Give People Money How A Universal Basic Income Would End Poverty Revolutionize Work And Remake The World

About the Book: Foreword by Bryan Eisenberg In Ecom Hell, Shirley Tan wants to share what she learned in ecommerce to make sure you can avoid getting burned! Shirley Tan started her ecommerce business on a shoe string budget and sold it to a NASDAQ traded corporation. How? She developed systems and efficiencies that made her business hugely profitable and a prime acquisition target. She shares the lessons she learned in this book Ecom Hell is aimed at entrepreneurs building ecommerce business, adventurers who are considering an ecommerce adventure, technically savvy executives who want to get an insiders' guide, information technology professionals who want to benchmark their ecommerce business practice and anyone who has an interest in getting a good grasp of what really goes on in an e-commerce business. The book is filled with tips and checklists on what it really takes to start, run and grow your business and it'll soon become a go-to guide for managers and staff! Here is some of what you'll get from Ecom Hell:* Identifies what areas in ecommerce you should FOCUS on so you maximize your revenues and growth.* The 7 category metrics that drive EVERY ecommerce business and how to measure them so you win.* The 10 BIG mistakes most ecommerce entrepreneur makes and how to avoid them so you can improve your chances of success in ecommerce.* Easy steps to picking niche markets like winning racehorses so you know the winners from the dogs.* Detailed check list on what to look for in an ecommerce platform.* 11 tips on how you can increase your website conversions. Are you flirting with the idea of your own ecommerce business? Shirley's Ecom Hell takes you through the nitty-gritty of running an ecommerce business. It is a behind-the-scenes look at what can make or break your ecommerce business. Ecom Hell walks you through:* How to get started on a shoestring budget so you'll have plenty of resources available to fund your growth.* How to "cherry pick" your competitors so you ALWAYS win in a head to head contest.* How to buy an existing ecommerce business so you can avoid the "slow start."* How to sell your business so you can retire and have financial security. Shirley fields frequent questions about the title of her book. Why Ecom Hell? She says, "I believe business success is a combination of strategic planning and excellent execution, helped often by a heavy dose of optimism. I understand the value of optimism as it carries many an entrepreneur through a rough day or two. However, I also believe is anticipating worst case scenarios to avoid them at all costs. This is the impetus behind Ecom Hell: I'll help you face the pitfalls that can be part of ecommerce business building; and give you the best practices to use to navigate your way around these potentially hellish situations. Ecom Hell is going to help you build your own ecom heaven!" "Shirley is an incredible entrepreneur that experienced hands on every aspect it takes to make an ecommerce business successful. Regardless of the stage of your ecommerce business, Shirley provides excellent foresight into how to make it to the next level."-Jennifer Fallon, CEO, The Aspen Brands Company, KateAspen.com & BabyAspen.com "Shirley Tan is the real deal. As an inquisitive entrepreneur, she always asks all the right questions, and now she is sharing all the right answers for creating a successful ecommerce business. Her book is detailed, insightful, and comprehensive, and will become a must-have for all E-com business owners. Not only has she done it herself, but she knows how to identify and document the things that helped her become successful. Sharing this wealth of knowledge is only part of what makes her not only a great author, but a great person as well."-Todd Malicoat, SEO, Faculty Market Motive.com

ATTENTION: You have just been granted special access to be a fly on the wall and spy in 10 private conversations with people who have the following in common: 1. Every single person in this book has generated over ONE MILLION DOLLARS in online sales 2. They didn't inherit the money. Instead, each person built an online business from scratch, from humble beginnings, stumbled at several obstacles, but thanks to an overwhelming desire to meet their goals, course-corrected their way to success 3. Whether it was through software, seminars, services, affiliate marketing, or information products -- each person found a way to channel their passion to a side business, remove the 80% that didn't work, and scale up the 20% that remained into a full time income 4. Each person you'll hear from found a way to move outside their comfort zone -- and use tools like paid advertising, public speaking, list building, social media, or joint venture to generate traffic and put that business on autopilot 5. All the interviewees listed here are so enthusiastic about their business that they freely share what's working for them -- there's nothing left out, there are no "half baked" action plans, and there are no "closed door" secrets. It's all laid out in the open for you in this guide and it's up to you to apply them Although you might not be a PHP programmer like Robert Plank, a list builder like Lance Tamashiro, a product creator like Kevin Riley, an internet marketer like Willie Crawford, an affiliate marketer like Jason Parker, a business builder like Stu McLaren, a copywriter like Ryan Healy, a strategist like Ray Edwards, a speaker like David Cavanagh, or a teacher like Armand Morin... you can definitely apply the techniques explained here in your own business and everyday life.

The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

Money is the key to learning economics. If the monetary system is well understood, it will clarify seemingly impenetrable economic events. The History of Money for Understanding Economics is indeed the indispensable reference to decrypt economics, and it does so in an enthralling way, from antiquity to the present day, with readily accessible language. This book answers questions such as: How did money and banking appear? Why did gold coins vanish after circulating for centuries? What is inflation? What is the IMF? The History of Money for Understanding Economics also explains new interpretations of history that have underscored how monetary changes have catalyzed events from the fall of the Roman Empire to World War II and beyond. Considering such past monetary influences, Lannoye challenges the reader with a monetary innovation to speed up the economy (and finance a green economy).

Three Steps to Wealth & Financial Security

The American Struggle to Make Banking Democratic

70 Strategies That Will Dramatically Change the Way You Do Business

How Ordinary People Make Extraordinary Money Online

Traditional Chinese edition of Give People Money

* Argues strongly for overlooked approach to development by showing how the poor use money in ways that confound stereotypical notions of aid and handouts * Team authored by foremost scholars in the development field Amid all the complicated economic theories about the causes and solutions to poverty, one idea is so basic it seems radical: just give money to the poor. Despite its skeptics, researchers have found again and again that cash transfers given to significant portions of the population transform the lives of recipients. Countries from Mexico to South Africa to Indonesia are giving money directly to the poor and discovering that they use it wisely – to send their children to school, to start a business and to feed their families. Directly challenging an aid industry that thrives on complexity and mystification, with highly paid consultants designing ever more complicated projects, Just Give Money to the Poor offers the elegant southern alternative – bypass governments and NGOs and let the poor decide how to use their money. Stressing that cash transfers are not charity or a safety net, the authors draw an outline of effective practices that work precisely because they are regular, guaranteed and fair. This book, the first to report on this quiet revolution in an accessible way, is essential reading for policymakers, students of international development and anyone yearning for an alternative to traditional poverty-alleviation methods.

Introduction -- Wages for breathing -- Crummy jobs -- A sense of purpose -- The poverty hack -- The kludgeocracy -- The ragged edge -- The same bad treatment -- The $10 billion gift -- In it together -- A thousand dollars in a month

In this book you will explore the "3 ways to grow any business." They are: 1) Increase the number of clients you presently have 2) Increase the number of times a client visits your business/website 3) Increase the amount of money your client spends during each visit That's how I came up with the Title: More Clients... More Often... More Money From those "3 ways," I have come up with 70 strategies for you to consider implementing into your business. Each strategy has a definition of what it is, an example of how someone has used it, a few suggestions on how you could implement it into your business and an "ideas" page for you to take notes. I guarantee there is something in here for you to make a bunch of money and grow your business.

The Simple Idea to Solve Inequality and Revolutionise Our Lives

Power of Thinking Big

Shortlisted for the 2018 Financial Times and McKinsey Business Book of the Year Award! Surely just giving people money couldn't work. Or could it? Imagine if every month the government deposited £1000 in your bank account, with no strings attached and nothing expected in return. It sounds crazy, but Universal Basic Income (UBI) has become one of the most influential policy ideas of our time, backed by thinkers on both the left and the right. The founder of Facebook, Obama's chief economist, governments from Canada to Finland are all seriously debating some form of UBI. In this sparkling and provocative book, economics writer Annie Lowrey looks at the global UBI movement. She travels to Kenya to see how UBI is lifting the poorest people on earth out of destitution, and India to see how inefficient government programs are failing the poor. She visits South Korea to interrogate UBI's intellectual pedigree, and Silicon Valley to meet the tech titans financing UBI pilots in the face of advanced artificial intelligence and little need for human labour. She also examines at the challenges the movement faces: contradictory aims, uncomfortable costs, and most powerfully, the entrenched belief that no one should get something for nothing. The UBI movement is not just an economic policy -- it also calls into question our deepest intuitions about what we owe each other and what activities we should reward and value as a society.

"A gem from one of the most brilliant minds in personal finance." — Ben Stein, author, actor, TV personality, and New York Times columnist In a financial world gone mad, you still need to manage your money, put your kids through college, and save for retirement. To the rescue comes Jonathan Clements with 21 easy-to-follow rules to help you secure your financial future. Clements has spent a quarter century demystifying Wall Street for ordinary, real people on Main Street, including more than thirteen years as the Wall Street Journal's hugely popular personal-finance columnist. In The Little Book of Main Street Money, Clements brings us back to basics, with commonsense suggestions for intelligent money management. Chock-full of financial guidance that will stand up in any market, the book also reflects a financial philosophy that Clements has developed over a lifetime of watching Wall Street and writing about money—and that is even more important in the current volatile market. From the big picture (home, retirement, financial happiness) to the micro (taxes, inflation, investment costs), he offers clear-cut advice for taking control of your financial life, detailing the strategies needed to thrive in today's tough economic times. The 21 truths outlined throughout this book are a guiding light for everyone, young and old, whether starting out or soon retiring. Each chapter reads like a Clements column—clear, pithy, and feisty. From the obvious to the counterintuitive, the truths will bolster your returns, cut your costs, and give you financial peace of mind. Collectively, the 21 truths show you how to think about your entire financial life—not just stocks and bonds, but your home, your debts, your financial promises to your children, your income-earning ability, and so much more. They will help you not only survive today's treacherous financial terrain, but also prepare you for success tomorrow. Renowned for his spirited writing and shrewd investment guidance, Clements is the sane voice investors need to stay grounded in the midst of so much financial insanity.

It's much easier to become a money machine on the road to wealth if you first get rid of the debt that's choking your engine. You've seen all the goofy ideas and fads that don't work. Now it's time to get back to basics with a simple, time-tested, step-by-step plan that anyone can follow. Arm yourself with the truth about getting out of debt. Knowledge is power and you're going to get it. Find out: Whether your mortgage is good or bad (the answer may surprise you!) About the Power Pay Off Plan (and how Sam saved 20 grand) The secrets to successfully get out of debt Where to find the money you need for debt free living How much money you ought to be putting towards paying off debt The truth about debt consolidation (including pitfalls to avoid) How to use insurance to protect yourself from the unexpected What to do next, once you've started on the road to wealth Your student loans, mortgage, car loans, and credit card balances can all be gone with the straightforward strategies you'll learn in this book. You don't have to feel stress, shame, or embarrassment over it for one moment longer. You're going to take control and change your life for the better. You'll also get free access to The Debt Destroyer. This wickedly good tool will create a customized plan for you to pay off debt and ensure that more of your money stays in your pocket. In it you'll learn how to:* get organized so you don't feel like your life is being taken over by coupons* take advantage of bonus days and weekly or daily specials on foods, medicines and toiletries* save on ORGANIC foods and earth friendly household products* get more coupons than you'll know what to do with* make money with your excess coupons you don't plan on using* take advantage of sales that you didn't even think would pertain to you and put EXTRA CASH in your pocket in the same time* negotiate store policies so that you maximize the amount of money you save* save big money at drug stores like CVS, Walgreen's and RiteAid* and much, much more!Even if you have never used a coupon before you can start dramatically lowering your grocery bills with coupons starting today. There are no real "tricks" to spending less money on groceries. Successful couponing is about having a system of organization. And Coupon Millionaire will provide you with a shortcut to a system that is proven to work.If you think you already know all there is to know about couponing, then you wouldn't be reading this page. But even the most experienced couponers have walked away with some new tips they hadn't considered before. Like anything, you get out of it what you put into it. So if you're serious about saving money on groceries the next time you go shopping, then roll up your sleeves and get out those scissors so you too can start saving some serious cash!

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover that a basic universal income is not as utopian as it sounds. You will also discover : that the idea of a universal income is 2,000 years old; that it is better to give money than bags of rice to fight poverty; that all jobs could be given to robots in the surprisingly near future; that a basic universal income can boost the labor market and entrepreneurship; how to easily finance this universal basic income at seemingly insane cost. The Universal Basic Income is currently gaining momentum. Promoted in the United States by personalities as diverse as Silicon Valley tycoons, Hillary Clinton and the Black Lives Matter movement, it was the subject of a referendum in Switzerland in 2016. Dozens of experiments are underway around the world, in both developed and developing countries. The idea is simple: periodically give all members of a community (country, region, city) a certain amount of money. This is called "basic," because it is not enough to live well, but covers basic needs - a room in shared accommodation, three meals a day, and travel by public transportation. And it is not conditional on any criteria of income, employment or family status. What would you do if you received a check for 1,000 euros every month? *Buy now the summary of this book for the modest price of a cup of coffee!

Clutter has a negative effect on your life. You want to live differently, but you haven't been able to make progress. Marcie Lovett, author of The Clutter Book, will motivate you to make the changes you want. Learn to let go of what you don't need and find room for what you value. The direct, accessible writing style and interactive exercises will inspire you to succeed. In this book, Marcie guides you through the process of letting go of the clutter that is keeping you from achieving success. Whether your clutter is caused by things, commitments or thoughts, Marcie encourages you to make the choices to conquer your challenges. If previous attempts at letting go of clutter have not been successful for you, you will benefit from the motivation and wisdom Marcie offers. Written in a straightforward and accessible style, filled with insight and real-life stories, the book enables readers to learn from the experience of others and overcome obstacles to success. You will understand why you keep clutter, save time and money by avoiding unnecessary purchases, discover the habits that hold you back, find ways to fight procrastination and create systems that allow you to retrieve and return items. Whether you want to live with less or live with what you have, this is the book for you.

The perfect reality is just a thought away, but it comes at a chilling price. In a near future world, a social network by the name of MINDS gifts its users with the unique ability to communicate directly by thoughts and recreate reality by their deepest fantasies and desires. In the MINDS network, desires are actualized in a spilt of a second and unwanted elements erased from reality. The advanced algorithms of MINDS enable the user to virtually visit any place in the world or in history within seconds, in an utterly realistic three-dimensional reality. Humans can use their mind to determine everything they please - from the weather to the way their friends look like and behave. But the ultimate comfort comes at a price, and the unexpected results reveal the grand plan behind MINDS. What stands behind this magnificent social network, and what are the consequences when the virtual merges with the actual? Netopia follows the heroes of the network in the days before its establishment, through its launch, relationships and love, and the unexpected change it wreaks on the enthusiastic users who had no idea what awaited them the moment they gave up control over their minds. Is the MINDS network a dream come true or a nightmare come to life? Netopia is beyond science fiction: it is a groundbreaking novel that explores the implications of communication technology on human nature and society, the preference of warmth for realistic animal doll pets but coldness towards humans. the novel speaks to the connected and to the disconnected, to the great minds and the Neverminds. Netopia is a gleaming hope and a dark warning. So, where is your mind? Scroll up to grab your copy now.

Making Money Is Easy, Keeping It Is the Hard Part

Parker O'Neill is a man with the world at his feet. Son of the CEO of O'Neill's International, he is ready to take over as head of the company, once his father retires in six months' time.However, Parker has earned himself the ultimate playboy reputation, and not everyone thinks he is ready to take control of the company that he was groomed for all his life.Given an ultimatum that he has to settle down if he wants to take over from his father; Parker decided the only way to solve his problem, is to pay someone to play the part of his dutiful wife.Alice Whitman is a hard working girl, with a kind heart. Raised by her grandmother after losing her parents, she knows what its like to lose everything.Sophia, Alice's grandmother, is getting older and growing weaker by the day. Alice is the only one Sophia has, so it falls to her to do whatever it takes to help her beloved Gram.When Parker makes Alice an offer he thinks she can't refuse, he is stunned to find that money doesn't always mean you get your own way. However, Alice soon realises Parker might be the one person that can help her when she needs it most.Can they make their arrangement work without anyone finding out the truth, or will this thing between them turn into something neither of them expected it to be?

Surely just giving people money couldn't work. Or could it? Imagine if every month the government deposited £1000 in your bank account, with no strings attached and nothing expected in return. It sounds crazy, but Universal Basic Income (UBI) has become one of the most influential policy ideas of our time, backed by thinkers on both the left and the right. The founder of Facebook, Obama's chief economist, governments from Canada to Finland are all seriously debating some form of UBI. She travels to Kenya to see how UBI is lifting the poorest people on earth out of destitution, India to see how inefficient government programs are failing the poor, South Korea to interrogate UBI's intellectual pedigree, and Silicon Valley to meet the tech titans financing UBI pilots in expectation of a world with advanced artificial intelligence and little need for human labour. She also examines at the challenges the movement faces: contradictory aims, uncomfortable costs, and most powerfully, the entrenched belief that no one should get something for nothing. The UBI movement is not just an economic policy -- it also calls into question our deepest intuitions about what we owe each other and what activities we should reward and value as a society.

Using other people s money is becoming an increasingly common practice. In fact, you have probably used other people s money at some point without even realizing it. Even Donald Trump used other people's money to finance his investments. Now, with this book, you too can knowingly use other people's money to increase your wealth. Using other people s money, or OPM, can be a risky strategy, but Using Other's People Money to Get Rich will show you how to downplay the risks, avoid the common pitfalls, and minimize your costs. You will learn about various sources of OPM, including lending institutions, venture capitalists, angel investors, the federal government, investment banks, savings and loan associations, insurance companies, and credit unions. You will also learn how to meet the source's investment criteria, which will help ensure that you acquire OPM for your needs. In addition, you will become knowledgeable about the benefits of using OPM, debt and equity transactions, performing due diligence and research, the short- and long-term costs, and securities laws. You will also learn how to use OPM to pay off debts and invest in paper assets, the stock market, rental properties, and part-time, home-based, or Web-based businesses. We spent hours interviewing investors to learn how they used OPM to make money, and here, we provide you with all the secrets, techniques, and strategies you need to know in order to make millions. Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. If you ever read "Rich dad poor dad" and "Think and Grow Rich" you would love to read "Think Big Grow Bigger." This book will help you to understand exactly your sequence of Actions that cause results. You'll enjoy in changing the sequence to gain better results. You'll enjoy to add some actions or delete that... you'll enjoy testing other sequences. The incredible fact is that you'll have the chance to recognize and apply the sequence of wealthy people. The Stickies Strategy (r) is really powerful!!! What happen If you need some help? The Author, Riccardo Proetto, is here to help you with seminars, courses and coaching. He applied this theory for himself. In 2009 he lost everything. Something like some million euros, house... car.. everything. The problem: Even if he has frequented courses and seminars for himself, that is always a good thing, no one has explained to him how to avoid the same mistakes. He used a lot of strategies, listened a lot of guru... but what his was looking for was not the cure. He wanted the healing. He wanted to help people and himself to avoid mistakes, to accelerate the learning process, to recognize the actions sequence of everything: wealthy style, healthy style... The good news is that he found the solution and the funny thing is that everything is based on personal meanings. The result: the system is always applicable. If you'll have the opportunity to participate at one of his seminars you'll listen with your ears and you'll see with your eyes how is his story. Inside Of This Book You'll Discover The Results To These Shocking Tests: 80% of modern millionaires were able to get there on annual incomes of $55,000 or less. Even meager savings eventually add up to thousands or millions of dollars.... (this one is almost dumb, cause it's SO easy) (Page 9) Net Worth Formula Simplified The rich have a net worth often double or triple the amount. The average American has less than half. The goal is to double your net worth. (Page 9) Sense of Spending The truly rich hold off gratification, knowing that what is trendy, popular or a must have today may not last until tomorrow. (Page 11) How interest affects your debt Pay more than the minimum on loans. The more you pay now, the less you pay later.(Page 13) Today millionaires spend more time selecting what to buy than buying the product itself. They look for the best bargain before laying their money down. (Page 15) THE STICKIES STRATEGY (r) ... I've seen during these years that our personal meaning of things is the real engine that let us go forward or backward. So I've developed the Stickies Strategy. You can find your exact sequence of actions through the "meanings" and improve or change that one...(Page 54) ...extra Steps: How to Use Your Passion to Succeed Over time, we often forget the passions of our childhood or even the ones we discover as we age." Take a stroll down memory lane and make a list. What would you do if you had all of the money you needed and didn't have to worry about paying your bills?"

A brilliantly reported, global look at universal basic income—a stipend given to every citizen—and why it might be the answer for our age of rising inequality, persistent poverty, and dazzling technology. Imagine if every month the government deposited $1,000 into your checking account, with no strings attached and nothing expected in return. It sounds crazy. But it has become one of the most influential and discussed policy ideas of our time. The founder of Facebook, President Obama's chief economist, Canada and Finland's governments, the conservative and labor movements' leading intellectual lights—all are seriously debating versions of a UBI. In this sparkling and provocative book, economics writer Annie Lowrey looks at the global UBI movement. She travels to Kenya to see how a UBI is lifting the poorest people on earth out of destitution, India to see how inefficient government programs are failing the poor, South Korea to interrogate UBI's intellectual pedigree, and Silicon Valley to meet the tech titans financing UBI pilots in expectation of a world with advanced artificial intelligence and little need for human labor. Lowrey also examines the challenges the movement faces: contradictory aims, uncomfortable costs, and most powerfully, the entrenched belief that no one should get something for nothing. The UBI movement calls into question our deepest intuitions about what we owe each other. Yet as Lowrey persuasively shows, a UBI—giving people money—is not just a solution to our problems, but a better foundation for our society in this age of marvels.

Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In The Psychology of Money, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Money, money, money! It makes the world go round and round so it seems. You can either think about it or not, but you cannot escape it! How To Gain Wealth With Just One Word is a short and sweet ebook alternative. The author shares his personal experiences on receiving wealth and how his experiences will help you. This ebook discusses the power of thought, the subconscious and how to receive the best results on receiving wealth.

Make money with free stuff! Retail businesses from around the world are waiting for people like YOU to provide high quality, in depth-reviews of their products. These businesses are willing to reach out to YOU immediately in order to get your business and provide feedback that will benefit other customers. Earn a substantial income from home Making money from home has never been easier than it is today. With Internet based businesses on the rise, anyone can step in and start making an income with as little as just having a home computer and a decent Internet connection. Some sources have cited statistics that 1.6 million new home business owners bring an average income in between $100,000 and $250,000 per year. These sources cite technology as the number one leading cause of such success and those that can tap into these resources can start riding the wave immediately. Putting it all together In this book I'm going to introduce you to a real way of making money from home, one that does not require startup capital or outlandish fees. This method of making money can be worked from anywhere on the globe and only requires a short amount of time each day. If you're willing to put forth the effort to think, can write a few sentences, and have a computer connected to the Internet, then you have an instant business with a great deal of potential. Start Today By Purchasing this Book! In this book, you'll learn how to start writing real product reviews for money, how to get tons of free stuff, how to find new clients to write for, how to double your income, and much more.

Lucky child - what a wondrous world you live in! This is the theme of Little Blue Planet - a book meant to be read aloud to very young children. As you and the child explore the pages of this book, you will encounter the natural wonders of our world: forests, jungles, volcanoes, swamps, coral reefs and many more. Each of these wonders is captured in a two-page spread, with a scenic watercolor on the left and an imaginative view featuring a child on the right. This book is a first travelogue for the tiny set. It is primarily a picture book, but has just enough text to provide context and encourage the child to imagine what it would be like to visit this place. This book makes for a beautiful and quick read.

Thank you for checking out this masterpiece of a book! For the time being please use the eBook versions page to read the description until we get a description up for the paperback version. Thanks and hope you enjoy the book!

Following the success of the bestselling Multiple Streams of Income, Multiple Streams of Internet Income took the idea of making money on the Internet to the next level, by revealing how to deliver a marketing message faster, cheaper, and to a larger number of potential customers. This new updated edition includes the same wisdom that made Allen one of the most influential financial advisors in the world, but also features updated information on everything readers need to know. The book features the original seven powerful methods that average people can use to make money on the Internet, and covers such topics as taking offline products online, niche marketing, successful Web-based business models, information marketing, affiliate programs, and more. There's plenty of new material in this Second Edition, including coverage of new federal and state laws covering spam and how to work around much of the new anti-spam technology active on the Internet. All the Web sites and online resources featured in the book have also been updated.

Banks and bankers are hardly the most beloved institutions and people in this country. With its corruptive influence on politics and stranglehold on the American economy, Wall Street is held in high regard by few outside the financial sector. But the pitchforks raised against this behemoth are largely rhetorical: we rarely see riots in the streets or public demands for an equitable and democratic banking system that result in serious national changes. Yet the situation was vastly different a century ago, as Christopher W. Shaw shows. This book upends the conventional thinking that financial policy in the early twentieth century was set primarily by the needs and demands of bankers. Shaw shows that banking and politics were directly shaped by the literal and symbolic investments of the grassroots. This engagement remade financial institutions and the national economy, through populist pressure and the establishment of federal regulatory programs and agencies like the Farm Credit System and the Federal Deposit Insurance Corporation. Shaw reveals the surprising groundswell behind seemingly arcane legislation, as well as the power of the people to demand serious political repercussions for the banks that caused the Great Depression. One result of this sustained interest and pressure was legislation and regulation that brought on a long period of relative financial stability, with a reduced frequency of economic booms and busts. Ironically, this stability led to the decline of the very banking politics that brought it about. Giving voice to a broad swath of American figures, including workers, farmers, politicians, and bankers alike, Money, Power, and the People recasts our understanding of what might be possible in balancing the needs of the people with those of their financial institutions.

Using Other People's Money to Get Rich

"I recommend this book highly as one of the 10 most important 'must read' books published this year," Robert Plotkin, Founding President, World Trade Center San Diego. "Three Steps to Wealth & Financial Security – All That Glitters Isn't Gold" is a back to basics, easy to use guide to reassert financial control and secure your financial future. The book draws on real world examples that husband-and-wife authors attorney Gary Laturno, Esq. and Victoria Kuick, MBA, have encountered in counseling over two thousand homeowners in financial distress since 2007. As a result, the book will be an easy read for people who find financial matters confusing or even frightening. The authors' straightforward guidance and recommendations will help many take charge of their financial futures. Comments by Readers: I read your book last night. I'm incredibly impressed! It's a huge undertaking to present an enormous wealth of REALLY important and helpful information in a streamlined way···but you guys did it! And, I think your readers will really appreciate the genuine tone and straightforward approach—life changing stuff. Great job! I see this book distributed in high schools, colleges (law schools particularly—some lawyers are not great when it comes to financial matters), vocational schools, and the like. I hope you're aiming to reach the masses with this one—the subject matter is so salient right now, and this information is really resonating with people.Jennifer Manganello, Esq., University of California, Hastings College of the Law I just finished reading your book. Outstanding! I love the unique way it was written in PowerPoint format—original, straightforward, and easy to follow. The information the book contains, and how it is explained, makes it stand out. You do not allow the reader to blame others or make excuses about their financial situation. You tell them to look in the mirror, take responsibility, and you show them that money problems are not hopeless but fixable. The stock and real estate investing sections are informative and easy to understand. You take the complexity out of stock market investing. You show real estate

investors the pitfalls to avoid. Readers will especially benefit from how you compare and contrast real estate investing with the stock market and other investments — bonds, precious metals and cash. It's evident the book was written from firsthand experience, making it truly authentic. I am impressed both by your credentials and your experience counseling over 2,000 homeowners in financial distress since 2007. This book cuts to the core of what people need to know and do to put their financial house in order. I highly recommend your book! Read it and you will substantially increase your financial I.Q. Dory Laramore, Certified Registered Tax Preparer, and author of Get Your Finances Right: The Foundation for Success “Three Steps to Wealth & Financial Security” is well written, concise and provides a wealth of financial advice for every American. The authors ask and answer a number of profound questions. What are the lessons of the housing crisis? Why are savings rates in the United States so low? Why do so many retire on Social Security only? Why do so many mismanage their financial affairs? How do we put our financial house in order? What do we need to know and do to be financially secure? Understand the mistakes that so many made and continue to make. Fine tune your financial plan and money management skills.Recommendation: Read the book! Money management, financial planning, and wealth building are mandatory subjects not electives. Andrew J. Sussman, Esq., Partner, RSR Law Group, San Diego, California

From 2020 Democratic presidential candidate Andrew Yang, a captivating account of how "a skinny Asian kid from upstate" became a successful entrepreneur, only to find a new mission: calling attention to the urgent steps America must take, including Universal Basic Income, to stabilize our economy amid rapid technological change and automation. The shift toward automation is about to create a tsunami of unemployment. Not in the distant future--now. One recent estimate predicts 45 million American workers will lose their jobs within the next twelve years--jobs that won't be replaced. In a future marked by restlessness and chronic unemployment, what will happen to American society? In The War on Normal People, Andrew Yang paints a dire portrait of the American economy. Rapidly advancing technologies like artificial intelligence, robotics and automation software are making millions of Americans' livelihoods irrelevant. The consequences of these trends are already being felt across our communities in the form of political unrest, drug use, and other social ills. The future looks dire-but is it unavoidable? In The War on Normal People, Yang imagines a different future--one in which having a job is distinct from the capacity to prosper and seek fulfillment. At this vision's core is Universal Basic Income, the concept of providing all citizens with a guaranteed income-and one that is rapidly gaining popularity among forward-thinking politicians and economists. Yang proposes that UBI is an essential step toward a new, more durable kind of economy, one he calls "human capitalism."

In the cutthroat world of finance, there are many ways to gain wealth. And there are many more ways to lose that wealth. In Financially Intact: Making Money Is Easy, Keeping It Is the Hard Part, author Ron Vejrostek shows you not only how to become wealthy but also how to protect yourself against those who would try to take those finances away from you. Using personal stories and detailed statistics to show the many different ways people lose their capital, this book addresses legal issues, identity theft, scams, taxes, insurance, and the myriad con artists of Wall Street who try to line their pockets with your hard-earned fortune. For fans of Flash Boys, by Michael Lewis; Everyone's Money Book, by Jordan Goodman; and Financial Guidebook, by Suze Orman, this easy-to-follow resource can and will save you thousands of dollars through its simple and proven methods. Whether you're at the start of your financial career or the end of it, this invaluable tool will help you protect your assets and achieve your monetary dreams.

A child's dream takes us on a journey through space. The child looks for a place to land while exploring each planet, but some are too hot, some are too cold, and some are just made of liquid and gas. Only planet Earth is just right. Fun rhyming text introduces children to each planet and basic facts about it. The text is accompanied by stunning images of a rocket traveling through the solar system, interspersed by close up images of each planet in order. While each planet is amazing in its own way, there is only one we can call home. If parents choose, this can be the start to a conversation about how we can take better care of our planet. Adhering to the strategies in this book and in the free bonus guide will grow your net worth by thousands in the first year and hundreds of thousands over your lifetime! What are you waiting for? Click above and get started today!

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Pos so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are wit aspirations on leadership. The petty environment surrounding us also has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your chil resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book Paradise Lost, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around.
