A Miracle Life is a MUST read book for every woman, parent, teacher, counselor and the general public. It is a book that will touch everyone that reads it. The book tells of the dilemma of a woman who had to suffer the agonizing problems of a child who could not understand why he was different from other children who could easily read and write. It tells of the problem a grandmother had of bringing up a child, born prematurely and who turned out to be dyslexic. The book tells of a society which knew nothing of dyslexia and thought the child was abnormally dull and could not be helped. The woman struggled and managed to get her child through to High School. The child himself suffered ridicule from his peers and extreme embarrassment from society which did not understand him and which rejected him at times. In the end Tiza becomes lonely and withdrawn. He starts fearing to go to school because his class mates laughed at him when he failed to read and write properly. The trauma of it all is agonizing. Theresa Nyirenda has resolved that no other woman should suffer the way she and her grandchild suffered because of lack of knowledge on Dyslexia. Through this book, she has taken a stand to sensitize the public and lobby everybody concerned that Dyslexia is real and dyslexics should be helped because these people have special gifts and if well trained, they could become responsible citizens in the country and the world.

Twenty-twenty hindsight means perfect understanding of events only after they have happened. In his book, Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events. Sekese suffered discrimination and prejudice under the old apartheid government as well as the new, democratic regime. His story is highly personal, but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with. I had a quick read and I find the content heartbreaking but fascinating. Especially as a white South African you are drawing me into a world that I always knew existed, but which few people have the guts and conviction to paint into words. Do the sweet symphonies of the glittering past draw you back to it? Or do you find the rhythms of modern life sweeter? Perhaps the melody of the future sounds more enticing than both the past and the present? Evolving Paradigm of Life is about the life of Vijay Kulkarni, who moves from Hingoli, a small village in Maharashtra to Mumbai in the 1950s. Life in a metropolitan city like Mumbai stands in stark contrast to the simple life in his small village and it astonishes him. The vast differences in the urban and rural mind-set perplex him. He is bewildered to see the bold march of technology in the metropolitan cities. Vijay's life's journey thus, becomes a vehicle to explore the shifting perceptions of society as Vijay witnesses evolving paradigms during his life. But does he change with the changing times? Does he change his parenting paradigm or does he force his ideologies on his children? Being a dedicated guardian of the past, does he let his children embrace the changes taking place around them? Does he see technology as a boon or a bane to society? Get set to join Vijay as he embarks on life's journey, an epic journey of learning. Join him on his emotional rollercoaster ride that he rides all along his journey across seven long decades! Go into spells of introspection with him from time to time. In the end, you are sure to say emphatically – "It is time to blend the ancient hearts with the modern minds to create a happy present!"
