An investigation into what makes the consistency of political groupings What should we do with the ideals of internationalism, the withering away of state and horizontality? Probably start by thinking seriously about them. That is to say, about their conditions of possibility (or impossibility), rather than sticking to the wishful thinking which believes that for them to happen it is enough to want them. Humanity exists neither as a dust cloud of separate individuals nor as a unified world political community. It exists fragmented into distinct finite wholes, the forms of which have varied considerably throughout history - the nation-state being only one among many, and

certainly not the last. What are the forces that produce this fragmentation, engender such groupings and prevent them from being perfectly horizontal, but also lead them to disappear, merge, or change form? It is questions such as these that this book explores, drawing on Spinoza's political philosophy and especially his two central concepts of *multitudo* and *imperium*.

### Index analytique

The global rise of festival culture and experience has taken over that which used to merely be events. The Cambridge Companion to International Theatre Festivals provides an up-to-date, contextualized account of the worldwide reach and impact of the 'festivalization' of culture. It introduces new methodologies for the study of the global network of theatre production using digital humanities, raises questions about how alternative origin stories might impact the study of festivals, investigates the festivalized production of space

in the world's 'Festival Cities', and re-examines the social role and cultural work of twenty-first-century theatre, performance, and multi-arts festivals. With chapters on festivals in Africa, Asia, Australia, the Arab world, the francophone world, Europe, North America, and Latin America it analyses festivals as sites of intercultural negotiation and exchange.
