

Goerings War Book Two Spain And Moscow

A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out: What if Chamberlain had not signed the accord? In this action-packed chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, Hitler's War captures the beginning of a very different World War II—with a very different fate for our world today. BONUS: This edition contains an excerpt from Harry Turtledove's The War that Came Early: West and East.

"For this first full-length biography of Wolfram von Richthofen, James Corum has mined the field marshal's extensive diaries, which provide a detailed record of military campaigns, tactical and operational problems, interactions with other commanders, and his assessment of methods and weaponry. He has also drawn on interviews with Former Luftwaffe members and on his unparalleled access to von Richthofen family papers and photos." "Cutting through the myths that have grown around von Richthofen's life, Corum's study fills a major gap in the literature and offers new insight into German military culture, Hitler's strategic thinking, and their impact on the German way of war."--BOOK JACKET.

DIVIDIVFor the first time, four German WWII pilots share their side of the story./divDIV /divDIVFew perspectives epitomize the sheer drama and sacrifice of combat more perfectly than those of the fighter pilots of World War II. As romanticized as any soldier in history, the WWII fighter pilot was viewed as larger than life: a dashing soul waging war amongst the clouds. In the sixty-five-plus years since the Allied victory, stories of these pilots' heroics have never been in short supply. But what about their adversaries—the highly skilled German aviators who pushed the Allies to the very brink of defeat?/divDIV /divDIVOf all of the Luftwaffe's fighter aces, the stories of Walter Krupinski, Adolf Galland, Eduard Neumann, and Wolfgang Falck shine particularly bright. In The German Aces Speak, for the first time in any book, these four prominent and influential Luftwaffe fighter pilots reminisce candidly about their service in World War II. Personally interviewed by author and military historian Colin Heaton, they bring the past to life as they tell their stories about the war, their battles, their lives, and, perhaps most importantly, how they felt about serving under the Nazi leadership of Hermann Göring and Adolf Hitler. From thrilling air battles to conflicts on the ground with their own commanders, the aces' memories disclose a side of World War II that has gone largely unseen by the American public: the experience of the German pilot./div/div

The terrible truth behind Nazi Germany's plans for Great Britain, after WWII In July 1940, Walter Schellenberg of the German Secret Service drew up a list of 2,694 people believed to be living in Britain, who were known enemies of the Reich. In that month, the Wehrmacht was poised across the Channel ready to hit Britain with blitzkrieg, the terrible and hugely successful tactic that had already overwhelmed Poland, Denmark, Norway, Holland, Luxembourg, Belgium and France. The names on Schellenberg's list represent the heart and soul of a nation that made the British what they were but the list also includes a diaspora from Europe - the intellectuals, politicians and writers who had been driven out of their own homelands by the speed of the German conquests. All human life is there - lives that were, to the Nazis, unworthy of life. Historians have found the list a curiosity. Surely, it cannot be real? It was. The Black Book is the first book to evaluate the list, and look at the chilling reality of what Hitler had in store for the nation.

'...a lucid and scholarly account of an important and immensely complex subject...Dr. Alpert's command of a broad range of archival material, printed documents and secondary works in six languages is extremely impressive.' - P. Preston, London School of Economics and Political Science It is now twenty years since a study was dedicated to the international aspects of the Spanish Civil War and this new synthesis covering the whole of the era and setting it against major events of the late 1930s is well overdue. Michael Alpert takes full advantage of newly accessible archival sources to disentangle the intricacies of this complex issue.

Chronology Of World War Two, Hitler In Berlin And Argentina And Nazis 1945-2013. Published by Times Square Press, www.timesquarepress.com New York and Berlin.

Based upon Maximillien de Lafayette's Book "The Complete Story of the Planned Escape of Hitler: The Nazi-Spain-Argentina Coverup." A detailed and precise chronology of the major events of the Second World War from 1945, the Fall of Nazi Germany, the Escape of Adolf Hitler, Hitler's last days in Argentina, and ramifications and influence of Nazism on world's arena.

*Describes the theft and destruction of Europe's art treasures by the Nazis and the ravages of World War II, and examines the efforts to salvage them after the war
Brutality and fear. Heroism and sacrifice. Military history is a fascinating, complex, and often contradictory subject. War and fighting between tribes, clans, groups and countries has been with us forever. Great leaders, great villains, pivotal moments and events become transformative, causing political, social, and technological upheavals, which were often built on the foundation of war. The Handy Military History Answer Book is a captivating, concise, and convenient look at how the world, the United States, and the lives we lead today have been changed by war and the military. The weapons, leaders, soldiers, battles, tactics, strategies, blunders, technologies, and outcomes are all examined in this powerful primer on the military, its history—and world history. From early Greeks and Romans to Genghis Kahn and other great conquering militaries of the past, continuing on through the civil wars and world wars that shaped the boundaries of today's nations, and to the modern weapons, technologies, guerrilla warfare,*

and terrorism currently reported in the nightly news, this book investigates everything from the smallest miscalculations and maneuvers to the biggest invasions and battles, as well as the cutting-edge technologies and firepower that led to victories and helped change the world. The Handy Military History Answer Book looks at the who, the what, the why, and the how of conflicts throughout history. It answers over 1,100 questions, from the mostly widely asked to the more obscure, such as: Who cast the first stone (of human history)? Who were the "Sea Peoples"? Is there anything to the story of Ancient Troy? Could Alexander the Great have conquered the early Roman Republic? How wealthy would each of Alexander's men been had the treasure at Persepolis been divided? How many Romans lost their lives at the Battle of Cannae? Why did people underestimate Julius Caesar when he was in his thirties? How many men, and auxiliary fighters, were there in a Roman legion? Was the Battle of Actium truly decisive? And what way? Which precious metal did the Vikings prefer above all others? Do we even have his name--Genghis Khan--right? Who employed the composite bow with greater effectiveness: the Arabs or the Turks? Why did Pope Urban II go to central France in 1095? Where did Richard the Lion-Heart get his nickname? Why on earth did Hitler code-name his invasion of Russia for a German emperor who drowned? Who was the greater wit: Voltaire or King Frederick the Great? About whom did King George II remark: "Mad, is he? Well I hope he bites some of my other generals?" What great poet spent years gathering food and wine for the Spanish Armada? What was the price for King Francis' freedom, in 1526? How long did it take to learn how to use the longbow? What was the largest of the cannon brought by the Ottoman Turks to the siege of Constantinople Who took over when Genghis Khan died (after a fall from his horse)? What did the Franciscan monks say when they returned from Karakorum? Was Napoleon really not French? Who won the Battle of the Nile, and how? Where was the world's first submarine deployed? When did George Washington have to alter all his plans: and how did he go about making the change? How many people died at the Siege of Fort Sumter? What was the worst day of the Civil War, in the Far West? When were balloons first deployed in warfare? Where did the name "Uncle Sam" come from? What signals did Paul Revere watch for on the evening of April 18, 1775? What did Rasputin have to say about the approach of the First World War? How close did Hitler come to victory at Moscow in 1941? What ten days decided the outcome of World War II? What was so special about the B-24? When did the Cold War commence? What was the last action of the Yom Kippur War? What role did Colin Powell play in the run-up to war in Iraq?

Chronicles of the Spanish Civil War Series

The Mystery of Hermann Goering's Suicide

Thirty Four

The Spanish Civil War and the World it Made

Only a small percentage of the sixteen million servicemen called up during World War II saw front-line service. For the others, war involved training, reinforcement depots, tedious assignments, and lots of waiting. Herman J. Obermayer was one of those who earned a combat star without ever coming close enough to a battlefield to hear or see booming guns. Nonetheless, his letters then, and his reflection on them now, reveal important aspects of the war and the wartime world. From school, from basic training, and later from Europe, Obermayer wrote home with vivid descriptions of life in the Army. Reflective and observant, he recorded his views of both French and German reactions to the American occupation force, race relations among enlisted men, and the problems of supplying the troops as they crossed Europe after the Normandy invasion. One of the few people alive today to have seen Hermann Goering, Rudolf Hess, and other leaders of Third Reich, Obermayer wrote compellingly about the Nazis on trial at Nuremberg, describing Goering's leadership qualities when stripped of the symbols of rank. A Jew himself, Obermayer explained his reactions at the trials when he witnessed the first documentary confirmation that six million Jews had been killed in the Holocaust. He knew and wrote about the official U.S. Army hangman at Nuremberg. Readers will find in Obermayer's letters and connective commentary a welcome tendency to look for what went on beneath the surface, a challenging view of how his experiences cast light on today's politics and issues, and an engrossingly human story of war behind the lines.

At the end of World War II, a Luftwaffe hero flies a final mission for Reich Marshall Herman Goering. He delivers gold bars to the organizer of an escape route for war criminals from Germany, called the 'rat line'. Roy Neely, retired FBI psychologist, ex Air Force Vietnam fighter-bomber pilot, with a new career as a Flight Instructor, is faced with a real challenge: how, after fifty-two years later, to expose the financing of this activity. Neely enlists friends Eric Holloway from the CIA and Jacob Nervat from the Israeli Mossad to help with the investigation. After many twists and turns this leads to a treasure hunt for Goering's Gold.

"Collections: A Journal for Museum and Archives Professionals" is a multi-disciplinary peer-reviewed journal dedicated to the discussion of all aspects of handling, preserving, researching, and organizing collections. Curators, archivists, collections managers, preparators, registrars, educators, students, and others contribute.

From the Pulitzer Prize-winning and bestselling author of *The Making of the Atomic Bomb*, "The most extraordinary book about the Spanish Civil War ever encountered" (The Washington Post). The Spanish Civil War (1936-1939) inspired and haunted an extraordinary number of exceptional artists and writers, including Pablo Picasso, Joan Miró, Martha Gellhorn, Ernest Hemingway, George Orwell, and John Dos Passos. The idealism of the cause—defending democracy from fascism at a time when Europe was darkening toward another world war—and the brutality of the conflict inspired some of their best work: *Guernica*, *For Whom the Bell Tolls*, *Homage to Catalonia*, *The Spanish Earth*. The war spurred breakthroughs in military and medical

technology as well. New aircraft, new weapons, new tactics and strategy all emerged during this time. Progress arose from the horror: the doctors and nurses who volunteered to serve with the Spanish defenders devised major advances in battlefield surgery and frontline blood transfusion. In those ways, and in many others, the Spanish Civil War served as a test bed for World War II, and for the entire twentieth century. From the life of John James Audubon to the invention of the atomic bomb, readers have long relied on Richard Rhodes to explain, distill, and dramatize crucial moments in history. Now, he takes us into battlefields and bomb shelters, into the studios of artists, into the crowded wards of war hospitals, and into the hearts and minds of a rich cast of characters to show how the ideological, aesthetic, and technological developments that emerged in Spain and changed the world forever. " Hell and Good Company is vivid and emotive...thrilling reading " (The Wall Street Journal).

The Great Depression and the New Deal: A Thematic Encyclopedia [2 volumes]

Europe and the Mediterranean

A New International History of the Spanish Civil War

The Wages of Destruction

Goering's War Book Two Spain and Moscow

A comprehensive encyclopedia of the 1930s in the United States, showing how the Depression affected every aspect of American life. • Over 650 alphabetically organized entries on the impact of the Depression and the New Deal on the nation's economy, politics, society, arts, and minorities • 45 contributors at the forefront of current scholarship on 1930s America and the continuing aftershocks of that tumultuous time • Primary documents integrated throughout, including Woody Guthrie songs, writings and speeches from Huey Long and Father Coughlin, murals by Diego Rivera, excerpts from The Grapes of Wrath, and contemporary newspaper articles • Illustrations providing definitive images of the Depression/New Deal era, including federally funded work such as Dorothea Lange's photography for the Farm Security Administration • A comprehensive chronology that marks the origins, course, and consequences of the Depression and the New Deal • Bibliographic listings for each entry and a comprehensive index of people, places, events, and key terms

A study of the decades leading up to World War II profiles the world leaders, politicians, business people, and others whose personal politics and ideologies provided an inevitable barrier to the peace process and whose actions led to the outbreak of war.

This monumental book offers a comprehensive history and analysis of Republican political life during the Spanish Civil War. Completed by Burnett Bolloten just before his death in 1987 and first published in English in 1991, The Spanish Civil War is the culmination of fifty years of dedicated and painstaking research and is the most exhaustive study on the subject in any language. It has been regarded as the authoritative political history of the war and an indispensable encyclopedic guide to Republican affairs during the Spanish conflict. This new edition includes a new introduction by Spanish Civil War scholar George Esenwein, an updated bibliography featuring books on the Spanish Civil War published since 1987, and seventy-three photos of the war's participants.

Air Power History

Spain and Moscow

Origin Of The Second World War

The Rape of Europa

The German Aces Speak

A detailed account of the war describes Republican political life during the period and recounts the rise of the Spanish Communist Party

he 20th century saw air power transformed from novelists' fantasy into stark reality. From string and canvas to precision weaponry and stealth, air power has progressed to become not only the weapon of first political choice, but often the only conceivable option. This rapid development has given rise to considerable debate and controversy with those holding entrenched views rarely slow to shout their case. Many myths have grown over the period, ranging from the once much vaunted ability of air power to win wars alone through to its impact as a coercive tool. This volume examines the theory and practice of air power from its earliest inception. The contributors have been drawn from academia and the military and represent some of the world's leading proponents on the subject. All significant eras on air power employment are examined: some are evidently turning points, while others represent continuous development. Perhaps more importantly, the book highlights the areas that could be considered to be significant, and invites the reader to enter the debate as to whether it constitutes a continuum, a turning point, or indeed a revolution.

Investigates the circumstances surrounding the Nazi war criminal's suicide in 1946, just two hours before his scheduled execution, and suggests poison was smuggled to him Twenty years after Germany's victory in World War II, while the entire country prepares for the U.S. president's visit, Berlin Detective Xavier March attempts to solve the murder of a high-ranking Nazi commander. American Military Observations on the Spanish Civil War, 1936-1939

"Masterful . . . [A] painstakingly researched, astonishingly erudite study...Tooze has added his name to the roll call of top-class scholars of Nazism." —Financial Times An extraordinary mythology has grown up around the Third Reich that hovers over political and moral debate even today. Adam Tooze's controversial book challenges the conventional economic interpretations of that period to explore how Hitler's surprisingly prescient vision--ultimately hindered by Germany's limited resources and his own racial ideology--was to create a German super-state to dominate Europe and compete with what he saw as America's overwhelming power in a soon-to- be globalized world. The Wages of Destruction is a chilling work of originality and tremendous scholarship that set off debate in Germany and will fundamentally change the way in which history views the Second World War.

This book examines the reality behind the myths of the legendary German fighter aces of World War II. It explains why only a small minority of pilots - those in whom the desire for combat overrode everything - accounted for so large a proportion of the victories. It surveys the skills that a successful fighter pilot must have - a natural aptitude for flying, marksmanship, keen eyesight - and the way in which fighter tactics have developed. The book examines the history of the classic fighter aircraft that were flown, such as the Messerschmitt Bf 109 and the Focke Wulf Fw 190, and examines each type's characteristics, advantages and disadvantages in combat. The accounts of the experiences of fighter pilots are based on archival research, diaries, letters, published and unpublished memoirs and personal interviews with veterans. The pilots included are Werner Molders, Gunther Rall, Adolf Galland, Erich Hartmann and Johannes Steinhoff.

Amidst the giddy chaos of Berlin, Hitler toys with death in his bunker. The golden boy of Nazism, Hermann Goring, looks set to succeed as Fuhrer. But his bid for power ends with a cyanide capsule in a gaol cell in Nuremberg. And there history signs off on Hermann. Yet buried in the footnotes sits the extraordinary story of Hermann Goring's little brother, Albert. A defiant anti-Nazi, Albert Goring spent the war years busting the persecuted out of concentration camps, smuggling them across borders and funnelling aid to refugees throughout Europe. He did everything to undermine his brother's regime. But by 1944 the Gestapo were hunting him down like a dog. Did Hermann step in and save his brother? Enter William, a twentysomething from Sydney, Australia, who stumbles upon the key to Goring's last secret, the original list of Thirty Four witnesses penned by Albert's own hand in Nuremberg. Shelving plans for a Ph.D., William sets off on a three-year odyssey across eight countries and three continents to piece together the puzzling life of Albert Goring. There to guide him are the tattered pages of Albert's list, along with those within who bear testimony to Albert's heroism. Forget staid biography. Think seat-of-your-pants travelogue mixed with a Spielberg eye for storytelling and you start to get a taste for the energy William brings to the page. Delivering the kind of must-read story that turns history on its head, "Thirty Four" gives us a new hero. Standing alongside Oskar Schindler and Raoul Wallenberg is the Goring history forgot. 'William Hastings Burke has done a great service by bringing Albert's deeds to light. Many survivors and their descendants scattered across the globe owe their lives to him. It is time that he was recognised by Yad Vashem.' Gilead Sher, "The Jewish Chronicle" '... an enthralling piece of history that has the makings of a great novel.' "Die Presse" 'A fresh and unorthodox form of writing history, enriched by the first person.' "La Aventura De La Historia" 'Burke splices an interesting form of history with his travel anecdotes in the background.' "Die Woche"

This book is a compilation of several articles about the Spanish Civil War by different authors each one dealing with a matter.

Admiral Canaris - Chief of Intelligence

The Handy Military History Answer Book

A Captivating Guide to Spanish History, Starting from Roman Hispania Through the Visigoths, the Spanish Empire, the Bourbons, and the War of Spanish Independence to the Present

This set includes all three books of the Chronicles of the Spanish Civil War series: A Valley of Betrayal, A Shadow of Treason, and A Whisper of Freedom. In A Valley of Betrayal, Sophie finds herself alone in the war-torn Spanish countryside for reasons beyond her control. What was once a thriving paradise has become a battleground for fascist soldiers and Spanish patriots. It doesn't take long for Sophie to realize just how far from home she really is. Caught in the middle of what is quickly becoming a bloody battleground, she receives tragic news, but remaining in Spain is her only option. The route to safety is blocked and fighting surrounds her. On her darkest night, Sophie takes refuge with a brigade of international compatriots. It is among these volunteers, through the use of her fiance's camera and her art, that she pledges to make the plight of the Spanish people known around the world. In A Shadow of Treason, Sophie discovers that nothing is as she first imagined. When Walt, the reporter who helped her over the border, shows up again after Guernica is bombed, Sophie is given an impossible mission. She must leave behind the man she's fallen in love with and return to the person who betrayed her. Another layer of the war in Spain is revealed as Sophie is drawn into the international espionage schemes that could turn the tide of the war and help

protect the soldiers from the International Brigade...she must find a way to get a critical peice of information to Walt in time. In A Whisper of Freedom, battles heat up... not only those being waged by the soldiers on both sides fighting for Spain, but in the hearts and minds of the men and women who must sacrifice more than their dreams in order to save the lives of their loved ones. In this meticulously researched novel, brave and idealistic Sophie, Philip, Jose, and Deion realize their only hope for freedom is escaping Spain's borders. By continuing the story of this band of volunteers during the Spanish Civil War, A Whisper of Freedom proves that courage and commitment don't always result in outward victory. But there are whispers of hope and freedom that resonate through even the darkest night.

'Before there was James Bond, there was Gregory Sallust.' Tina Rosenberg, Salon.com Dennis Wheatley's complete, bestselling Gregory Sallust series featuring the debonair spy Gregory Sallust, a forerunner to Ian Fleming's James Bond. During WWII, Dennis Wheatley was hired by Winston Churchill to be a part of a highly confidential group of strategists. He was one of the only civilians to be recruited, on the strength that he had shown a flair for deception and cover stories in his novels, particularly through his incarnation of Gregory Sallust - widely regarded as the inspiration for Ian Fleming's James Bond. This complete collection includes the following titles in chronological order of events as they occur within the novels: CONTRABAND THE SCARLET IMPOSTOR FAKED PASSPORT THE BLACK BARONESS V FOR VENGEANCE COME INTO MY PARLOUR TRAITORS' GATE THEY USED DARK FORCES THE ISLAND WHERE TIME STANDS STILL BLACK AUGUST THE WHITE WITCH OF THE SOUTH SEAS

Like no other masterpiece of historical fiction, Herman Wouk's sweeping epic of World War II is the great novel of America's Greatest Generation. Wouk's spellbinding narrative captures the tide of global events, as well as all the drama, romance, heroism, and tragedy of World War II, as it immerses us in the lives of a single American family drawn into the very center of the war's maelstrom. The Winds of War and its sequel War and Remembrance stand as the crowning achievement of one of America's most celebrated storytellers.

From the prewar development of the German war machine to the ultimate victory of the Allied coalition, here is an in-depth analysis of the battles that raged on the Western and Eastern Fronts. It examines the major strategies, the innovative tactics, and the new generation of weapons—along with the people who used them.

Chronology Of World War Two, Hitler In Berlin And Argentina And Nazis 1945-2013

Documents Presented to the Spanish Cortes

This is the first comprehensive study of the economic relations between Nazi Germany and Franco's Spain (1936–1945). It demonstrates how, during the Spanish Civil War, Germany helped General Franco to victory and at the same time attempted to turn Spain into an economic colony. From the Back Cover: From the moment of its publication in 1961, A.J.P. Taylor's seminal work caused a storm of praise and controversy, and it has since been recognized as a classic: the first book ever to examine exclusively and in depth the causes of the Second World War and to apportion the responsibility among Allies and Germans alike. With crisp, clear prose and brilliant analysis, Taylor established that the war, "far from being premeditated, was a mistake, the result on both sides of diplomatic blunders." He argued that Hitler was more an opportunist than an ideologue who owed his successes to Great Britain's and France's tacking between resistance and appeasement, and to an American policy akin to "the significant episode of the dog in the night, to which Sherlock Holmes once drew attention. When Watson objected: 'But the dog did nothing in the night,' Holmes answered: 'That was the significant episode.'" The Times Literary Supplement called The Origins of the Second World War "simple, devastating, superlatively readable, and deeply disturbing," and it remains so now—a groundbreaking book of enduring importance.

This explosive narrative reveals for the first time the shocking hidden years of Coco Chanel's life: her collaboration with the Nazis in Paris, her affair with a master spy, and her work for the German military intelligence service and Himmler's SS. Gabrielle "Coco" Chanel was the high priestess of couture who created the look of the modern woman. By the 1920s she had amassed a fortune and went on to create an empire. But her life from 1941 to 1954 has long been shrouded in rumor and mystery, never clarified by Chanel or her many biographers. Hal Vaughan exposes the truth of her wartime collaboration and her long affair with the playboy Baron Hans Günther von Dincklage—who ran a spy ring and reported directly to Goebbels. Vaughan pieces together how Chanel became a Nazi agent, how she escaped arrest after the war and

joined her lover in exile in Switzerland, and how—despite suspicions about her past—she was able to return to Paris at age seventy and rebuild the iconic House of Chanel.

During the Spanish Civil War, foreign military officers wrote highly elaborate reports of their experiences at the front. One was attaché Col. Stephen O. Fuqua of the U.S. Army, who had once held the rank of major general. His presence was highly unusual, for most military observers were less-experienced captains, majors, and lieutenant colonels. Fuqua's reports contained important observations about Spanish armament and troop movements, and he managed to acquire Nationalist propaganda and information despite being situated entirely within Republican military lines. His reporting was considered so valuable that during World War II, Fuqua was tapped to be Time's military commentator. Editor James W. Cortada brings Fuqua's—and others'—insightful observations to light. The result is a volume of such immediacy that the reader feels transported to a time of great historical uncertainty amid the twentieth century's great "dress rehearsal" for fascism and the conflagration of World War II.

The Beginnings of World War II, the End of Civilization

What if Germany had won World War II - A Chilling Glimpse into the Nazi Plans for Great Britain

A GI's Account of World War II

Revolution and Counterrevolution

This is World War Two as it could have been. Hitler is dead, killed by an assassins bomb in late 1939. Goering is the Fuehrer. War rages in Spain and Russia. The Luftwaffe fights in Germany. The story of Germany under Goering is told from the perspective of those who fought it. Follow their lives through the streets of Moscow to the forests of Spain.

This vintage book contains a fascinating and detailed biography of the heroic chief of German military intelligence who opposed Hitler at the cost of his own life; Wilhelm Franz Canaris (1887 - 1945) was chief of the Abwehr, the German military intelligence service, between 1935 and 1944. He was a key figure in the secret opposition to Adolf Hitler's regime. Amongst his actions to oppose Hitler, was his attempt to sabotage Hitler's plan to absorb Czechoslovakia, his advising Franco not to help the Germans pass through Spain, his role in organising a spy network in Spain. Canaris was executed in a concentration camp for high treason. Contents include: "At the Height of His Ambition", "Operation Kama", "The Adventure", "The Russian Knot", "Operation Otto", "The Conspiracies Begin", "A Glimpse of Canaris", "Between Peace and War", "The Great Mobilisation", "The Admiral Helps a Lady", "The Double Dutchman", "Norway", etcetera. Many antiquarian texts such as this, are increasingly hard to come by and expensive, and it is with this in mind that we are republishing this affordable, modern, high quality edition. It comes complete with a specially commissioned new biography of the author.
