Forest bathers, readers of Cabin Porn and Your Cabin in the Woods, rejoice! This illustrated collection of Sears' odes to the outdoors is your perfect escape into nature. Forest Life collects George Washington Sears' timeless writing about the joys of exploring the wilderness, edited for a modern audience. In text both practical and inspirational, Sears' provides enduring wisdom about trips into the woods and lakes, including equipment, campfires, fishing, camp cooking, traveling light, and canoes. The original "forest bather," Sears wanted others to enjoy the woods as he did. His published Woodcraft in 1884 to help prepare skillful, self-reliant woodsman and to extol the restorative power of nature, writing "There are men who, on finding themselves alone in a pathless forest, become appalled, almost panic stricken. . . And there be some who plunge into an unbroken forest with a feeling of fresh, free, invigorating delight, as they might dash into a crisp ocean surf on a hot day." In addition to Woodcraft, Forest Life contains many of his articles from Forest and Stream, as well as his nature poetry. Sears is especially eloquent about canoeing, which he helped popularize with published tales of his adventures. In 1883, when he was 61 years old and suffering from

tuberculosis, he used a 9-foot, 10-1/2 pound canoe to travel 266 miles through the Adirondacks, writing, "The easy, gentle rocking of the canoe was the best incentive to drowsiness I ever found, and by night or day was nearly certain to send me into dreamland. A score of times I have gone to sleep drifting on deep, wide water, to be awakened by the pressing and bumping of the little craft among the dead balsams and spruces that make [up] half the shorelines of all the lakes in the North Woods." This two-color gift book, illustrated with period etchings of scenes, people, flora, and fauna of the Adirondacks, is the perfect gift book for the outdoor enthusiast. This handsome, affordable collection will be especially appealing to the millions who canoe, camp, and fish.

More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you:

- Avoid the 9 deadly sins that destroy startups' chances for success
- Use the Customer Development method to bring your business idea to life
- Incorporate the Business Model Canvas as the organizing principle for startup hypotheses
- Identify your customers and determine how to "get, keep and

"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist,

modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

FOOD & DRINK / COOKERY. Ray Mears has travelled the world discovering how native people manage to live on just what nature provides. It always frustrated him not knowing how our own ancestors fed themselves. We know they were hunter-gatherers, but what did they eat day to day? How did they find their calories throughout the year? What were their staple foods? Where did they get their vitamins? How did they ensure their bodies received enough

variety? In this book he travels back ten thousand years to a time before farming to learn how our ancestors found, prepared and cooked their food. This extraordinary journey reveals many new possibilities many of the same food sources are still there for us if only we know where to look. Through his knowledge of the countryside and the research conducted specially for this book with archaeo-botanist Gordon Hillman, we learn many new, useful and often surprising things about the amazingly rich natural larder that still surrounds us. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

This is the first time tobacco data on young adults as a discrete population have been explored in detail. The report also highlights successful strategies to prevent young people from using tobacco. This three volume set includes the following items: A booklet containing highlights from the 2012 Surgeon General s report on tobacco use among youth and teens ages 12 through 17 and young adults ages 18 through 26. This booklet provides an overview of tobacco use within this targeted age group. The second

booklet is an Executive Summary with two messages. One message from for Kathleen Sebelius, Secretary of Health and Human Services and a second message from Howard Koh, Assistant Secretary of Health and contains a brief introduction to the set and summary and conclusions for each chapter contained in the final volume. The final volume contains over 800 pages of documentation, interwoven with text and data addressing the adverse health consequences of tobacco use by children and young adults. It includes research on a variety of topics, including nicotine addiction, trends in cigarette smoking among young adults, trends in smokeless tobacco use and cigar smoking over time, genetic factors in tobacco use among youth, and mass media influence on smoking to this age group to name a few. This third volume is rich with table data research findings to support the Surgeon General s concerns with America s use and tobacco. Ken Wilber's latest book is a daring departure from his previous writings—a highly original work of fiction that combines brilliant scholarship with tongue-in-cheek storytelling to present the integral approach to human development that he expounded in more conventional terms in his recent *A Theory of Everything*. The story of a naïve young grad student in computer science and his quest for meaning in a fragmented world provides the setting in which Wilber contrasts the alienated "flatland" of scientific materialism with the integral vision, which embraces body, mind, soul, and spirit in self, culture, and nature. The book especially targets one of the most stubborn obstacles to realizing the integral vision: a disease of egocentrism and narcissism that Wilber calls "boomeritis" because it seems to plague the baby-boomer generation most of all. Through a series of sparkling seminar-lectures skillfully interwoven with the hero's misadventures in the realms of sex, drugs, and popular culture, all of the major tenets of extreme postmodernism are criticized—and exemplified—including the author's having a bad case of boomeritis himself. Parody, intellectual slapstick, and a mind-twisting surprise ending unite to produce a highly entertaining summary of the work of cutting-edge theorists in human development from around the world.

A Novel That Will Set You Free!

A Report of the Surgeon General

Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an
