A Practical Guide to Surviving the Chaos

The Official Travel Brochure Directory

New York Magazine

A practical and comprehensive guide to surviving the greatest disaster of our time, from New York Times bestselling self-help author and beloved CBS Sunday Morning science and technology correspondent David Pogue. You might not realize it, but we're already living through the beginnings of climate chaos. In Arizona, laborers now start their day at 3 a.m. because it's too hot to work past noon. Chinese investors are snapping up real estate in Canada. Millennials have evacuation plans. Moguls are building bunkers. Retirees in Miami are moving inland. In *How to Prepare for Climate Change*, bestselling self-help author David Pogue offers sensible, deeply researched advice for how the rest of us should start to ready ourselves for the years ahead. Pogue walks readers through what to grow,

what to eat, how to build, how to insure, where to invest, how to prepare your children and pets, and even where to consider relocating when the time comes. (Two areas of the country, in particular, have the requisite cool temperatures, good hospitals, reliable access to water, and resilient infrastructure to serve as climate havens in the years ahead.) He also provides wise tips for managing your anxiety, as well as action plans for riding out every climate catastrophe, from superstorms and wildfires to ticks and epidemics. Timely and enlightening, How to Prepare for Climate Change is an indispensable guide for anyone who read The Uninhabitable Earth or The Sixth Extinction and wants to know how to make smart choices for the upheaval ahead.

Kansas City Star • Flavorwire • Policy Mic • BuzzFeed “Necessary Errors is a very good novel, an enviably good one, and to read it is to relive all the anxieties and illusions and grand projects of one’s own youth.”—James Wood, The New Yorker The exquisite debut novel by the author of *Overthrow* that brilliantly captures the lives and romances of young expatriates in newly democratic Prague It’s October 1990. Jacob Putnam is young and full of ideas. He’s arrived a year too late to witness Czechoslovakia’s revolution, but he still hopes to find its spirit, somehow. He discovers a country at a crossroads between communism and capitalism, and a picturesque city overflowing with a vibrant, searching sense of possibility. As the men and women Jacob meets begin to fall in love with one another, no one turns out to be quite the same as the

idea Jacob has of them—including Jacob himself. Necessary Errors is the long-awaited first novel from literary critic and journalist Caleb Crain. Shimmering and expansive, Crain's prose richly captures the turbulent feelings and discoveries of youth as it stretches toward adulthood—the chance encounters that grow into lasting, unforgettable experiences and the surprises of our first ventures into a foreign world—and the treasure of living in Prague during an era of historic change.

It is a pleasure to present this work, which has been well received in German-speaking countries through four editions, to the English-speaking reader. We feel that this is a unique publication in that it contains valuable material that cannot easily-if at all-be found elsewhere. We are grateful to the authors for reading through the English version of the text, and for responding promptly (for the most part) to our queries. Several authors have supplied us, on their own initiative or at our

suggestion, with revised and updated manuscripts and with supplementary English references. We have striven to achieve a translation of Handbuch for Sternfreunde which accurately presents the qualitative and quantitative scientific principles contained within each chapter while maintaining the flavor of the original German text. Where appropriate, we have inserted footnotes to clarify material which may have a different meaning and/or application in English-speaking countries from that

in Germany. When the first English edition of this work, Astronomy: A Handbook (translated by the late A. Beer), appeared in 1975, it contained 21 chapters. This new edition is over twice the length and contains 28 authored chapters in three volumes. At Springer's request, we have devised a new title, Compendium of Practical Astronomy, to more accurately reflect the broad spectrum of topics and the vast body of information contained within these pages. Whether you are planning to

visit a city, a region or a country, DK's foolproof 'Eyewitness' approach makes learning about a place a pleasure in itself. All the traditional guidebook subject matter is covered—descriptions of sights, opening times, hotels, restaurants, shopping, entertainment, phrase books etc— but, with the help of specially commissioned illustrations and maps, DK makes essential information easy to access and quick to absorb. No other guides explain the history of a place as clearly

in words and pictures. DK Eyewitness Travel Guides—the best guides ever created. Argentina's vibrant, wonderfully idiosyncratic capital, Buenos Aires, is the third largest city in Latin America, yet it is a resolutely human kind of place. Famous for its tango, football and European-style architecture, it also holds hidden gems, including picturesque cobbled neighborhoods, sophisticated shopping and some of the best and most varied cuisine in the whole continent. Cinemas and art

galleries, jazz clubs and theatres, atmospheric cafés and antiques markets abound, while exercising or just lazing around in beautifully landscaped parks filled with subtropical vegetation are part of the dynamic yet laid-back porteño lifestyle

Dubček's "socialism with a human face" is smiling on the world. Meanwhile, Sam Wareham, First Secretary at the British embassy in Prague, is observing developments in the country with both a diplomat's cynicism and a young man's passion. In the company of Czech student Lenka Konečková, he finds a way into the world of Czechoslovak youth, its hopes and its ideas. For the first time, nothing seems off limits behind the Iron Curtain. Yet the wheels of politics are grinding in the background. The Soviet leader Leonid Brezhnev is making demands of Dubček, and the Red Army is amassed on the borders. How will the looming disaster affect those fragile lives caught up in the invasion?
