Grammar Tree Class 3 Oxford Guide

Using an inquiry-based approach to learning, Oxford Discover develops the communication skills and thinking skills students need for success in the 21st century. Who are your family and friends? Where can we see colors? How can we make music? Oxford Discover uses Big Questions such as these to tap into students' natural curiosity. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy,supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. Oxford Discover gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Use with Show and Tell as part of 9-level course.

This introductory text draws together and refines the descriptive and theoretical aspects of cognitive grammar. In a unified manner, it accomodates both the conceptual and the social-interactive basis of linguistic structure, as well as the need for both functional explanation and explicit structural description--Résumé de l'éditeur.

Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans--with their daily activities, concerns, and habits--and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome--one that builds skills effectively and is exciting to use.

The Grammar Book introduces teachers and future teachers to English grammatical constructions. This highly acclaimed text, used both as a course book and as a grammar reference guide, is suitable for all teachers of English. What sets it apart from other grammar books is its unique pedagogical focus: It describes not only how each grammatical construction is formed, but also its meaning and its use. Grammar is seen to be a resource for making meaning in textually and socially appropriate ways.

This volume provides a comprehensive reference grammar of Gothic, the earliest attested language of the Germanic family (apart from runic inscriptions), dating to the fourth century. The bulk of the extant Gothic corpus is a translation of the Bible, of which only a portion remains, and which has been the focus of most previous works. This book is the first in English to also draw on the recently discovered Bologna fragment and Crimean graffiti, original Gothic texts that provide more insights into the language. Following an overview of the history of the Goths and the origin of the Gothic language, Gary Miller explores all the major topics in Gothic grammar, beginning with the alphabet and phonology, and proceeding through subjects such as case functions, prepositions and particles, compounding, derivation, and verbal and sentential syntax. He also presents a selection of Gothic texts with notes and vocabulary, and ends with a chapter on linearization, including an overview of Gothic in its Germanic context. The Oxford Gothic Grammar will be an invaluable reference for all Indo-Europeanists, Germanic scholars, and historical linguists, from advanced undergraduate level upwards.

The Cambridge Advanced Learner's Dictionary gives the vital support which advanced students need, especially with the essential skills: reading, writing, listening and speaking. In the book: * 170,000 words, phrases and examples * New words: so your English stays up-to-date * Colour headwords: so you can find the word you are looking for quickly * Idiom Finder * 200 'Common Learner Error' notes show how to avoid common mistakes * 25,000 collocations show the way words work together * Colour pictures: 16 full page colour pictures On the CD-ROM: * Sound: recordings in British and American English, plus practice tools to help improve pronunciation * UNIQUE! Smart Thesaurus helps you choose the right word * QUICKfind looks up words for you while you are working or reading on screen * UNIQUE! Oxford Reading Circle (New Ed.) Primer

Developing Writing

New Oxford English Grammar is Oxford's brand new and definitive guide to grammar usage. This book has been written by a leading expert in the field, covers both British and American English, and makes use of the unrivalled language monitoring of Oxford's English Dictionaries programme. Arranged in three clear parts for ease of use, its comprehensive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly and engagingly. This descriptive source of reference is invaluable for those with an interest in the English language, undergraduate students of all disciplines, and for anyone who would like a clear guide to English grammar and how to use it.

When you look at fine connections, it's hard to say exactly what relation "Alice in Wonderland" has to this book, "Through the Looking-Glass," Oh, it's plainly the same girl, though she seems older, here, and some characters (like Tweedledum and Tweedledee) appear in both. But she doesn't get there the same way, and doesn't refer to her adventures in Wonderland so much as once. Oh well: maybe it's all a dream and she can't remember the last one -- or maybe the magic through the Looking-Glass has hold of her, just as it has hold of Humpty Dumpty, or the Walrus and the Carpenter.
