young man. The endowment depicted by the futanari character is fantasy rather than realistic, but if super-sized futanari (16 or so) is your cup, by all means drink deep!

IN A BROKEN CITY, A DISTURBED KILLER IS TRYING TO REMAKE THE WORLD IN HIS IMAGE. Detective Gabriella Versado has seen a lot of bodies. But this one is unique even by Detroit's standards: half-boy, half-deer, somehow fused together. And it's only the first. As winter closes in on Detroit, strange and disturbing corpses start turning up in unusual places, pulling several lives into the killer's orbit. Gabi has to juggle the most harrowing case of her career with being a single mom to her troubled teen daughter Layla. Layla, egged on by her best friend Cas, is playing a dangerous game with an online predator. Broken Monsters is a dark and gripping thriller about the death of the American Dream, online fame, creativity, compromise and the undercurrents of the

world we live in right now.

Dominant Futa on Female erotica! Part 2 of petite Dana Parker's tale of falling for a sexy, well-endowed (in all ways), and somewhat dominant futanari, Juliet! Things get romantic as the pair decide to make their relationship official. To celebrate, Juliet decides to break in poor Dana fully, by the head and by the tail, if you know what I mean! Enjoy!

The Mabinogion is to Welsh mythology what the tales of Zeus, Hera, and Apollo are to Greek myth. these tales constitute a powerful work of the imagination, ranking with Tolkien's Lord of the Rings novels and T.H. White's The Once and Future King. Evangeline Walton's compelling rendition of these classic, thrilling stories of magic, betrayal, lost love, and bitter retribution include the encounter between Prince Pwyll and Arawn, the God of Death, which Pwyll survives by agreeing to kill the one man that Death cannot fell, and the tale of bran the blessed and his family's epic struggle for the throne. The Mabinogion is internationally

recognized as the world's finest arc of Celtic mythology; Walton's vivid retelling introduces an ancient world of gods and monsters, heroes, kings and quests, making accessible one of the greatest fantasy sagas of all time.

In this exciting adventure mixed with amazing scientific study, a young, exuberant explorer and geoscientist journeys deep into the Amazon—where rivers boil and legends come to life. When Andrés Ruzo was just a small boy in Peru, his grandfather told him the story of a mysterious legend: There is a river, deep in the Amazon, which boils as if a fire burns below it. Twelve years later, Ruzo—now a geoscientist—hears his aunt mention that she herself had visited this strange river.

Determined to discover if the boiling river is real, Ruzo sets out on a journey deep into the Amazon. What he finds astounds him: In this long, wide, and winding river, the waters run so hot that locals brew tea in them; small animals that fall in are instantly cooked. As he studies the river, Ruzo faces challenges more complex than he had ever imaged. The Boiling River follows this young explorer as he navigates a tangle of competing interests—local shamans, illegal cattle farmers and loggers, and oil companies. This true account reads like a modern-day adventure, complete with extraordinary characters, captivating plot twists, and jaw-dropping details—including stunning photographs

and a never-before-published account about this incredible natural wonder. Ultimately, though, *The Boiling River* is about a man trying to understand the moral obligation that comes with scientific discovery—to protect a sacred site from misuse, neglect, and even from his own discovery.

Written in the 1840s and published here for the first time, Julia Ward Howe's novel about a hermaphrodite is unlike anything of its time--or, in truth, of our own. Narrated by Laurence, who is raised and lives as a man, is loved by men and women alike, and can respond to neither, this unconventional story explores the understanding "that fervent hearts must borrow the disguise of art, if they would win the right to express, in any outward form, the internal fire that consumes them." Laurence describes his repudiation by his family, his involvement with an attractive widow, his subsequent wanderings and eventual attachment to a sixteen-year-old boy, his own tutelage by a Roman nobleman and his sisters, and his ultimate reunion with his early love. His is a story unique in nineteenth-century American letters, at once a remarkable reflection of a largely hidden inner life and a richly imagined tale of coming of age at odds with one's culture. Howe wrote "The Hermaphrodite" when her own marriage was challenged by her husband's affection for another man--and when prevailing

notions regarding a woman's appropriate role in patriarchal structures threatened Howe's intellectual and emotional survival. The novel allowed Howe, and will now allow her readers, to occupy a speculative realm otherwise inaccessible in her historical moment.

If emulated minds are just software, then there ' s no reason why Will wouldn ' t mind having his consciousness take a ride in the body of a Playbot... So Claire decides to take matters into her own hands and teach Will a very important lesson by downloading a copy of his mind while he ' s asleep... Soon Will is waking up in an

Futa World 1: OriginsLara Longstaff

"Part historical narrative, part genealogical detective work," this is the true story of an African American family in Maryland over six generations (Library Journal). Using diaries, court records, legal documents, books, paintings, photographs, and oral histories, From Slave Ship to Harvard traces a family—from the colonial period and the American Revolution through the Civil War to Harvard and finally today—forming a unique narrative of black struggle and achievement. Yarrow Mamout was an educated Muslim from Guinea, brought to Maryland on the slave ship Elijah. When he gained his freedom forty-four years later, he'd become so well known in

the Georgetown section of Washington, DC, that he attracted the attention of the eminent portrait painter Charles Willson Peale, who captured Yarrow's visage in the painting on the cover of this book. Yarrow's immediate relatives—his sister, niece, wife, and son—were notable in their own right. His son married into the neighboring Turner family, and the farm community in western Maryland called Yarrowsburg was named for Yarrow Mamout's daughter-in-law, Mary "Polly" Turner Yarrow. The Turner line ultimately produced Robert Turner Ford, who graduated from Harvard University in 1927. Just as Peale painted the portrait of Yarrow, James H. Johnston's new book puts a face on slavery and paints the history of race in Maryland, where relationships between blacks and whites were far more complex than many realize. As this one family's experience shows, individuals of both races repeatedly stepped forward to lessen divisions, and to move America toward the diverse society of today. Futanari erotica! There, he began building bombs, which he sent to professors and executives to express his disdain for modern society, and to work on his magnum opus, Industrial Society and Its Future, forever known to the world as the Unabomber Manifesto. Responsible for three deaths and more than twenty casualties over two decades, he was finally identified and apprehended when his brother recognized his writing style while reading the 'Unabomber Manifesto.' Not Made by Slaves describes the efforts of early-nineteenth-century businesses to end plantation slavery by promoting commerce in "legitimate" goods. Exploring the work of activists and businesses, Bronwen Everill adds an important dimension to the history of capitalism and its development under slavery.

Born to a wealthy family in West Africa around 1770, Omar Ibn Said was abducted and sold into slavery in the United States, where he came to the attention of a prominent North Carolina family after filling "the walls of his room with piteous petitions to be released, all written in the Arabic language," as one

local newspaper reported. Ibn Said soon became a local celebrity, and in 1831 he was asked to write his life story, producing the only known surviving American slave narrative written in Arabic. In *A Muslim American Slave*, scholar and translator Ala Alryyes offers both a definitive translation and an authoritative edition of this singularly important work, lending new insights into the early history of Islam in America and exploring the multiple, shifting interpretations of Ibn Said's narrative by the nineteenth-century missionaries, ethnographers, and intellectuals who championed it. This edition presents the English translation on pages facing facsimile pages of Ibn Said's Arabic narrative, augmented by Alryyes's comprehensive introduction, contextual essays and historical commentary by leading literary critics and scholars of Islam and the African diaspora, photographs, maps, and other writings by Omar Ibn Said. The result is an invaluable addition to our understanding of writings by enslaved Americans and a timely reminder that "Islam" and "America" are not mutually exclusive terms. The story of freedom pivots on the choices black women made to retain control over their bodies and selves, their loved ones, and their futures. The story of freedom and all of its ambiguities begins with intimate acts steeped in power. It is shaped by the peculiar oppressions faced by African women and women of African descent. And it pivots on the self-conscious choices black women made to retain control over their bodies and selves, their loved ones, and their futures. Slavery's rise in the Americas was institutional, carnal, and reproductive. The intimacy of bondage whet the appetites of slaveowners, traders, and colonial officials with fantasies of domination that trickled into every social relationship—husband and wife, sovereign and subject, master and laborer. Intimacy—corporeal, carnal,

quotidian—tied slaves to slaveowners, women of African descent and their children to European and African men. In *Wicked Flesh*, Jessica Marie Johnson explores the nature of these complicated intimate and kinship ties and how they were used by black women to construct freedom in the Atlantic world. Johnson draws on archival documents scattered in institutions across three continents, written in multiple languages and largely from the perspective of colonial officials and slave-owning men, to recreate black women's experiences from coastal Senegal to French Saint-Domingue to Spanish Cuba to the swampy outposts of the Gulf Coast. Centering New Orleans as the quintessential site for investigating black women's practices of freedom in the Atlantic world, *Wicked Flesh* argues that African women and women of African descent endowed free status with meaning through active, aggressive, and sometimes unsuccessful intimate and kinship practices. Their stories, in both their successes and their failures, outline a practice of freedom that laid the groundwork for the emancipation struggles of the nineteenth century and reshaped the New World.
