L'importante è il risultato" dice lui. "L'importante è il viaggio, non la meta" ribatte lei. Come avvicinare uomini e donne, come conciliare le regole di Marte con le eccezioni di Venere? Dopo i bestseller che hanno aiutato milioni di coppie a ritrovare la felicità perduta, John Gray torna con il suo nuovo, attesissimo libro in cui estende il metodo "Marte e Venere" anche al contesto lavorativo, svelandoci preziosi consigli per migliorare la nostra vita in ufficio, dove rivalità e stress la fanno da padroni. Perché gli uomini sono così competitivi? Perché le donne si sentono escluse e sottopagate? Tra colleghi arroganti che inspiegabilmente sono sempre i primi a fare carriera e donne lunatiche ed emotive, vivere tante ore insieme e lavorare fianco a fianco sembra impossibile... Avvalendosi della competenza di Barbara Annis sulla diversa intelligenza del cuore di uomini e donne, John Gray ci insegna a gestire competizione e rivalità con colleghi e superiori per lavorare insieme e ottenere entrambi il riconoscimento che meritiamo e il successo che desideriamo. È ora di smettere di farsi la guerra: grazie al metodo "Marte e Venere" uomini e donne possono tornare a giocare nella stessa squadra.

Pratico, concreto, pieno di esempi e molto rassicurante L'autore del best seller mondiale Gli uomini vengono da Marte, le donne da Venere continua a esplorare il campo delle relazioni d'amore, offrendoci innumerevoli esempi delle più tipiche incomprensioni di coppia e tecniche collaudate per superarle. Un libro chiaro e concreto che insegna alle coppie a capirsi, apprezzarsi e amarsi come mai avremmo creduto possibile Spesso ci piacerebbe che i nostri fidanzati, fidanzate, mogli o mariti fossero più simili a noi. Quando cerchiamo di cambiare qualcosa nei nostri partner, però, rischiamo di dimenticarci cosa ci è più piaciuto di loro quando ce ne siamo innamorati la prima volta. Anzi, insistendo perché cambino, non solo ci avviamo verso un fallimento certo, ma le persone che amiamo potrebbero finire per sopprimere le caratteristiche che le rendono speciali e che più ci piacciono in loro. È normale sentirsi frustrati in una relazione; possiamo avere la sensazione che l'altro non ci stia sostenendo quanto vorremmo, che sia distante o addirittura che abbia smesso di amarci. Spesso, però, si tratta solo di incomprensione reciproca. In questo libro, John Gray, attingendo dalla sua lunga esperienza di psicologo specializzato in terapia di coppia, ci invita a metterci nei panni della persona amata per capirla a fondo e creare così una connessione forte e intensa. E lo fa con esempi che risulteranno familiari a molti, riferimenti alle ricerche scientifiche, consigli pratici e risposte alle domande che più ci assillano.

What does it mean to be a man? What does it mean to be manly? How has our notion of masculinity changed over the years? In this book, noted historian George L. Mosse provides the first historical account of the masculine stereotype in modern Western culture, tracing the evolution of the idea of manliness to reveal how it came to embody physical beauty, courage, moral restraint, and a strong will. This stereotype, he finds, originated in the tumultuous changes of the eighteenth century, as Europe's dominant aristocrats grudgingly yielded to the rise of the professional, bureaucratic, and commercial middle classes. Mosse reveals how the new bourgeoisie, faced with a bewildering, rapidly industrialized world, latched onto the knightly ideal of chivalry. He also shows how the rise of universal conscription created a "soldierly man" as an ideal type. In bringing his examination up to the present, Mosse studies the key historical roles of the so-called "fairer sex" (women) and "unmanly men" (Jews and homosexuals) in defining and maintaining the male stereotype, and considers the possible erosion of that stereotype in our own time.

Provides a coverage of issues of war and peace such as terrorism, irregular warfare and weapons of mass destruction. In questo nuovo volume della fortunata serie Gli uomini vengono da Marte, le donne da Venere, il guru della coppia John Gray analizza quanto e in che modo lo stress dei nostri tempi logori i rapporti tra i due sessi. Negli ultimi cinquant'anni la vita è cambiata in modo vorticoso, gli uomini e le donne hanno dovuto imparare a fare i conti con nuovi ritmi e soprattutto con nuovi ruoli. Questo ha fatto sì che i livelli di stress si impennassero vertiginosamente. Sempre più spesso accade che l'uomo, così come la donna, sia costretto a dare tutto se stesso in ambito lavorativo; quando lui torna a casa è troppo stanco per tener vivo il dialogo e preferisce isolarsi, lei invece vuole sostegno incondizionato e sente il bisogno di comunicare i suoi stati d'animo. Tutto questo contribuisce a incrementare i livelli di tensione e inevitabilmente a minare l'armonia della coppia. In Gli uomini vengono da Marte, le donne da Venere e sono tutti sotto stress Gray parte dal principio che il dialogo è il collante fondamentale di qualsiasi rapporto affettivo, quindi ci dà gli strumenti per imparare a conoscerci meglio, propone efficaci teorie per intessere relazioni serene, e tecniche per favorire il relax e la sensazione di appagamento. Il cervello e gli ormoni maschili e femminili, spiega Gray, sono concepiti per reagire diversamente allo stress; le donne si aspettano che gli uomini si comportino come loro, gli uomini fraintendono le effettive esigenze delle partner. Capire, quindi, come "Marte" e "Venere" affrontano lo stress ci permetterà di guardare ogni cosa da un nuovo punto di vista. In questo modo lo stare insieme — anche per le coppie apparentemente in bilico — diventerà un'occasione di conforto e sostegno, e potremo provare sulla nostra pelle che "il vero amore non implica la perfezione, anzi fiorisce sulle imperfezioni"

The author of Straw Dogs, famous for his provocative critiques of scientific hubris and the delusions of progress and humanism, turns his attention to cats—and what they reveal about humans' torturous relationship to the world and to themselves. The history of philosophy has been a predictably tragic or comical succession of palliatives for human disquiet. Thinkers from Spinoza to Berdyaev have pursued the perennial questions of how to be happy, how to be good, how to be loved, and how to live in a world of change and loss. But perhaps we can learn more from cats--the animal that has most captured our imagination--than from the great thinkers of the world. In Feline Philosophy, the philosopher John Gray discovers in cats a way of living that is unburdened by anxiety and self-consciousness, showing how they embody answers to the big questions of love and attachment, mortality, morality, and the Self: Montaigne's house cat, whose un-examined life may have been the one worth living; Meo, the Vietnam War survivor with an unshakable capacity for "fearless joy"; and Colette's Saha, the feline heroine of her subversive short story "The Cat", a parable about the pitfalls of human jealousy. Exploring the nature of cats, and what we can learn from it, Gray offers a profound, thought-provoking meditation on the follies of human exceptionalism and our fundamentally vulnerable and lonely condition. He charts a path toward a life without illusions and delusions, revealing how we can endure both crisis and transformation, and adapt to a changed scene, as cats have always done.

From the celebrated author of The Radetzky March comes the tragic story of a WWI officer caught in the

tumult of a world on the verge of modernity. As an Austro-Hungarian officer on the Eastern Front of World War I, Franz Tunda was captured by the Russians and sent to Siberia. Dreaming of a return to his life in Vienna, he escapes from prison—only to get caught up in the Russian Revolution, fall in love, and fight for the Bolshevik cause. Upon finally returning to Europe, Tunda finds that the old order is gone and the Europe he once knew has changed utterly. Disillusioned and without a land to call home, Joseph Roth's tragic hero is a masterful expression of the archetypal modern man taken up by the currents of history.

Gli uomini vengono da Marte, le donne da Venere, i bambini dal cielo

Entering a convent at nine years old to be trained for combat, Nona begins learning the ways of blade and fist. But when her violent past is revealed, she finds herself at the center of a battle for a crumbling empire in a dying universe.

Lui torna a casa stanco dopo una lunga giornata di lavoro, e vorrebbe solo sdraiarsi sul divano a guardare la tivù: finalmente un po' di relax! Lei però si domanda: "Mi sta ignorando? Si è accorto che ci sono anch'io, qui? L'uomo che ho sposato mi ama ancora?". Sembra proprio che maschi e femmine parlino due lingue diverse. Da venticinque anni, il metodo "Marte e Venere" indaga le profonde differenze psicologiche ed emotive tra uomini e donne, aiutando milioni di coppie a risolvere conflitti che sembravano insanabili. Oggi, sulla base di nuove ed entusiasmanti scoperte scientifiche che illustrano le differenze tra i due sessi anche a livello biochimico, John Gray scava ancor più in profondità nella nostra mente e nelle nostre relazioni d'amore. La scienza oggi conferma quel che l'istinto ci ha sempre detto: il corpo e la mente sono connessi in maniera inestricabile. In Marte è di ghiaccio, Venere di fuoco, John Gray ci spiega in che modo gli ormoni influenzano la psiche e l'umore di uomini e donne, e che l'equilibrio chimico è un fattore cruciale per trovare la soddisfazione nella vita di coppia e per garantirci salute e longevità. È il delicato equilibrio fra testosterone e ossitocina a rappresentare la chiave del nostro benessere e della felicità coniugale, perché condiziona il modo in cui l'uomo e la donna interagiscono e interpretano il mondo intorno a loro. Una dieta sana, il corretto livello degli zuccheri nel sangue, un buon sonno ristoratore e nuovi integratori alimentari: bastano piccoli interventi mirati per far sì che il nostro corpo produca gli ormoni giusti. Solo così potremo resistere allo stress di una giornata logorante a casa o in ufficio, e saremo pronti a dare e ricevere amore, comprensione e rispetto nelle interazioni con la persona che amiamo. Come sempre ricco di consigli pratici, di umorismo e di saggezza, questo libro insegna a riconoscere i fattori che possono provocare la crisi di una relazione e propone un metodo semplice ma efficace per ritrovare la serenità e riscoprire la gioia della passione.

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Relationships fall apart, marriages fail, couples break up - it happens to us all. Time corrodes passion and the routines of daily life kill the excitement that surrounds the emotion of the first encounter.

The difficulty of uniting sexual pleasure with love, which Freud considered to be the most common neurosis in any love life, has become emblematic of a truth that seems undeniable: desire is destined to die if its object is not constantly renewed, if we do not change partner, if it is closed for too long in the restrictive chamber of the same bond. And yet what happens to these bonds when one of the two partners betrays the other, when the promise fails, when there is another emotional experience cloaked in secrecy and deceit? What happens if the traitor then begs forgiveness? Are they asking to be loved again and, having declared that it is not like it used to be, now want everything to go back to how it was? Should we make fun of lovers in their attempts to make love last? Or should we try to face up to the experience of betrayal, with the offence caused by the person we love most? Should we not perhaps attempt to praise forgiveness in love?

Tells you how to break the rules & get what you want from your job, your family, & your relationship. Explores what goes into creating the "good girl" mentality that convinces women to settle for leftovers instead of reaching for the gold. Shows that not only are bad girls more confident & assertive than their good sisters, but that they are happier & more successful. They need to believe in their abilities, trust their intelligence & competence, & embrace risk. Ehrhardt outlines the mental traps & submissive body language that keep women from asserting themselves, & shares clear, effective strategies for greater happiness.

This groundbreaking series from ALAN MOORE, the award-winning writer of V FOR VENDETTA and BATMAN: THE KILLING JOKE, presents a world where the mere presence of American superheroes

changed history, the U.S. won the Vietnam War, Nixon is still president, and the Cold War is in full effect. **WATCHMEN** begins as a murder mystery but soon unfolds into a planet-altering conspiracy. As the resolution comes to a head, the unlikely group of reunited heroes—Rorschach, Nite Owl, Silk Spectre, Dr. Manhattan and Ozymandias—must test the limits of their convictions and ask themselves where the true line is between good and evil. **WATCHMEN NOIR** presents the most celebrated graphic novel of all time in gritty black-and-white pencils and inks, highlighting illustrator **DAVE GIBBONS'** masterful artwork.

From the provocative author of *Straw Dogs* comes an incisive, surprising intervention in the political and scientific debate over religion and atheism. When you explore older atheisms, you will find that some of your firmest convictions—secular or religious—are highly questionable. If this prospect disturbs you, what you are looking for may be freedom from thought. For a generation now, public debate has been corroded by a shrill, narrow derision of religion in the name of an often vaguely understood “science.” John Gray’s stimulating and enjoyable new book, *Seven Types of Atheism*, describes the complex, dynamic world of older atheisms, a tradition that is, he writes, in many ways intertwined with and as rich as religion itself. Along a spectrum that ranges from the convictions of “God-haters” like the Marquis de Sade to the mysticism of Arthur Schopenhauer, from Bertrand Russell’s search for truth in mathematics to secular political religions like Jacobinism and Nazism, Gray explores the various ways great minds have attempted to understand the questions of salvation, purpose, progress, and evil. The result is a book that sheds an extraordinary light on what it is to be human.

'I look at the way some women behave when they're dating, and I'm sorry girls, but it's an absolute car crash. The rules of successful dating are simple, but I bet you've been breaking them all.' After seeing too many of his female friends left all dressed up with nowhere to go, Gerry Stergiopoulos, every woman's ultimate best gay friend, has gone on a quest to understand why so many fabulous women have a catastrophic love life. Gerry unflinchingly enters a world of waxing, Spanx pants, dodgy self-help books, internet dating, wingwomen and smirking, to bring you his tried-and-tested History Channel technique, his perfect killer one-liners, the ingenious blackjack-based Scottish Shower system, the unbreakable three-month rule and even some sound lessons from his native Greece. *Treat Them Mean and Keep Them Keen* is the only dating book that gives it to you straight: it tells you what to hide and just how much to reveal, what to do and when to do it. You might be shocked at what Gerry suggests - but his advice works. Here is *Sono*, a new collection of bracingly original poems, from the prizewinning author of *Visits from the Seventh*. Composed during a long stay in Rome, these cantos look outward in order to look inward, transforming sights and stories into expressionistic explorations of the state of the heart. Playful, probing, philosophical, colorful, often funny, they describe a struggle to come to terms with loss and grief and to find a basis for renewal; they ask whether and how life is worth living, taking pleasure in the questions themselves. “It wasn’t the life I would have wanted, / had I known what sort of life I did want,” starts the poem entitled “Chagrin.” “I do believe I was never loved,” announces “Obelisk.” Riffing expertly, Sarah Arvio brings wit and exquisite formal discipline to her gorgeous meditations on the life lived. These are high-burning songs of the self— colloquial, sexy, unflinching, and unforgettable. A colossal mess I made of my life, in the flesh and also in the round; this was the essence of colosseum, the museum of my colossal shame, where I mused on the blood sport of it all. . . (from “Colosseum”) The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation’s sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it’s wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named Nathan. Who’s Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can’t be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of

messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

"A fantastic thriller--dead-on domestic noir, full of tension and surprises. I loved it." -Lee Child, #1 New York Times bestselling author of *The Midnight Line* She may not know exactly who is in her house. But she knows why they are there. Be careful who you let in... A house swap becomes the eerie backdrop to a crumbling marriage, a long-buried affair, and the fatal consequences that unfold When Caroline and Francis receive an offer to house swap--from their city apartment to a house in a leafy, upscale London suburb--they jump at the chance for a week away from home, their son, and the tensions that have pushed their marriage to the brink. As the couple settles in, the old problems that permeate their marriage--his unhealthy behaviors, her indiscretions--start bubbling to the surface. But while they attempt to mend their relationship, their neighbor, an intense young woman, is showing a little too much interest in their activities. Meanwhile, Caroline slowly begins to uncover some signs of life in the stark house--signs of her life. The flowers in the bathroom or the music might seem innocent to anyone else--but to her they are clues. It seems the person they have swapped with is someone who knows her, someone who knows the secrets she's desperate to forget. . . . Be careful who you let in. . .

Il libro di John Gray si basa su un pensiero tanto semplice quanto efficace: gli uomini e le donne hanno due diversi modi di pensare, di parlare, di amare. I comportamenti di uomini e donne assumono quindi spesso significati diametralmente opposti. Per esempio, tanto l'uomo in determinati momenti della sua giornata ha bisogno di 'ritirarsi nella sua caverna', in solitudine, quanto la donna, alle prese con le stesse problematiche del partner, sente di dover condividere i propri sentimenti con gli altri. Il dialogo, contrariamente a quanto si possa pensare, non è però impossibile, anzi: dal momento che si imparano a riconoscere e apprezzare le differenze tra i due sessi, tutto diventa più facile, le incomprensioni svaniscono e i rapporti si rafforzano. E, cosa più importante, possiamo imparare ad amare e a sostenere nel modo migliore le persone che sentiamo vicine.

A collection of fierce, empowering poems by living, self-identified women writers intended for girls age 12-21. Full of advice, critique, reflection, commiseration, humor, sorrow and rage, this anthology includes poems by some of the most exciting female poets writing and performing today. *Courage; Daring Poems for Gutsy Girls* will live in lockers, backpacks and under beds for years, its pages reblogged, tattooed, dog-eared and coffee stained.

Da venticinque anni il metodo 'Marte e Venere' aiuta milioni di persone in tutto il mondo a migliorare la propria vita di coppia e risolvere conflitti che sembravano insanabili, partendo dalla semplice constatazione delle profonde differenze psicologiche ed emotive che distinguono gli uomini dalle donne. Ora John Gray ha deciso di offrire al suo pubblico la possibilità di seguire il suo metodo nella maniera più semplice e immediata, raccogliendo e adattando in maniera nuova le parti più illuminanti dei suoi maggiori bestseller (*Gli uomini vengono da Marte, le donne da Venere* e *Gli uomini vengono da Marte, le donne da Venere* e sono tutti sotto stress). Il risultato è il libro che avete tra le mani, che propone - sia a chi non conosce ancora il metodo "Marte e Venere" sia a chi ne ha già fatto tesoro in passato - la possibilità di seguire un percorso molto semplice e pratico. Con elenchi, schede per lei e per lui, tabelle, frasi-chiave brevi ed essenziali John Gray illustra qui un modo estremamente intuitivo di seguire il suo metodo senza sforzo e senza pensarci troppo, con un viaggio scandito in tre tappe: conoscersi per capire che siamo diversi, confrontarsi per affrontare insieme i problemi e infine amarsi, imparando a costruire una relazione. Impareremo così che l'amore non si deve aspettare come un miracolo ma si può costruire giorno dopo giorno, e che a volte basta davvero poco per stare bene con la persona che abbiamo accanto e dare qualità e gioia alla nostra relazione.

Non è sempre facile capire come muoversi in amore, lo sappiamo tutti. In questo piccolo libro ci viene in aiuto John Gray, l'autore del bestseller internazionale *Gli uomini vengono da Marte, le donne da Venere*, il "guru della coppia" che ha spiegato con successo i diversi modi di pensare e agire delle donne e degli uomini in materia sentimentale. Con una raccolta di 365 consigli, uno per ogni giorno dell'anno, John Gray ci offre un prezioso strumento per capire come comportarci in tutte le fasi di una relazione. Per chi l'amore lo cerca o lo sta costruendo, per chi è già in una storia e cerca risposta agli inevitabili dubbi e domande che la vita di coppia comporta, per chi sta uscendo da una relazione e desidera ricominciare: un libro da consultare in ogni momento, una guida per accendere e mantenere accesa la fiamma dell'amore e della passione nel tempo.

Popular marriage counselor and seminar leader John Gray provides a unique, practical and proven way for men and women to communicate and relate better by acknowledging the differences between them. Once upon a time Martians and Venusians met, fell in love, and had happy relationships together because they respected and accepted their differences. Then they came to earth and amnesia set in: they forgot they were from different planets. Using this metaphor to illustrate the commonly occurring conflicts between men and women, Gray explains how these differences can come between the sexes and prohibit mutually fulfilling loving relationships. Based on years of successful counseling of couples, he gives advice on how to counteract these differences in communication styles, emotional needs and modes of behavior to promote a greater understanding between individual partners. Gray shows how men and women react differently in conversation and how their relationships are affected by male intimacy cycles ("get close", "back off"), and female self-esteem fluctuations ("I'm okay", "I'm not okay"). He encourages readers to accept the other gender's particular way of expressing love, and helps men and women learn how to fulfill each other's emotional needs. With practical suggestions on how to reduce conflict, crucial information on how to interpret a partner's behavior and methods for preventing emotional "trash from the past" from invading new relationships, *Men Are from Mars, Women Are from Venus* is a valuable tool for couples who want to develop deeper and more satisfying relationships with their partners.
