***In early June 1863, the Confederate Army of Northern Virginia launched a summer campaign that brought horrific war to the town of Gettysburg, Pennsylvania. In just over three days of cataclysmic battle, 51,000 individuals were killed, wounded, or captured. Although the fighting concluded by July 4, 1863, the struggle to recover continues to the present day. On November 19, 1863, the dedication of a new Soldiers National Cemetery marked a critical point in American history. From its conception, the Soldiers National Cemetery in Gettysburg embodied a fitting tribute to those who gave their last full measure of devotion to a grateful nation. Since that fateful summer of 1863, the cemetery has expanded into a place of memorialization for Americans spanning generations. Today, the Soldiers National Cemetery remains a space of reverence and offers a beacon of hope for students who traverse these hallowed grounds learning from the past.***

*Pillars of the Republic is a pioneering study of common-school development in the years before the Civil War. Public acceptance of state school systems, Kaestle argues, was encouraged by the people's commitment to republican government, by their trust in Protestant values, and by the development of capitalism. The author also examines the opposition to the Founding Fathers' educational ideas and shows what effects these had on our school system.*

*Over multiple editions, this transformative text has taught the lively art of rhetorical criticism to thousands of students at more than 300 colleges and universities. Insights from classroom use enrich each new edition. With an unparalleled talent for distilling sophisticated rhetorical concepts and processes, Sonja Foss highlights ten methods of doing rhetorical criticism—the systematic investigation and explanation of symbolic acts and artifacts. Each chapter focuses on one method, its foundational theories, and the steps necessary to perform an analysis using that method. Foss provides instructions on how to write coherent, well-argued reports of analytical findings, which are then illustrated by sample essays. A chapter on feminist criticism features the disruption of conventional ideologies and practices. Storytelling in the digital world is a timely addition to the chapter on narrative criticism. Student essays now include analyses of the same artifact using multiple methods. A deep understanding of rhetorical criticism equips readers to become engaged and active participants in shaping the nature of the worlds in which we live.*

*Riding on the wave of his victory at Atlanta, Union General W. T. Sherman abandoned his supply lines in an attempt to push his forces into Confederate territory and take Savannah. During their 285-mile 'March to the Sea' the army lived off the land and destroyed all war-making capabilities of the enemy en route. Despite the controversy surrounding it, the march was a success. Supported by photographs, detailed maps, and artwork, this title explores the key personalities and engagements of the march and provides a detailed analysis of the campaign that marked the 'beginning of the end' of the Civil War.*

*Huey Long (1893-1935) was one of the most extraordinary American politicians, simultaneously cursed as a dictator and applauded as a benefactor of the masses. A product of the poor north Louisiana hills, he was elected governor of Louisiana in 1928, and proceeded to subjugate the powerful state political hierarchy after narrowly defeating an impeachment attempt. The only Southern popular leader who truly delivered on his promises, he increased the miles of paved roads and number of bridges in Louisiana tenfold and*

*established free night schools and state hospitals, meeting the huge costs by taxing corporations and issuing bonds. Soon Long had become the absolute ruler of the state, in the process lifting Louisiana from near feudalism into the modern world almost overnight, and inspiring poor whites of the South to a vision of a better life. As Louisiana Senator and one of Roosevelt's most vociferous critics, "The Kingfish," as he called himself, gained a nationwide following, forcing Roosevelt to turn his New Deal significantly to the left. But before he could progress farther, he was assassinated in Baton Rouge in 1935. Long's ultimate ambition, of course, was the presidency, and it was doubtless with this goal in mind that he wrote this spirited and fascinating account of his life, an autobiography every bit as daring and controversial as was *The Kingfish* himself.*

*The power of words has rarely been given a more compelling demonstration than in the Gettysburg Address. Lincoln was asked to memorialize the gruesome battle. Instead, he gave the whole nation "a new birth of freedom" in the space of a mere 272 words. His entire life and previous training, and his deep political experience went into this, his revolutionary masterpiece. By examining both the address and Lincoln in their historical moment and cultural frame, Wills breathes new life into words we thought we knew, and reveals much*

**Heather Cox Richardson argues instead that class, along with race, was critical to Reconstruction's end. Northern support for freed blacks and Reconstruction weakened in the wake of growing critiques of the economy and calls for a redistribution of wealth. Using newspapers, public speeches, popular tracts, Congressional reports, and private correspondence, Richardson traces the changing Northern attitudes toward African-Americans from the Republicans' idealized image of black workers in 1861 through the 1901 publication of Booker T.**

Northerners against those who believed that inequalities should be addressed through working-class action, and the emergence of an American middle class that championed individual productivity and saw African-Americans as a threat to their prosperity. The Death of Reconstruction offers a new perspective on American race and labor and demonstrates the importance of class in the post-Civil War struggle to integrate African-Americans into a progressive and prospering nation. Nicholas Cresswell was twenty-four years old when he left his birthplace of Edale, England to sail for Virginia, believing that "a person with a small fortune may live much better and make greater improvements in America than he can possibly do in England." From the time he left, sailing from Liverpool in 1774, until the time he returned, he kept a diary detailing his experiences in pre-Revolutionary America. As a loyal subject to King George, Cresswell found himself often unhappy in America, detailing the turmoil and abuses often suffered by Loyalists in the colonies. Confining his travel mainly to the mid-Atlantic region, Cresswell not only had occasion to attend a slave gathering and observe what went on there, but also traded amongst many of the

Despite his ambivalence about returning to England, (toward the end of the book he moans, "'I wish to be at home and yet dread the thought of returning to my native Country a Beggar'" (P. 251)), life in the colonies becomes too much for this loyal subject and Cresswell's journal ends in 1777 with his return to England.
