“For I know the plans I have for you,” declares the Lord, “plans to prosper you and not to harm you, plans to give you hope and a future. Then you will call on me and come and pray to me, and I will listen to you. You will seek me and find me when you seek me with all your heart. I will be found by you,” declares the Lord, “and will bring you back from captivity...” (Jeremiah 29:11–14)

Walking in the path of darkness, I never looked up to see God’s light. I had put God on the shelf. I was making my way in life. I was gaining notoriety and recognition for my accomplishments. My pride, arrogance, and selfishness were shining in my fleshly success. I was rolling and life was rocking, until one day, God placed a boulder in my path I could not move. In the blink of an eye, I lost my career, and my marriage was coming to an end. My Heavenly Father had stopped my fleshly ways to show me the deep darkness of my soul. He would take the pieces of clay from my brokenness, place me back on His pottery wheel, remold me with His loving hands, and put me through the fire to purify my soul. He would lead me to His place, “The Back Porch,” where He would teach me to meditate, show me visions, give me peace in His quietness, and open my ears to hear His voice. I would listen as He would speak through the pen and I would record His spoken words. Exhausted, tired, and weary, a broken man was being healed through the writings of his Heavenly Father. In this journey, He will use my love for nature to share with me the simple things in life, explain my visions, and gain understanding as we walk through this journey together. God shines His light

and speaks to every man and woman. You must take the time to see His light and be still in His presence to hear His voice. Open this book, take a journey with me, and experience how God heals and remolds a broken man. He led me to write this book so you can see how God changed me and experience how God can change you. The *Mystery of Edwin Drood* is the final novel by Charles Dickens, originally published in 1870. Though the novel is named after the character Edwin Drood, it focuses more on Drood's uncle, John Jasper, a precentor, choirmaster and opium addict, who is in love with his pupil, Rosa Bud. Miss Bud, Edwin Drood's fiancée, has also caught the eye of the high-spirited and hot-tempered Neville Landless. Landless and Edwin Drood take an instant dislike to one another. Later Drood disappears under mysterious circumstances.

This volume presents selected papers from the 36th LSRL conference held at Rutgers University in 2006. It contains twenty-two articles of current approaches to the study of Romance linguistics. Well-known researchers present their findings in areas such as of syntax and semantics, phonology, psycholinguistics, sociolinguistics. The volume contains scholarly research in areas such as parenthetical null topic construction, expletives, number and language change, performative verbs in colonial court Spanish, aspect shift, palatization in Romanian, melodic contours in Majorcan

Catalan, variation in verb type and position, and deviance in early child bilingualism among many others. It is a well-rounded selection of research topics that will enrich and widen our understanding of Romance languages. In the aftermath of the financial crisis, why has the reform process been incremental yet the conditions for more rapid and abrupt transformations appeared to be available? Is there anything specific about financial policy that prevents more radical reforms? Drawing from Comparative Politics and Historical Institutionalism in particular, as well as International Political Economy, this book answers these questions by examining the particular institutional frictions that characterise global financial governance and influence the activity of change agents and veto players involved in the process of global regulatory change. The chapters in this volume collectively demonstrate that the process of change in financial rule-making as well as in the institutions governing finance does not fit with the punctuated model of policy change. The book also shows, however,

that incremental changes can lead to fundamental shifts in the basic principles that inform global financial governance.

Great Expectations is the thirteenth novel by Charles Dickens and his

penultimate completed novel. It depicts the education of an orphan nicknamed Pip. It is Dickens's second novel, after *David Copperfield*, to be fully narrated in the first person.

Among all the genres of literature, the novel has always held a fascination for the readers over the centuries. Rightly so, because it tells a story in a gripping and dramatic style, which often reminds them of their lives, sometimes transporting them into an imaginary world of entertainment and escape, and enabling them to forget their worries and concerns. The 19th century England was prodigious for the production of novels with such luminaries as William Makepeace Thackeray, Charles Dickens, the famous Bronte sisters—Charlotte Bronte, Anne Bronte and Emily Bronte—George Eliot and Thomas Hardy adorning the horizon. Among these, Dickens certainly holds a pride of place: his prodigious writings, predominantly novels, and his inimitable style bear testimony to this. The child figure is ubiquitous in all his novels—from *Oliver Twist*, *Dombey and Son* to *Hard Times* and *Great*

Expectations. The child is sometimes the victim and sometimes the reminder of the innocence lost in a materialistic world. Great Expectations is a fascinating novel told with remarkable drama, humour and irony. It is a gripping story, the story of Pip, the orphan boy adopted by Mr. Joe Gragery, a blacksmith. Pip has both good luck and great expectations; but then he loses both. Through his rise and fall, Pip learns how to find happiness and, in the process, falls in love. Pip is neither a hero nor an antihero. He is just an ordinary human being who experiences myriad emotions—fright, love, grief, misery and happiness. As in his other novels, Dickens draws memorable and haunting characters in this novel, too, and also exposes the rampant corruption prevalent during the period. Besides a comprehensive Preface by the Editor, the book gives the actual text, followed by specially written critical essays on the novel by experts in the field, each offering insights on different aspects of narrative, themes and culture. Undergraduate and

postgraduate students of English Literature as well as researchers in the field should find this book extremely useful and immensely readable.

In a novel that is at once intense, beautiful, and fablelike, Lloyd Jones weaves a transcendent story that celebrates the resilience of the human spirit and the power of narrative to transform our lives. On a copper-rich tropical island shattered by war, where the teachers have fled with most everyone else, only one white man chooses to stay behind: the eccentric Mr. Watts, object of much

curiosity and scorn, who sweeps out the ruined schoolhouse and begins to read to the children each day from Charles Dickens's classic Great Expectations. So begins this rare, original story about the abiding strength that imagination, once ignited, can provide. As artillery echoes in the mountains, thirteen-year-old Matilda and her peers are riveted by the adventures of a young orphan named Pip in a city called London, a city whose contours soon become more real than their own blighted landscape. As Mr. Watts says, "A person entranced by a book simply forgets to breathe." Soon come the rest of the villagers, initially threatened, finally inspired to share tales of their own that bring alive the rich mythology of their past. But in a ravaged place where even children are forced to live by their wits and daily survival is the only objective, imagination can be a dangerous thing.

Seminar paper from the year 2003 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Frankfurt (Main) (Institut für England- und Amerikaforschung), course: Seminar: Charles Dickens: Great Expectations, 6 entries in the bibliography, language: English, abstract: Introduction Pip's love for the cold-hearted beauty Estella is one of the main themes of Dickens' Great Expectations and Pip's main motivation for becoming a gentleman. Throughout the novel Estella seems ever present even when she is miles away. His expectations and aspirations are all linked in some way to his desire for her. Pip's obsession with Estella is somewhat confusing for today's readers, since this relationship is clearly one-sided and "[...] against reason, [...] against peace, against hope, against happiness, against all discouragement that could be." (S. 229) In his essay I will describe the nature of their relationship. It is going to analyse what it is that attracts Pip to Estella. This means we are going to discuss if Pip's feelings towards Estella are, at all, of a romantic nature, or if there are other forces at work. I will further show that social and economic aspects play a vital role in their relationship. We are thus going to have a closer look at the background and the upbringing of both characters, in order to clarify in how far the factors that I have mentioned above determine Pip and Estella's relationship. Lastly I will compare the two endings and see how the conflict between Pip's naïve aspirations and the somewhat less romantic reality is resolved in each.

We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely – on and

beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The 'machine habitus' is the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.

""The Signal-Man"" is a horror/mystery story by Charles Dickens, first published as part of the Mugby Junction collection in the 1866 Christmas edition of All the Year Round. The railway signalman of the title tells the narrator of an apparition that has been haunting him. Each spectral appearance precedes a tragic event on the railway on which the signalman works. The signalman's work is at a signal-box in a deep cutting near a tunnel entrance on a lonely stretch of the railway line, and he controls the movements of passing trains. When there is danger, his fellow signalmen alert him by telegraph and alarms. Three times, he receives phantom warnings of danger when his bell rings in a fashion that only he can hear. Each warning is followed by the appearance of the spectre, and then by a terrible accident. The first

accident involves a terrible collision between two trains in the tunnel. Dickens may have based this incident on the Clayton Tunnel crash[1] that occurred in 1861, five years before he wrote the story. Readers in 1866 would have been familiar with this major disaster. The second warning involves the mysterious death of a young woman on a passing train. The final warning is a premonition of the signalman's own death"
