**This book contains a general introduction to the education of academically able students. It provides a solid background of basic knowledge and a survey of research and theory for educational theorists, student teachers, practising teachers, administrators and planners. It offers insights into relevant practical problems as well as guidelines for classroom practice. The significance of this material is outlined for the various levels of the educational system from the individual classroom to the regional planning level. The book is not, however, designed to offer set answers and pat solutions, but to provide rationale for the creative work of teachers and administrators.**

*Narrative inquiry examines human lives through the lens of a narrative, honoring lived experience as a source of important knowledge and understanding. In this concise volume, D. Jean Clandinin, one of the pioneers in using narrative as research, updates her classic formulation on narrative inquiry (with F. Michael Connelly), clarifying, extending and refining the method based on an additional decade of work. A valuable feature is the inclusion of several exemplary cases with the author's critique and analysis of the work. The rise of interest in narrative inquiry in recent years makes this*

*is an essential guide for researchers and an excellent text for graduate courses in qualitative inquiry.*
