The purpose of this book is to communicate findings of a research synthesis investigating the bases of reading failure and the curricular and instructional basics to help guide the design and advancement of children's reading performance. The synthesis--completed by the National Center to Improve the Tools of Educators (NCITE) and sponsored by the U.S. Department of Education's Office of Special Education Programs--was conducted as part of NCITE's mission to improve the quality of educational tools that largely shape practice in American schools.

Today's era of economic crisis has sent a powerful message: The age of "mercenary" capitalism is ending. We must finally embark on a new age of sustainable, stakeholder-based capitalism. While enlightened executives and policymakers understand the critical need for change, few have tangible plans for making it happen. In *Capitalism at the Crossroads: Next Generation Business Strategies for a Post-Crisis World*, Third Edition, Stuart L. Hart presents new strategies for identifying sustainable products, technologies, and business models that will drive urgently needed growth and help solve social and environmental problems at the same time. Drawing on his experience consulting with top companies and NGOs worldwide, Hart shows how to craft your optimal sustainability strategy and overcome the limitations of traditional "greening" approaches. In this edition, he presents new and updated case studies from the United States and around the world, demonstrating what's working and what isn't. He also guides business leaders in building an organizational "infrastructure for sustainability"--one that can survive budgeting and boardrooms, recharging innovation and growth throughout your enterprise. Discover:

- The new business case for pursuing sustainable capitalism
- Sustainability strategies that go far beyond environmental sensitivity
- How to fully embed your enterprise in the local context--and why you should
- Tactics for making long-term sustainability work in a short-term world
