The Report is an annual report, which is presented for the first time this year. It currently comprises 25 national reports regarding each state and the tendencies of Islamophobia in each respective country.

Arrian's Peripus Ponti Euxini affords us a unique insight into the cultural and political background of the early second century

**Goodreads Choice Award Winner for Best Science & Technology Book of the Year* In this scientifically informed account of the changes occurring in the world over the last century, award-winning broadcaster and natural historian shares a lifetime of wisdom and a hopeful vision for the future. See the world. Then make it better. I am 93. I’ve had an extraordinary life. It’s only now that I appreciate how extraordinary. As a young man, I felt I was out there in the wild, experiencing the untouched natural world - but it was an illusion. The tragedy of our time has been happening all around us, barely noticeable from day to day -- the loss of our planet's wild places, its biodiversity. I have been witness to this decline. A Life on Our Planet is my witness statement, and my vision for the future. It is the story of how we came to make this, our greatest mistake -- and how, if we act now, we can yet put it right. We have one final chance to create the perfect home for ourselves and restore the wonderful world we inherited. All we need is the will to do so.*

The fifth collection of Superman tales from the 1980s, featuring ADVENTURES OF SUPERMAN #432-435, ACTION COMICS #592-593 and SUPERMAN #9-10! Superman encounters the new hero Gangbuster, faces the menace of the Joker, teams up with Mister Miracle and Big Barda, and inadvertently becomes Metropolis's greatest menace!

Modern Albania

A Country Study

Problems of Identity and Statehood

Albania is not well known by outsiders; it was deliberately closed to the outside world during the communist era. Now it has thankfully become free again, its borders are open and it can be visited, and it is increasingly integrating with the rest of Europe and beyond. Unfortunately, Albania has had its share of problems in the post-communist era; it's a land of destitution and despair, thanks in part to the Albanian mafia, which has turned the country into one of blood-feuds, kalashnikovs, and eternal crises. Yet, Albania is, in essence, a European nation like any other and will soon, it is to be hoped, advance and take its proper place in Europe and the world. The second edition of the Historical Dictionary of Albania relates the history of this little-known country through a detailed chronology, an introduction, a bibliography, appendixes, and over 700 cross-referenced dictionary entries on significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

Provides the complete script for JFK, which details the investigation into President Kennedy’s assassination, and includes reponses and comments about the film, and official reports and documentation

A Washington Post Best Book of 2021 The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America’s longest war, foreshadowing the Taliban’s recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public’s understanding of Vietnam, The Afghanistan Papers contains “fast-paced and vivid” (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government’s strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn’t know the name of his Afghanistan war commander—and didn’t want to meet with him. Secretary of Defense Donald Rumsfeld admitted that he had “no visibility into who the bad guys are.” His successor, Robert Gates, said: “We didn’t know jack shit about al-Qaeda.” The Afghanistan Papers is a “searing indictment of the deceit, blunders, and hubris of senior military and civilian officials” (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Bes'a' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man-his honor, home, & life."--Ismail Kadare, Albanian writer.

Most programming languages contain good and bad parts, but JavaScript has more than its share of the bad, having been developed and released in a hurry before it could be refined. This authoritative book scrapes away these bad features to reveal a subset of JavaScript that's more reliable, readable, and maintainable than the language as a whole—a subset you can use to create truly extensible and efficient code. Considered the JavaScript expert by many people in the development community, author Douglas Crockford identifies the abundance of good ideas that make JavaScript an outstanding object-oriented programming language-ideas such as functions, loose typing, dynamic objects, and an expressive object literal notation.

Unfortunately, these good ideas are mixed in with bad and downright awful ideas, like a programming model based on global variables. When Java applets failed, JavaScript became the language of the Web by default, making its popularity almost completely independent of its qualities as a programming language. In JavaScript: The Good Parts, Crockford finally digs through the steaming pile of good intentions and blunders to give you a detailed look at all the genuinely elegant parts of JavaScript, including: Syntax Objects Functions Inheritance Arrays Regular expressions Methods Style Beautiful features The real beauty? As you move ahead with the subset of JavaScript that this book presents, you'll also sidestep the need to unlearn all the bad parts. Of course, if you want to find out more about the bad parts and how to use them badly, simply consult any other JavaScript book. With JavaScript: The Good Parts, you'll discover a beautiful, elegant, lightweight and highly expressive language that lets you create effective code, whether you're managing object libraries or just trying to get Ajax to run fast.

If you develop sites or applications for the Web, this book is an absolute must.

New York Times Bestseller Over 2.5 million copies sold For David Goggins, childhood was a nightmare - poverty, prejudice, and physical abuse colored his days and haunted his nights. But through self-discipline, mental toughness, and hard work, Goggins transformed himself from a depressed, overweight young man with no future into a U.S. Armed Forces icon and one of the world's top endurance athletes. The only man in history to complete elite training as a Navy SEAL, Army Ranger, and Air Force Tactical Air Controller, he went on to set records in numerous endurance events, inspiring Outside magazine to name him The Fittest (Real) Man in America. In this curse-word-free edition of Can't Hurt Me, he shares his astonishing life story and reveals that most of us tap into only 40% of our capabilities. Goggins calls this The 40% Rule, and his story illuminates a path that anyone can follow to push past pain, demolish fear, and reach their full potential.

A Life on Our Planet

Political Trust in Kosovo

A History, Updated Edition

A Dictionary of Albanian Religion, Mythology, and Folk Culture

A Secret History of the War

This volume approaches the topic of mobility in Southeast Europe by offering the first detailed historical study of the land route connecting Istanbul with Belgrade. After this route that diagonally crosses Southeast Europe had been established in Roman times, it was as important for the Byzantines as the Ottomans to rule their Balkan territories. In the nineteenth century, the road was upgraded to a railroad and, most recently, to a motorway. The contributions in this volume focus on the period from the Middle Ages to the present day.

They explore the various transformations of the route as well as its transformative role for the cities and regions along its course. This not only concerns the political function of the route to project the power of the successive empires. Also the historical actors such as merchants, travelling diplomats, Turkish guest workers or Middle Eastern refugees together with the various social, economic and cultural effects of their mobility are in the focus of attention. The overall aim is to gain a deeper understanding of Southeast Europe by foregrounding historical continuities and disruptions from a long-term perspective and by bringing into dialogue different national and regional approaches.

What are the key factors that affect political trust in a transitional democracy? This question is at the core of the scholarly academic book, Political Trust in Kosovo: Examining Cultural and Institutional Dynamics. This book emerges from a 10-year scientific study, conducted from field research of the political elite and experts in Kosovo. The study uses two original datasets dating from 2012-2013 survey (220 participants) and 2017-2018 survey (40 participants).In this book, Dr. Babamusta dives into trust perceptions across different political-legal institutions and actors, including the Kosovo Specialist Court, the U.S. Embassy in Kosovo, NATO, the United Nations, the European Union, Kosovo police and legal system, and media/TV. Low levels of political trust pose a serious threat to democracy. A certain degree of trustworthiness in institutions is a necessary precondition for the legitimacy, fairness, and democratic governance. Therefore, trust in political institutions is vital to the democratic functioning of the state. The findings show that at the macro level the functioning of democracy and political institutions matter to political trust.

In the early 1990s, Albania, arguably Europe's most closed and repressive state, began a startling transition out of forty years of self-imposed Communist isolation. Albanians who were not allowed to practice religion, travel abroad, wear jeans, or read "decadent" Western literature began to devour the outside world. They opened cafés, companies, and newspapers. Previously banned rock music blared in the streets. Modern Albania offers a vivid history of the Albanian Communist regime's fall and the trials and tribulations that led the country to become the state it is today. The book provides an in-depth look at the Communists' last Politburo meetings and the first student revolts, the fall of the Stalinist regime, the outflows of refugees, the crash of the massive pyramid-loan schemes, the war in neighboring Kosovo, and Albania's relationship with the United States. Fred Abrahams weaves together personal experience from more than twenty years of work in Albania, interviews with key Albanians and foreigners who played a role in the country's politics since 1990—including former Politburo members, opposition leaders, intelligence agents, diplomats, and founders of the Kosovo Liberation Army—and a close examination of hundreds of previously secret government records from Albania and the United States. A rich, narratively-driven account, Modern Albania gives readers a front-row seat to the dramatic events of the last battle of Cold War Europe.

Fascist Ideology is a comparative study of the expansionist foreign policies of fascist Italy and Nazi Germany from 1922-1945. Fascist Ideology provides a comparative investigation of fascist expansionism by focusing on the close relations between ideology and action under Mussolini and Hitler. With an overview of the ideological motivations behind fascist expansionism and their impact on fascist policies, this book explores the two main issues which have dominated the historiographical debates on the nature of fascist expansionism: whether Italy's and Germany's particular expansionist tendencies can be attributed to a set of generic fascist values, or were shaped by the long term, uniquely national ambitions and developments since unification; whether the pursuit of expansion was opportunistic or followed a grand design in each case.

Out of Albania

The Black Book

Foundations of Social Democracy

Montenegro in Transition

The Metamorphosis

Harry Potter and the Sorcerer's Stone

Analysing the post-1990 Albanian migration to Italy, this text is a study of one of Europe's newest, most dramatic yet least understood migrations. It explores the dynamics of this migration and takes a look at migrants' employment, housing and social exclusion in the country, as well as the process of return migration to Albania.

Large numbers of Indians - over an estimated 300 million citizens with internet-enabled mobile phones at present - have been receiving unprecedented amounts of fake, false, half-true, hateful, inflammatory (or incendiary) information in the recent past and are going to receive more such information during the general elections, the results of which will be known on 23 May 2019. The so-called WhatsApp army of the right-wing ruling regime has been 'weaponised' to influence political outcomes. Facebook and its sister social media platform, WhatsApp, are not really neutral and agnostic as they claim they are. They have been complicit in promoting the interests of Narendra Modi and his supporters in the Bharatiya Janata Party and the Rashtriya Swayamsevak Sangh for some time now, well before Modi became Prime Minister of India in May 2014. Even as the world's largest social media organisation of its kind is increasingly being questioned in different countries, this book takes a critical look at the working of Facebook and WhatsApp in India.

An economic historian presents the first, wide-ranging chronicle of the rise of Wall Street, tracing how the Street fueled the development of the U.S. into a world economic power and how it was increasingly subjected to government involvement. UP.

Franz Kafka (3 July 1883 - 3 June 1924) was one of the greatest writers of the 20th century, but almost nobody was aware of his writing until after his death. Kafka did not intend for his unpublished work to come out after his death, but his wishes were ignored, to the world's benefit. Kafka's work is so profound and unique that the term "Kafkaesque" is now a part of the English language, a reference to surreal distortions and amazing complexities.

The Facebook Effect

An insider's history of the online social network traces the collaborations and conflicts among its founders, the personalities that shaped its development, and the ways in which the site has become an integral part of contemporary culture.

First published in 1990, The Encyclopedia of Homosexuality brings together a collection of outstanding articles that were, at the time of this book’s original publication, classic, pioneering, and recent. Together, the two volumes provide scholarship on male and female homosexuality and bisexuality, and, reaching beyond questions of physical sexuality, they examine the effects of homophilia and homophobia on literature, art, religion, science, law, philosophy, society, and history. Many of the writings were considered to be controversial, and often contradictory, at that

time, and refer to issues and difficulties that still exist today. This volume contains entries from A-L.

In some senses, Albania is a living museum of the past. Originally a small herding community in the most inaccessible reaches of the Balkans, the presence of Albanians in southeastern Europe has been documented for over a thousand years. Albanian traditional folk culture, which evolved over centuries of relative isolation, is surprisingly rich. Yet despite recent events this culture remains little known to the Western world. Due to the lasting effects of a half century of Stalinist dictatorship, very few individuals even in Albania know much about their own popular traditions. The Dictionary of Albanian Religion, Mythology, and Folk Culture makes available for the first time a wealth of knowledge about Albanian popular belief and folk customs. Alphabetical entries shed light on blood feuding, figures of Albanian mythology, religious beliefs, communities, and sects, calendar feasts and rituals, and popular superstitions, as well as birth, marriage, and funeral customs, and sexual mores. This unique volume will stand as the standard reference work on the subject for years to come.

Armed forces across the globe engage in economic activities both in times of war and peace. This book provides a critical analysis of this phenomenon, comparing experiences with 'military business' from four continents (Asia, Africa, Europe and Latin America). Taking an interdisciplinary approach, the volume shows the implications of 'military business' for civil-military relations, good governance and international development policies.

The World Factbook 2003

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon Sapiens, returns with an equally original, compelling, and provocative book, turning his focus toward humanity’s future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style–thorough, yet riveting–famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

The Black Book is Orhan Pamuk’s tour de force, a stunning tapestry of Middle Eastern and Islamic culture which confirmed his reputation as a writer of international stature. Richly atmospheric and Rabelaisian in scope, it is a labyrinthine novel suffused with the sights, sounds and scents of Istanbul, an unforgettable evocation of the city where East meets West, and a boldly unconventional mystery that plumbs the elusive nature of identity, fiction, interpretation and reality.

Set on the Caribbean coast of South America, this love story brings together Fermina Daza, her distinguished husband, and a man who has secretly loved her for more than fifty years.

Turning the envelope over, his hand trembling, Harry saw a purple wax seal bearing a coat of arms; a lion, an eagle, a badger and a snake surrounding a large letter 'H'. Harry Potter has never even heard of Hogwarts when the letters start dropping on the doormat at number four, Privet Drive. Addressed in green ink on yellowish parchment with a purple seal, they are swiftly confiscated by his grisly aunt and uncle. Then, on Harry's eleventh birthday, a great beetle-eyed giant of a man called Rubeus Hagrid bursts in with some astonishing news: Harry Potter is a wizard, and he has a place at Hogwarts School of Witchcraft and Wizardry. An incredible adventure is about to begin! Having become classics of our time, the Harry Potter eBooks never fail to bring comfort and escapism. With their message of hope, belonging and the enduring power of truth and love, the story of the Boy Who Lived continues to delight generations of new readers.

Designed to meet the specific requirements of United States Government Officials in style, format, coverage, and content.

Combining history with cultural analysis, this is a social, cultural and political history of gay life in the major cities of the world since the 1940s. Focusing on New York, London, Paris, Amsterdam and Berlin, the book chronicles the importance of urban centres in the evolution of gay culture.

One of the 20th century's enduring works, One Hundred Years of Solitude is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, One Hundred Years of Solitude weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

OVER 2 MILLION COPIES SOLD MOSCOW, 1953. Under Stalin’s terrifying regime, families live in fear. When the all-powerful State claims there is no such thing as crime, who dares disagree? AN INTERNATIONAL BESTSELLER IN OVER 30 LANGUAGES An ambitious secret police officer, Leo Demidov believes he’s helping to build the perfect society. But when he uncovers evidence of a killer at large – a threat the state won’t admit exists – Demidov must risk everything, including the lives of those he loves, in order to expose the truth. A THRILLER UNLIKE ANY YOU HAVE EVER READ But what if the danger isn’t from the killer he is trying to catch, but from the country he is fighting to protect? Nominated for seventeen international awards and inspired by a real-life investigation, CHILD 44 is a relentless story of love, hope and bravery in a totalitarian world. From the screenwriter of the acclaimed television series, THE ASSASSINATION OF GIANNI VERSACE: AMERICAN CRIME STORY.

The Geography of Strabo. with an English Translation by Horace Leonard Jones

Love in the Time of Cholera (Illustrated Edition)

Kate Blackwell is the symbol of success—a beautiful woman who has parlayed her inheritance into an international conglomerate. Now, celebrating her 90th birthday, Kate surveys the family she has manipulated, dominated, and loved: the fair and the grotesque, the mad and the mild, the good and the evil—her winnings in life.

Now that the third Yugoslavia has ended and the new union of Serbia and Montenegro emerged, Montenegro still remains largely unknown. The path of this smallest republic of former Yugoslavia has differed from the rest of the country during the past decade. Montenegro emerged as the only republic not to be engulfed in armed conflict. At the same time, it remained together with Serbia part of the Federal Republic of Yugoslavia and will continue to form a loose union with Serbia for the coming three years. This book seeks to close an important gap in the literature on the former Yugoslavia. As the first overview over political, historical, and economic developments in Montenegro during the past decade in English, it seeks to offer a nuanced assessment of the difficulties encountered by Montenegro during the violent disintegration of Yugoslavia. The articles cover all major aspects for understanding contemporary Montenegro; from its historical origins and the identity of Montenegrin to political, economic developments and an overview of minority-majority relations. In addition, the book surveys the dispute over Montenegrin independence and the Belgrade agreement of March 2002. The book is not only of interest for those seeking to understand contemporary Montenegro, but also for scholars and students interested in the dissolution of Yugoslavia and the conflicts and post-war transition in which the former Yugoslav space is engaged.

***NEW YORK TIMES BESTSELLER* A captivating and inspiring guide to building an untouchable empire from mud to marble, no matter what obstacles stand in the way Rick Ross is a hip-hop icon and a towering figure in the business world, but his path to success was not always easy. Despite adversity and setbacks, Ross held tight to his vision and never settled for anything less than greatness. Now, for the first time, he shares his secrets to success, offering his own life as a road map to readers looking to build their own empire. Along the way he reveals: How to turn your ambition into action Tips for managing and investing your money Inside stories from his business and music ventures Why failure is central to success Secrets to handling stressful situations How to build the perfect team As Ross explains, “It doesn’t matter what’s going on. Even the most dire situation is just another opportunity to boss up.”Intimate, insightful and brimming with no-nonsense advice, The Perfect Time to Boss Up is the ideal book for hustlers everywhere.**
