Offers an introduction to EFT told through story, activities and rhyme, enhancing children's learning and capturing their interest in EFT. This book is suitable for reading and sharing with your children and can be used as a teaching resource in the classroom or as a tool in therapy.

The author uses two unique therapies called Energy Therapy and Emotion Freedom techniques (EFT) to help your children achieve instant freedom from negative emotions and limiting beliefs.

The teenage years hold all the promise of adulthood, as well as being a transition from childhood. Yet they 're also full of challenges; for teens themselves, for their parents, siblings, communities and friends. A story in Examiner.com calls Emotional Freedom Techniques (EFT): "one of the most successful psychology self-help techniques ever developed." It 's a powerful stress-reduction method that combines elements of proven psychotherapy methods with acupressure, fingertip tapping on acupuncture points. Over 100 scientific studies have shown that EFT is effective for many physical and psychological challenges, including anxiety, depression and stress. Studies with teens show that just a few minutes of EFT can erase stress related to: • Taking exams • Peer pressure • Family conflicts • The body changes associated with puberty • Social phobias • Sports performance • Weight management • Eating disorders... and much more. For teens needing a quick and simple method of navigating their life challenges, as well as for their parents and siblings, EFT for Teens will be a cherished resource.

Raising children is life 's greatest gift and accomplishment, but it can also come with an overwhelming amount of stressors, anxiety and self-doubt. Am I modeling the type of person I want my child to become? Am I doing enough to prepare my child to strive in an ever-changing world? Are my children happy and confident in themselves? In The Tapping Solution for Parents, Children & Teenagers, Nick Ortner encourages readers to first take a look at their own stressors and worry as parents, reminding readers that self-care is vital to helping others. In the first section of the book, parents are guided on using the revolutionary technique known as EFT (Emotional Freedom Techniques) Tapping to release parental overwhelm, quiet worry, manage conflict and transform their experience of parenthood. In the second section, Nick explores specific uses for Tapping with children, ranging from releasing negative emotions like anger, fear and phobias, sadness, grief, guilt, and shame, to overcoming specific challenges such as anxiety disorders, sleep, nightmares, performance anxiety, bullying, school jitters, divorce and much more. Through the use of diagrams, links to videos, and Tapping tips, The Tapping Solution for Parents, Children & Teenagers is an easy-to-use resource to solve everyday issues taking place in our homes.

The Tapping Solution for Teenage Girls

A Novel

"The Tapping Solution for Weight Loss and Body Confidence may just go down in history as a game-changer when it comes to leading women out of weight loss hell." – Cheryl Richardson, New York Times best-selling author of The Art of Extreme Self-Care Placing conditions on our lives and our happiness has become the norm. We see it all the time: We must establish a career before looking for a relationship. We must find love before feeling fulfilled. We must feel stressed out until we finish everything on our to-do list. But by far, the most common conditions we put on ourselves revolve around our weight—no love until we lose the weight, no pursuing a dream until we lose the weight, no happiness until we lose the weight. But now there's a better option. Using tapping, also known as EFT, Jessica Ortner walks you through a process that helps you drop stress so you can drop pounds—without dieting, deprivation, or extreme exercise. Tapping, a tool that is based on the principles of both ancient acupressure and modern psychology, helps you address the underlying issues that make your body hold on to weight and gives you the ability to overcome some of the most common weight loss obstacles. Say good-bye to the cravings, panic, and self-doubt that keep you in a constant fight against your body! Using her own struggles with weight loss, along with success stories of some of the thousands of women she's worked with, Jessica teaches you not only the basics of tapping but also how to use it to address the deeper facets of your weight and self-worth challenges. This proven process is based on extensive research into the effects of tapping on stress hormones, and it provides simple, step-by-step instructions throughout and easy tapping meditations at the end of each chapter. With this loving and supportive guidance you can learn to create a more empowering relationship with food, find pleasure in exercise, and implement self-care into your life. So join Jessica and learn to love yourself and your body!

#1 New York Times bestseller • Seven starred reviews • Boston Globe-Horn Book Award Honor Book "For all the struggle in this book, Thomas rarely misses a step as a writer. Thomas continues to hold up that mirror with grace and confidence. We are lucky to have her, and

lucky to know a girl like Bri.”—The New York Times Book Review This digital edition contains a letter from the author, deleted scenes, a picture of the author as a teen rapper, an annotated playlist, Angie’s top 5 MCs, an annotated rap, illustrated quotes from the book, and an excerpt from Concrete Rose, Angie’s return to Garden Heights. Sixteen-year-old Bri wants to be one of the greatest rappers of all time. Or at least win her first battle. As the daughter of an underground hip hop legend who died right before he hit big, Bri’s got massive shoes to fill. But it’s hard to get your come up when you’re labeled a hoodlum at school, and your fridge at home is empty after your mom loses her job. So Bri pours her anger and frustration into her first song, which goes viral . . . for all the wrong reasons. Bri soon finds herself at the center of a controversy, portrayed by the media as more menace than MC. But with an eviction notice staring her family down, Bri doesn’t just want to make it—she has to. Even if it means becoming the very thing the public has made her out to be. Insightful, unflinching, and full of heart, *On the Come Up* is an ode to hip hop from one of the most influential literary voices of a generation. It is the story of fighting for your dreams, even as the odds are stacked against you; and about how, especially for young black people, freedom of speech isn’t always free. Don’t miss *Concrete Rose*, Angie Thomas’s powerful prequel to her phenomenal bestseller, *The Hate U Give!*

From the author of the popular *Introvert Doodles* and *Kind of Coping*, Maureen “Marzi” Wilson is tackling all kinds of big feelings with over 175 relatable, supportive, and light-hearted comics in her signature style. We’ve been conditioned to think that the most acceptable response to “How are you?” is, “I’m fine.” But our emotions are much more complicated than that! Sometimes we feel a little annoyed, or elated, or afraid. And you know, that’s okay! In *The Little Book of Big Feelings*, Maureen “Marzi” Wilson takes us on a journey of self-acceptance and validation. After all, our emotions are only reactions to experiences that we can learn from; there’s no such thing as a “bad” emotion. It’s okay to be scared, it’s alright to feel hopeful, and it’s perfectly fine to feel both at the same time. There is a wide range of human emotions, and it’s time we start embracing each one!

The first book on “TFT” by its founder Thought Field Therapy (TFT) has already changed the way thousands of people have overcome emotional problems. Now, in *Tapping the Healer Within*, the founder of TFT shows readers how to harness its healing power on their own, to overcome phobias, anxieties, addictions, and other common psychological problems. The process combines principles of Western and Eastern healing methods, using energy points in the body to release emotional distress.

Created by the expert hosts of the popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, *Coconuts and Kettlebells* provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, *Coconuts and Kettlebells* provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. *Coconuts and Kettlebells* is illustrated with color photos throughout.

A tale set at the end of the twenty-first century finds the planet's divided hominid population subjected to the forces of a splintery metaconsciousness that inundates networks with plans for cataclysmic technologies, prompting an unwitting jury member to participate in a grueling decision.

A most untraditional love story, this is the celebrated tale of Henry DeTamble, a dashing, adventuresome librarian who inadvertently travels through time, and Clare Abshire, an artist whose life takes a natural sequential course. Henry and Clare's passionate affair endures across a sea of time and captures them in an impossibly romantic trap that tests the strength of fate and basks in the bonds of love. "Niffenegger's inventive and poignant writing is well worth a trip" (*Entertainment Weekly*).

*The Singularity*. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form...

Voices from the Ancestors brings together the reflective writings and spiritual practices of Xicanx, Latinx, and Afro-Latinx womxn and male allies in the United States who seek to heal from the historical traumas of colonization by returning to ancestral traditions and knowledge. This wisdom is based on the authors' oral traditions, research, intuitions, and lived experiences—wisdom inspired by, and created from, personal trajectories on the path to spiritual *conocimiento*, or inner spiritual inquiry. This *conocimiento* has reemerged over the last fifty years as efforts to decolonize lives, minds, spirits, and bodies have advanced. Yet this knowledge goes back many generations to the time when the ancestors understood their interconnectedness with each other, with nature, and with the sacred cosmic forces—a time when the human body was a microcosm of the universe. Reclaiming and reconstructing spirituality based on non-Western epistemologies is central to the process of decolonization, particularly in these fraught times. The wisdom offered here appears in a variety of forms—in reflective essays, poetry, prayers, specific guidelines for healing practices, communal rituals, and visual art, all meant to address life transitions and how to live holistically and with a spiritual consciousness for the challenges of the twenty-first century.

This heartwarming tale tells of Danny Morgan, who learns the meaning of courage and friendship when he is confronted by, and befriends, the schoolyard bully. With dignity, wit, and compassion, Danny's mentor shows him that he cannot solve his problems by running away – or by becoming a bully himself.

*Mary Henrietta Kingsley was an English ethnographic and scientific writer and explorer whose travels throughout West Africa and resulting work helped shape European perceptions of African cultures and British imperialism. After a preliminary visit to the Canary Islands, Kingsley decided to travel to the west coast of Africa. The only non-African women who regularly embarked on (often dangerous) journeys to Africa were usually the wives of missionaries, government officials, or explorers. Exploration and adventure were not seen as fitting roles for women in the Victorian era. Yet, when Mary Kingsley's invalid parents died within six weeks of each other, she followed in her explorer father's footsteps and traveled to Africa against her society's every convention. Here is her lively and witty account of that journey, an immediate bestseller when it first came out in 1897 and every bit as gripping today. Kingsley's complicated and indomitable character shines through in each sentence, as she describes hacking, marching, and climbing her way through the continent. After more than a century, she remains a feminist icon and a most remarkable woman.*

**Nick Ortner, founder of the Tapping World Summit and best-selling filmmaker of *The Tapping Solution*, is at the forefront of a new healing movement. In his upcoming book, *The Tapping Solution*, he gives readers everything they need to successfully start using the powerful practice of tapping - or Emotional Freedom Techniques (EFT). Tapping is one of the fastest and easiest ways to address both the emotional and physical problems that tend to hamper our lives. Using the energy meridians of the body, practitioners tap on specific points while focusing on particular negative emotions or physical sensations. The tapping helps calm the nervous system to restore the balance of energy in the body, and in turn rewire the brain to respond in healthy ways. This kind of conditioning**

can help rid practitioners of everything from chronic pain to phobias to addictions. Because of tapping's proven success in healing such a variety of problems, Ortner recommends to try it on any challenging issue. In *The Tapping Solution*, Ortner describes not only the history and science of tapping but also the practical applications. In a friendly voice, he lays out easy-to-use practices, diagrams, and worksheets that will teach readers, step-by-step, how to tap on a variety of issues. With chapters covering everything from the alleviation of pain to the encouragement of weight loss to fostering better relationships, Ortner opens readers' eyes to just how powerful this practice can be. Throughout the book, readers will see real-life stories of healing ranging from easing the pain of fibromyalgia to overcoming a fear of flying. The simple strategies Ortner outlines will help readers release their fears and clear the limiting beliefs that hold them back from creating the life they want. Life as a bird can be stressful!
