Little does he know she's actually undercover FBI agent Sadie Keating - and she's been assigned to keep a careful eye on him. Chase Maitlin I've never been afraid to go after what I want. Not in business, and not in my personal life. What I want now? Her. It doesn't matter that she's my new colleague. It doesn't matter that she's way out of my league. I'll take my shot and do everything I can to make her mine. But the woman of my dreams has secrets. Dangerous ones. And if I'm not careful, loving her could leave me with something way worse than a broken heart. "Sydney Frost" My job is simple. He's cocky and overly confident. Too bad he's also smart, funny, and ridiculously sexy. How am I supposed to do my job when I'm falling for a man who might be a criminal? Can a romance built on lies ever lead to happily ever after? Chase and Sadie are about to find out. Probing the ominous side of career advice to "follow your passion," this data-driven study explains how the passion principle fails us and perpetuates inequality by class, gender, and race; and it suggests how we can reconfigure our relationships to paid work. "Follow your passion" is a popular mantra for career decision-making in the United States. Passion-seeking seems like a promising path for avoiding the potential drudgery of a life of paid work, but this "passion principle"—seductive as it is—does not universally translate. The Trouble with Passion reveals the significant downside of the passion principle: the concept helps culturally legitimize and reproduce an exploited, overworked white-collar labor force and broadly serves to reinforce class, race, and gender segregation and inequality. Grounding her investigation in the paradoxical tensions between capitalism's demand for ideal workers and our cultural expectations for self-expression, sociologist Erin A. Cech draws on interviews that follow students from college into the workforce, surveys of US workers, and experimental data to explain why the passion principle is such an attractive, if deceptive, career decision-making mantra, particularly for the college educated. Passion-seeking presumes middle-class safety nets and springboards and penalizes first-generation and working-class young adults who seek passion without them. The ripple effects of this mantra undermine the promise of college as a tool for social and economic mobility. The passion principle also feeds into a culture of overwork, encouraging white-collar workers to tolerate precarious employment and gladly sacrifice time, money, and leisure for work they are passionate about. And potential employers covet, but won't compensate, passion among job applicants. This book asks, What does it take to center passion in career decisions? Who gets ahead and who gets left behind by passion-seeking? The Trouble with Passion calls for citizens, educators, college administrators, and industry leaders to reconsider how we think about good jobs and, by extension, good lives.

Second chances can sometimes get you killed. From the moment he woke that early March morning, Chase Hampton knew, once he was released from prison later that day, he was never going back. No matter what. Born into a wealthy but flawed North Carolina shipbuilding family, Chase was somehow immune to the dysfunction. The sky was the limit for the 18-year old football prodigy, until one terrible event changed the course of his life and prison became his new home. Through the highs and lows of his incarceration, there was one person he couldn't forget, no matter how hard he'd tried: childhood best friend Bailey Masters. For reasons unknown to him, she'd shunned him ever since her mysterious return to Foggy Harbor at the beginning of their sophomore year. Now, seven years into a twelve-year manslaughter sentence, Chase is given an unusual second chance, one that comes with its own set of rules. Suddenly, he's thrust into a position he's not ready for: the tip of the spear in a quiet war against an American enemy. A war that could cost him his family . . . and his life.

This story of a daughter of Holocaust survivors who pursued her dream to be a mother with courage and single minded vigor will touch your heart, make you laugh and move you. It not only offers a primer about adoption but about the fortitude to achieve your goals. A compelling read from cover to cover." Joseph Berger, New York Times Award Winning Journalist " I couldn't put the book down. This is the story of a brave woman who skillfully chronicled her quest to be a mother and all the horrors and red tape she had to endure to become one. It will make you laugh and cry, and cherish your family all the more." Rita Lakin, Screenwriter for Falcon Crest, Dynasty and Peyton Place, author of The Only Woman in the Room What would you go through to achieve your dream? For me it was having a baby. After failing at what Mother Nature says comes naturally, my husband and I took advantage of everything modern medicine had to offer, again without results. Determined to be parents, we were left with the only remaining path - adoption. Though this seemed a more manageable route, adoption is far from predictable. This time our roller coaster ride faced unpredictable birth mothers, unreliable baby brokers, media competitions, mid-night crank calls, repeatedly changing government regulations and strangling red tape. This is the heart-wrenching tale of our convoluted 10-year quest to have a family, from the serious, and sometimes hilarious side of fertility treatments, through two harrowing international adoptions. Our journey is filled with so many cliff hangers it reads more like a suspense tale than reality. As you come along for our wild ride you will be clutching this book praying we don't get derailed again. Our story of determination and tenacity will give hope to anyone facing a difficult life journey. Let my story motivate you to attain your dreams!

Peter Cappelli confronts the myth of the skills gap and provides an actionable path forward to put people back to work. Even in a time of perilously high unemployment, companies contend that they cannot find the employees they need. Pointing to a skills gap, employers argue applicants are simply not qualified; schools aren't preparing students for jobs; the government isn't letting in enough high-skill immigrants; and even when the match is right, prospective employees won't accept jobs at the wages offered. In this powerful and fast-reading book, Peter Cappelli, Wharton management professor and director of Wharton's Center for Human Resources, debunks the arguments and exposes the real reasons good people can't get hired. Drawing on jobs data, anecdotes from all sides of the employer-employee divide, and interviews with jobs professionals, he explores the paradoxical forces bearing down on the American workplace and lays out solutions that can help us break through what has become a crippling employer-employee stand-off. Among the questions he confronts: Is there really a skills gap? To what extent is the hiring process being held hostage by automated software that can crunch thousands of applications an hour? What kind of training could best bridge the gap between employer expectations and applicant realities, and who should foot the bill for it? Are schools really at fault? Named one of HR

Magazine's Top 20 Most Influential Thinkers of 2011, Cappelli not only changes the way we think about hiring but points the way forward to rev America's job engine again.

Regular job searches SUCK! They don't have to if you know what to do. Put yourself in the driver's seat of your job search and get amazing job offers from companies you're dying to work with. After years of coaching students to C-Suite executives at Fortune 500's I developed a custom-tailored job search strategy designed to keep the job seeker engaged in their search and drive the offers they really want, really quickly. About this project: I've spent my career helping senior executives, talented professionals and new graduates find their dream jobs. Their job searches were slow, stalled or even DOA before we met; after just a few weeks of working together, they landed jobs they wanted. And they loved the work we did together. I bottled up the best step-by-step advice from these one-on-one sessions into 120 action-packed pages, just for you. Take it and run. Who should read this book? If you want a new job right now, you need to read this book. If you want to be known in your industry, you need to read this book. If you want your dream employer to create a job for you, you need to read this book. What you'll learn: How to take back your search and get employers to chase YOU How to take HR/Corporate Recruiters out of the process and get offers directly from hiring managers How to create an undeniable value in the market that will generate offers for you and you alone For Job Seekers: You need a new job right now. I'll show you how to: Use proven strategies to beat out more qualified competition Reignite a dead search Move into a new field Win every interview using a simple, two-step process For Rock Stars: You like where you are, but you have one eye on the next big thing and you want to build your profile. I'll show you how to: Make companies fight over you when they hear your story Stand out to recruiters and executives running "secret searches" Make your current employer beg to give you promotions for fear of losing you to the competition For Students: You're graduating, your loan payments are due and you don't know where to start. I'll show you how to: Beat out your competition, including more seasoned job seekers Get the \$\$\$'s you really deserve instead of taking a salary you can barely live off of Set yourself up for the best promotions and job offers for your entire career Why this book? Most job search advice is terrible. Job searches are miserable. And I could spend every hour of every day of my life advising job seekers and I wouldn't scratch the surface of the need in this area. I want to reach as many people as possible with this message. I want to help job seekers take back control of their search. Everyday people come to me that need my help to find great jobs but they simply can't afford my services. Even with the 10 hours a week that I set aside for pro bono work it doesn't scratch the surface of the demand for real help for job seekers that have been struggling for months and sometimes, years.

Early in 1937, a young film editor went on-location to St. George, Utah, for the filming of Republic's The Painted Stallion. Rain and cast problems put the production hopelessly behind schedule. The studio summarily fired the director and replaced him with the film editor. Thus was born the career of one of Hollywood's most famous serial directors, Bill Witney. Witney went on to direct or codirect 23 Republic serials, working with such stars as William Benedict, Hoot Gibson, Bela Lugosi, and Noah Beery, Sr. Witney's output included some of the most famous cliffhangers of the era, such as Adventures of Red Ryder, Spy Smasher, Drums of Fu Manchu, The Lone Ranger, and The Lone Ranger Rides Again. Though he enjoyed a long career as a feature film and television director, it is the Republic serials for which he is best remembered. This engaging story is a behind-the-scenes look at the heyday of the Hollywood cliffhanger, the making of the movies, and the people involved in them.

Wei Liem Ngs hobby used to be daydreaming. He dreamed about owning his own bookstore and including a library in his mansion one day. Most of all, Ng dreamed about writing a book. After Ng passed the extremely challenging exams to become an accountant, he details how he embarked on an arduous journey to look for work that included writing a rsum, interviewing, and finally accepting a boring job at a construction company. With help from his close confidants, Yap and Ping, Ng reveals how he finally learned to see the humorous side of life and eventually summoned the courage to chase his dreams. Chasing My Dream recounts the true story of a Malaysian accountants quest for happiness as he broke free from his insecurities and the corporate world and began a new journey to pursue his passion.

Winner of the 2018 Nebraska Book Award for Fiction A rousing, suspenseful debut novel—True Grit meets Catch Me If You Can—based on the forgotten true story of a Robin Hood of the American frontier who pulls off the first successful kidnapping for ransom in U.S. history “A kidnapper with a social-justice mission” (Time), Pat Crowe was once the most wanted man in America. World, Chase Me Down resurrects him, telling the electrifying story of the first great crime of the last century: how in 1900 the out-of-work former butcher kidnapped the teenage son of Omaha’s wealthiest meatpacking tycoon for a ransom of \$25,000 in gold, and then burgled, safe-cracked, and bond-jumped his way across the country and beyond, inciting a manhunt that was dubbed “the thrill of the nation” and a showdown in the court of public

opinion between the haves and have-nots—all the while plotting a return to the woman he never stopped loving. As if channeling Mark Twain and Charles Portis, Andrew Hilleman has given us a character who is bawdy and soulful, grizzled, salty, and hard-drinking, and with a voice as unforgettable as that of Lucy Marsden in Alan Gurganus's *Oldest Living Confederate Widow Tells All*—an antihero you can't help rooting for.

Law enforcement around the world have put a strangle-hold on the cocaine industry. As a result, drastic changes in the potency and physical properties of the cocaine available in the eastern Canadian market have occurred over the past 25+ years. Not only have there been changes to the drug itself, but these changes have also resulted in transformation of the behaviour of users and the areas of Toronto (and other major world cities) affected by cocaine trafficking and use. The bottom line? The cocaine available today is measurably less potent and of a far lesser quality than that available in the past. And this deterioration is only going to continue, as global trends suggest that it will be next to impossible to produce cocaine of the same potency as 25 years ago, particularly due to the success and progress of law enforcement across the globe. Tommy Khoa Dang Lieu chronicles his experiences in the cocaine and drug trade, weaving a compelling argument that combines lived experience with hard data to paint a picture of the decline of the once-lucrative cocaine industry.

Americans are being lied to ... We are lied to by our government, misled by the entertainment media, indoctrinated by our educational institutions, defrauded by our banking institutions, and subjugated by our employers. Nevertheless, we willingly grant these institutions power over nearly every aspect of our lives, and we even admire and assist those who are exploiting us. What is the purpose of the lies? To con each and every one of us out of our property rights, and to coerce us into consenting to our own fleecing—while venerating and revering the thieves. This is true no matter if one is truly poor, or one is a member of the upper-middle class. It doesn't matter if you are black, white, Latino, Asian, straight, gay, lesbian, Democrat, Republican, employee, manager, small-business owner, or greyhound dog. No matter how you earn your living, all those in the middle class have one thing in common. Like the greyhounds in a dog race, we have all been duped into pursuing an illusion, a goal that has been held in front of us as "The American Dream," a goal that has been deliberately rendered unattainable. This is because the act itself of "chasing the rabbit" is what enriches those few who benefit from our daily economic activity.
