

Grays Sports Almanac Firebase

This notebook has been designed after the movie prop used in the 1989 blockbuster Back to the Future: Part II. The Grays Sports Almanac was given to Biff by his future self so he could win any upcoming sports bets when he went back to the past. Now the memories of the classic movie can live on with your own notebook inspired after the unforgettable movie prop. This notebook has 100 lined pages.

Grays Sports Almanac: Complete Sports Statistics 1950-2000 - Blank Lined Journal
You are looking at an exquisite Grays Sports Almanac blank lined journal reminiscent of the fictional almanac featured in the hit 1989 movie Back to the Future: Part III! The cover is a superbly detailed and accurate reconstruction of the original with a gorgeous glossy finish! This almanac measures 6 X 9 and contains 120 blank lined pages. Perfect for journaling or general note taking. This is a very unique and high quality prop that would make an amazing gift for any Back to the Future fan!

Are you ready to outperform the competition in the digital economy-but are dissatisfied with how internal initiatives never get you far enough, fast enough? Innovation Casino is a new playbook on how executives at large firms can grow digital revenue in the 2020s. Challenged with COVID-19 at the outset, the 2020s are also poised for higher taxes and higher borrowing costs. In this new decade, large corporates will need to change course from betting on big acquisitions (a strategy used by "players" in the innovation casino) to growing organically by creating new reasons for customers to pay a premium and stay loyal. The "innovation casino" is a metaphor for the odds of delivering financial returns from innovation. To beat the odds, large firms must transform their core products into digital ecosystems-much like the App Store on the Apple iPhone. Digital ecosystems give large firms the opportunity to participate in thousands of bets on digital innovation produced by outside startups-rather than trying to innovate by themselves. By focusing on their core platforms and incentivizing startups to build everything else, large firms can play to their natural strengths as the "house" in the innovation casino. In his work with leading companies, digital innovator and best-selling author Eisaiah Engel has seen firsthand how innovation investments can be hampered by internal roadblocks and complexities. Engel founded three companies in the digital advertising space, including one that generated over \$1 million annually with an initial investment of \$25,000. Curious to learn the machinery of large organizations, Engel then divested his startups and worked as a consultant and later as a marketing leader at a Fortune 10 firm. Innovation Casino was born of Engel's struggles to innovate at the extreme ends of corporate structure-from his own startups to companies with billions in revenue. In Innovation Casino, Engel proposes a shift in corporate innovation financing: Use outside capital to fund startups, encouraging them to build new products and services on a large firm's platform. Through the research-based strategies in Innovation Casino, you will: Learn how to combine open innovation with seed funding-motivating startups to develop products and services that attract customers to your platform. Make thousands of bets on innovation with an Ecosystem Innovation Fund (EIF)-a cross between the US government's SBIR (Small Business Innovation Research) grant program and venture capital. Maximize principal preservation and your returns with the unique risk management structure of an EIF. "Buy low" by giving entrepreneurs unprecedented control of their companies in exchange for valuation discounts to maximize your returns. Invest in "zebra" startups that are excited about delivering niche solutions on your platform, unlike their "unicorn" cousins who are trying to become your competitors. Free your digital ecosystem to participate in thousands of bets on innovation-overcoming the constraints of your organizational structure. Innovation Casino takes an odds-based view of strategy, basing its provocative recommendations on years of primary and secondary research by the author. With more than 21 graphs and detailed data tables, this book provides critical information for your digital ecosystem strategy. Giving this book to your corporate strategy, finance, and product teams would be a smart bet on your company's future in the platform economy.

Betting on the past's future is a safe bet. So bet on this blank journal based off the sports almanac from the Back to the Future Part II film.Keep track of your sports records, use it as a diary, or keep a sketch book. But don't let the principal catch you looking at the copy of "Ooh La La" hidden inside...

Sports Almanac

Discover who the aliens are - the benevolent ones and those who mean us harm - and what they want from us. Here is the ultimate field guide to the 82 extraterrestrial species that populate the universe. Fully illustrated throughout. This is the ultimate field guide to the 82 extraterrestrial species that populate the universe. ET enthusiast Craig Campobasso explores the origins, physical characteristics, technological and consciousness abilities, dimensional capacities, belief systems, and cosmic agendas of each of the species. The species fall into two categories: 1) benevolent races, which function as the guardians of humanity, whose goals include helping people overcome duality, healing, and protecting; and 2) malevolent races, which are responsible for abductions, cloning, and ultimately domination. This intergalactic expose will entertain all those interested in UFOs, aliens, ETs. Sci-fi and fantasy fans of the Marvel universe; Star Trek, Star Wars, and other popular TV shows like Ancient Aliens; Roswell, and Project Blue Book are prime targets for this book that delves deep into who the real extraterrestrials are and what they want with the people of Earth.

Travel through time and experience the gastronomic history of Hill Valley with this colorful cookbook inspired by the Back to the Future trilogy. Hill Valley may have changed a lot over the years, but the idyllic town of the beloved Back to the Future movies is a treat to visit in any time period. Divided into five chapters, this quirky cookbook explores the complicated history of Hill Valley through the best possible medium: food. Start your culinary journey in good ol' 1985 with some delicious American comfort food, then travel back to 1955 for some classic diner cuisine. Jump to the far future of 2015 and nosh on some dehydrated pizza. Things might get a little greasy in Biff's alternative, dystopian 1985, but the hardy frontier food of 1885 will keep you going through shoot-outs, train robberies, and whatever else the Wild West has to throw at you. Featuring full-color photography, alternative ingredient suggestions, and helpful notes from some of your favorite characters (Hi, Doc!), this time-hopping, genre-defying cookbook is the perfect gift for foodies, home cooks, and Back to the Future fans of all ages!

A blank journal with for you to document your psychedelic journey into the weird.

A compelling portrait of a unique moment in American history when the ideas of Charles Darwin reshaped American notions about nature, religion, science and race "A lively and informative history." – The New York Times Book Review Throughout its history America has been torn in two by debates over ideals and beliefs. Randall Fuller takes us back to one of those turning points, in 1860, with the story of the influence of Charles Darwin's just-published On the Origin of Species on five American intellectuals, including Bronson Alcott, Henry David Thoreau, the child welfare reformer Charles Loring Brace, and the abolitionist Franklin Sanborn. Each of these figures seized on the book's assertion of a common ancestry for all creatures as a powerful argument against slavery, one that helped provide scientific credibility to the cause of abolition. Darwin's depiction of constant struggle and endless competition described America on the brink of civil war. But some had difficulty aligning the new theory to their religious convictions and their faith in a higher power. Thoreau, perhaps the most profoundly affected all, absorbed Darwin's views into his mysterious final work on species migration and the interconnectedness of all living things. Creating a rich tableau of nineteenth-century American intellectual culture, as well as providing a fascinating biography of perhaps the single most important idea of that time, The Book That Changed America is also an account of issues and concerns still with us today, including racism and the enduring conflict between science and religion.

This book is an exact replica of the original Grays Sports Almanac as seen in the 1989 film 'Back to the Future Part II' and contains 155 pages of sports statistics spanning 50 years. The cover has been painstakingly created in high-quality crisp graphics using a genuine prop which was used for filming as a reference to make this an exact replica. With 155 pages containing 50 years of sports statistics from 1950 to the year 2000, including American Football, Basketball, Horse Racing, Ice Hockey, Major League Baseball and others. This is the perfect book for anyone who appreciates the Back to the Future franchise, movie props, 80's movies or just sport in general.

A behind-the-scenes look at the making of the iconic Back to the Future trilogy! the perfect movie gift for fans of the franchise, actors, writers, and filmmakers who contributed to this beloved pop culture phenomenon. Long before Marty McFly and Doc Brown traveled through time in a flying DeLorean, director Robert Zemeckis, and his friend and writing partner Bob Gale, worked tirelessly to break into the industry with a hit. During their journey to realize their dream, they encountered unprecedented challenges and regularly took the difficult way out. For the first time ever, the story of how these two young filmmakers struck lightning is being told by those who witnessed it. We Don't Need Roads draws from over 500 hours of interviews, including original interviews with Zemeckis, Gale, Christopher Lloyd, Lea Thompson, Huey Lewis, and over fifty others who contributed to one of the most popular and profitable film trilogies of all time. The book includes a 16-page color photo insert with behind-the-scenes pictures, concept art, and more. With a focus not only on the movies, but also the lasting impact of the franchise and its fandom, We Don't Need Roads is the ultimate read for anyone who has ever wanted to ride a Hoverboard, hang from the top of a clock tower, travel through the space-time continuum, or find out what really happened to Eric Stoltz after the first six weeks of filming. So, why don't you make like a tree and get outta here! and start reading! We Don't Need Roads is your density. What fun! Deeply researched and engagingly written...the book Back to the Future fans have been craving for decades. Geekily enthusiastic and chock full of never-before-heard tales of what went on both on and off the screen, We Don't Need Roads is a book worthy of the beloved trilogy itself. Brian Jay Jones, author of the national bestseller Jim Henson: The Biography A very compelling and enjoyable history of our trilogy. For me, reading it was like going back in time. And! Great Scott! there were even a few anecdotes that I'd never heard! Bob Gale, co-creator, co-producer, and co-writer of the Back to the Future trilogy

How Darwin's Theory of Evolution Ignited a Nation

Great Scott! Go Back to the Future with Doc Brown and Marty McFly in this visually stunning look at the creation of one of the most beloved movie trilogies of all time. Few films have made an impact on popular culture like the Back to the Future trilogy. This deluxe, officially licensed book goes behind the scenes to tell the complete story of the making of these hugely popular movies and how the adventures of Marty McFly and Doc Brown became an international phenomenon. Back to the Future: The Ultimate Visual History is a stunning journey into the creation of this beloved time-traveling saga and features hundreds of never-before-seen images from all three movies, along with rare concept art, storyboards, and other visual treasures. The book also features exclusive interviews with key cast and crew members—including Michael J. Fox, Christopher Lloyd, Lea Thompson, Robert Zemeckis, Bob Gale, Steven Spielberg, Frank Marshall, Kathleen Kennedy, and more—and tells the complete story of the production of the movies, from the initial concept to the staging of iconic scenes such as the "Enchantment Under the Sea" dance and the hoverboard sequence. The book also delves into the wider Back to the Future universe, exploring the animated television show and Back to the Future: The Ride. Written by Michael Klastorin—the production publicist on the second and third movies—with Back to the Future expert Randal Atamaniuk, this book delivers a range of surprises from the Universal Pictures archives and also includes a wealth of special removable items. Comprehensive, compelling, and definitive, Back to the Future: The Ultimate Visual History is the book that fans have been waiting for. Removable items include: Hill Valley High School Tardy Slip Back to the Future The Ride security pass Save the Clocktower leaflet Sepia photograph of Marty and Doc from Part III Marty's note to Doc from the first film with the envelope George McFly's book Jaws 19 movie poster George and Lorraine's prom photo Doc's flux capacitor sketch from the first film Doc's note to Marty from 1885 Biff one dollar bill from Part II Blast from the Past receipt from Part II Lenticular version of the iconic McFly family photo from the first film

This is an exact replica of the original Living and the Dead magazine as seen at the end of th 1988 movie Beetlejuice. Unlike the one used for filming this has been perfectly bound, the cover and the first several pages of this book have been carefully recreated using a genuine prop which was used for filming as a reference. Since no actual content exists for the body of the rest of these pages, the remainder of this book has been cleared for you to use as a journal or sketchbook should you wish. To recreate this the book, it consists of just 34 pages on a white background with footers and numbers on each page. Perfect for any Tim Burton or 80's movie fan.
