The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components. The innovative Teacher Edition with CD allows a teacher to approach the teaching and learning of Science with confidence as it includes pages from the student book with wrap around teacher notes including answers, hints, strategies and teaching and assessment advice.

Tom Murphy, a.k.a. Murphy, has always been a light in the darkness, until the war nearly snuffed him out. He's trying to start over. Uncle Sam owned him for a decade, tossing him into the godforsaken desert on the other side of the world for three tours. One nearly took his life. He's hoping for a fresh start in the Green Mountains of Vermont, but doesn't know where to begin. His brother from another mother, Billy 'Jonesy' Jones, is trying to help him to pick up the pieces. A beautiful school psychologist named Charleigh Reed could be his Superglue—if he'll let her in. He's not sure it's possible to teach an old dog new tricks. Maybe a golden retriever who shows up at his doorstep can give him a lesson or two. Book eight of the Cordial Creek Romances brings us back to small town America where everyone knows everyone. You'll see some of your favorite characters from earlier books in the series. If it's your first time dipping your toe in Cordial Creek, you'll want to go back and dive in all the rest, beginning with All the Little Things.

Will anyone ever know what happened to the Aloha, a sport fishing boat that vanished with all onboard in the Pacific off San Francisco 's coast? ' Knowing ' is a complex, inexact business. There ' s real truth and then there ' s courtroom truth; a jury ' s verdict may or may not approach what actually happened. Nor can someone reading about such an event—one that had no witnesses or hard evidence to explain it—be sure where the truth lies. But trials, judges, and juries are what we use in our legal system to find truth. The Widow Wave explores this alternate reality. It is a fascinating true-life mystery and lawyer procedural rolled into one. Jay Jacobs offers no facile answers—and he ' s not the flawless protagonist typically starring in such dramas. He lets us see how such a big wrongful death case really unfolds, in a true story that reads like a novel. Will the jury find the truth? ' An intelligently told true story of honor, integrity and justice. The Widow Wave reminded me of The Perfect Storm, played out in a fast courtroom thriller. Jay Jacobs masterfully weaves the harrowing tale of the last voyage of the Aloha, and courtroom battle that followed. A great read. ' — Robert Dugoni, New York Times Bestselling Author of My Sister's Grave "A compelling story of a modern day maritime tragedy that beautifully discusses the vital importance of advances in observational technologies, forecasts and communications in avoiding future loss of life at sea. Jacobs skillfully weaves together the legal, scientific and maritime narratives to enthrall and educate the reader." — Julie Thomas, Scripps Institution of Oceanography, Manager of the Institute of Geo and Planetary Physics "Trial lawyer Jay Jacobs, in a unique, personally revealing memoir, defends a widow and her deceased husband's honor in an intimate first person account of how the civil trial process unfolds.... The reader will learn about the strategies, shoals, and embroilments of a real life, vigorously contested trial with its many emotional upheavals." — Justice James Marchiano (ret.), formerly Presiding Justice, California Court of Appeals, First Appellate District "Jacobs' vivid prose pulls you into a compelling drama, deftly transporting you from the courtroom to the storm-tossed Pacific and back to the courtroom again. The book reads like a well-wrought detective novel." — Daniel James Brown, New York Times Bestselling Author of The Boys in the Boat

Following on the heels of Goddard's hot-selling "how to" book, "The Wonder of Knifemaking", this new book expands on the author's popular column in "Blade" magazine to show knifemakers of all skill levels how to create helpful gadgets and supply their shop on a shoestring. 75 photos.

The Manual
600 Effortless Air Fryer Recipes for Beginners and Advanced Users

How to be Human is the only manual you need to help you upgrade your mind as much as you've upgraded your iphone. 'With this marvellous book, Ruby Wax has confirmed her position as one of the most readable, inspirational and engaging writers in the field of human mental health, happiness and fulfilment.' Stephen Fry "It took us 4 billion years to evolve to where we are now - completely brilliant and yet, some might say, emotionally dwarfed. The question is: can our more empathetic side catch up in time to save us and the world? I've got nothing against smarts, but it's smarts without emotional awareness that got us into this position of being able to nuke each other into oblivion and rape the earth for oil." With a little help from a monk (who tells us how our mind works) and a neuroscientist (who tells us how our brain works), Ruby Wax answers every question you've ever had about: evolution, thoughts, emotions, the body, addictions, relationships, sex, kids, the future and compassion. Filled with witty anecdotes from Ruby's own life, and backed up by smart science and practical mindfulness exercises, How to be Human is the only manual you need to help you upgrade your mind as much as you've upgraded your iphone. 'Ruby has beautifully fused neurology and spirituality and given us a means to cope with operating both a mind and a brain. If this mental upgrade works then all other books will become defunct as we repose in bliss.' Russell Brand 'How to Be Human is, without exaggeration, a lifeline; wise, practical and funny, it is a handbook for those in despair'. It is actually for everyone alive, for the curious, or disillusioned or muddled or just plain happy.' Joanna Lumley

Tim this is fun cookbook, award-winning pastry chef and Food Network star Gale Gand shares her favorite ways to indulge family and friends--and yourself--with sixty recipes devoted to two classic flavors, chocolate and vanilla. Organized into sections featuring chocolate and vanilla, Gand first offers tips on buying and working with chocolate, including demystifying those ever-confusing cacao percentages, before getting down to business with more than thirty luscious, tempting recipes. Organized by type of chocolate--dark, semi-sweet, milk, and white--they run the gamut from simple treats such as Chocolate-Praline Cake in a Jar and Creamy Dreamy Walnut Fudge to impress-the-guests desserts that include Mexican Hot Chocolate Fondue and Chocolate-Almond Upside-Down Cake. Moving onto vanilla, Gand offers tips on working with both vanilla beans and vanilla extract, revealing which is best for what, and includes a helpful substitution guide. And then it's on to the good stuff: recipes for irresistible sweets that showcase vanilla's beguiling flavor. With one section devoted to desserts using whole vanilla beans--think Vanilla Raspberry Rice Pudding with Lemon-Vanilla Caramel and Late-Night Vanilla Flan--and another focusing on extract--such as Vanilla-Blueberry Crumb Cake and Boston Cream Cupcakes--these are recipes that are anything but plain vanilla. Accompanied by amusing anecdotes, helpful make-ahead notes, and clear, uncomplicated techniques, Gand's creations are as much fun to make as they are to eat.

In 2011, Jennifer Pharr Davis became the overall record holder on the Appalachian Trail. By hiking 2,181 miles in 46 days - an average of 47 miles per day - she became the first female to ever set that mark. But this is not a book about records or numbers; this is a book about endurance and faith, and most of all love. The most amazing part of this story is not found in the finish, but in the challenges, lessons and relationships that present themselves along the trail. This is Jennifer's story, in her own words, about how she started this journey with a love for hiking and more significantly a love for her husband Brew. Together, they were able to overcome rugged mountains and raging rivers, sleet storms and 100 degree heat, shin-splints and illnesses. They made new friends and tested old friendships; they shared together laughter, and tears - a lot of tears. But, through it all, they fell more in love with one another and with the wilderness. By completing this extraordinary amateur feat, Jennifer rose above the culture of multi-million dollar sports contracts that is marked by shortcuts and steroids. This is the story of a real person doing something remarkable. Jennifer Pharr Davis is a modern role-model for women

This text places an emphasis on a global perspective of the gas industry. Federal regulations, economics and the unique effects of growing global environmentalism have all had an impact in boosting the industry. Covers more than 400 prominent companies most studied by students. Entries follow a standard set of rubrics to facilitate comparison between companies. Also included are company logos, illustrations and ticker symbols, current market share, new products, and where to write for an annual report. To be human is to be in relationships. We can't survive without them but it's in relationships that we can so easily get unravelled. Some relationships just seem to do us in. Either we feel like we lose ourselves or feel burnt out from futile efforts to make things right for another. In our relationships we can experience the very best of ours and the very worst. The message of Growing Yourself Up is that you can't separate understanding the individual from understanding relationships. All of life's relationships are integral to increasing self-awareness and maturity. And it's not necessarily the comfortable relationships that promote personal growth. In this 2nd edition of the bestselling book, Jenny examines how to help others without fostering dependency, and how to determine what kind of help you or others want from therapists. This is in response to the many lay and professional people who have found this book valuable personally and want to know how to help others grow. Drawing from Bowen family systems theory, the book takes you on a journey through each stage of life to see predictable patterns of relationships and to show how to use this knowledge to make purposeful adjustments in yourself; as well as lending a mature helping hand to others. The result is a sturdier self, sturdier relationships and a refreshing new way to vie

An insightful, funny, touching history from the man who witnessed great moments and characters of North American sport. The James Beard Award-winning, bestselling author of CookWise and KitchenWise delivers a lively and fascinating guide to busy baking through food science. Follow kitchen sleuth Shirley Corriher as she solves everything about why the cookie crumbles. With her years of experience from big-pot cooking at a boarding school and her classic French culinary training to her work as a research biochemist at Vanderbilt University School of Medicine, Shirley looks at all aspects of baking in a unique and exciting way. She describes useful techniques, such as brushing your puff pastry with ice water—no just brushing off the flour—to make the pastry higher, lighter, and flakier. She can help you make moist cakes; shrink-proof perfect meringues; big, crisp cream puffs; amazing pastries; and crusty, incredibly flavorful, open-textured French breads, such as baguettes. Restaurant chefs and culinary students know Shirley from their grease-splattered copies of CookWise, an encyclopedic work that has saved them from many a cooking disaster. With numerous “A-to-Glance” charts, BakeWise gives busy people information for quick problem solving. BakeWise also includes Shirley’s signature “What This Recipe Shows” in every recipe. This scientific and culinary information can apply to hundreds of recipes, not just the one in which it appears. BakeWise does not have just a single source of knowledge; Shirley loves reading the works of chefs and other good cooks and shares their tips with you, too. She applies not only her expertise but that of the many artisans she admires, such as famous French pastry chefs Gaston Lenotre and Chef Roland Mesnier, the White House pastry chef for twenty-five years; and Bruce Healy, author of Mastering the Art of French Pastry. Shirley also retrieves “lost arts” from experts of the past such as Monroe Boston Stranne, the pie master of 1930s America. For one dish, she may give you techniques from three or four different chefs plus her own touch of science—“better baking through chemistry.” She adds facts such as the right temperature, the right mixing speed, and the right mixing time for the absolutely most stable egg foam, so you can create a light-as-air genoise every time. Beginners can cook from BakeWise to learn exactly what they are doing and why. Experienced bakers find out why the techniques they use work and also uncover amazing pastries from the past, such as Pont Nœuf (a creation of puff pastry, pâte à choux, and pastry cream) and Religieuses, adorable “tulle nuns” made of puff pastry filled with a satiny chocolate pastry cream and drizzled with mocha icing. Some will want it simply for the recipes—incredibly moist whipped cream pound cake made with heavy cream; flawless fruit soufflés; chocolate crinkle cookies with gooey, fudgy centers; huge popovers; famed biscuits. But this book belongs on every baker’s shelf.

Praised by The New York Times, O, The Oprah Magazine, Bitch Magazine, Slate, Publishers Weekly; and more, this is “a bracing corrective to a national mythology” (New York Times) around the civil rights movement. The civil rights movement has become national legend, lauded by presidents from Reagan to Obama to Trump, as proof of the power of American democracy. This fable, featuring dreamy heroes and accidental heroines, has shuttered the movement firmly in the past, whitewashed the forces that stood in its way, and diminished its scope. And it is used perversely in our own times to chastise present-day movements and obscure contemporary injustice. In A More Beautiful and Terrible History award-winning historian Jeanne Theoharis dissects this national myth-making, teasing apart the accepted stories to show them in a strikingly different light. We see Rosa Parks not simply as a bus lady but a lifelong criminal justice activist and radical; Martin Luther King, Jr. as not only challenging Southern sheriffs but Northern liberals, too; and Coretta Scott King not only as a “helpmate” but a lifelong economic justice and peace activist who pushed her husband’s activism in these directions. Moving from “the histories we get” to “the histories we need,” Theoharis challenges nine key aspects of the fable to reveal the diversity of people, especially women and young people, who led the movement; the media and “polite racism” in maintaining injustice; and the immense barriers and repression activists faced. Theoharis makes us reckon with the fact that far from being acceptable, passive or unified, the civil rights movement was unpopular, disruptive, and courageously persevering. Activists embraced an expansive vision of justice—which a majority of Americans opposed and which the federal government feared. By showing us the complex reality of the movement, the power of its organizing, and the beauty and scope of the vision, Theoharis proves that there was nothing natural or inevitable about the progress that occurred. A More Beautiful and Terrible History will change our historical frame, revealing the richness of our civil rights legacy, the uncomfortable mirror it holds to the nation, and the crucial work that remains to be done. Winner of the 2018 Brooklyn Public Library Literary Prize in Nonfiction

While square-rigged sailing ships, steamboats and ferries, and ever-larger cruise and cargo-carrying vessels have made their mark on Puget Sound’s maritime history, no other vessels have captured the imagination of shore-bound seafarers like tugboats. Beginning in the 1850s when the first steam-powered tugboats arrived in the Sound from the East Coast via San Francisco, company owners and their crews competed fiercely for business, towing ships, tug rafts, and barges. The magnetic attraction of powerful, tough bugs both large and small is unexplainable but enduring. This book, featuring about 200 rare historic images and carefully researched text, tells the colorful story of tug boating on Puget Sound.

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

From the New York Times Bestselling Author and Co-Star of Fox’s American Grit comes a rare and powerful book on the art of being a sniper. Way of the Reaper is a step-by-step accounting of how a sniper works, through the lens of Irving’s most significant kills - none of which have been told before. Each mission is an in-depth look at a new element of eliminating the enemy, from intel to luck, recon to weaponry. Told in a thrilling narrative, this is also a heart-pounding true story of some of The Reaper’s boldest missions including the longest shot of his military career on a human target of over half a mile. In Iraq and Afghanistan, Nick Irving earned his nickname in blood, defeating the enemy with his sniper rifle and in deadly firefights behind a .50 caliber machine gun. He engaged a Taliban suicide bomber during a vicious firefight, using nearby silent sub-sonic ammo, and was the target of snipers himself. Way of the Reaper attempts to place the reader in the heat of battle, experiencing the same dangers, horrors and acts of courage Irving faced as an elite member of the 3rd Ranger Battalion, 75th Ranger Regiment, while also examining the personal ramifications of taking another life. Readers will experience the rush of the hunt and the dangers that all snipers must face, while learning what it takes to become an elite manhunter. Like the Reaper himself, this explosive book blazes new territory and takes no prisoners.

LEARNING NEW WORDS IS AS EASY AS ONE, TWO, THREE! • RECOGNIZE the keys to the English language, the basic units from which all words are made • FOLLOW clear examples of how the key explains a word’s origin and meaning -- or how it combines with other keys to create new words • BUILD your word power with practical exercises to expand and integrate your knowledge, without memorization **Why enroll in an expensive course when everything you need to increase your vocabulary is at your fingertips? With this tested step-by-step method, you can instantly understand and retain thousands of words -- even words you have never seen before. By examining the building blocks of all words, a basic skill you already use every day without realizing it, you can unlock the meaning behind any word. A strong vocabulary is essential for academic and career success, greater self-confidence in speaking and writing, and improved reading comprehension. Master the secrets of increased word power with Instant Vocabulary!** "Siblings Bob and Tom get a dog with spots. This A-level story uses decodable text to raise confidence in early readers. The book uses a combination of sight words and short-vowel words in repetition to build recognition. Original illustrations help guide readers through the text."--

The Guide to Good Taste

What’s the worst thing about wanting a sexy NFL football player? Everyone else wants him, too. After catching my boyfriend getting deep-throated by a cage girl, I’ve learned my lesson - never date a professional athlete. Never. Besides, I have more important things to worry about, like not blowing my shot to make it as a broadcast reporter. I won’t let anything get in my way, not even the new “it boy” of the NFL and my hot-as-hell neighbor. What’s the worst thing about getting death glares from his new neighbor? It doesn't make him want her any less. I’ve worked my ass off to make it to the pros. The last thing I need is the complication of a relationship, especially since my last one was a total train wreck. But I can’t stop thinking about the feisty girl next door with the smart mouth. And I'd love nothing more than to show her what to do with that mouth. Friends with benefits might be the best idea he’s ever had. Or the worst. KISSING MADELINE, the third book in The Dearest Series, can be read a standalone novel. This new adult romance is recommended for readers 18+ due to mature content. ORDER OF BOOKS: Dearest Clementine (Clementine & Gavin) Finding Dandelion (Dani & Jax) Kissing Madeline (Maddie & Daren)

A tale inspired by the affair between Sigmund Freud and his sister-in-law depicts the struggles of Minna Bernays, an educated woman uninterested in conventional women’s roles who becomes fascinated with her brother-in-law’s pioneering theories. For those who have a convection oven or those who are contemplating buying one, this book will help you to make the most of this appliance. An informative basic introduction is followed by 129 excellent recipes for daily standbys. Master your air fryer with recipes for frying, grilling, roasting, and baking Air fryers are all-in-one appliances that can do so much more than just imitating deep-fried foods! Discover the possibilities with The Complete Air Fryer Cookbook, a recipe book and reference guide that makes the air fryer the centerpiece of any kitchen. Get started with a guide to appliance care and usage, along with handy cooking charts that take the guesswork out of air frying. Choose from a variety of easy recipes for perfectly cooked cuts of meat, tender fish, or freshly roasted veggies. The air fryer can even bake up a decadent dessert! This standout in air fryer cookbooks includes recipes like: Garlic-Roasted Chicken with Potatoes--Choose a small chicken to roast whole in this easy but impressive recipe that crisps the skin outside and leaves the meat juicy inside. Creamy Corn Casserole--Bake this comforting dish in a pan inside the air fryer; it whips up quickly and makes a family-friendly side for meatloaf or fried chicken. Spicy Thai Beef Stir-Fry--This stir-fry of tender beef and broccoli is tossed in a savory sauce that combines smooth peanut butter with the kick of red chiles and lime juice. Make the most of this flexible appliance with handy tips and air fryer recipes for every meal.
