The Islamic

differently,  
for its

capacity for  
innovation,  
and for its  
many 'firsts.'

Two of those  
'firsts'  
happened  
within months  
of each other.  
The first  
occurred in  
October 2016

when the group  
used a bomb-

Another  
Professor David

'first'

happened in  
January 2017  
when the  
Islamic State  
released a  
propaganda  
video that  
showed nearly

quadcopter  
drones it had

modified. And  
it wasn't long  
before the  
group's bomb-

drones would  
go on to kill,  
too. After  
reaching a  
high point in  
the spring of  
2017, the

program to
