Implement Finite-Field Arithmetic in Specific Hardware (FPGA and ASIC) Master cutting-edge electronic circuit synthesis and design with help from this detailed guide. Hardware Implementation of Finite-Field Arithmetic describes algorithms and circuits for executing finite-field operations, including addition, subtraction, multiplication, squaring, exponentiation, and division. This comprehensive resource begins with an overview of mathematics, covering algebra, number theory, finite fields, and cryptography. The book then presents algorithms which can be executed and verified with actual input data. Logic schemes and VHDL models are described in such a way that the corresponding circuits can be easily simulated and synthesized. The book concludes with a real-world example of a finite-field application--elliptic-curve cryptography. This is an essential guide for hardware engineers involved in the development of embedded systems. Get detailed coverage of: Modulo m reduction Modulo m addition, subtraction, multiplication, and exponentiation Operations over GF(p) and GF(pm) Operations over the commutative ring Zp[x]/f(x) Operations over the binary field GF(2m) using normal, polynomial, dual, and triangular

Covers football cards from most manufacturers from 1948 to the present, featuring prices for individual cards and full sets.

This story is a historical fiction picture book about the experiences of black children growing up in the pre-civil rights era of the Jim Crow South. It is based on my own memories of childhood, as an African American child, during this period of history. As a veteran teacher of thirty years, I have often been amazed at the interest my second grade students have shown in stories about my childhood growing up in the South during the days of Jim Crow. My students listen with wide eyed wonder about a world where laws prohibited a race of people from taking part in the privileges of society because of the color of their skin. Ramona Rorie Griffin is the 1999-2000 Indianapolis Public Schools Teacher of the Year and presently the Reading First Coach at Thomas D. Gregg Elementary School in Indianapolis, Indiana. She holds a Bachelor's Degree in Early Childhood Education, A Master's Degree in School Counseling and is a Licensed School Administrator. Ramona is also a National Board Certified and Licensed Clinical Counselor. She has been married to her husband Byron for twenty eight years and they have three children, Brenton, Lauren and Charlisa. Her family is multiracial due to the adoption of her youngest daughter, who is white. This is a fact that she realizes would never have been possible in the days of Jim Crow. Ramona believes that there is a need for more books and articles that describe this part of American history from a child's perspective. She believes that it will help children and adults to see that the effects of segregation extended to even the smallest members of society. The book is a tribute to the resiliency of childhood.

Are you trying to lose weight and improve your health and fitness? This funny, new journal is the perfect place to log your food and exercises. It's an effective tool to help change your behavior for the better. Studies have shown that people who kept food journals lost twice as much weight as those who didn't. This weight loss journal is designed to allow you to track important food and exercise information. With the funny swearly phrases and cuss word motivational quotes in your journal you will fight boredom in your daily fitness and healthy eating routine. You'll be much more likely to stick with it. It makes a perfect, unique, alternative gift for friends, family members or co-workers. Overflowing with tools and motivation to guide you on your fitness journey. It contains: Weekly spreads which include space to write your goals and body measurements Sections for progress photos along with before and after photos Motivational funny adult coloring pages Weekly self-care planners Weekly meal planners Weekly grocery lists Sections for journaling and writing notes. It will also assist you in keeping a daily track of your water intake, sleep, calories, nutrient intake(carbs, proteins, fats), how you are feeling and exercise activity. This all-in-one planner, tracker and journal will assist you in planning and reviewing daily and weekly so you can really get focused and stay on top of all your health improvement, fitness and weight goals. Your planner will help you get to a fitter, stronger, healthier you. It has a beautiful matte finish and is perfectly sized at 6" x 9". Great for those who are hard to shop for. Get your copy now!

An ecological classification system was developed for southwestern Alberta through the analysis of vegetation, soil, site, and forest productivity information. The hierarchical classification system has three levels--ecosite, ecosite phase, and plant community type. Thirty-seven ecosites are described with further detail provided by subdivision into ecosite phase and plant community type. A soil type classification system that describes 17 soil types was also developed. Management interpretations were made for drought, excess moisture, soil rutting hazard, soil compaction hazard, puddling hazard, soil erosion hazard, frost heave hazard, soil temperature limitations, vegetation competition, and windthrow hazard. Color photos and drawings are presented for 112 common plants of southwestern Alberta. An index listing common and scientific names of illustrated plants is included. Keys to ecological variables, definitions of soil horizon designations, and a glossary are also included.

"Growing Forward 2 (GF2) is a five-year policy framework for Canada's agricultural and agri-food sector (2013-2018). GF2 includes an effective suite of Business Risk Management programs that: promote innovation, competitiveness and market development; and help producers manage production and market risk. AgriInvest is one of the Business Risk Management programs under GF2. The federal and provincial/territorial governments cost share AgriInvest on a 60/40 basis. This Handbook gives you general information about AgriInvest and explains the main program rules"---Introd., p. 3.
