

Guess The Name Of The Teddy Temple Christianduke

Mystery dogs representing ten popular breeds show off in this book. They hope young readers might recognize them by their famous features. But no matter what, they will make known what makes them stand out as special. Each one is proud to have a one-of-a-kind look.

Metacognition plays an important role in numerous aspects of higher educational learning strategies. When properly integrated in the educational system, schools are better equipped to build more efficient and successful learning strategies for students in higher education. Metacognition and Successful Learning Strategies in Higher Education is a detailed resource of scholarly perspectives that discusses current trends in learning assessments. Featuring extensive coverage on topics such as spiritual intelligence strategies, literacy development, and ubiquitous learning, this is an ideal reference source for academicians, graduate students, practitioners, and researchers who want to improve their learning strategies using metacognition studies.

A shark with a blunt head and a shark with a crooked smile are two predators in this shark-infested book. They congregate with eight of their relatives to tease young readers. Will kids know which shark is which just by their body parts and markings?

Four Corners is an integrated four-skills English course for adults and young adults. Four Corners Full Contact with Self-study CD-ROM, Level 1 includes four key components of the Four Corners series: Student's Book, Workbook, Video Activity Sheets, and Self-study CD-ROM.

A snake with a lure on its tail is one of the ten mystery snakes in this book. It is an expert trickster. And along with the other snakes, it wants to find out how smart young readers are compared to foolish prey.

"Like the very best K-drama bottled up in a book." --Maurene Goo, author of Somewhere Only We Know "A dazzling, utterly swoonful romp that artfully navigates identity and place. I absolutely devoured this." --Mary H. K. Choi, New York Times bestselling author of Emergency Contact and Yolk For fans of Anna and the French Kiss and Loveboat Taipei, this effervescent debut takes readers on a journey to the place where trends are born--Seoul, Korea--where

Melody Lee unwillingly moves with her family and must start a new life, a new school...and maybe a new romance. Melody always wanted to get to know the Korean side of her Korean American heritage better, but not quite like this. Thanks to a tiny transgression after school one day, she's shocked to discover that her parents have decided to move her and her mom out of New York City to join her father in Seoul--immediately! Barely having the chance to say goodbye to her best friend before she's on a plane, Melody is resentful, angry, and homesick. But she soon finds herself settling into their super luxe home, meeting cool friends at school, and discovering the alluring aspects of living in Korea--trendsetting fashion, delectable food, her dad's black card, and a cute boy to hang out with. Life in Seoul is amazing...until cracks begin to form on its shiny surface. Troubling family secrets, broken

friendships, and a lost passion are the prices Melody has to pay for her new life, but is it worth it? Claire Ahn's charming debut lets you taste every bite of kalbi, bathe in the glow of Seoul's neon lights, and feel every high and low of Melody's journey across the world and within her heart.

The Sweetest Heist in History

I Guess I Live Here Now

Nicole was one of those perfect students, with impeccable record and the highest GPA in her senior class. She had the perfect plan for her life until her world came crumbling down. She discovered that her father had Leukemia and barely had a few years left. She relied on her best friend to help her through this as she did when her mother died. Her fear became greater when she find out she was being stalk. At the same time, she ended up dating the school 's bad boy, Ken. Her life was coming out of the shadows until she find out the truth behind her father 's terminal disease.

GATSBY GIRLS She was an impulsive, fashionable and carefree 1920s woman who embodied the essence of the Gatsby Girl -- F. Scott Fitzgerald's wife, Zelda. As Fitzgerald said, "I married the heroine of my stories." All of the eight short stories contained in this collection were inspired by Zelda. Fitzgerald, one of the foremost writers of American fiction, found early success as a short story writer for the most widely read magazine of the early 20th century -- the Saturday Evening Post. Fitzgerald's stories, first published by the Post between 1920 and 1922, brought the Jazz Age and the "flapper" to life and confirmed that America was changing faster than ever before. Women were bobbing their hair, drinking and flirting shamelessly, and Fitzgerald brought these exciting Gatsby Girlsto life in the pages of the Post. A foreword by Jeff Nilson, archivist for the Post, adds historical context to this wonderful, new collection, which is highlighted by an introduction written by Fitzgerald himself. Each story is accompanied by the original illustrations and the beautiful cover images from the Post. Read the stories that made F. Scott Fitzgerald one of the most beloved writers in America -- and around the world -- still today.

A fish named for a heavenly being, a fish named for a magical horse, and eight other mystery fishes swim around in this book. They are curious how much they really look like the things that inspired their names. Will young readers see a resemblance?

Guess the Marsupial

It's All in a Name

Ten mystery marsupials are out of the pouch in this book. They are bored of hide-and-seek and ready to play a guessing game instead. Each one has a clue prepared to highlight a defining quirk. Will these clues be giveaways for young readers?

Ten mystery lizards make fashion statements in this book. There is one wearing a large cape. There is another one covered in edgy spikes. There is even one waving a beautiful fan. Which of the lizards will young readers instantly know by style cues alone?

Ten mystery dinosaurs from different prehistoric time periods and with different appetites coexist in this book. They may be extinct creatures, but they think young readers might recognize them from pictures and other recreations. Each one has a trademark look to show and tell about.

How to Become Famous, Instantly, Or, In Search of a Name

Autumn has arrived, and at Granite City Elementary School everyone is gearing up for the biggest and best event of the year: the Harvest Festival. The whole school is excited about the games, the contests, the food, and, most of all, the costumes! Everyone except Lucy. She doesn't like dressing up, and has no desire to be a fairy princess or rock star, even for one day. But Lucy is excited about the new science unit

Miss Flippo has started: the states of matter. Lucy and her friends understand solids and liquids. They're easy. But gasses are more difficult to grasp. When the class goes on a field trip to an orchard and Stewart Swinefest eats too many apples, and gets a serious stomachache, Lucy suddenly understands that even if you can't see gasses they can fill space and expand, and even make you move. And with Stewart feeling better, she has a really great idea for her Harvest Festival costume, too. The second book in a new chapter book series from IRA Children's Book Award-winner, Michelle Houts, Solids, Liquids, Guess Who's Got Gas draws on STEM themes and is aligned with curriculum guidelines to bring a love of science to young readers, inspiring them to start their own labs and explore their world.

Brain research has provided a tremendous opportunity to develop instructional techniques that facilitate the brain's innate learning capacity. As educators, we can take this knowledge and apply it to the strategies we use in our classrooms. This essential resource, based on David A. Sousa's best-seller How the Brain Learns, Third Edition, provides ready-to-use, brain-compatible activities that feature some of the following strategies: • Graphic organizers • Mnemonic devices • Cooperative learning • Movement to enhance retention • Music to stimulate brain activity and creativity These activities, correlated with national standards, cover all the content areas in grades 6-8 and include topics such as vocabulary, characterization, percentages, word problems, family history, historical research, mitosis, chemical equations, and much more! The more we understand how the brain learns, the more instructional options we have. This unique resource helps you make the most of the brain's learning potential and transform your teaching practices to engage every student in your classroom.
