Seminar paper from the year 2014 in the subject Business economics - Economic Policy, grade: Very Good (1,3), University of Glasgow (Adam Smith Business School), course: Growth and Development, language: English, abstract: This essay deals with the story of economic growth of post-WWII Germany. Devastated in terms of material loss and human well-being, Germany put its name in the books of economic history as a success story of development. The 'Wirtschaftswunder' (Economic Miracle) that started in the early 1950s is a topic that has been intensely studied by scholars. This essay will briefly describe some facts prior to World War II and the extent of loss during the war. The following part will highlight some data about the growth and explain how this was achieved.

*The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features: Each chapter starts with a To Do list. It gives the central idea of the chapter and the way it has been addressed. Each chapter is divided into several sections corresponding to different components of the syllabus. Each chapter is splashed with HOTS. This is to promote clarity of the basics. Focus Zones in each chapter present a crux of the concepts. Blocks in each chapter include matter of special significance. Power Points and Revision Window offer a quick glance of the subject matter. 'Exercise' is tuned to the pattern of examination. Answers to important questions focus on the technique of writing. The exercise includes: objective type questions (remembering & understanding based questions), divided into five sections: (a) multiple choice questions, (b) fill in the blanks, (c) true or false, (d) matching the correct statements, (e) 'very short answer' objective type questions reason-based questions HOTS & applications analysis & evaluation CBSE questions (with answers or reference to the text for answers) NCERT questions (with hints to answers) miscellaneous and add-on questions (with hints or reference to the text for answers) Dos and Don'ts (at the end of each chapter) should serve as a safeguard against misinterpretation of the concepts. Ability Zone is a uniquely designed section at the end of the chapter. This raises the difficulty level, of course, but should serve as a useful material for the outstanding learners. Solved & Unsolved numericals are given to boost a grip on the subject.*

**The integration of market economies is one of the most remarkable features of international economics, which has important implications for macroeconomic performance in open economies. Equally important is the declining relevance of the real versus the monetary theory dichotomy. These papers focus on those aspects of monetary policy which relate to credibility and non-neutrality; the domestic adjustment to foreign shocks; the interdependence of open economies and their strategic interactions. An important section is also devoted to the innovative modelling of exchange rate dynamics.**

"Economics for South African students is a comprehensive introduction to economics in general, set against a contemporary South African background. The easy style and many practical examples make this publication extremely accessible. The book covers all the material usually prescribed for introductory courses, and it lays a solid foundation for intermediate and advanced studies in economics. The fifth edition is a restructured, thoroughly revised and updated version of the popular fourth edition. As in the previous editions, the emphasis is on the application of economic theory. A wealth of relevant information about the South African economy is also provided. This book is also available in Afrikaans. South African workbook for economics is an additional resource that students can purchase at their local bookstore or online retailer. Please visit [www.vanschaiknet.com](http://www.vanschaiknet.com) for information on core and supplementary Economics | products."--Publisher's description.
