Racial and ethnic disparities in health care are known to reflect access to care and other issues that arise from differing socioeconomic conditions. There is, however, increasing evidence that even after such differences are accounted for, race and ethnicity remain significant predictors of the quality of health care received. In *Unequal Treatment*, a panel of experts documents this evidence and explores how persons of color experience the health care environment. The book examines how disparities in treatment may arise in health care systems and looks at aspects of the clinical encounter that may contribute to such disparities. Patients' and providers' attitudes, expectations, and

Unequal Treatment offers recommendations for improvements in medical care financing, allocation of care, availability of language translation, community-based care, and other arenas. The committee highlights the potential of cross-cultural education to improve provider-patient communication and offers a detailed look at how to integrate cross-cultural learning within the health professions. The book concludes with recommendations for data collection and research initiatives. With a New Foreword The heartwrenching New York Times bestseller about the only known person born inside a North Korean prison camp to have escaped. North Korea's political prison camps have existed twice as long as Stalin's Soviet gulags and twelve times as long as the Nazi concentration camps. No one born and raised in these camps is known to have escaped. No one, that is, except Shin Dong-hyuk. In *Escape From Camp 14*, Blaine Harden unlocks the secrets of the world's most repressive totalitarian state through the story of Shin's shocking imprisonment and his astounding getaway. Shin knew nothing of civilized existence—he saw his mother as a competitor for food, guards raised him to be a snitch, and he witnessed the execution of his mother and brother. The late “Dear Leader” Kim Jong Il was recognized throughout the world, but his country remains sealed as his third son and chosen heir, Kim Jong Eun, consolidates power. Few

foreigners are allowed in, and few North Koreans are able to leave. North Korea is hungry, bankrupt, and armed with nuclear weapons. It is also a human rights catastrophe. Between 150,000 and 200,000 people work as slaves in its political prison camps. These camps are clearly visible in satellite photographs, yet North Korea's government denies they exist. Harden's harrowing narrative exposes this hidden dystopia, focusing on an extraordinary young man who came of age inside the highest security prison in the highest security state. Escape from Camp 14 offers an unequalled inside account of one of the world's darkest nations. It is a tale of endurance and courage, survival and hope.

Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “*The Federalist*”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyze the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official.
