**It is no easy task to adopt a child, especially across different races, nor is it easy to be adopted. Jake and Nkanyiso have to work much harder than either of them probably expected to become a family of two. Just as they are becoming settled after some trials, Nkanyiso informs his adopted father that a male teacher has been sexually harassing him at school. Jake does his best to protect his adopted son, but neither of them is really prepared for the onslaught when Jake complains to the school. Each of them has to deal with the others different world view. Jakes respect for Zulu customs does not extend to funding Nkanyisos mothers training to become an isangoma; money is too tight. Nkanyiso wants to believe that no spirit can harm him, as Jake says; but the dark sorcerer hounds him continually, and he starts to despair. It is a story of bad things happening to ordinary people. An adopted father and an adopted son against the background of a country still coming to terms with democracy.**

*On the train, on the beach, on the sofa ... many people in all parts of the world enjoy doing wordsearches. If you are studying English and want to learn and practise vocabulary related to various topics, then this book is for you! The topics reflect the kinds of everyday conversations that you might have both with native and non-native speakers of English. The topics are also those that are typically tested in English examinations e.g.TOEFL, Cambridge (First Certificate, Advanced), IELTS, and Trinity. Each chapter begins with a list of questions to enable you to have a conversation about a particular topic in various situations: on a social occasion (e.g. a work dinner, a conference lunch, a party); in the classroom during an English lesson; when chatting, either face to face or online; and during an English oral exam. After the list of questions, you will find a Word List associated with the topic and exercises to test your knowledge of less common words. The final aim is then to find the words from the Word List in the related Wordsearch. Easy English! is a series of books to help you learn and revise your English with minimal effort. You can improve your English by: reading texts in English that you might normally read in your own language e.g. jokes, personality tests, lateral thinking games, and wordsearches; doing short exercises to improve specific areas grammar and vocabulary, i.e. the areas that tend to lead to the most mistakes – the aim is just to focus on what you really need rather than overwhelming yourself with a mass of rules, many of which may have no practical daily value. This book does exactly what its title suggests: it takes the theoretical and conceptual nature of leadership and positions it in the real world of school governance – where teachers, administrators and community stakeholders grapple with issues of change, diversity, influence, motivation, policy, and law. Organized around the widely accepted Interstate School Leaders Licensure Consortium (ISLLC) Standards, Theory into Practice: Case Stories for School Leaders offers a rich combination of current literature on educational leadership, real-life school-based situations, and a framework for decision-making. Designed for both current and aspiring school leaders, this book provides the perfect complement to coursework and clinical experiences by offering case stories at all levels: from teacher leader, to building leader, to district leader. The case story format enables readers to experience a wide range of school-based issues from a variety of perspectives. Through this construct, the authors present a strong case for reflective leadership and thoughtful decision-making. Given the current climate of standards, standardization, and hyper-accountability in education, this book reminds readers that education – and educational leadership – remains an intensely human experience.

The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features: Each chapter starts with a To Do list. It gives the central idea of the chapter and the way it has been addressed. Each chapter is divided into several sections corresponding to different components of the syllabus. Each chapter is splashed with HOTS. This is to promote clarity of the basics. Focus Zones in each chapter present a crux of the concepts. Blocks in each chapter include matter of special significance. Power Points and Revision Window offer a quick glance of the subject matter. 'Exercise' is tuned to the pattern of examination. Answers to important questions focus on the technique of writing. The exercise includes: objective type questions (remembering & understanding based questions), divided into five sections: (a) multiple choice questions, (b) fill in the blanks, (c) true or false, (d) matching the correct statements, (e) 'very short answer' objective type questions reason-based questions HOTS & applications analysis & evaluation CBSE questions (with answers or reference to the text for answers) NCERT questions (with hints to answers) miscellaneous and add-on questions (with hints or reference to the text for answers) Dos and Don'ts (at the end of each chapter) should serve as a safeguard against misinterpretation of the concepts. Ability Zone is a uniquely designed section at the end of the chapter. This raises the difficulty level, of course, but should serve as a useful material for the outstanding learners. Solved & Unsolved numericals are given to boost a grip on the subject.

The book provides new insights into written corrective feedback by describing students' expectations as well as mediating factors that influence their engagement with it. The book draws on an extensive dataset to illustrate secondary school students' behavioural, cognitive and emotional engagement with written corrective feedback and the extent to which mediating factors, such as teachers, peers, feedback options, attitudes and emotions, foster or hinder it. It shows why teachers need to provide students with the purpose of the corrective feedback they provide, explain how such feedback works and introduce strategies that can be employed to engage with it. Based on the finding that a combination of several feedback types is essential to ensure learner engagement, the book also provides an extensive description and multiple authentic examples of the Engagement-Feedback-Mediator Model that was developed in the context of this study.
