The Seeds of New Earth (the Silent Earth, Book 2)

In the beginning God created woman in His own like image, blessed her to go out to be fruitful and multiply, to replenish the earth, subdue it, and have dominion over everything on it, Genesis 1: 27-28. God's Own: The Genesis of Mathematical Story-Telling is about the creativity of God (The Absolute Infinite) as He is reflected in women. It is about the power of The Absolute Infinite to perform signs and wonders reflected in mathematical symbols, patterns, numbers, and graphs. It is a book on His word according to John 1:1, in the beginning was the word, the word was with God, and the word was God. God's Own: The Genesis of Mathematical Story-Telling is a mathematical, cultural, and spiritual story of Dr. Nkechi (God's own) Madonna Adeleine Agwu, aka Nma (Beautiful) Jacob. Dr. Agwu is an African female leader in mathematics and statistics education. Her life trajectory includes experiences of displacement, homelessness, living in refugee camps, single-parenting of a child with hearing and speech needs, and many other issues that from all indications could have set her up for failure, but for God's divine intervention. God's Own: The Genesis of Mathematical Story-Telling is about Dr. Agwu's journey as an ethno-mathematician to her present scholarship in African culture and women's stories in science, technology, engineering, and mathematics (STEM) related fields. It is about how she found her identity as a mathematical story-teller of members of the Organization of Nigerian Women in Agricultural Research and Development (NIWARD). It is a story about the beauty, strength, courage, and nurturing spirit of women. In this era of globalization, African people face the urgent need to foster world-wide education about their mathematics, science, technology, history and culture (Gerdes, 1998). All groups of people have made significant contributions to the development of mathematics. However, the contributions of Africans other than those related to the early beginnings of algebra and geometry in ancient Egypt, are still highly unacknowledged in the history of mathematics (Lumpkin, 1997). This is partly due to our oral traditions, slavery, colonialism, neo-colonialism, globalization, and the fact that our indigenous mathematics, scientific and technological knowledge as a people is often shrouded in our spirituality. This notwithstanding, efforts must be made to document the mathematical contributions of Africans to enrich the curriculum in a multicultural and interdisciplinary way by providing a wide repertoire of examples of mathematical concepts illustrated from the African context. God's Own: The Genesis of Mathematical Story-Telling does this. In particular, it highlights the indigenous mathematical knowledge and cultural beauty of the Ndebele people of Southern Africa. God's Own: The Genesis of Mathematical Story-Telling is a story about creativity, innovation, and adaptation. It is a story about necessity as the mother of innovation. It is about the philosophy of "do what you can, from where you are, with what you have." It is a story about Nma (Beautiful) Jacob, the survivor, overcomer, successor and faithful servant of God. It is a story that The Absolute Infinite is ever present in our lives shaping our mathematical genomes. Emmanuel - God is with us! His Angels are around us, protecting and guiding us!

"As enjoyable as a day at the beach." That's how USA TODAY summed up this hilarious and big-hearted romp in the Florida sunshine. When Murray Zemelman, a.k.a. The Bra King, pops another Prozac and heads to the Keys, he has nothing much in mind beyond a quixotic hope of winning back his first wife, Franny, whom he dumped years before. But when he forms an unlikely friendship with Tommy Tarpon, the last remaining member of an obscure Indian tribe, another plan also starts shaping up in his fevered brain. Why not open up Key West's first casino? Why not? Well, how about because the Mafia, in league with some of the nastiest politicians you will ever meet, is determined to kill anyone who tries? Somehow, Murray, Tommy, and Franny didn't think of that until they were in way too deep. Laugh along as they improvise a manic and ever more desperate campaign to keep their casino dreams--and themselves--alive.

Anthony Fontenot's staggeringly ambitious book uncovers the surprisingly libertarian heart of the most influential British and American architectural and urbanist discourses of the postwar period, expressed as a critique of central design and a support of spontaneous order. Non-Design illuminates the unexpected philosophical common ground between enemies of state support, most prominently the economist Friedrich Hayek, and numerous notable postwar architects and urbanists like Robert Venturi, Denise Scott Brown, Reyner Banham, and Jane Jacobs. These thinkers espoused a distinctive concept of "non-design,"characterized by a rejection of conscious design and an embrace of various phenomenon that emerge without intention or deliberate human guidance. This diffuse and complex body of theories discarded many of the cultural presuppositions of the time, shunning the traditions of modern design in favor of the wisdom, freedom, and self-organizing capacity of the market. Fontenot reveals the little-known commonalities between the aesthetic deregulation sought by ostensibly liberal thinkers and Hayek's more controversial conception of state power, detailing what this unexplored affinity means for our conceptions of political liberalism. Non-Design thoroughly recasts conventional views of postwar architecture and urbanism, as well as liberal and libertarian philosophies.

This revised edition continues to provide a comprehensive introduction to the policies and practices of planning. Discussing land use, urban planning and environmental protection policies, the text explains the nature of the planning process.

The Earth is in ruins. Cities and nations destroyed. Mankind is extinct. Brant and Arsha are synthetics, machines made in the image of people. They dream of bringing humans back into the world and have the technology to succeed, but the obstacles in their way are mounting. Not only are their own conflicting ideals creating a rift between them, but now the sinister Marauders are closing in as they seek revenge on Brant. Out in the wasteland, strange lights and mysterious objects in the sky herald the arrival of new factions that seek to control the region. Even in the once quiet streets of their own city, malevolent forces are beginning to unfurl that threaten the sanctity of everything they hold dear, jeopardising the future that is within their grasp. As one of the most sought-after realizations in this world, discovering your purpose is something countless self-help books will claim they can help you do, but they're missing the biggest piece of the puzzle: your relationship with God. If you're ready to wake up, shake up, break away from bondage, dust off the dullness, and discover genuine joy, it's time to take action and allow the Lord to take control of your life. True transformation can only occur when you're receptive to God's will for your life, and past sorrows and mistakes often prohibit you from moving forward and receiving Jesus's forgiveness and grace. But forgiving others-and receiving forgiveness from the Lord-is imperative for experiencing wholeness and freedom. Growing closer to God also requires some internal housecleaning. From chapters on dusting away anything that dulls the true joy of a relationship with God to receiving the living water from Jesus that quenches any thirst for fulfillment, learn how trusting God fully and seeking after His guidance are the real keys to receiving lasting contentment and transformation. Craig Comes planned for a journalism career, while his friends expected him to become a bestselling author. But un-diagnosed Attention Deficit Disorder (ADD) and Depression struck after college. After the writing stopped, delusion and denial lead to poverty. long term joblessness and self-imposed exile. Returning to himself would take 15 years in a journey spanning from California Wine Country to the South African veld. This is his story.

David shows all that is in his heart to the LORD God, and accepts the blessing God offers: by submitting and expressing appreciation to God, which is to establish his throne forever! Then went King David in (to the tabernacle, where the Ark was kept?), and sat before the LORD, and he said, who am I, O Lord GOD (that God would take time out from running the universe to consider me)? And what is my house that thou hast brought me hitherto (or to this place of honor)? And this was yet a small thing in thy sight (or not a difficult thing at all for you to do), O Lord GOD; but thou hast spoken also of thy servant's house for a great while to come (eternity, in fact, is what the LORD God said!). And is this the manner of man (or is this what God have in store (or the final state) for man?). O Lord GOD? And what can David say more unto thee? for thou, Lord GOD knows thy servant. For thy word's sake, and according to thine own heart, hast thou done all these great things, to make thy servant know them (these great things?). Wherefore thou art great, O LORD God: for there is none like thee, neither is there any God beside thee, according to all that we have (learned and,) heard with our ears. And what one (or other?) nation in the earth is like thy people, even like Israel, whom God went to redeem for a people to himself, and to make him a name, and to do for you great things and terrible (or awesome things?), for thy land, before thy people, which thou redeemedst to thee from Egypt (or the heathen world), (and) from the (other?) nations and thy gods (or false gods and idols)? For thou hast confirmed to thyself thy people Israel to be a people unto thee forever: and thou, LORD, art become their God (forever?). -2 Samuel 7:18 through 7:24

This set is based on a popular children's building set we all grew up with. I always thought they would make an excellent basis for building birdhouses and feeders. The plans have been tailored to use inexpensive dimensional cedar available at any home center. Cedar is naturally insect and weather resistant, and the building set design allows for making the feeder and birdhouse shown in the plans, or any design you can build with the logs. Full color, 33 pages including measured drawings, jig plans and a bird chart to help you attract the birds you want to.

The American suburb is a space dominated by architectural mass production, sprawl, as well as a monotonous aesthetic eclecticism, and many critics argue that it has developed from a postwar utopia into a disorienting environment with which it is difficult to identify. The typical suburb has come to display characteristics of an atopia, that is, a space without borders or even a non-place, a generic space of transience. Dealing with the representation of architecture and the built environment in suburban literature and film from the 1920s until present, this study demonstrates that in its fictional representations, too, suburbia has largely turned into a place of non-architecture. A lack of architectural ethos and an abundance of "Junkspace" define suburban narratives, causing an increasing sense of disorientation and entropy in fictional characters.

People entering, nearing, or in retirement are all wondering how they are going to make their retirement nest eggs last as long as they do. Studies show that the main fear that people have in retirement is running out of money. Add to that the reality that the rules for retirement have changed; government regulations have both helped and hindered those who are retiring. For many in the Boomer generation, it will be a challenge to make the money last without having to adhere to an unpleasant budget. To survive and thrive in retirement in the coming years requires new thinking and a clear understanding of the options open to retirees. One of these options is the Home Equity Conversion Mortgage, or what most people know as "reverse mortgages." This advancement was signed into law by President Reagan in 1988 as a way to provide homeowners the opportunity to raise funds from their home equity while continuing to enjoy living in their homes. The concept of reverse mortgages has been misunderstood and misapplied by many since that time and finally a book has arrived that thoroughly explores this concept in a detailed, yet readable manner. In What's the Deal with Reverse Mortgages?, Shelley Giordano, an expert of reverse mortgages and member of the Longevity Task Force, a group of thought leaders in retirement portfolio theory, has written a book that discusses the significant improvements made by HUD/FHA to the Home Equity Conversion Mortgage (HECM.) Over the years, and most notably in 2015, HUD has improved consumer safeguards, and reduced acquisition costs for those wishing to use their housing wealth in a controlled and strategic pattern. Shelley has brought together thought leaders and experts to write a book that applies sound analysis to demonstrate that the prudent and conservative use of housing wealth, accessed via the modern HECM, can have a profound positive effect on our other assets and our ability to generate income for retirement. This book debunks the hoary old myths attached to reverse mortgages. It explains how the HECM has evolved to meet the needs of the Boomer generation. And most importantly, it explains how to evaluate your housing wealth in the early years of retirement, and why you should never wait and pray by deferring a reverse mortgage as a last resort. Reading this book will provide you with a full understanding of reverse mortgages to see beyond the current sales and advertising tactics related to the product allowing you to discuss the best options with your adviser, banker and family. It's the definitive book on reverse mortgages!

Properly, while I endeavor to expound the principles of Christian social justice, I shall also endeavor to show you how these principles can be applied. And just as properly, it will be my hope to bestir you to action-Christian action, American action-for faith without good works is dead. Thus, at the outset, while I am deeply grateful to everyone of you for, the heroic sacrifices you have made, and will make, to keep me on the air over this independent chain of radio stations, may I ask you for one more favor today-the favor of a prayer to the Holy Ghost. I beseech all of you to ask the spirit of understanding to fill me with prudence; and the spirit of fortitude to give me strength and courage to carry on the battle against the hidden powers of darkness-perhaps not quite so hidden today as yesterday. May I also suggest that you will ask your little children who are ignorant of the causes of poverty, wretchedness and exploitation-may I suggest that you ask these innocent children to whisper a prayer for one who fully recognizes how unworthy he is but who fully realizes what a golden opportunity God has given to him to be an instrument for good. You are anxious to know what topics I shall discuss during the ensuing year. Roundly speaking, it is my hope that these addresses will be concerned chiefly with Christian social justice. While my ultimate objective is to help more and more men to save their immortal souls, I recognize how difficult it is for man to practice Christian virtue, to live a holy life in peace and contentment, when he and a great group of his fellowmen are denied unjustly an equitable share in the goods and wealth of this world-goods and wealth which our common Father in heaven bestowed upon all men for all men to use and enjoy-goods and wealth, which, alas, have been concentrated in the hands of a few to the detriment of the many because an un-Christian species of social injustice was foisted upon us in the past few centuries and because, as a result of this, an alien philosophy of social injustice, under the name either of Communism or Naziism, is endeavoring to win our allegiance today. Fearlessly, Christian social justice challenges these several systems for the attention and the support, in this instance, of the American public-a public composed of persons who, despite their many faults and shortcomings, will never surrender the heritage of Bethlehem, of Pilate's hall, of Calvary Hill or of the Easter morning sepulchre from whose empty depths there echo and re-echo the immortal words, "I am the Resurrection and the Life." Fortified with these precious heritages it is our hope to carry on a campaign of instruction and inspiration even though we find ourselves opposed by the rugged individualists on the right and by the unchristly radicals on the left. It is our hope to convert a zealous band of followers into a group of active Christians-. Christians who, by the sincerity of their lives and the logic of their doctrines shall win millions of followers who are convinced that there is no way other than Christ's way for saving America and restoring prosperity and peace for all. My friends, at the outset, permit me to clarify the fundamental doctrine of Christian social justice-the doctrine that differentiates it from every other plan of life proposed for man to follow. It is this: Christ came on earth not only to redeem and save individuals but also to establish an absolutely new social order. Recognizing the chaotic condition of society in His own time; aware of the universal slavery practiced virtually by every nation; and conscious of the spiritual darkness which had encompassed every kingdom, empire, republic and tribe, our Saviour well understood that man, left to his natural abilities, was unable to acquire peace and prosperity in this world and save his immortal soul in the hereafter.
