

## *Get It Done When You're Depressed By Julie A Fast*

From his early rise to fame to battles with his health, this revelatory memoir by legendary guitarist Peter Frampton celebrates the life of a rock icon. *Do You Feel Like I Do?* is the incredible story of Peter Frampton's positively resilient life and career told in his own words for the first time. His monumental album *Frampton Comes Alive!* spawned three top-twenty singles and sold eight million copies the year it was released (more than seventeen million to date), and it was inducted into the Grammy Hall of Fame in January 2020. Frampton was on a path to stardom from an early age, first as the lead singer and guitarist of the Herd and then as cofounder—along with Steve Marriott—of one of the first supergroups, Humble Pie. Frampton was part of a tight-knit collective of British '60s musicians with close ties to the Rolling Stones, the Beatles, and the Who. This led to Frampton playing on George Harrison's solo debut, *All Things Must Pass*, as well as to Ringo Starr and Billy Preston appearing on Frampton's own solo debut. By age twenty-two, Frampton was touring incessantly and finding new sounds with the talk box, which would become his signature guitar effect. Frampton remembers his enduring friendship with David Bowie. Growing up as schoolmates, crossing paths throughout their careers, and playing together on the Glass Spider Tour, the two developed an unshakable bond. Frampton also shares fascinating stories of his collaborative work with Harry Nilsson, Stevie Wonder, B. B. King, and members of Pearl Jam. He reveals both the blessing and curse of *Frampton Comes Alive!*, opening up about becoming the cover boy he never wanted to be, his overcoming substance abuse, and how he has continued to play and pour his heart into his music despite an inflammatory muscle disease and his retirement from the road. Peppered throughout his narrative is the story of his favorite guitar, the Phenix, which he thought he'd lost in a fiery plane crash in 1980. But in 2011, it mysteriously showed up again—saved from the wreckage. Frampton tells of that unlikely reunion here in full for the first time, and why the miraculous reappearance is emblematic of his life and career as a quintessential artist.

Sit back and relax and learn about why overworking and under resting can be harmful to yourself and your career. "Rest is such a valuable book. If work is our national religion, Pang is the philosopher reintegrating our bifurcated selves."---Arianna Huffington, New York Times Book Review Overwork is the new normal. Rest is something to do when the important things are done-but they are never done. Looking at different forms of rest, from sleep to vacation, Silicon Valley futurist and business consultant Alex Soojung-Kim Pang dispels the myth that the harder we work the better the outcome. He combines rigorous scientific research with a rich array of examples of writers, painters, and thinkers---from Darwin to Stephen King---to challenge our tendency to see work and relaxation as antithetical. "Deliberate rest," as Pang calls it, is the true key to productivity, and will give us more energy, sharper ideas, and a better life. Rest offers a roadmap to rediscovering the importance of rest in our lives, and a convincing argument that we need to relax more if we actually want to get more done. A full-color book about art, bravery and doing work that matters

biologically harmful, bringing about health issues, such as heart disease, high blood pressure, ulcers, and strokes. In short, successfully managing stress could be nothing less than a life-or-death situation. Now, professional biofeedback practitioner Harry L. Campbell presents "What Stress Can Do," his unprecedented guide to the importance of minimizing everyday stress in order to short-circuit its many serious side effects. What's more, his easy-to-implement recommendations enable you to do so without use of any drugs. Recent data on the prevalence of stress documents that as much as 90 percent of all doctors' office visits are related to stress. However, with the right skills and perspective, you can preempt the physical fallout from the tolls of daily life, and gain new mastery over your mind. The time is right to take a step back, breathe easy, and once and for all address all that ails you.

Discover a "compelling" framework for setting and achieving your goals (Carol Dweck, author of *Mindset*), from a psychologist on the cutting edge of motivational science. A great deal of ink has been spilled on the subject of motivating and influencing others, but what happens when the person you most want to influence is you? Setting and achieving goals for yourself—at work, at home, and in relationships—is harder than it seems. How do you know where to start? How do you carry on in the face of roadblocks and distractions? How do you decide which tasks and ambitions to prioritize when you're faced with more responsibilities, needs, and desires than you can keep track of? In *Get It Done*, psychologist and behavioral scientist Ayelet Fishbach presents a new theoretical framework for self-motivated action, explaining how to: Identify the right goals Attack the "middle problem" Battle temptations Use the help of others around you And so much more... With fascinating research from the field of motivation science and compelling stories of people who learned to motivate themselves, *Get It Done* illuminates invaluable strategies for pulling yourself in whatever direction you want to go—so you can achieve your goals while staying healthy, clearheaded, and happy.

Ben Horowitz, a leading venture capitalist, modern management expert, and New York Times bestselling author, combines lessons both from history and from modern organizational practice with practical and often surprising advice to help executives build cultures that can

weather both good and bad times. Ben Horowitz has long been fascinated by history, and particularly by how people behave differently than you'd expect. The time and circumstances in which they were raised often shapes them—yet a few leaders have managed to shape their times. In *What You Do Is Who You Are*, he turns his attention to a question crucial to every organization: how do you create and sustain the culture you want? To Horowitz, culture is how a company makes decisions. It is the set of assumptions employees use to resolve everyday problems: should I stay at the Red Roof Inn, or the Four Seasons? Should we discuss the color of this product for five minutes or thirty hours? If culture is not purposeful, it will be an accident or a mistake. *What You Do Is Who You Are* explains how to make your culture purposeful by spotlighting four models of leadership and culture-building—the leader of the only successful slave revolt, Haiti's Toussaint Louverture; the Samurai, who ruled Japan for seven hundred years and shaped modern Japanese culture; Genghis Khan, who built the world's largest empire; and Shaka Senghor, a man convicted of murder who ran the most formidable prison gang in the yard and ultimately transformed prison culture. Horowitz connects these leadership examples to modern case-studies, including how Louverture's cultural techniques were applied (or should have been) by Reed Hastings at Netflix, Travis Kalanick at Uber, and Hillary Clinton, and how Genghis Khan's vision of cultural inclusiveness has parallels in the work of Don Thompson, the first African-American CEO of McDonalds, and of Maggie Wilderotter, the CEO who led Frontier Communications. Horowitz then offers guidance to help any company understand its own strategy and build a successful culture. *What You Do Is Who You Are* is a journey through culture, from ancient to modern. Along the way, it answers a question fundamental to any organization: who are we? How do people talk about us when we're not around? How do we treat our customers? Are we there for people in a pinch? Can we be trusted? Who you are is not the values you list on the wall. It's not what you say in company-wide meeting. It's not your marketing campaign. It's not even what you believe. Who you are is what you do. This book aims to help you do the things you need to become the kind of leader you want to be—and others want to follow.
