A collection of essays from today's most acclaimed authors—from Cheryl Strayed to Roxane Gay to Jennifer Weiner, Alexander Chee, Nick Hornby, and Jonathan Franzen—on the realities of making a living in the writing world. In the literary world, the debate around writing and commerce often begs us to take sides: either writers should be paid for everything they do or writers should just pay their dues and count themselves lucky to be published. You should never quit your day job, but your ultimate goal should be to quit your day job. It's an endless, confusing, and often controversial conversation that, despite our bare-it-all culture, still remains taboo. In Scratch, Manjula Martin has gathered interviews and essays from established and rising authors to confront the age-old question: how do creative people make money? As contributors including Jonathan Franzen, Cheryl Strayed, Roxane Gay, Nick Hornby, Susan Orlean, Alexander Chee, Daniel Jose Older, Jennifer Weiner, and Yiyun Li candidly and emotionally discuss money, MFA programs, teaching fellowships, finally getting published, and what success really means to them, Scratch honestly addresses the tensions between writing and money, work and life, literature and commerce. The result is an entertaining and inspiring book that helps readers and writers understand what it's really like to make art in a world that runs on money—and why it matters. Essential reading for aspiring and experienced writers, and for anyone interested in the future of literature, Scratch is the perfect bookshelf companion to On Writing, Never Can Say Goodbye, and MFA vs. NYC.

As Wesley experiments, he finds that the plant will provide food, clothing, shelter, and even recreation. It isn't long before his neighbors and classmates develop more than an idle curiosity about Wesley — and exactly how he is spending his summer vacation. Presents twenty drawing and design projects, including hieroglyphics, tattoos, super-heroes, and African sculpture.

This collection of Japanese fairy tales is the outcome of a suggestion made to me indirectly through a friend by Mr. [Name]. They have been translated from the modern version written by Sadanami Sanjin. These stories are not literal translations, though the Japanese story and all quaint Japanese expressions have been faithfully preserved, they have been told more in a way to interest young readers of the West than the technical student of folk-lore.... In telling these stories in English I followed my fancy in adding such touches of local color or description as they seemed to need or as pleased me, and in some instances I have gathered in an incident from another version. At all times, among my friends, both young and old, European and American, I have always found eager listeners to the beautiful legends and fairy tales of Japan, and in telling them I found that they were still unknown to the vast majority...

Creative art activity fun for children age 5 and up. Georgia Eldridge Hanley's "The One-Eyed Fairies" may seem like a fairytale book, however, that is actually quite far from the truth. In actuality, this book is a craft book initially aimed at young girls to teach them how to make accessories for their dolls. Written in an easy-to-understand way, the book manages to get child readers excited to start making their own. An excellent first read for a budding artist, this book has captured readers for decades.
