

# George Washington True Patriot Heroes Of History

When the Revolutionary War began, the odds of a united, continental effort to resist the British seemed nearly impossible. Few on either side of the Atlantic expected thirteen colonies to stick together in a war against their cultural cousins. In this pathbreaking book, Robert Parkinson argues that to unify the patriot side, political and communications leaders linked British tyranny to colonial prejudices, stereotypes, and fears about insurrectionary slaves and violent Indians. Manipulating newspaper networks, Washington, Jefferson, Adams, Franklin, and their fellow agitators broadcast stories of British agents inciting African Americans and Indians to take up arms against the American rebellion. Using rhetoric like "domestic insurrectionists" and "merciless savages," the founding fathers rallied the people around a common enemy and made racial prejudice a cornerstone of the new Republic. In a fresh reading of the founding moment, Parkinson demonstrates the dual projection of the "common cause." Patriots through both an ideological appeal to popular rights and a wartime movement

against a host of British-recruited slaves and Indians forged a racialized, exclusionary model of American citizenship. Hungry, cold, and discouraged in the battle against the mighty empire of Great Britain, America's patriots were led on to victory by General George Washington (1732-1799). When the War of Independence was won at last, a new land of liberty required a new kind of leadership. The people of the United States of America chose their hero, George Washington to be their first president. George accepted, and he led the young nation not as a king but as a servant who willingly gave up his power when his service done. For this remarkable act, even Great Britain's king said, "George is the greatest character of this entire age."Whether reading for themselves or being read to, children love the captivating rhyming poems and unforgettable color illustrations of the Heroes of History for Young Readers series. Pages: 32 (hardcover, fully illustrated)Ages: 5-10

A vivid and timely re-examination of one of young America's most complicated figures: the war hero turned infamous traitor, Benedict Arnold. Proud and talented, history now remembers this conflicted man solely through the lens of his last desperate act

of treason. Yet the fall of Benedict Arnold remains one of the Revolutionary period's great puzzles. Why did a brilliant military commander, who repeatedly risked his life fighting the British, who was grievously injured in the line of duty, and fell into debt personally funding his own troops, ultimately become a traitor to the patriot cause? Historian Joyce Lee Malcolm skillfully unravels the man behind the myth and gives us a portrait of the true Arnold and his world. There was his dramatic victory against the British at Saratoga in 1777 and his troubled childhood in a pre-revolutionary America beset with class tension and economic instability. We witness his brilliant wartime military exploits and learn of his contentious relationship with a newly formed and fractious Congress, fearful of powerful military leaders, like Arnold, who could threaten the nation's fragile democracy. Throughout, Malcolm weaves in portraits of Arnold's great allies—George Washington, General Schuyler, his beautiful and beloved wife Peggy Shippen, and others—as well as his unrelenting enemy John Adams, British General Clinton, and master spy John Andre. Thrilling and thought-provoking, *The Tragedy of Benedict Arnold* sheds new

### Valiant Ambition

A vibrant and original perspective on the American Revolution through the stories of the five great artists whose paintings animated the new American republic. The images accompanying the founding of the United States--of honored Founders, dramatic battle scenes, and seminal moments--gave visual shape to Revolutionary events and symbolized an entirely new concept of leadership and government. Since then they have endured as indispensable icons, serving as historical documents and timeless reminders of the nation's unprecedented beginnings. As Paul Staiti reveals in *Of Arms and Artists*, the lives of the five great American artists of the Revolutionary period--Charles Willson Peale, John Singleton Copley, John Trumbull, Benjamin West, and Gilbert Stuart--were every bit as eventful as those of the Founders with whom they continually interacted, and their works contributed mightily to America's founding spirit. Living in a time of breathtaking change, each in his own way came to grips with the history they were living through by turning to brushes and canvases, the results often eliciting awe and praise, and sometimes scorn. Their imagery has connected Americans to 1776, allowing us to interpret and reinterpret the nation's beginning generation after generation. The collective stories of these five artists open a fresh window on the Revolutionary era, making more human the figures we have long honored as our Founders, and deepening our understanding of the whirlwind out of which the United States emerged.

In the tradition of his own bestselling masterpieces *The Story of Civilization* and *The*

Lessons of History, Pulitzer Prize-winning historian Will Durant traces the lives and ideas of those who have helped to define civilization, from its dawn to the beginning of the modern world. Heroes of History is a book of life-enhancing wisdom and optimism, complete with Durant's wit, knowledge, and unique ability to explain events and ideas in simple, exciting terms. It is the lessons of our heritage passed on for the edification and benefit of future generations—a fitting legacy from America's most beloved historian and philosopher. Will Durant's popularity as America's favorite teacher of history and philosophy remains undiminished by time. His books are accessible to readers of every kind, and his unique ability to compress complicated ideas and events into a few pages without ever "talking down" to the reader, enhanced by his memorable wit and a razor-sharp judgment about men and their motives, made all of his books huge bestsellers. Heroes of History carries on this tradition of making scholarship and philosophy understandable to the general reader, and making them good reading, as well. At the dawn of a new millennium and the beginning of a new century, nothing could be more appropriate than this brilliant book that examines the meaning of human civilization and history and draws from the experience of the past the lessons we need to know to put the future into context and live in confidence, rather than fear and ignorance.

In graphic art format, presents the life of George Washington, the commander-in-chief of the Continental Army and first president of the United States.

A narrative biography of our sixteenth president, focusing on his impact on history and on

the qualities of his character.

Washington

Hh - Heroes of History Set (1-5): Heroes of History

A Novel

*Only 21 at the start of the America's Revolutionary War, Benjamin Tallmadge was an enthusiastic patriot. Appointed by George Washington to organize intelligence in British-occupied New York, Tallmadge formed the famous Culper Spy Ring, whom he mentions in this volume without giving names. Scenes of battle, the discovery of Benedict Arnold's betrayal, the execution of his classmate, Nathan Hale, were all part of Tallmadge's experiences in the war. Written primarily for his children, this memoir is nevertheless an important document by one of America's great heroes. His description of Washington's parting in New York from his officers after the victory is especially moving and shows a more human side of the great leader. For the first time, this long out-of-print book is available in an affordable, well-formatted edition for e-readers and smartphones. Be sure to LOOK INSIDE or download a sample.*

*This "gripping" history recounts the lives of American patriots who were a part of*

*Arnold's failed Canadian invasion during the Revolutionary War (Thomas Fleming, author of Liberty! The American Revolution). Hundreds of men followed Col. Benedict Arnold in an expedition to capture Quebec in 1775. After Arnold was wounded, his troops found themselves outnumbered and trapped inside the city. Award-winning author and Revolutionary-era historian, Arthur S. Lefkowitz takes a close look at some of the brave veterans who fought in Arnold's failed campaign and explores the extraordinary lives they led afterward. In Benedict Arnold in the Company of Heroes, Lefkowitz paints vividly detailed portraits of early American patriots who continued their fight for independence after Arnold's campaign. Some of the men portrayed include Charles Porterfield (who led troops at Brandwine); Daniel Morgan (the hero of Cowpens); Henry Dearborn and Timothy Bigelow (who fought alongside Arnold at Saratoga); Christian Febiger and Return Jonathan Meigs (who were at the forefront of the attack on Stony Point); Simeon Thayer (who refused to surrender at Fort Mifflin); and Col. Aaron Burr (whose wartime record was overshadowed by his later political career and duel with Alexander Hamilton). Benedict Arnold in the Company of Heroes "will delight readers who are looking for something new about the War of Independence" (John Ferling, author of Almost a Miracle: The American Victory in the War of Independence). Taking place during the most critical period of our nation's birth, The First Conspiracy tells a remarkable and previously untold piece of American history that not only reveals George Washington's character, but also illuminates the origins of America's*

*counterintelligence movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington's bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeiterers, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot against him in the tumultuous days leading up to July 4, 1776. Praise for The First Conspiracy: "This is American history at its finest, a gripping story of spies, killers, counterfeiterers, traitors?and a mysterious prostitute who may or may not have even existed. Anyone with an interest in American history will love this book." —Douglas Preston, #1 bestselling author of The Lost City of the Monkey God "A wonderful book about leadership?and it shows why*

*George Washington and his moral lessons are just as vital today. What a book. You'll love it.* —President George H.W. Bush  
*"This is an important book: a fascinating largely unknown chapter of our hazardous beginning, a reminder of why counterintelligence matters, and a great read."* —President Bill Clinton

*The only book published in commemoration of the bicentenary of George Washington's death, Patriot Sage offers a fresh portrait of the remarkable life of the father of our nation. Forrest McDonald, William Allen, Victor Davis Hanson and other accomplished scholars and writers explain why the myth of the hero Washington rings true.*

*Special operative Eric Steele must stop a foreign assassin targeting top-tier U.S. military personnel and derail a strike aimed at the heart of America in this third electrifying military thriller from the New York Times bestselling author of All Out War, perfect for fans of Brad Thor, Vince Flynn, and Tom Clancy Two months after taking down terrorist Aleksandr Zakayev, Eric Steele is back in action. Though he is completing his Alpha assignments with the same deadly efficiency as always, he has lingering questions about his missing father—and his own future in the Program. When Steele gets the alert that a fellow Alpha is in serious trouble, he rushes to Paris—only to arrive too late. Jonathan Raines, Stalker Six, is dead, the victim of a brutal attack. While on leave in the City of Light, Raines had met an attractive art historian who lured him into a trap. Before she vanished, the mysterious woman left a warning for anyone from the Alpha program who might follow her. One of the best and most effective warriors in the top-secret Program, Steele has been trained to take on enemies, and no threat will deter him from avenging a fallen brother. But the killer won't be easy to find. The search takes Steele around the world, from France, to the Adriatic coast of Italy, to the outskirts of Aleppo, Syria, and to a top-secret prison in Russia— where, unexpectedly, he finds more clues about his*

*father—before finally taking him back to the streets of Washington, D.C. No one is safe while the killer is on the loose, and the danger is heightened when Steele discovers intel that killing Alphas is just the beginning of a larger, more nefarious plot. The real target is much, much bigger—and it's up to Steele to prevent catastrophe before he becomes the next elite warrior to fall.*

American Red Cross.

From 1775 through 1777, George Washington and Benedict Arnold were America's two most celebrated warriors. Their earlier lives had surprisingly parallel paths. They were strong leaders in combat, they admired and respected each other, and they even shared common enemies. Yet one became our greatest hero and the other our most notorious traitor. Why? In the new paperback edition of *George Washington and Benedict Arnold: A Tale of Two Patriots*, author and military historian Dave Palmer reveals the answer: character.

with British forces against the French in 1754, appointment as commander-in-chief of the Continental Army (1775), and victory at Yorktown (1781). Entertaining, practical reference for young students of American history. Captions. 42 black-and-white illustrations.

Band of Giants brings to life the founders who fought for our independence in the Revolutionary War. Jefferson, Adams, and Franklin are known to all; men like Morgan, Greene, and Wayne are less familiar. Yet the dreams of the politicians and theorists only became real because fighting men were willing to take on the grim, risky, brutal work of war. We know Fort Knox, but what about Henry Knox, the burly Boston bookseller who took over the American artillery at the age of 25? Eighteen counties in the United States commemorate Richard Montgomery, but do we know that this revered martyr launched a full-scale invasion of Canada? The soldiers of the American Revolution were a diverse lot: merchants and mechanics, farmers and fishermen, paragons and drunkards. Most were ardent amateurs. Even George Washington, assigned to take over the army around Boston in 1775, consulted books on military tactics. Here, Jack Kelly vividly captures the fraught condition of the war—the bitterly divided populace, the lack of supplies, the repeated setbacks on the battlefield, and the appalling physical hardships. That these inexperienced warriors could take on and defeat the superpower of the day was one of the remarkable feats in world history.

author of *In The Heart of the Sea*, *Mayflower*, and *In the Hurricane's Eye*. "May be one of the greatest what-if books of the age—a volume that turns one of America's best-known narratives on its head."—*Boston Globe* "Clear and insightful, [Valiant Ambition] consolidates Philbrick's reputation as one of America's foremost practitioners of narrative nonfiction."—*Wall Street Journal* In the second book of his acclaimed American Revolution series, Nathaniel Philbrick turns to the tragic relationship between George Washington and Benedict Arnold. In September 1776, the vulnerable Continental army under an unsure George Washington evacuated New York after a devastating defeat by the British army. Three weeks later, one of his favorite generals, Benedict Arnold, miraculously succeeded in postponing the British naval advance down Lake Champlain that might have lost the war. As this book ends, four years later Washington has vanquished his demons, and Arnold has fled to the enemy. America was forced at last to realize that the real threat to its liberties might not come from without but from within. Complex, controversial, and dramatic, *Valiant Ambition* is a portrait of a people in crisis and the war that gave birth to a nation.

A stirring picture book biography about a forgotten hero of the American Revolution who rose to the occasion and served his country, not with muskets or canons, but with gingerbread! Simultaneous eBook.

Benedict Arnold, Revolutionary Hero

The Union and Slavery in the Diplomacy of the Civil War

Washington's Farewell Address to the People of the United States, 1796

Heroes of History

True Patriot

*Think you know everything about Washington? Think again. During the Revolutionary War, General George Washington (AKA "Agent 711") was the leader of a ring of spies! The group—called the Culper Ring—used secret names, codes, invisible ink, and more to spy on the British and pass along information. Nobody knew about it at the time (and few do so today), but those sneaky heroes risked their lives to help win the American Revolution! Illustrated throughout in black and white, with an appendix that includes photographs, bonus content, and links to primary source materials, this Totally True Adventures series book is ideal for supporting the Common Core State Standards and today's renewed interest in nonfiction. It's a thrilling read—made even better because it really happened!*

*Historians have long considered the Battle of Monmouth one of the most complicated engagements of the American Revolution. Fought on Sunday, June 28, 1778, Monmouth was critical to the success of the Revolution. It also marked a decisive turning point in the military career of George Washington. Without the victory at Monmouth Courthouse, Washington's critics might well have marshaled the political strength to replace him as the American commander-in-chief. Authors Mark Edward*

*Lender and Garry Wheeler Stone argue that in political terms, the Battle of Monmouth constituted a pivotal moment in the War for Independence. Viewing the political and military aspects of the campaign as inextricably entwined, this book offers a fresh perspective on Washington's role in it. Drawing on a wide range of historical sources—many never before used, including archaeological evidence—Lender and Stone disentangle the true story of Monmouth and provide the most complete and accurate account of the battle, including both American and British perspectives. In the course of their account it becomes evident that criticism of Washington's performance in command was considerably broader and deeper than previously acknowledged. In light of long-standing practical and ideological questions about his vision for the Continental Army and his ability to win the war, the outcome at Monmouth—a hard-fought tactical draw—was politically insufficient for Washington. Lender and Stone show how the general's partisans, determined that the battle for public opinion would be won in his favor, engineered a propaganda victory for their chief that involved the spectacular court-martial of Major General Charles Lee, the second-ranking officer of the Continental Army. Replete with poignant anecdotes, folkloric incidents, and stories of heroism and combat brutality; filled with behind-the-scenes action and intrigue; and teeming with characters*

*from all walks of life, Fatal Sunday gives us the definitive view of the fateful Battle of Monmouth.*

*In Abraham Lincoln and a New Birth of Freedom, Howard Jones explores the relationship between President Lincoln's wartime diplomacy and his interrelated goals of forming a more perfect Union and abolishing slavery. From the outset of the Civil War, Lincoln's central purpose was to save the Union by defeating the South on the battlefield. No less important was his need to prevent a European intervention that would have facilitated the South's move for independence. Lincoln's goal of preserving the Union, however, soon evolved into an effort to form a more perfect Union, one that rested on the natural rights principles of the Declaration of Independence and thus necessitated emancipation.*

*"In a genre overdue for a shakeup, Alexis Coe takes a closer look at our first--and finds he's not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, chased rich young women, caused an international incident, and never backed down--even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles*

*than he won. Coe focuses on his activities off the battlefield--like espionage and propaganda. After an unlikely victory in the Revolutionary War, Washington once again shocked the world by giving up power, only to learn his compatriots wouldn't allow it. The founders pressured him into the presidency--twice. He established enduring norms but left office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty finally confronted his greatest hypocrisy--what to do with the hundreds of men, women, and children he owned--before succumbing to a brutal death. Alexis Coe combines rigorous research and unsentimental storytelling, finally separating the man from the legend."*--
