

Gabe Scifi Alien Invasion Romance Hell Squad Book 3

Robyn is a woman of medicine with a heart seeking companionship. She had no idea she would find her love in two cyborg men who become much more than the heroes of her heart! Meeting and dating two handsome and intelligent men changed Dr. Robyn Atkinson's view of relationships. But waking up the next morning with two consorts wasn't the only surprise that day. She would be thrust into the heat of an alien attack, one that would shape the future of humanity—and the future of their relationship. Would foundation they were attempting to build? A stand-alone story with guaranteed HEA! -- SEARCH TERMS: cyborg romance, cyborg menage romance, hot cyborgs, alien menage romance, menage erotica romance, mfm with mm, a trois roman, interracial love triangle romance, alpha male alien romance, alpha male romance, scifi alien romance, alien abduction romance, alpha male aliens, alien fantasy books, alien romance, aliens, scifi romance, Space opera romance, science fiction romance, steamy science fiction romance fiction books, paranormal sex, fantasy fiction, psychic romance, steamy paranormal romance

The classic post-apocalyptic thriller with "all the reality of a vividly realized nightmare" (The Times, London). Triffids are odd, interesting little plants that grow in everyone's garden. Triffids are no more than mere curiosities—until an event occurs that alters human life forever. What seems to be a spectacular meteor shower turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own country, attacking humans and inflicting pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he may be the only one who can save his species from chaos and eventual extinction. . . . With more than a million copies sold, The Day of the Triffids is a landmark of speculative fiction, and "an outstanding and entertaining novel" (Library Journal). "A thoroughly English apocalypse, it rivals H. G. Wells in co-

addresses Wyndham so much."— Ramsey Campbell "One of my all-time favorite novels. It's absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery." —Joe R. Lansdale

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial

1898, and is considered a classic of English literature.

As the battle against the invading aliens intensifies, a group of bad boy bikers and mercenaries will stand and fight for humanity's survival..Squad Three berserker Griff lived through hell long before the alien invasion. Once, he'd been a dedicated cop, but then in a gut-wrenching betrayal, he ended up behind bars in a supermax prison. After the aliens invaded, he managed to escape and join the soldiers fighting back...and came face to face with his best friend's little sister—the bold, vibrant, off-limits woman he's always guts.Indy Bennett lost her parents and brother in the alien attack, and every day, she vows to suck the marrow out of life. She's also doing her bit in the fight, as Squad Three's comms officer, even if it means seeing the man who broke her young heart. Griff was once her brother's best friend, a boy she adored, but now she knows she needs to steer clear of the hard-edged man who still draws her like a moth to a flame.Griff vows to claim Indy as his. The only problem is, Indy is having none of it. As their fiery attraction

weapon, and a mysterious survivor town where all is not what it seems. Both Griff and Indy will have to learn to let go of the hurts of the past if they have any chance of not just surviving, but having a future.

The Silver Sarcophagus

A masterful blend of horror, science fiction, and pulse-pounding thrills, the first book in Nicholas Sansbury Smith's bestselling Orbs series introduces the last survivors of an alien invasion. The year is 2061, and the planet is dying. Cataclysmic solar storms have forced leaders from around the world to finally put aside their differences and agree on one thing—to jump ship. The human race is headed to Mars. Dr. Sophie Winston is hired by New Tech Corporation to test a biosphere deep within the heart of Cheyenne Mountain; a mission she believes will help prepare the company for the three-year flight to the red planet. But, just days into the assignment, things start to go wrong. When the blast doors hiss open, Winston's team finds a changed world outside. Humans are gone, vanished without a trace, and they aren't the only thing missing. The planet's water is gone, too. As the team explores their surroundings, they find thousands of luminous blue orbs lining the streets. It isn't until they uncover what's inside that they realize the nightmare that lies ahead. And what it means for our most important resource...

Contains author, title, and publishing information, and plot summaries

In this steamy, suspenseful, new novel from RTA Award-winning author Linea Sinclair, a dangerously sexy space commander and an irresistibly earthy Florida police detective pair up to save the civilized galaxy. . . . but can they save themselves from each other? Bahia Vista homicide detective Theo Petrakos thought he'd seen it all. Then a mummified corpse and a room full of futuristic hardware sends Guardian Force commander Jorie Mikkalah into his life. Before the night's through, he's become her unofficial partner—and official prisoner—in a race to save the earth. And that's only the start of his troubles. Jorie's mission is to stop a deadly infestation of biomechanical organisms from using Earth as its breeding ground. If she succeeds, she could save a world and win a captaincy. But she'll need Theo's help, even if their unlikely partnership does threaten to set off an intergalactic incident. Because if she fails, she'll lose not just a planet and a promotion, but a man who's become far more important to her than she cares to admit. From the Paperback edition.

The Illustrated Man

DISPUTE BETWEEN TENANTS AND LANDLORDSTHE TENANT'S WRATH(previously published as Outrageous Humans on Exoplanet) is a novel that has been written according to author's experience in living as a tenant. The author had tenanted in nine local houses from 2005 to 2010, before shifting to his own building in 2010(Please, see attached video on author page). While living in this building, he published his book in Kiswahili titled "HASIRA ZA MPANGAJI(The Tenant's Wrath)' in January 2012. This work had only 112 pages and it included only 500 printed copies.He employed it to extract some more data from other tenants as he walked with his book in streets. The author continued to tenant after shifting from his own house in 2015. Now, he has an experience of more than thirteen tenants in local houses. There are nightmare tenants and troublesome landlords in some tenancies. How this report is presented?. Through appreciating efforts that are done in space technology and exoplanology.Technology has drastically developed nowadays and, keeps on advancing rapidly. This has not left behind exoplanetology and space technology(let's appreciate how curiosity rover was positioned on mars). Presently, we are able to live outside our customized planet for several months. Due to it, we know the biological impact of lacking earth's gravitational force. For instance, cardiovascular behavior of the human body when it's in weightlessness environment.The laboratory built outside the world by exceptionally committed scientists, International Space Station(ISS), is another justification of technology improvement. With the strength of current technologies, humans can get physically to 'ISS' building through the support of space shuttles, as it was the case of Atlantis and Soyuz in 2010. And, SoyuzTMA-14M space craft in September 2014, etc. Now, this is only 21st century, what about 1100 years later?. Let's imagine technological advancement in 33rd century. The book lets a reader generate possible answers to it. At the same time, enjoying peculiar relationship between tenants and house owners. The report on how landlords and tenants live together, is assumed to be written in 34th Century, one century after the first signal indicating aliens' presence is detected. A fictional reporter from earth, writes it after voyaging to aliens' exoplanet. This exoplanet has aliens who are very angry by nature.In 34th century, when earthlings start to interact with aliens, some aliens take advantage of interplanetary mobility by harnessing wisdom from earth's very wise ancestors. These are like John F.Kennedy(1917-1963), John Lennon (1940-1980), Bertrand Russell(1872-1970),David O.McKay(1873-1970), Sarah Josepha Hale(1788-1879), Johann von Goethe(1749-1832), Abraham Lincoln(1809-1865), Benjamin Disraeli(1804-1881),Henry Wadsworth Longfellow (1807-1882),Mischel(1968), and many others. How do they employ our ancestors to benefit their wrathful nature?. The reporter has everything.The reporter does a thorough research on aliens' culture including their science, daily life, food style, theology,landlord-tenant relationship, education system and others. Then, he writes a report which he forwards it to his fellow earthlings. It takes only a month for emailed report to reach planet earth.

A deep space explosion In R1space sends Captain Gilliane Davre three hundred and fifty years into the future, where her likeness graces every shrine, and her accident has been recorded in history as a divine sacrifice. Anonymity and lies seem her only options. Then a long-time enemy attacks, again. Can Gillie stop the invasion without revealing her identity, and losing the man she loves? Winner of the RT Gold Medal.

The J. Lloyd Eaton Conferences on Science Fiction and Fantasy Literature--held at the University of California, Riverside--have been a major influence in the study of science fiction and fantasy for thirty years. The conferences have attracted leading scholars whose papers are published in Eaton volumes found in university libraries throughout the world. This collection brings together 22 of the best papers--most with new afterwords by the authors--presented in chronological order to show how science fiction and fantasy criticism has evolved since 1979.

A rogue element is affecting space and time in the star system of Sol, with the intention of resurrecting a long dead planet between Mars and Jupiter. Asteroids are disappearing, so members of the secret Australian Military Space Fleet IFO base under the Northern Territory, and the Special Operations Section of JAXA, gather to help. Who is the Homo Galacticus that can manipulate reality, and what is his motive? Where are the asteroids disappearing to? And why are alien worms taking rocks from the sea bed of Earth? While planets are displaced and time-phoons ravage Earth, Gabriel flits between realities, speaking with planetary consciousnesses, intergalactic aliens, and sixth density entities, attempting to find the solution before Jupiter turns into a supernova. Can Gabriel, the Terran IFO groups, the Large Magellanic Cloud Alien Characters, and several alternate Earth grey aliens work together to prevent the destruction of the Solar System? And, more importantly, will Gabriel and Hoshiko finally get it together? Find out more in Gabriel and the Resurrection of Maldek. Book #2 in the Galactic Missions Series.

What Is the Story of Doctor Who?

A Far-Future Sequel to Wintertide

The Martian War

For fans of Rick Yancey and Marie Lu, Undertow is book one in this much-anticipated, genre-breaking, breath-catching new trilogy for teens from New York Times bestselling author Michael Buckley in which a 16-year-old girl is caught in an epic clash of civilizations when a society of undersea warriors march out of the ocean into modern-day Coney Island. "If China Mi é ville, Neil Gaiman and Hunter S. Thompson had a m é nage à trois, Dead Boys would be the lovechild. A cracking book." —Jay Kristoff, author of Stormdancer A decade dead, Jacob Campbell is a preservationist, providing a kind of taxidermy to keep his clients looking lifelike for as long as the forces of entropy will allow. But in the Land of the Dead, where the currency is time itself and there is little for corpses to do but drink, thieve, and gamble eternity away, Jacob abandons his home and his fortune for an opportunity to meet the man who cheated the rules of life and death entirely. According to legend, the Living Man is the only adventurer to ever cross into the underworld without dying first. It's rumored he met his end somewhere in the labyrinth of pubs beneath Dead City's streets, disappearing without a trace. Now Jacob's vow to find the Living Man and follow him back to the land of the living sends him on a perilous journey through an underworld where the only certainty is decay. Accompanying him are the boy Remington, an innocent with mysterious powers over the bones of the dead, and the hanged man Leopold l'Éclair, a flamboyant rogue whose criminal ambitions spark the undesired attention of the shadowy ruler known as the Magnate. An ambitious debut that mingles the fantastic with the philosophical, Dead Boys twists the well-worn epic quest into a compelling, one-of-a-kind work of weird fiction that transcends genre, recalling the novels of China Mi é ville and Neil Gaiman. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

"This volume includes all first 3 stories of the Glass Planet Series, The Clear Beings, Gabriel's Objective, and the Silver Sarcophagus (new 2013). An indigynous people on a young planet are accidently invaded by a deep space research team of aliens. And their lives are forever changed. The ancient god-father is displaced, then returns and effects great changes for the now nomadic peoples of his descent. He attempts to aid, but almost destroys them with his love, and then he dies despondantly deep in space. The mystery of his death is solved in the discovery of the Silver Sarcophagus five thousand years later. The ancient beacon is triggered. And these ancient children of the Clear Being await his return."Science-fiction Horror w/Biblical elements.This book seems to be the Atheist test: everyone that starts it gets angry for some reason, even when they claim that they are open-minded atheists. This book is a story of a possibility of the origins of the bible stories, where divine intervention is really anced extraterrestrial intervention. This simple story carries the reader so convincingly for such a long time, then when you realize you are being re-told the bible stories of exodus, then I think people feel tricked. But if it's so real and convincing, then maybe its time for this story. I think most people have been so deeply indoctrinated with God-created origins of life and the sacredness of the bible, that even seriously espoused atheists have trouble being open-minded about it. The Bible is a beautiful ancient work of poetry and story telling. I'm open to it being true history, then how are the miracles explained? By other than beings more experienced and more powerful than us, and we think them Gods; then we believe it's one God. How is God any different than an Alien? God's less real! People say they don't believe in aliens because they've never seen one; but I've never seen this God guy or Jesus, anymore than just in my mind's eye, and 3 billion people on this planet believe in Him. Which is what this book is: a new journey thru possibilities in your mind's eye. See if you can keep your mind open enough to read it all. You can skip the gory parts about aliens eating other aliens if you want; that's in there just for fun. So that is it: it's too similar the comparison: God and Extraterrestrials. Atheists want to try to believe that we are alone in this universe. Utterly alone. Except that science has told us with the proliferation of planets in the millions of galaxies in this universe, the chances of other life forms is almost certain. Which is probably why some people are so adamant. Aliens might be scarier than God because see now that they might actually be real, flesh and blood kind of real. It is as good an argument as the god-created life explanation. Its almost the same argument in fact: superior beings intervened.. And that's why Christians and non-Christians become so upset when they read this book. They feel they're being tricked into a goofy fiction, just like the other one, and they feel they are being made fun of. And that's why it's called fiction; because it probably all is. Aliens and God. The universe that we perceive is what I call "the amazing complexity of life we never fully understand, and half of it is illusion anyway," just to keep it short, at least not until that last 'ah-hah' moment right before we burn up in the black hole that will then explode and become the new universe-reality starting with all new information. Maybe this time we can do without the gossipers? We have lived with this myth of god for so long without him actually showing up, that we have become inured from the fear of it, uh, Him. But then science has told us of the probability of other life, intelligent life, and then modern entertainment has brought aliens to life. And the fear of them actually showing up may be becoming more real for people than a vengeful god. NMR 2014

On the trail of the mystery of Saturn's disappearing moons, network journalist Gaby McAslan finds herself in Africa researching the Kilimanjaro Event: a meteor-strike in Kenya which caused the stunning African landscape to give way to something equally beautiful – and indescribably alien. Dubbed the 'Chaga', the alien flora destroys all man-made materials, and moulds human flesh, bone and spirit to its own designs. But when Gaby finds the first man to survive the Chaga's changes, she realizes it has its own plans for humankind... Against the backdrop of Mount Kilimanjaro, McDonald weaves a staggering tale of keen human observation and speculation, as the Kilimanjaro Event changes the course of the human race by exposure to something beyond its imagination. Note: Chaga was published in the UK under the title Evolution's Shore. REVIEWS "McDonald... consistently explores new territory with his breathtaking images and incisive language. Both form and substance blend fortuitously in a work that features strong characters, a suspenseful story, and a profound message of hope and transformation. A priority purchase for SF collections." – Library Journal "One of the finest writers of his generation, who chooses to write science fiction because that is how he can best illuminate the world." – New Statesman "...inventive and challenging... [an] often fascinating piece of speculation." – Kirkus

Who HQ brings you the stories behind the most beloved characters of our time. This What Is the Story of? title is out of this universe! Learn the history of the Time Lord, the TARDIS, and the epic battles they've faced across time and space. When Doctor Who began airing on the BBC in 1963, British audiences were introduced to the rogue Time Lord from the planet Gallifrey. Now, viewers from all over the world are glued to their screens for the mysterious Doctor's intergalactic adventures. But how did this time traveler become such a beloved character? Author Gabriel P. Cooper provides readers with the inside scoop on the Doctor's unique time machine, loyal companions, and diabolical foes. This book, just like the show, is sure to intrigue a new generation of fans.

Offers readers a comprehensive reference to the world of film, including more than ten thousand DVD titles, along with information on performers, ratings, running times, plots, and helpful features.

What if the Martian invasion was not entirely the product of H. G. Wells's vivid imagination? What if Wells witnessed something that spurred him to write The War of the Worlds as a warning? From drafty London flats to the steamy Sahara, to the surface of the moon and beyond, The Martian War takes the reader on an exhilarating journey with Wells and his companions.

Eighteen science fiction stories deal with love, madness, and death on Mars, Venus, and in space.

Alien's True Mate

Orbs

A film, video, and DVD guide for the true lover of the cinema, this volume focuses on independent and international films as well as the best of the mainstream. 450 photos throughout.

Roth Masters is a protector to the bone. Driven by the losses of his past, he fights side-by-side with Hell Squad to protect the human survivors of the alien invasion. As leader of Squad Nine, he and his team are known for their perfect timing in a firefight. But Roth knows they need more intel on the raptor invaders-something to turn the tide of the battle. And he knows the woman he rescued from an alien facility is hiding secrets he desperately wants to uncover. Former Coalition Central Intelligence Agent Avery Stillman is still adjusting to her new life. Left with terrible gaps in her memory, she has vague recollections of failed negotiations with the aliens, the invasion, and after that...nothing. Until a hard-bodied soldier pulled her from a tank in an alien lab. Now she's trying desperately to remember, to help fight back, and also battling the crazy attraction to the man who keeps pushing her for things she can't remember. Soon Roth finds himself torn between his duty and keeping the strong woman he's falling for safe. As the pair head into alien territory to investigate, they are attacked and crash land alone, far from base. They have to work together to survive the aliens, but when Avery finally remembers everything...her secrets could annihilate all they hold dear.

Alien's True MateScience Fiction Alien Romance Collection Box Set

The futures of both mankind and an alien species rest in the hands of one hybrid son in the award-winning science fiction author's masterful sequel to Dawn. Nuclear war had nearly destroyed mankind when the Oankali came to the rescue, saving humanity—but at a price. The Oankali survive by mixing their DNA with that of other species, and now on Earth they have permitted no child to be born without an Oankali parent. The first true hybrid is a boy named Akin—son of Lilitth Iyapo—and to the naked eye he looks human, for now. He is born with extraordinary sensory powers, understanding speech at birth, speaking in sentences at two months old, and soon developing the ability to see at the molecular level. More powerful than any human or Oankali, he will be the architect of both races' intergalactic future. But before he can carry this new species into the stars, Akin must decide which unlucky souls will stay behind. At once a coming-of-age story, science fiction adventure, and philosophical exploration, Butler's ambitious and breathtaking novel ultimately raises the question of what it means to be human. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate.

When Night Falls

A new novel in New York Times best seller Eric Flint's science fiction Jao Empire series. It has become clear to both the Jao and their human and Lleix partners that if they are going to defeat the Ekhat who have been terrorizing the galaxy for eons, they need more allies. To that end, Preceptor Ronz, guardian of Earth and greatest living strategist of the Jao, has harnessed the energy of Earth's humans to create and send out an exploration team under the command of Caitlin Kraik. But after a long search, all the expedition has found are dead worlds and now-extinct intelligent species slaughtered by the genocidal Ekhat. Do they continue to search down the galactic arm in which Earth and the Jao worlds lie, or do they make an astounding leap in another direction? With friends like Gabe Tully, Tamt, Wrot and Casewite Miller supporting her, Caitlin makes her decision. Meanwhile, the Ekhat, as murderous and destructive as they have always been, have a new generation of leaders growing into power who are even more implacable than those who have gone before them. The Ekhat have not forgotten the Jao, nor the damage they have done over the years to the Ekhat purpose. It's up to the Jao-human-Lleix confederation and the new allies they make to survive the onslaught and turn the tables on the Ekhat. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Jao Empire series entry #2 The Course of Empire by Eric Flint & K.D. STEAMY HOT SCI-FI ALIEN ROMANCE COLLECTION'S Standalone Romance Short Stories With No Cliffhanger
Cyborg Heart Sometimes being broken makes you come back stronger! Reilly MacAllister is a scientist that has just made a breakthrough that will change the world forever. To her shock, this makes her a prime target in a sudden, brutal alien invasion of the Earth. With Maksim, a rough-edged, cybernetically-enhanced mercenary to protect her, she must do whatever it takes to escape the rapidly advancing alien forces so she can get her all-important data into the right hands. Can she survive the ruin of America's capital? Is there still a chance to save herself and humanity? And which is truly the greater danger, the inhuman hordes or the fascinating darkness she sees lurking beneath her bodgyard's eyes? Precious Cargo
Captain Leticia "Tish" Williams doesn't pick up passengers but when Fleet U'rbech, a handsome blue-skinned alien, makes her an offer she can't refuse, Tish finds herself with a companion who might be more trouble than he's worth. Captain Leticia "Tish" Williams is a down-on-her-luck freighter pilot, stubbornly holding onto her father's cargo ship while her fiancé, a high ranking officer in the Intergalactic Alliance, begs her to give up and get a good, steady government job. Tish's life gets only more complicated when she picks up a passenger, Dr. Fleet U'rbech—a sexy, blue-skinned alien with a secret—he is number one on the Intergalactic Alliance's most wanted list. Tish and Fleet have to flee across the galaxy on a mission to save his home planet, dodging asteroids, IG ships and an indescribable attraction that becomes more and more electric as they near Fleet's home planet. Can Tish deliver her cargo and passenger without succumbing to his alien charms?
Cyborg Love
All the cyborgs want is the chance to live, but they have to fight for it. Cyborgs aren't meant to live. They're monsters, created by the Government to fight. When they went wrong, they should have been killed there and then... Eve hates the cyborg army because they killed her brother. She doesn't care that they've got a consciousness; she doesn't consider them human. They shouldn't be here anymore. However, her path for revenge leads her to the very hot javier, a cyborg that teaches her she isn't always right. As he takes her on a journey she hasn't expecting, she learns that maybe she hasn't ever been supporting the right side. As more shocks and secrets are revealed, she recognizes the world needs a massive change, and that she might have to help make that change come about. Taken by the Aliens
Young, beautiful Tessa Sealand goes into space to find adventure. As a stowaway in a space carrier she is apprehended as soon as she reaches Station One, on the farthest Edge of human known space. She is arrested and put into the brig. From there things can only go up. Released from the brig and working at a lowly perfume stall, she becomes embroiled in an altercation that threatens the security of Station One, and could have intergalactic repercussions! What it starts looking like dangerous terrorists are trying to kill her she has the bad timing to fall in love with not one, but two aliens! She had not been looking for love, but cannot help how she feels. As the danger deepens and her relationship with the two aliens deepens, she begins to wonder whether she will live to explore the new reaches of her heart. Well, Tessa has always believed that space is filled with possibilities. She now has possibilities! Her Cyborg Heroes
Robyn is a woman of medicine with a heart seeking companionship. She had no idea she would find her love in two cyborg men who become much more than the heroes of her heart! Meeting and dating two handsome and intelligent men changed Dr. Robyn Atkinson's view of relationships. But waking up the next morning with two consorts wasn't the only surprise that day. She would be thrust into the heat of an alien attack, one that would shape the future of humanity—and the future of their relationship. Would they be able to survive this invasion together, or would it ultimately destroy the very delicate foundation they were attempting to build?

The Battle for Earth has begun. Victoria's dreams of a cozy life as a small-town doctor come crashing down when the monstrous Kryptids make first contact. The alien invaders have only one goal: to turn Earth into a breeding ground. As she fights to protect her patients in their makeshift hospital, an even more fearsome alien and his beast enter the fray. She should be terrified of the male ominously named Doom. But she's mesmerized. As a genetically engineered war machine, Doom lives for a single purpose: eradicating the Kryptids. Coming to Earth with his brothers to save the humans should be a straightforward matter. But years of bloody battles throughout the galaxy have not prepared him for the fiery Victoria. Enchanted by the courage of that wisp of a woman, Doom offers her his protection and that of his fearless war beast, Stran, as she attempts to rescue other wounded humans. After disaster strikes their homeworld, the Xian Warriors now also face extinction. Will the Kryptids finally defeat their only real threat, or will the delicate human that has stolen both of Doom's hearts also be the Warriors' seed of hope?

For Family. For Honor. Discarded by her husband who then sells her as a pleasure worker, Hope secretly enters into an indentured Servant contract with a strip club owner to avoid being given to an unknown master. But she soon realizes that he has not only conned her into endless servitude, he also has nefarious plans involving her child. Desperate, she turns to a broker to find a new buyer for her contract. As soon as she meets the buyer, a Brazilian giant named Krygor, with a fearsome face and the body of a god, Hope knows the Goddess has finally answered all of her prayers. When Krygor comes to Lilitth Hive for business and leisure, the last thing he expects is to fall hard for a delicate beauty and feel so paternal towards her teenage daughter, both in desperate need of his protection. Hope awakens in him feelings he had banished after getting his heart torn to shreds by his first love. But a broken heart quickly becomes the least of his worries when enemies from his past use his females to capture him. They shouldn't have messed with the most insane of the Brazilian Berserkers. They may think they have him at their mercy, but Krygor will bathe in their blood for daring to threaten what's his. Warning: this book contains scenes of violence that may not be suitable for sensitive reader.

Krygor's Hope

Lost in Barbarian Space

Based on the gripping ten-part miniseries. . . . Three people know the truth. Three families will be changed forever. In the last days of World War II, a strange phenomenon saves a doomed Air Force pilot named Russell Keys—and plunges him into torment. In a place called Roswell, New Mexico, a man named Owen Crawford is drawn to a bizarre crash site in the desert, and into a government cover-up. And in a remote Texas town, a lonely woman named Sally Clarke finds a stranger hiding in her barn, and reaches out to touch him. . . . This epic novel spans sixty years of American history as the lives of three people are changed in an instant—and the consequences are played out over three generations of harrowing encounters and unexplained events. While the government lies, and a nation doubts, three families know they have been touched, know that something has been taken from them. . . . something that will change their lives forever.

"This debut has it all: music, books, aliens, adventure, resistance, queerness, and a bold heroine tying it all together. "—Ms. Magazine Can a girl who risks her life for books and an Ilori who loves pop music work together to save humanity? When a rebel librarian meets an Ilori commander... Two years ago, a misunderstanding between the leaders of Earth and the invading Ilori resulted in the death of one-third of the world's population. Today, seventeen-year-old Ellie Baker survives in an Ilori-controlled center in New York City, all art, books and creative expression are illegal, but Ellie breaks the rules by keeping a secret library. When young Ilori commander Morris finds Ellie's illegal library, he's duty-bound to deliver her for execution. But Morris isn't a typical Ilori...and Ellie and her books might be the key to a desperate rebellion of his own. "The Sound of Stars is a marvelous genre-bending debut."—The Nerd Daily "The Sound of Stars is a stunning exploration of the comforts that make us human and the horrors that challenge our humanity."—K. Ancrum, author of The Wicker King "This book has everything! Aliens set on conquering earth! A determined heroine with a hidden stash of books! And the power of music and stories to give those with every reason to hate the power to love. Who could want anything more?"—Jeffie Charbonneau, New York Times bestselling author of The Testing and Verify "An absolute must-read for everyone."—Book Riot "Dow's debut is a testament to hope and the power of art."—Buzzfeed Also by Alechia Dow: The Kindred

As plague ravages the overcrowded Earth, observed by a ruthless lunar people, Cinder, a gifted mechanic and cyborg, becomes involved with handsome Prince Kai and must uncover secrets about her past in order to protect the world in this futuristic take on the Cinderella story. Battle-hardened soldier Cruz Ramos is running on empty. As second-in-command of the deadliest commando squad fighting the invading aliens, he doesn't know why he's fighting anymore. He's seen too much destruction, devastation, and far too much death. Still, every day he goes out to protect those humans left, and every day the growing numbness threatens to take over. Until a mysterious woman emerges from the ruins of destroyed Sydney and saves him from a pack of rampaging aliens. Santha Kade has one goal: revenge. The raptors who have devastated the Earth have taken everything from her: her team, her home, her beloved sister. Santha-a former police officer-has spent a year alone in the ruined city, waging her own guerrilla war. Sure, she might get lonely sometimes, but she doesn't have room for anything but vengeance. Not even

for a sexy soldier with liquid brown eyes, a bone-melting accent, and a face designed to drive a woman wild. But as Cruz and Santha join forces to rescue human hostages from the aliens, their explosive attraction is impossible to resist. Can these two warriors survive long enough to find something worth living for?

Bridges to Science Fiction and Fantasy

Book One of the Lunar Chronicles

From the author of *Ready Player One*, a rollicking alien invasion thriller that embraces and subverts science-fiction conventions as only Ernest Cline could. *Zack Lightman has never much cared for reality. He vastly prefers the countless science-fiction movies, books, and videogames he's spent his life consuming. And too often, he catches himself wishing that some fantastic, impossible, world-altering event could arrive to whisk him off on a grand spacefaring adventure. So when he sees the flying saucer, he's sure his years of escapism have finally tipped over into madness. Especially because the alien ship he's staring at is straight out of his favorite videogame, a flight simulator called Armada--in which gamers just happen to be protecting Earth from alien invaders. As impossible as it seems, what Zack's seeing is all too real. And it's just the first in a blur of revelations that will force him to question everything he thought he knew about Earth's history, its future, even his own life--and to play the hero for real, with humanity's life in the balance. But even through the terror and exhilaration, he can't help thinking: Doesn't something about this scenario feel a little bit like...well...fiction? At once reinventing and paying homage to science-fiction classics as only Ernest Cline can, Armada is a rollicking, surprising thriller, a coming-of-age adventure, and an alien invasion tale like nothing you've ever read before.*

Miles Stone and his unusual partner Alice fight for survival in a future world devastated by war. Together they begin to construct a powerful weapon, but what horrors will await them after its completion?

By the time the scientific expedition from Earth reaches Nardyl, they find devastation instead of the advanced civilization they had expected? A world where the survivors now live, or die, by the sword. Tessa becomes the spoils of war?the female taken captive by the strongest male. Genre: BDSM/Futuristic/Sci-Fi/Erotica Romance

Celebrate the Power Rangers' 25th anniversary with this eye-witness account of Angel Grove's earliest invaders. Take a trip across the cosmos with this comprehensive guide to the original alien invasions in Angel Grove. Big, bad and purple. It was supposed to be a simple job. Grab some specimens from Earth and sell them on the interstellar black markets. In and out, with no one the wiser, except Tren accidentally abducts a human. A barbaric female, who doesn't know how to be quiet and obey. That will affect her selling price especially since she only possesses two breasts, and a single mouth. Yet, in spite of her shortcomings there is something about her spitfire nature that intrigues him. Maybe he should keep her. He's definitely not keen on getting rid of her after he seduces her. A space pirate doesn't usually fall in love, but when an enemy decides to take Megan, Tren realizes he will do anything to get her back Alien Abduction series: Accidental Abduction, Intentional Abduction, Dual Abduction, Mercenary Abduction, Heroic Abduction, Holiday Abduction, Reader Abduction, Reverse Abduction Genre: science fiction romance, space opera, comedy, humor, space adventure, space exploration, sci-fi romance, fantasy romance, paranormal romance, futuristic romance, alpha male

Liam has wanted Andrea ever since the moment he saw her, but she's human and he is drakoni. He must keep his mental walls strong by giving up everything that makes him a dragon. That means no telepathy, no fire breathing and no battle form, and he certainly can't take a mate. When Andrea's brother escapes the fort, though, she needs help tracking him down. That means Liam will be alone with her, breathing in her scent, and it may be too much for him to control.

[[Viscera] is dark, weird, and wonderfully human, and I cannot recommend it enough. It's far and away the weirdest, most original thing you will read this year, and Gabriel Squallia gives it heart that matches its entrails beat-for-beat.]] [[B&N Sci-Fi & Fantasy Blog The Gone-Away gods were real, once, and taller than towers. But they're long dead now, buried in the catacombs beneath the city of Eth, where their calcified organs radiate an eldritch power that calls out to anyone hardy enough to live in this cutthroat, war-torn land. Some survivors are human, while others are close enough, but all are struggling to carve out their lives in a world both unforgiving and wondrous. Darkly comic and viciously original, Viscera is an unforgettable journey through swords-and-sorcery fantasy where strangeness gleams from every nook and cranny. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.
