“Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun...Dunn's book delivers.” —Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her “Bad With Money” podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. “That's a very personal question,” they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In Bad With Money, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancefy work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.

The Money Book for the Young, Fabulous & Broke

The Tightwad Gazette

The New York Times bestseller that is a must-read for any parent! From Beth Kobliner, the author of the bestselling personal finance bible Get a Financial Life—a new, must-have guide showing parents how to teach their children (from toddlers to young adults) to manage money in a smart way. Many of us think we can have the “money talk” when our kids are old enough to get it—which won't be for years, right? But get this: Research shows that even preschoolers can understand basic money concepts, and a study from Cambridge University confirmed that basic money habits are formed by the age of seven. Oh, and research shows the number one influence on kids' financial behaviors is mom and dad. Clearly, we can't afford to wait. Make Your Kid a Money Genius (Even If You're Not) is a jargon-free, step-by-step guide to help parents of all income levels teach their kids—from ages three to twenty-three—about money. It turns out the key to raising a money genius isn't to teach that four quarters equal a dollar or how to pick a stock. Instead, it's about instilling values that have been proven to make people successful—not just financially, but in life: delaying gratification, working hard, living within your means, getting a good education, and acting generously toward others. More specifically, you'll learn why allowance isn't the Holy Grail when teaching your kid to handle money, and why after-school jobs aren't always the answer either. You'll discover the right age to give your kid a credit card, and learn why doling out a wad of cash can actually be a good parenting move. You don't need to be a money genius to make your kid a money genius. Regardless of your comfort level with finance—or your family's income—this charming and fun book is an essential guide for passing along enduring financial principles, making your kids wise beyond their years—and peers—when it comes to money.

Saving for Retirement will relieve confusion and barriers to action for Americans who are increasingly worried about retirement. The book removes everything from the readers' path that typically trips people up and hits the sweet spot for everyone aged 18 to 60. Using new figures (including troubling new projections of healthcare and long-term care costs), Gail MarkJarvis helps readers calculate exactly how much money they'll need and how to get there. She presents easy, proven investing strategies for anyone at any age that will transform pocket change into hundreds of thousands of dollars. Packed with her readers' personal stories, this book teaches powerful professional financial planning principles – but makes them simple enough for anyone to apply on their own.

Finally, a financial plan that lets you be YOU, only richer. It's time to throw away all your old notions of what financial advice should look like. Because if you're looking for a book to put you on an austerity savings plan that has you giving up vacations and lattes, you're out of luck. But if you're looking to get your finances in rock-hard shape—in less time than it takes to finish a workout—then Alexa von Tobel, Founder and CEO of LearnVest, has your back. How? Through the LearnVest Program. First, you'll take stock of where you stand today. Then, you'll create your customized 50/20/30 plan. 50/20/30 simply refers to the percentage breakdown of how to spend your take-home pay each month. The 50 gets the essentials out of the way so you don't have to stress about them. The 20 sets your foundation for the future, then the 30 is left to spend on the things that bring happiness to your life. By the time you're finished reading this book, you'll walk away with a financial game plan tailored to your priorities, your hopes and dreams, and your lifestyle. And, because von Tobel and the team at LearnVest are experts at financial planning in the online era, you'll also learn how to integrate your financial plan into your mobile, social, digital life. Like your own personal financial planner between two covers, this book will set you up for a secure, worry-free money future, without having to give up things you love. So toss those old-school financial guides out the window, and get ready to start living your richest life.

NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER • A ten-step plan for finding peace, safety, and harmony with your money—no matter how big or small your goals and no matter how rocky the market might be—by the inspiring and savvy “Budgetnista.” “No matter where you stand in your money journey, Get Good with Money has a lesson or two for you!” —Erin Lowry, bestselling author of the Broke Millennial series Tiffany Aliche was a successful pre-school teacher with a healthy nest egg when a recession and advice from a shady advisor put her out of a job and into a huge financial hole. As she began to chart the path to her own financial rescue, the outline of her ten-step formula for attaining both financial security and peace of mind began to take shape. These principles have now helped more than one million women worldwide save and pay off millions in debt, and begin planning for a richer life. Revealing this practical ten-step process for the first time in its entirety, Get Good with Money introduces the powerful concept of building wealth through financial wholeness: a realistic, achievable, and energizing alternative to get-rich-quick and over-complicated money management systems. With helpful checklists, worksheets, a tool kit of resources, and advanced advice from experts who Tiffany herself relies on (her “Budgetnista Boosters”), Get Good with Money gets crystal clear on the short-term actions that lead to long-term goals, including: • A simple technique to determine your baseline or “noodle budget,” examine and systemize your expenses, and lay out a plan that allows you to say yes to your dreams. • An assessment tool that helps you understand whether you have a “don't make enough” problem or a “spend too much” issue—as well as ways to fix both. • Best practices for saving for a rainy day (aka job loss), a big-ticket item (a house, a trip, a car), and money that can be invested for your future. • Detailed advice and action steps for taking charge of your credit score, maximizing bill-paying automation, savings and investing, and calculating your life, disability, and property insurance needs. • Ways to protect your beneficiaries' future, and ensure that your financial wishes will stand the test of time. An invaluable guide to cultivating good financial habits and making your money work for you, Get Good with Money will help you build a solid foundation for your life (and legacy) that's rich in every way.

Many personal financial self-help books available today discuss money management basics, but remarkably, the current genre of self-help financial books, overlook predatory financial products, scams and rip-offs that victimize millions of Americans. Get WalletWise instructs the reader how to avoid financial missteps and provide clear money management examples. In addition, my book offers methods to create positive money habits. Every day, millions of Americans struggle to make ends meet because they are providing for their raising kids, caring for elderly parents while saving for their kids' college education and retirement. These families may host adult children living back at home. Families function with little understanding of how to manage their money. Our national school system does not teach financial literacy. The completed manuscript of Get WalletWise encourages a generation of families sandwiched between raising children and caring for aging parents. Get WalletWise helps families whose income and expenses are equal, do not have significant savings, and whose budget is a mess. Bloomberg reports that 50% of Americans have 0 net worth despite living in the most affluent nation in the world. CNBC reports that 40% of Americans cannot cover a \$400 emergency expense. According to Forbes, 43% of student loan borrowers are in default and owe, on average, more than \$16,000. Ironically, only 42% of college students graduate on time. One- third of American adults have saved \$0 for retirement. Get WalletWise teaches readers how to repair their personal finances through tried-and-true money management methods. Get WalletWise releases readers from the habit of "keeping up with the Jones's" and teaches them how to stop borrowing against their home equity. Readers find alternatives to using pay day loan businesses, pawnshops and other predatory lenders that other self-help finance books don't talk about.

Presents a guide covering the basic principles and strategies of personal finance, discussing such topics as saving, borrowing, investments, budgeting, buying a house, and long term planning.

An illustrated, practical guide to navigating your financial life, no matter your financial situation "a potent mix of deeply practical and wonderfully empathetic" —Erin Lowry, author of Broke Millennial "one of the most approachable financial books I've ever read."

**—Refinery 29 We are all weird about money. Whether you have a lot or a little, your feelings and beliefs about money have been shaped by a combination of silence (or even shame) around talking about money, personal experiences, family and societal expectations, and a whole big complex system rigged against many of us from the start. Begin with that baseline premise and it's no surprise so many of us find it so difficult to save enough money (but way too easy to get trapped in ballooning credit card debt), emotionally draining to deal with student loans, and nearly impossible to understand the esoteric world of investing. Unlike most personal finance books that focus on skills and behaviors, FINANCE FOR THE PEOPLE asks you to examine your beliefs and experiences around money—blending extremely practical exercises with mindfulness, and including more than 50 illustrations and diagrams to make the concepts accessible (and even fun). With deep insider expertise from years spent in many different corners of the financial industry, Paco de Leon is a friendly, approachable, and wise guide who invites readers to change their relationship with money. With her holistic approach you'll learn how to:
• root out your unconscious beliefs about money
• untangle the mental and emotional burden of student loans to pay them off
• use a gratitude practice to help you think differently about spending
• break out of the debt cycle and begin building wealth This book is for anyone who feels unseen, ignored, or bored to death by the way personal finances are approached and taught, and is ready to go on a journey of self-discovery and step into their financial power.**

Dave Ramsey explains those scriptural guidelines for handling money.

Where is your hard earned money? Whether you have a savings or checking account, a 401(k), an IRA, a college fund, or dollars stuffed under the mattress, you are an investor. But you are losing every day that you sit back and let others make decisions about your money. You worked hard for it, and it's your responsibility to make it work for you. If you don't invest smartly, your very financial future is in jeopardy. But smart investing is not nearly as difficult or complicated as some might lead you to believe. In seven simple yet vital steps Dan Solin, New York Times bestselling author of The Smartest Investment Book You'll Every Read, takes the mystery out of successful investing and shows everyone, no matter what their income or expertise in money matters, how to take control of their financial lives, ignore the “experts”, and grow a nest egg. Solin's approach mirrors that of the most successful investors in the world. He ignores the bombast of so many advisors and brokers who over-promise and under-deliver, relying instead on objective, historical, peer-reviewed data. Solin helps you separate fact from hype so that you can make intelligent, responsible investing decisions. And his simple, clear-headed advice shows you exactly how to invest your assets with an easy-to-follow plan that allows you to create and monitor your portfolio in less time than it takes to read the morning paper.
